STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN (for himself, Mr. GREGG, Mr. KENNEDY, Mr. BURR, Mr. DODD, Mr. ALEXANDER, and Mr. ISAKSON):

S. 510. A bill to amend the Federal Food, Drug, and Cosmetic Act with respect to the safety of the food supply; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, today I rise to introduce the FDA Food Safety Modernization Act.

When I introduced this bill in the last Congress, we were in the middle of one of the largest food-borne illness outbreaks in the history of our country. Nearly 1500 people fell sick last spring and summer because of *Salmonella* Saintpaul, leading to a Government investigation that pointed the finger first at tomatoes and then at jalapeno peppers in Texas before settling on Serrano peppers in Mexico. In the meantime, more people got sick and the tomato industry lost up to hundreds of millions of dollars.

Less than a year later, we find ourselves in the middle of yet another nationwide outbreak: peanut butter tainted with *Salmonella*, the second case of its kind in 2 years. There is not a day that goes by that we don't hear about another recalled peanut butter product or another person sick with *Salmonella*. More than 660 people have been sickened, half of them children. At least nine people are dead. Over 2,600 products have been recalled, in a recall that goes back to March 2005 and could continue for at least another couple of years, making this one of the biggest food recalls in our Nation's history.

Unfortunately, these problems seem to be par for the course. In the last couple of years we have seen *Salmonella* in our peppers and peanut butter and *E. coli* in our spinach. Our food safety problems do not just start and stop at home: we have also seen chemically tainted pet food, milk products, and seafood from China.

These problems are only the tip of the iceberg. Every year, more than 76 million Americans become sick because of a food-borne illness, 325,000 are hospitalized, and 5,000 die.

It is clear that the Food and Drug Administration, who regulates these foods and 80 percent of our food supply, including virtually all food imports, can not keep up. The agency is underfunded and overwhelmed. It operates under an obsolete, largely reactive 1938 law. Its food safety program has not kept up with the dramatic changes in our food system, and it does a poor job of preventing and responding to food safety problems. As a result, consumers suffer and so do businesses something we can never afford, but especially in these trying economic times.

Our food safety system is in crisis and it is time that we act. That's why Senator GREGG and I are introducing
