STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. UDALL of Colorado:

S. 607. A bill to amend the National Forest Ski Area Permit Act of 1986 to clarify the authority of the Secretary of Agriculture regarding additional recreational uses of National Forest System land that are subject to ski area permits, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. UDALL of Colorado. Mr. President, today I am introducing a bill to revise the 1986 law dealing with use of National Forests for ski areas in order to reflect current ways those areas are used and to provide clear authority for the Forest Service to allow additional recreational uses of those areas.

I have long thought it is in the national interest to encourage Americans to engage in outdoor recreational activities that can contribute to their health and well-being, and that National Forest lands, including ski areas, can play a role by providing opportunities for such activities.

My interest in the subject was heightened last year when representatives of the National Ski Areas Association brought to my attention the fact that the National Forest Ski Areas Permit Act of 1986. This law speaks only to "nordic and alpine skiing" and does not reflect the full spectrum of snowsports for which ski areas are now used. They described this problem as the absence of clear authority for the Forest Service to permit use of ski areas for other summer, seasonal, or year-round outdoor recreational activities and facilities in support of those activities.

To better understand the matter, I sent a letter asking the Under Secretary of Agriculture for Natural Resources and the Environment whether current law could be clearer on those points. Under Secretary Mark Rey replied that the 1986 legislation indeed did not address those matters and that, if requested, the USDA "would be happy to work with you to amend" the law to provide the Forest Service with clear authority regarding such activities and facilities.

I did request and receive technical suggestions from the Forest Service, and have considered their input as well as suggestions from the National Ski Areas Association and other interested parties in developing the bill that I introduced in the U.S. House of Representatives last year.

Today, I am introducing this bill in the Senate.

The bill intentionally uses a number of terms and phrases based on the terminology of the Forest Service's regulations, manual, or other official documents because those terms and phrases are familiar not only to the Forest Service but also to permittees and others with an interest in the management of the National Forests. Thus, as used in the bill the term "developed
