

Whereas, in 2009, approximately 192,280 men in the United States will be diagnosed with invasive prostate cancer;

Whereas if cancer is detected early enough, more than 75 percent of all people who develop cancer could be saved;

Whereas greater awareness of the critical necessity for the early detection of breast cancer and other cancers will not only save tens of thousands of lives but also greatly reduce the financial strain on government and private health care services by detecting cancer before it requires very expensive medical treatment;

Whereas there is a need for enhanced public awareness of the need for cancer screening; and

Whereas the designation of an Early Detection Month will enhance public awareness of breast cancer and all other forms of cancer: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That Congress supports the designation of an Early Detection Month to enhance public awareness of the need for screening for breast cancer and all other forms of cancer.

## NOTICES OF HEARINGS

### COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a field hearing has been scheduled before the Committee on Energy and Natural Resources.
