The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 121) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

##### S. RES. 121

Whereas, in the United States and around the world, more than 1,000 species are officially designated as at risk of extinction and thousands more also face a heightened risk of extinction;

Whereas the actual and potential benefits that may be derived from many species have not yet been fully discovered and would be permanently lost if not for conservation efforts;

Whereas recovery efforts for species such as the whooping crane, Kirtland's warbler, the peregrine falcon, the gray wolf, the gray whale, the grizzly bear, and others have resulted in great improvements in the viability of such species;

Whereas saving a species requires a combination of sound research, careful coordination, and intensive management of conservation efforts, along with increased public awareness and education;

Whereas ¾ of endangered or threatened species reside on private lands;

Whereas voluntary cooperative conservation programs have proven to be critical to habitat restoration and species recovery; and

Whereas education and increasing public awareness are the first steps in effectively informing the public about endangered species and species restoration efforts: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates May 15, 2009, as "Endangered Species Day";

(2) encourages schools to spend at least 30 minutes on Endangered Species Day teaching and informing students about—

(A) threats to endangered species around the world; and

(B) efforts to restore endangered species, including the essential role of private landowners and private stewardship in the protection and recovery of species;

(3) encourages organizations, businesses, private landowners, and agencies with a shared interest in conserving endangered species to collaborate in developing educational information for use in schools; and

(4) encourages the people of the United States—

(A) to become educated about, and aware of, threats to species, success stories in species recovery, and opportunities to promote species conservation worldwide; and

(B) to observe the day with appropriate ceremonies and activities.

#### DESIGNATING MAY 15, 2009, AS "NATIONAL MPS AWARENESS DAY"

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 143 which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 143) designating May 15, 2009 as "National MPS Awareness Day."

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 143) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

##### S. RES. 143

Whereas mucopolysaccharidosis (referred to in this resolution as "MPS") is a genetically determined lysosomal storage disease that renders the human body incapable of producing certain enzymes needed to break down complex carbohydrates;

Whereas complex carbohydrates are then stored in almost every cell in the body and progressively cause damage to such cells;

Whereas such cell damage adversely affects the human body by damaging the heart, respiratory system, bones, internal organs, and central nervous system;

Whereas the cellular damage caused by MPS often results in mental retardation, short stature, corneal damage, joint stiffness, loss of mobility, speech and hearing impairment, heart disease, hyperactivity, chronic respiratory problems, and, most importantly, a drastically shortened life span;

Whereas the nature of the disease is usually not apparent at birth;

Whereas, without treatment, the life expectancy of an individual afflicted with MPS begins to decrease at a very early stage in the life of the individual;

Whereas recent research developments have resulted in the creation of limited treatments for some MPS diseases;

Whereas promising advancements in the pursuit of treatments for additional MPS diseases are underway;

Whereas, despite the creation of newly developed remedies, the blood-brain barrier continues to be a significant impediment to effectively treating the brain, thereby preventing the treatment of many of the symptoms of MPS;

Whereas treatments for MPS will be greatly enhanced with continued public funding;

Whereas the quality of life for individuals afflicted with MPS, and the treatments available to them, will be enhanced through the development of early detection techniques and early intervention;

Whereas treatments and research advancements for MPS are limited by a lack of awareness about MPS diseases;

Whereas the lack of awareness about MPS diseases extends to those within the medical community;
