

both the Sones family and the Dover Air Force Base community for their support of Karina Sones in her battle against cancer. Karina was diagnosed with acute lymphocytic leukemia when she was 4 years old. Although the doctors thought they had beaten the cancer after a round of chemotherapy in 2004, she unfortunately relapsed in 2006. I wish to commemorate the sterling efforts of her two younger brothers, her parents, and the men and women of Dover Air Force Base for encouraging and supporting Karina through this difficult time. Thankfully, she is now on the path to recovery.

When Karina relapsed, her parents were informed that a bone marrow transplant was her only option. Despite there being approximately 20 million bone marrow donations on record, there were no matches on the National Marrow Donor database for Karina. Her parents, however, remained optimistic that a solution would be found. In what can only be described as good fortune, Karina was lucky enough to be the recipient of an anonymous donation of umbilical cord stem cells that allowed her to have a second chance at life. Karina bravely endured radiation and 50 days of isolation before she could receive the transplant. Afterwards, the whole family had to work together to prevent her from getting sick. Although, Karina still suffers from graft-vs-host disease which has caused her skin to be inflamed, she remains brave and upbeat. She insists that she would like to go to Disneyland with her mother and be Cinderella.

Her two younger brothers, Braydin, age 10, and Torin, age 7, admirably refuse to be helpless as their sister battles leukemia. Karina's struggle inspired them to want to help other kids with cancer and to further support research, so they began collecting golf balls that had landed in their backyard and selling them on to golfers. Their goal was to collect \$500, and they have already exceeded that amount. They will donate all the money to the Alfred I. duPont Hospital for Children where Karina still receives treatment.

This story is a true example of the Air Force, the Dover community, and the Sones family all coming together to unite against a common adversary. The city of Dover and the Dover Air Force Base are known for their tight-knit relationship which is certainly demonstrated by the Dover community having won the Abeliene trophy twice—the trophy designated for the base with the most supportive community—and this story only provides further evidence for that statement.

I believe that it is a mark of Karina's character and impressive bravery that she has persevered through all of her medical setbacks. To this day, Karina refuses to rest and is working on spreading awareness about becoming a bone marrow donor because she wants other children to have the same chance at life that she had. Most children, after spending so much time in hos-

pitals, would wish to stay away from them, but Karina is not most children. She wants to become a cardiologist when she grows up.

Karina's brave story is one that we do not hear often. I wish to honor not just her courage but also the bravery and perseverance of her brothers and her parents and to wish them continued blessings in the future. I also want to emphasize the good work and support that Dover Air Force Base has offered the Sones family during such a trying and difficult time.●

TRIBUTE TO THE WHIFFENPOOFS

● Mr. DODD. Mr. President, 100 years ago this winter, history was made at the old Mory's Bar on Temple Street in New Haven, CT, as Denton Fowler, James Merriam Howard, Carl Lohmann, Meade Minnigerode, and George Pomeroy formed an a cappella singing group known as the Whiffenpoofs of Yale University.

The Whiffenpoofs, as every Yalie knows, are unsurpassed in talent and tradition. They are now the oldest continuously functioning collegiate a cappella singing group in the United States.

Their history is rich and vibrant. During World War II, the brave men of the U.S. Army Air Force's Black Sheep Squadron adopted "The Whiffenpoof Song" as their theme song. And over the course of the 20th century, that famous tune has been recorded by such legendary artists as Bing Crosby, Ella Fitzgerald, Louis Armstrong, and Elvis Presley.

The Whiffenpoofs have inspired a cappella singing groups at colleges and secondary schools across America—in fact, there are now more than 1,200 such groups entertaining audiences.

But their influence is not limited by our borders. Each year, the Whiffenpoofs embark on an international tour, visiting foreign capitals and tiny villages, great palaces and humble churches, and U.S. Embassies around the world, spreading song and good will on behalf of Yale University and America's college students.

Next month, Whiffenpoofs alumni from around the world will descend upon Yale to convene with the current group in celebration of the Whiffenpoofs' centennial. It is sure to be an occasion filled with good cheer, great music, and tremendous fellowship—the trademarks of this beloved Connecticut institution.

Mr. President, I congratulate the Whiffenpoofs of Yale University on their centennial. I thank them for their many contributions to our Nation, and I look forward to another century of song and friendship.●

TRIBUTE TO STEVE AND SHELLEY BRUNE

● Mr. JOHANNIS. Mr. President, Steve and Shelley Brune are extraordinary Nebraskans who made a commitment

to open their hearts and home to a foster child, which led to a remarkable story of love and compassion.

In September 1999, they welcomed Jonathon into their home as a foster child. In February 2001, Jonathon's biological brother, James, was also removed from the home. The Brune family recognized the importance of keeping siblings together and agreed to unite the brothers by welcoming James into their home as a second foster child.

The Brunes worked closely with the Nebraska Department of Health and Human Services, HHS, in efforts to reunite Jonathon and James with their biological parents. When HHS determined that reunification was not in the boys' best interest, Steve and Shelley made a permanent commitment to the boys by adopting them; Jonathon on July 19, 2001 and James on January 17, 2002.

In October 2007, the biological sister of James and Jonathon, Mary Ann, was removed from the home. HHS contacted the Brune family to discuss the possibility of once again becoming foster parents. The Brunes recognized that this child needed a loving home and would benefit from being with her brothers. For a third time, they admirably opened their hearts and home, welcoming Mary Ann on July 15, 2008.

In April 2009, another sibling, Madeline Grace, was born and was also removed from the home. The Brune family showed tremendous compassion and devotion to the children of this family by agreeing to welcome Madeline Grace into their family. Steve and Shelley are currently in the process of adopting both Mary Ann and Madeline Grace.

It is with heartfelt admiration that I nominate Steve and Shelley Brune as Adoption Angels. Their capacity to love and care for these four children is an inspiration and worthy example for others to follow. My hope is that their story inspires others to consider opening their hearts and homes to the many children awaiting adoption, in need of loving families.

May God bless Shelley, Steve, Jonathon, James, Mary Ann, Madeline Grace, and all adoptive parents who give children the gift of a loving family.●

RECOGNIZING THE 100TH ANNIVERSARY OF THE BRICKLAYERS AND ALLIED CRAFT WORKERS

● Mr. JOHNSON. Mr. President, I wish to recognize the 100th anniversary of the Bricklayers and Allied Craft Workers of the South Dakota Administrative District Council Local 03 of Aberdeen, SD. October 2009 marks the month and year of this landmark anniversary. BAC is highly respected as one of the oldest highly skilled trade unions in the United States and Canada.

For the past 100 years, Local 03 has played a major role in shaping the

workforce in Aberdeen. Working with their signatory contractors, Local 03 negotiated fair wages, safe working conditions, a respectable retirement, and solidarity among the membership. Although Local 03 has never had a large membership, they have always believed that working together will accomplish more than working alone. Today, 16 members keep the hopes and dreams of their founding members alive and well. Special recognition is given to Howard Jones as he receives his 50-year gold card and Don Feiock as he receives his 25-year membership pin.

I commend Local 03 Bricklayers and Allied Craft members for continuing the proud tradition of craft excellence and union solidarity started by their founders a century ago.●

RECOGNIZING HARBOR TECHNOLOGIES

● Ms. SNOWE. Mr. President, as we emerge from this lengthy recession, companies small and large are seeking to grow their businesses and become increasingly more innovative. Many are seeking to be leaders in some of the world's foremost emerging technologies. I wish to recognize a small firm in my home State of Maine that has been at the cutting edge of the composites industry since its founding 6 years ago, positioning itself well for continued future success.

Harbor Technologies, located in Brunswick, was founded during the summer of 2003 to fill the demand for environmentally friendly composite building products used for marine infrastructure. In particular, Harbor Technologies' composites are utilized in the manufacturing of docks, piers, marinas, sea walls, pilings, and other similar structures. Additionally, Harbor Technologies is using its composites to build bridge beams as an alternative to heavy steel. As we seek to improve and upgrade our Nation's roads and bridges, Harbor Technologies' distinctive fiberglass bridge beams should be at the forefront.

What makes composites so unique is its durability. While steel rusts and wood is subject to rotting, composites last longer and are easily maintained, leading to huge cost savings for both the supplier and the purchaser. Composites are also lightweight and compact; a large composite beam weighs 4,000 pounds, while similar concrete beams weigh 63,000 pounds. This allows Harbor Technologies to save on shipping costs, and reduce its carbon footprint in the process.

Just last year, Harbor Technologies tripled the size of its manufacturing space to 30,000 square feet, and added state-of-the-art pultrusion machinery to produce pilings of any length. This has allowed the company to take on considerable new work and hire additional employees, even during these difficult economic times.

Significantly, Harbor Technologies has played a critical role in developing

an advanced composites cluster in the Maine midcoast region. Additionally, Harbor Technologies' president Martin Grimnes, is the founder of the Maine Composites Alliance, an organization that seeks to promote the State's leadership in several composites industries, including marine, aerospace, and automotive. Clusters, which are geographic concentrations of companies and organizations that collaborate to create specific products, represent proven tools in our Nation's innovation agenda, and Mr. Grimnes is to be commended for his steadfast determination to advance their effectiveness and utilization throughout Maine.

As a national leader in the composites industry, Harbor Technologies has made a name for itself as a reliable and trustworthy company that produces innovative, cost-effective, and environmentally sound products. And it is small businesses like Harbor Technologies that represent the brightest lights for our economy's future. I congratulate president Martin Grimnes and everyone at Harbor Technologies on their outstanding work and wish them continued success.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

ENROLLED BILL SIGNED

At 9:33 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

S. 1677. An act to reauthorize the Defense Production Act of 1950, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

At 10:25 a.m., a message from the House of Representatives, delivered by Mr. Hanrahan, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 324. An act to establish the Santa Cruz Valley National Heritage Area, and for other purposes.

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 2215. An act to designate the facility of the United States Postal Service located at 140 Merriman Road in Garden City, Michigan, as the "John J. Shiven Post Office Building".

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes.

H.R. 3617. An act to provide an extension of Federal-aid highway, highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a multiyear law reauthorizing such programs.

The message also announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 74. Concurrent resolution supporting the goals and ideals of a decade of action for road safety with a global target to reduce by 50 percent the predicted increase in global road deaths between 2010 and 2020.

H. Con. Res. 178. Concurrent resolution expressing the sense of Congress that we reaffirm the historic ties between the United States and the Netherlands by recognizing the Quadricentennial celebration of the discovery of the Hudson River and honoring the enduring values of the settlers of New Netherland that continue to permeate American society.

The message further announced that the House disagrees to the amendment of the Senate to the bill (H.R. 2918) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2010, and for other purposes, and agrees to conference the conference asked by the Senate on disagreeing votes of the two Houses thereon, and appoints the following Members as managers of the conference on the part of the House: Ms. WASSERMAN SCHULTZ, Mr. HONDA, Ms. MCCOLLUM, Mr. RYAN of Ohio, Mr. RUPPERSBERGER, Mr. RODRIGUEZ, Mr. OBEY, Mr. ADERHOLT, Mr. LATOURETTE, Mr. COLE, and Mr. LEWIS of California.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 324. An act to establish the Santa Cruz Valley National Heritage Area, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 2131. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy; to the Committee on Foreign Relations.

H.R. 2215. An act to designate the facility of the United States Postal Service located at 140 Merriman Road in Garden City, Michigan, as the "John J. Shiven Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3593. An act to amend the United States International Broadcasting Act of 1994 to extend by one year the operation of Radio Free Asia, and for other purposes; to the Committee on Foreign Relations.

The following concurrent resolutions were read, and referred as indicated:

H. Con. Res. 74. Concurrent resolution supporting the goals and ideals of a decade of action for road safety with a global target to reduce by 50 percent the predicted increase
