STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REID (for himself, Mr. NELSON of Florida, Mr. ENSIGN, and Mr. MARTINEZ):

S. 1530. A bill to prohibit an agency or department of the United States from establishing or implementing an internal policy that discourages or prohibits the selection of a resort or vacation destination as the location for a conference or event, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. REID. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1530

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Protecting Resort Cities from Discrimination Act of 2009".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Tourism, including conventions and meetings, is an important part of the United States economy that generates billions of dollars in tax revenues for many localities.

(2) Analysts estimate that approximately 90 percent of employers in the travel industry are small businesses and more than 12 percent of United States employees are employed by the travel industry.

(3) Many local economies around the country have developed into destinations for vacationers and conventioners alike, and those local economies depend on the travel industry to support local employment, create new jobs, and generate tax revenues for critical public services.

(4) These same destinations are home to large and small businesses that have unique skills, amenities, and resources for planning and facilitating meetings and conventions for all purposes and, consequently, may deliver value and convenience for individuals and organizations in need of a location for an official event.

(5) Locating an official event in such a city frequently may save taxpayer dollars, as compared to other locations.

(6) Agencies and departments of the United States have a responsibility to find ways to maximize taxpayer dollars in conducting official business, including planning and conducting official meetings attended by Federal employees.

(7) In deciding where to locate an official government meeting by applying this principle of maximizing taxpayer dollars, government officials often will conclude that many locations known as resort destinations also will provide the best value and convenience for official meetings and business.

(8) Resort and vacation destination cities tend to be affected disproportionately during economic downturns and, therefore, are especially vulnerable to discrimination by meet-

ing and convention planners, which could exacerbate unemployment and related demands on United States taxpayers.

SEC. 3. LIMITATION ON CERTAIN TRAVEL AND CONFERENCES POLICIES OF AGENCIES OF THE UNITED STATES.

No agency or department of the United States may establish or implement an internal policy regarding travel, event, meeting, or conference locations that discourages or prohibits the selection of such a location because the location is perceived to be a resort or vacation destination.

By Mr. REID (for Mr. BYRD (for himself, Mr. ROCKEFELLER, Mr. CASEY, Mr. WEBB, Mr. SHELBY, and Mr. WARNER)):

S. 1534. A bill to complete construction of the 13-States Appalachian development highway system, and for other purposes; to the Committee on Environment and Public Works.

Mr. BYRD. Mr. President, today I am introducing legislation to reauthorize the Appalachian Development Highway System. This network of highways and corridors, known as the ADHS, was designed to provide access to and from communities in Appalachia. The concept of the ADHS was born 45 years ago. It was, and is, an important promise made by the Federal Government to the people of my State and the rest of Appalachia. I thank the cosponsors of my bill: Senators ROCKEFELLER, CASEY, and WEBB, and I look forward to working with Environment and Public Works Committee Chairwoman BOXER to have my legislation included in the next highway reauthorization.

While serving in the House of Representatives, I cast my vote in favor of establishing the Interstate Highway System back in 1958. I have had a long history of advancing the cause of our Nation's highway systems and of emphasizing the immense economic and safety benefits that come with the improvement of all surface transportation.

The ADHS's inception was in 1964, when it was recognized by the first Appalachian Regional Commission that, while the Interstate Highway System would provide historic economic benefits to most of our Nation, the system was designed to bypass the Appalachian region. This was primarily due to the difficulties involved in building roads upon Appalachia's beautiful, but very rugged topography. Absent the Appalachian Development Highway System, my State, as well as the whole of the Appalachian region, would have been left solely with a transportation infrastructure of dangerous, narrow, winding roads which follow the paths of river valleys and stream beds, winding around mountains and hills. Thus, the limited access to these regions has tended to stifle economic opportunities for countless communities—a problem that still exists all these years later.

In addition to the Federal Government's responsibility to keep the promise made decades ago to the people of Appalachia, new benefits—benefits to the entire Nation—have evolved because of the ADHS. In a recent eco-

nomics analysis conducted by the Appalachian Regional Commission, the study found that completion of the ADHS will result in significant reductions in travel time for personal, business, and long-distance freight trips. By 2020, the aggregate savings in travel time is estimated to be over 67 million hours, 240,000 hours daily of travel time saved, and grow to almost 180 million hours of reduced travel time by 2035.

ADHS corridor improvements will produce significant monetized travel benefits to individuals and businesses both within and outside the ARC region. Total user benefits—travel time, fuel and non-fuel operating costs, and safety—are estimated to be \$1.3 billion in 2020, the year of system completion, and grow to \$4.3 billion by 2035. Over half the benefit is expected to accrue to business-related travel—commodity-based truck flows, local nonfreight truck trips, and on-the-clock auto trips.

The reason for the existence of the Appalachian Development Highway System is no less valid today than when it was established in 1964. The benefits of completion of the ADHS are twofold: continue to make inroads into isolated communities, and address and alleviate an already overly burdened Interstate Highway System.

Unfortunately, there are still children in Appalachia who lack decent transportation routes to local schools. There are thousands upon thousands of people who cannot obtain sustainable, well-paying jobs because of poor transportation access to major employment centers. Some of the most beautiful places in the country are in Appalachia, but for tourism to thrive, Americans must be able to actually get to these beautiful destinations.

It is time for this Congress, in concert with the administration, to take the last great leap forward and to authorize sufficient contract authority to finally complete the Appalachian Development Highway System. The legislation I am introducing today will provide sufficient contract authority to complete the system, and the completion of the system will provide additional economic opportunities, safer modes of travel, and ease the strain on our current transportation infrastructure.

By Mrs. FEINSTEIN (for herself and Mr. CARDIN):

S. 1535. A bill to amend the Fish and Wildlife Act of 1956 to establish additional prohibitions on shooting wildlife from aircraft, and for other purposes; to the Committee on Environment and Public Works.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce legislation to prevent the cruel and unsportsmanlike practice of hunting from airplanes.

This practice undermines the hunting principle of a fair chase and often leads to a slow and painful death for the hunted animals.

I firmly believe that slaughter must be the very last option when it comes
