

has contributed much to her community in Monticello and to the Hoosier State.

A native of Princeton Township, IN, Katie Wolf has long been a pillar of her community. In 1967, she served as the secretary on the founding board of the White County United Fund, now known as the United Way of White County.

In 1968, Katie ran and was elected to the position of clerk of the White County Circuit Court, a role she filled for over a decade before being nominated to the Judiciary Committee for the Democratic National Committee. In 1984, Katie became the first woman to run for and win a position in her district in the Indiana House of Representatives, and during her first term she was elected Outstanding Freshman Legislator. In 1986, Katie was appointed senator for District Seven in the Indiana State Senate.

Throughout her career, Katie has been the recipient of numerous awards and designations, a testament to her stature as a model Hoosier and as a leader in public life in Indiana. She has received the Director's Award from the National Federation of Independent Businesses, the Director's Award from the Purdue University Cooperative Extension, and Legislator of the Year from the Indiana Trial Lawyers Association. Former Indiana Governor Frank O'Bannon presented Katie with the Sagamore of the Wabash Award, which is the highest honor that the Governor of Indiana can bestow. It is an award reserved for those who have made outstanding contributions to the Hoosier State. Last month, she received an honorary doctor of laws from Saint Joseph's College in Rensselaer.

Next week, Katie will receive an award from the local chapter of Women Giving Together, an organization committed to strengthening the communities of White County. I am proud to have this opportunity to recognize her for the remarkable service she has rendered on behalf of the people of Indiana and congratulate her on receiving another well-deserved distinction.●

125TH ANNIVERSARY OF THE FOUNDING OF STOCKHOLM, SOUTH DAKOTA

● Mr. JOHNSON. Mr. President, today I wish to pay tribute to the community of Stockholm on reaching its 125th year. The people who make up this community are proud of their heritage and will be celebrating both their resilient history and their promising future June 13 to 14, 2009.

This strong rural community in northeast South Dakota was primarily founded by Scandinavian homesteaders who named the town after Stockholm, Sweden. Also in this area was Brown Earth, an Indian settlement of 52 families. These communities were closely intertwined and shared churches and a post office. In 1896, the town joined together to construct a creamery, financed at \$25 a share.

In celebration of reaching this historic milestone, the town has painted 24 Dala Hasten, traditional Swedish wooden horses. There will also be a parade, races, and musical events to commemorate Stockholm's notable occasion.

The welcoming spirit of Stockholm's citizens helped sculpt this town's unique history, and I am confident that this strength of character will help them continue through the coming years. I am proud to represent this community, and I commend this town on reaching this historic anniversary.●

125TH ANNIVERSARY OF THE FOUNDING OF MOUND CITY, SOUTH DAKOTA

● Mr. JOHNSON. Mr. President, today I wish to pay tribute to the 125th anniversary of the founding of Mound City, SD. This rural community is the seat of Campbell County in northern South Dakota. This town was built on hard work and a spirit of community 125 years ago, and those same values sustain it today.

Edward C. and his father E.H. McIntosh were the first settlers, arriving in the area on June 10, 1884. They called the town Mound City because of the small hills to the north. Soon after, an elegant hotel and post office were constructed. The first newspaper, the Mound City Journal, was started in 1886. Mound City also had a flour mill, built in 1893 by contributions by the town's citizens. After it burned down the first night of operations, the town rallied and raised enough money to again build the mill.

This perseverance and dedication illustrates what has gotten Mound City to this monumental anniversary, and I am proud to recognize them on their achievements. The citizens of this town are dedicated and hard working, demonstrating what a great State South Dakota is.●

COMMENDING ELMET TECHNOLOGIES

● Ms. SNOWE. Mr. President, as we are all aware, the lengthy process of globalization has made it necessary for many American businesses to promote their goods in international markets. And despite the present economic recession, Maine businesses exported a record \$3 billion in goods last year. I wish to highlight Elmet Technologies, a shining company that has been a part of that historic figure and has excelled in growing its customer base by marketing to overseas firms.

Elmet Technologies was founded in Lewiston in 1929, at the beginning of the Great Depression. At that time, the company had 50 employees and 13,400 square feet of manufacturing space. The firm now employs over 230 people and occupies a 220,000-square-foot facility. Elmet makes top-quality, high-performance advanced materials and

specialized refractory metal products, such as wire, filaments, and rods. Its products have numerous applications for a variety of industries. For instance, the company's components and materials are used in electronic devices such as GPS units and digital music players and medical equipment like x-ray tubes.

Elmet supplies a wide range of customers, from IBM and Philips Lighting, to Veeco, which produces process equipment and metrology tools, and Varian, producers of medical equipment. These firms have turned to Elmet because of its high-quality products, attention to customer detail and specification, and its employees' stellar Maine work ethic. Additionally, what makes Elmet's production method so effective is that the company uses raw materials instead of base materials, allowing employees to easily customize products based on consumer specifications. The company has also earned two critical certifications for quality and environmental standards from the International Organization for Standardization, ISO.

Though an 80-year-old company, Elmet Technologies is relatively new to global trade. It began only recently promoting its products abroad and now has clients in places as far away as Europe, Israel, and China. Elmet's strategy is paying off and earning the company much-deserved recognition. Last Thursday, the Maine International Trade Center presented Elmet Technologies with its 2009 Exporter of the Year Award. The award demonstrates the determination and commitment of Elmet's leaders in forging new international marketplaces for its extensive variety of products that serve a wide range of high-tech and emerging industries—from electronics and lighting, to aircraft and automotive.

The Maine International Trade Center is Maine's small business link to the rest of the world. It is a public-private partnership between the State of Maine and its businesses. The center's goal is to increase international trade in Maine and in particular to assist Maine's businesses in exporting goods and services. Clearly it sees in Elmet Technologies the entrepreneurial spirit and innovation that make Maine's small businesses so unique and successful.

Elmet Technologies' president and CEO, Jack Jensen, has summed up his company's philosophy quite simply: "Listen. Create. Delight." Based on the company's record of success and customer satisfaction, this motto has served the company well in any language. I congratulate everyone at Elmet Technologies on their recent recognition and wish them new and exciting export opportunities in the years to come.●

130TH ANNIVERSARY OF WORTHING, SOUTH DAKOTA

● Mr. THUNE. Mr. President, today I recognize Worthing, SD. Founded in

1879, the town of Worthing will celebrate its 130th anniversary this year.

Located in Lincoln County, Worthing possesses the strong sense of community that makes South Dakota such an outstanding place to live and work. Throughout its rich history, Worthing has continued to be a strong reflection of South Dakota's greatest values and traditions. The city of Worthing has much to be proud of, and I am confident that Worthing's success will continue well into the future.

I would like to offer my congratulations to the citizens of Worthing on this milestone anniversary and wish them continued prosperity in the years to come.●
