

not always transfer as easily to LTC settings. HIT while vital and extremely beneficial will be useless in the LTC setting if LTC providers are not consulting in the development of it. In additional the Pharmacy cannot be left holding the price tag for updating LTC facilities when it comes to this technology; there must be a way in which we can encourage these facilities to update their own technology and not depend on the Pharmacy to do it for them. Some of these HIT grants should not only be given to LTC Pharmacies but also the Facilities we service.

With the new Bundling system, the unanswered question here is under the pilot program if one hospital receives a bid will they determine which nursing facilities the individual may use? One of the concerns with Bundling is what if the hospital chooses to use nursing facilities which they own or which are related in some manner to the hospital, will patients have a choice as to which facility they want? If not then the question becomes what will protect those facilities, which are currently in business? Those facilities which are related to the hospital may have the technology which non-related facilities lack and then the question becomes who is to provide the technology, across the board, most Long Term Care Facilities are accustomed to Pharmacies providing all of their equipment needs, fax machines, med carts and so forth. If and when this new technology is implemented there will be a vast problem of who is to provide it and furthermore uniformity. Pharmacies cannot bear the burden of providing this to Facilities, and additionally neither should hospitals.

The establishment of CMI within CMS aims to move the fee payment from fee for service based reimbursement toward a salary-based payment; however, providers are not defined, so do Pharmacies fall into this? Additionally under CMS, there is the Medicare Shared Savings Program, which sets up Accountable Care Organizations—with the development of this new organization the question becomes will pharmacies be a group later determined by the Secretary to be part of this process? If so or if not the question then becomes how will these organizations effect our ability to procure business or which homes may be able to willingly choose us for their pharmacy services? All of these issues are left open and yet to be determined, these are rather important issues; and there are so many unanswered questions and with the possibility of this new fee payment reimbursement, which may affect LTC pharmacies.

Under the Medicare Shared Savings Program, subsection (b) Eligible Accountable Care Organization. The payment would be via shared saving; this section does not list pharmacies but allows the Secretary to determine groups of providers and supplies as appropriate. The big question is would this new program affect how we as a pharmacy obtain new business and in some cases keep current customers? Would this limit which nursing facilities, institutions and so forth can utilize our services?

Due to the fact that the bill does not address these above stated questions, we are left wondering how these new programs will affect the Long Term Care industry, specifically the Pharmacies. While there is some concern about how we will be paid, we are more concerned as to what will happen to us and how these programs affect us. There is a concern that because LTC pharmacies aren't mentioned by name, we may not necessarily fall into one of these programs, and under the guise of cost control our reimbursement fees may be cut; which in turn will create a larger problem for us as how to pay our employees and how to continue to provide the

services that we are do and that the facilities are accustomed to.

Our concern with Individuals at Home Demonstration Program, specifically the payment methods governed by (subsection (c)). The issue is the spending targets, which will be determined on a per capita basis, what does that mean for items covered under Part A and Part B and those cuts? While, we agree that there is wasteful spending and that budget controls are needed, we ask that those cuts to remedy the increase in cost do not affect the Pharmacy. As a pharmacy, there is only so much we can provide while not running at a loss and if the spending targets reduce payments to the pharmacy, there is a chance that the pharmacy will not be able to provide to those who are most vulnerable and need all the care we can give them.

While we at Pharmakon agree that Health Care needs to be reformed, we believe that this current Reform Bill will create more barriers in our ability to provide services to the most vulnerable in our society and in addition as a medium size business with mainly hourly employees, we feel that many of these changes will affect our ability to continue to employ many of our employees and will affect them in their personal choices.

Sincerely,

HONORING DON SHERMAN HUBERT
VETERANS OF FOREIGN WARS
POST 345

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2010

Mr. McCOTTER. Madam Speaker, today I rise to honor and acknowledge the Don Sherman Hubert Veterans of Foreign Wars Post 345 in Redford Township, Michigan, as they celebrate 80 years of service to our veterans, our community and our country.

Named in recognition of Don Sherman Hubert, a 22-year-old private who served in Company A, 25th Infantry Regiment, 32nd Division, who was killed in action on August 29, 1918, during the assault in Juvigny, France, and became the first Redford Township serviceman killed during World War I. Post 345 has been a part of the Redford community since August 6, 1930. Originally located at Seven Mile Road and Dalby St., the post moved to the Metropolitan Club on Plymouth Rd from 1977–1982, before moving to its current location at Schoolcraft and Inkster Roads.

Upholding the commitment begun in 1899 when veterans of the Spanish-American War and the Philippine Insurrection founded local organizations to secure rights and benefits for returning soldiers, the VFW's national voice has been instrumental in establishing the Veteran's Administration, creating the GI Bill, and

the development of the national cemetery system. Citing the VFW mission "to honor the dead by helping the living" through veterans service, community service, national security and a strong national defense, the 289 members of Post 345, ranging in age from 21–94, participate in various volunteer projects with local hospitals and schools.

Madam Speaker, for 80 years the Don Sherman Hubert VFW Post 345 has maintained a prominent presence in the Metropolitan Detroit area as a leader in service to veterans and civilians alike. Today, I ask my colleagues to join me in congratulating the storied soldiers of Post 345 and recognizing their years sacrifice and loyal service to our veterans, our community and our country.

RECOGNIZING THE IMPORTANCE
OF EDUCATION AS A KEY COM-
PONENT IN HAITI'S RECON-
STRUCTION

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2010

Mr. RANGEL. Madam Speaker, I stand before you today to acknowledge the role of education as an essential sector for effective and durable economic and social development, all of which should be fundamental in the rebuilding of a great nation, such as Haiti.

The Haitian government has reported that the January earthquake has caused the destruction of 95 percent of schools in the Port-au Prince area. It is my belief that an uneducated population has the potential to become a national security threat and considering this dramatic situation, we must confront the crisis head on. In our effort to assist Haiti in becoming self-sustainable, education is the first step.

Without the promotion and cultivation of human capital, there can be no substantial poverty reduction. We know that educational attainments improve the livelihoods of the poor and reduce the likelihood of becoming poor.

Since Haiti has one of the largest income gaps between the rich and the poor in the world, providing accessible education is instrumental to creating a strong middle class, as well as sustaining small business and stimulating entrepreneurship.

There needs to be a plan in place that utilizes the skills of highly educated staff and the input of leading experts in the field of education. This is needed to provide improvements to the Haitian educational system but also serve as a platform for innovation. High quality education and partnerships between Haitian and foreign educational institutions are attainable goals.

The Government of Haiti has indicated its intention to promote free quality education and it is imperative that the United States and other friends of Haiti mobilize their efforts to provide easy access to education for all Haitian children. Let this be our gift to the children of Haiti in return for their ancestors' sacrifice for democracy.

COMMENDING THE PUBLICATION OF THE SAVILLE INQUIRY AND THE BRITISH GOVERNMENT'S ACKNOWLEDGEMENT OF THE TRAGIC EVENTS OF "BLOODY SUNDAY"

HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2010

Mr. CARNAHAN. Madam Speaker, on June 15, 2010, the British Government published the conclusions of Lord Saville's comprehensive report on the tragic events in Northern Ireland of January 30th, 1972, otherwise known as "Bloody Sunday."

After 38 years this full and sober account of the events of that day at last made unmistakably clear that 14 innocent civilians lost their lives in one of the worst episodes of a dark era in the history of Northern Ireland.

Nothing can erase the pain endured by the families and loved one of those who were killed in the unjustifiable Bloody Sunday shootings. However, the admissions of the Saville Inquiry have helped advance the healing process of those affected and the country as a whole.

It also serves as a reminder of how far the peace process in Northern Ireland has come; how many brave steps have been taken on both sides; and how firm the commitment to peace and reconciliation has proven itself for more than a decade now, since the 1998 signing of the historic Good Friday Agreements.

The Saville Inquiry was commissioned in 1998 and opened in 2000 in response to outcries from the families of the victims of Bloody Sunday. This Inquiry was specifically tasked to resolve unanswered accusations left after a previous inconclusive tribunal immediately following the shootings, as well as the establishment of a definitive account of events.

For ten years the Saville tribunal heard testimony from witnesses in order to fully ascertain the truth of what happened that terrible day in 1972. The findings of the Saville Inquiry state unambiguously that the conduct of British Army soldiers on January 30, 1972, was "both unjustified and unjustifiable."

It concludes that certain British soldiers "reacted by losing self-control . . . forgetting or ignoring their instructions and training." Without provocation, the soldiers fired the first shots at unarmed civilians.

Many of those civilians had been marching in protest to a policy of internment without trial introduced in response to rising sectarian and paramilitary violence particularly against British soldiers, during the height of the period known as "The Troubles."

It is clear that the recent history of Northern Ireland is a painful one with deep divisions and violent sectarian clashes in which thousands of people on all sides lost their lives, lost loved ones, and suffered terrible injustice as a result of the escalation of tensions and force. Over 3,500 people from every community lost their lives in the violence in Northern Ireland.

However, the history of Northern Ireland is also a shining example of the resilience and determination of the will to live in peace, and how people with the strength to cross the divide can indeed build a better future together. Northern Ireland can and should be very
