STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FRANKEN (for himself, Mr. ROCKEFELLER, Mr. WHITEHOUSE, and Mr. SANDERS):

S. 1730. A bill to provide for minimum loss ratios for health insurance coverage; to the Committee on Health, Education, Labor, and Pensions.

Mr. FRANKEN. Mr. President, I am pleased today to introduce the Fairness in Health Insurance Act. This bill will hold health insurance companies accountable by requiring that at least 90 percent of your premium dollars go toward health services, not profits or administrative waste. As we move forward in health reform, it is essential that health insurance companies know that their top priority must be serving beneficiaries, not taking care of shareholders or CEOs.

This bill is inspired by the unique culture of health care in Minnesota, which includes the Mayo Clinic, cooperative models like HealthPartners,

and visionary public health leadership from State legislators. Health care in our State is also distinguished by the fact that 90 percent of Minnesotans are served by a nonprofit health plan. These plans outperform their national peers and are able to put 91 cents of every premium dollar toward actual health care services.

In other plans throughout the nation, though, you may find less than 60 percent of your premium is put toward health care; the rest is for overhead, marketing and profits. By taking the profits out of the health insurance industry, Minnesota health plans do a better job helping our residents to live healthier, longer lives. The Fairness in Health Insurance Act will help us hold all health plans to the same standards we've set in Minnesota by requiring that 90 percent of premium dollars actually pay for health services.

But while millions of Americans struggle to pay for health care, insurance executives continue to make obscene salaries. Last year, three top health insurance executives saw boosts in their total compensation—some of them making almost \$10 million. I believe in fair competition but I do not support companies making obscene profits off of health care. The Fairness in Health Insurance Act will force insurance companies to prioritize health services for beneficiaries over bonus packages for CEOs.

In fact, the current reality is that most of us don't know where our health insurance premiums go. It's challenging enough to understand a billing statement from your health insurance company, much less track where your money is being spent. The Fairness in Health Insurance Act also requires transparent reporting of how health insurance companies are spending your money. This transparency is especially important as we move to cover all Americans in health reform. Clear reporting will help us hold insurance companies accountable for every dollar we invest in health insurance.

Now, although Minnesota outperforms most states in health care, I know we can continue to do better as well. When I talk with Minnesotans, I hear again and again that people are living in fear about health care. They are afraid of losing their health insurance, or worried about getting sick and going bankrupt. The reality is that 50 percent of bankruptcies today are caused by health costs and 80 percent of these Americans actually have health insurance.

Passing national health reform this year is my top priority because I have listened to Minnesotans across the State. They have told me, loud and clear, that the current health insurance system is not working for them. The Fairness in Health Insurance Act of 2009 is an important part of my health reform strategy that also includes cost containment, simplifying paperwork, focusing on prevention, pushing for a public option and making
