#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KAUFMAN (for himself, Mr. CARPER, and Mr. CASEY):

S. 853. A bill to designate additional segments and tributaries of White Clay Creek, in the States of Delaware and Pennsylvania, as a component of the National Wild and Scenic Rivers System; to the Committee on Energy and Natural Resources.

Mr. KAUFMAN. Mr. President, I am joined by Senator CARPER and Senator CASEY in introducing a bill that would expand the designation of the White Clay Creek National Wild and Scenic River in Delaware and Pennsylvania to include two new sites: Lamborn Run in Delaware and the East Branch and Egypt Run in New Garden Township in Pennsylvania.

In 2000, the White Clay Creek watershed was designated Delaware's first and only National Wild and Scenic River. The watershed is home to a wide variety of plant and animal life, archeological sites dating back to prehistoric times, and a bi-State preserve and State park. It is also a source of drinking water for the region.

A National Park Service study released in 1994 details the watershed's diversity of natural, historic, cultural, and recreational resources, and its results led the way for its original designation.

The watershed covers approximately 107 square miles and drains over 69,000 acres in Delaware and Pennsylvania. Of those 69,000 acres, 5,000 acres are public lands owned by State and local governments and the rest is privately owned and maintained. There are no Federal lands within the watershed and no Federal dollars were used to purchase any of the land within its boundaries.

The watershed is centrally located between the densely urbanized regions of New York and Washington, DC. The legislation being introduced today will expand the designation by incorporating an additional 9 miles to White Clay's National Wild and Scenic River, bringing the total federally recognized miles within the watershed to 199.9 miles.

National Wild and Scenic designation brings recognition to the unique cultural, natural, scenic, and recreational values of the White Clay Creek watershed. It provides an added level of protection from overdevelopment, and it elevates the value of the watershed when applying for State, local, and Federal grants. Projects located within the White Clay Creek watershed have received almost \$4 million in Federal funding since being designated in 2000.

While there are over 160 National wild and scenic rivers, the White Clay Creek can claim a few distinctions. First, it is Delaware's first and only wild and scenic river. It is one of only 12 rivers nationwide that is classified as a partnership river. That is a river that is managed on the local level with support from homeowners and communities and with the limited assistance of government on the local, State, and Federal level. It was the first to be studied and designated on a watershed basis, and it is the only wild and scenic
