STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN:

S. 1060. A bill to comprehensively prevent, treat, and decrease overweight and obesity in our Nation's populations; to the Committee on Health, Education, Labor, and Pensions.

Mr. BINGAMAN. Mr. President, I rise today to introduce the Obesity Prevention, Treatment and Research Act of 2009. This legislation would develop a national strategy to organize our efforts to combat childhood and adult obesity. It would help foster unprecedented collaborations and collective actions across agencies, and among private entities, individuals, and communities.

The prevalence of obesity in the U.S. has grown to staggering proportions. According to the Centers for Disease Control and Prevention National Center for Health Statistics, 66 percent of adults and 32 percent of children are considered either overweight or obese. Over the past 30 years, the obesity rate has more than doubled across all age groups. The U.S. now has the highest prevalence of obesity among the developed nations. In fact, the prevalence of obesity in the U.S. in 2006, 34 percent, is more than twice the average for other developed nations.

The Obesity Prevention, Treatment and Research Act of 2009 comprehensively addresses the obesity and overweight epidemic by focusing on coordinating and augmenting existing prevention and treatment activities. This legislation is based on recommendations of the Institutes of Medicine, IOM, to confront the obesity epidemic. It focuses on developing dynamic new collaborations and will improve access for beneficiaries in Medicare, Medicaid, and other Federal programs to nutritional counseling, prevention services, and physical education programs.
