#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SPECTER:

S. 2918. A bill to make improvements to certain loan programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. SPECTER. Mr. President, I have sought recognition to introduce the Helping Small Business Succeed Act of 2009. My legislation will make it easier for small businesses to access credit, credit which they desperately need to be able to cover their costs, grow their businesses, and create jobs.

Small businesses are the engine of economic growth in this country, responsible for 60 percent of new jobs created. The Commonwealth of Pennsylvania alone has 978,831 small businesses, which bring economic opportunities to diverse groups of people, innovate new technologies, and provide valuable services to their communities. Of these small businesses, 236,775 are small employers who represent 98.4 percent of Pennsylvania's employers and 49.9 percent of its private-sector employment. It is not an understatement to say that small businesses and their ability to grow are vital to the health of Pennsylvania and of the Nation.

Earlier this month, the Labor Department released jobs figures indicating that unemployment has dropped from 10.2 percent in October to 10 percent in November, and that the economy shed only 11,000 jobs, which was well below analysts' expectations. While these numbers are encouraging, leading economists such as Joseph Stiglitz have stated that recovery will be slow unless we continue to take strong measures.

When I voted for the stimulus, we were facing a recession that could well have developed into a full-fledged depression like we faced in 1929. The stimulus provided \$630 million to the Small Business Administration, SBA, to guarantee private sector loans to small businesses, which allowed the SBA to raise its loan caps, and increased SBA guarantees from 75–80 per-

cent to 90 percent in its two major business loan programs. These provisions have proven effective in providing credit to small business, but more needs to be done. My legislation permanently increases the loan limit from \$2 million to \$5 million on 7(a) loans, from \$1.5 million to \$5.5 million on 504 loans, and from \$35,000 to \$50,000 on microloans.

Simply raising loan limits is not enough, however. Raising the SBA's guarantee will increase commercial lenders' willingness to provide loans because it reduces the risk undertaken by lenders. My legislation raises the maximum loan guarantee percentage to 97.5 percent, which will quickly and efficiently incentivize the existing network of financial institutions to make affordable loans to small business. Additionally, my legislation extends the waivers for the 7(a) borrower fees and the 504 borrower and bank fees, which were enacted as part of the stimulus package, until 2011.

Finally, my legislation authorizes the SBA to declare certain communities "economic disaster areas" and to provide further assistance to small businesses within these areas. The economic situation in many towns across America has risen to emergency levels. Unemployment in some counties in Pennsylvania has risen as high as 12 and 14 percent. My legislation will provide the SBA with greater flexibility to use its funds to target areas of the country where the level of unemployment exceeds the national level and where small businesses have been hit the hardest.

According to the October 2009 Special Inspector General Report to Congress, taxpayers have seen \$73 billion in TARP funds returned so far with a 10 percent return on their investment. As of September 30, 2009, \$9.5 billion in interest, dividends, and other income has had been received by the federal government. My legislation uses this revenue, derived from investments made through TARP, to pay for these urgently needed adjustments.

Small businesses need access to credit and they need it now more than ever, if they are to weather current economic conditions. I look forward to working with my colleagues to provide further assistance to the small business community and to help restore their ability to create jobs and stimulate our economy.

By Mrs. FEINSTEIN:

S. 2921. A bill to provide for the conservation, enhanced recreation opportunities, and development of renewable energy in the California Desert Conservation Area, to require the Secretary of the Interior to designate certain offices to serve as Renewable Energy Coordination Offices for coordination of Federal permits for renewable energy projects and transmission lines to integrate renewable energy development, and for other purposes; to the Committee on Energy and Natural Resources.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce the California Desert Protection Act of 2010.

I strongly believe that conservation, renewable energy development, and recreation can and must coexist in the California Desert—and this legislation strikes a carefully conceived balance between these sometimes competing concerns.

The key provisions of this bill would designate two new national monuments—the Mojave Trails and the Sand to Snow National Monuments.

It would add adjacent lands to the Joshua Tree and Death Valley National Parks and the Mojave National Preserve; designate 5 new BLM wilderness areas and protect 4 important waterways, such as the Amargosa River and Deep Creek, as Wild and Scenic Rivers; improve the process to permit large-scale wind and solar development on suitable public and private lands in the California desert; and enhance recreational opportunities in the desert, while ensuring that the training needs of the military are met.

This bill is the product of painstaking discussions with key stakeholders—including environmental groups, local and State government, off-highway recreation enthusiasts, hunters, cattle ranchers, mining interests, the Department of Defense, wind and solar energy companies, California's public utility companies, and many others. I am grateful for all of their efforts.

The bill is divided into two titles.

The first title primarily covers conservation, recreation, and other purposes.

The second title of the bill covers renewable energy development on suitable lands.

Taken together, this bill will shape the future of the Southern California Desert, and I believe it can serve as a model for future efforts to balance renewable energy development and conservation.

As of today, this bill has been endorsed by: the California Wilderness Coalition; the Wildlands Conservancy; the Wilderness Society; the National Parks Conservation Association; Friends of the River; Cogentrix Energy; Edison International, parent company of Southern California Edison; Friends of Big Morongo Canyon Preserve; Friends of the Desert Mountains; Mojave Desert Land Trust; Desert Protective Council; Amargosa Conservancy; Death Valley Conservancy; the Cities of Barstow, Desert Hot Springs, Hesperia, Indio, Palm Springs, San Bernardino and Yucaipa; Riverside County Supervisor Marion Ashley; San Bernardino County Supervisor Neil Derry; Imperial County Supervisor Wally Leimgruber; Coachella Valley Association of Governments; SummerTree Institute; and Route 66 Preservation Foundation.

The California Desert Protection Act, which was enacted in 1994, was a sweeping piece of legislation aimed at
