

RECOGNIZING VIRGINIA COMMONWEALTH UNIVERSITY (VCU) FOR ITS VICTORY IN THE COLLEGE BASKETBALL INVITATIONAL (CBI)

HON. ERIC CANTOR

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. CANTOR. Madam Speaker, I am proud to recognize Virginia Commonwealth University (VCU) for its victory in the College Basketball Invitational (CBI) Championship on March 31, 2010.

VCU is located in Richmond, Virginia and is one of the premier institutions of higher education in the Commonwealth of Virginia. The University fosters an enrollment 32,436 total students, including 21,149 undergraduates. VCU maintains a Division I athletic program offering 14 varsity sports which includes a men's basketball team that rosters 12 talented young men from around the world. In March of 2010, VCU junior Larry Sanders was named Colonial Athletic Association (CAA) Defensive Player of the year and earned first team ALL-CAA honors while teammate Joey Rodriguez earned second team ALL-CAA honors.

On March 31, 2010, the VCU basketball team rallied from a 9 point deficit at halftime to defeat Saint Louis University for the second straight game by a score of 71 to 65 in the best of three championship series, capturing the CBI championship. The VCU basketball team won the CBI championship under the guidance of their first year coach, Shaka Smart. During the final game, Junior Brandon Rozell scored a game high 27 points and his teammate Joey Rodriguez scored 13 points on his way to capturing Tournament MVP honors. The VCU basketball team finished their season with 27 wins, the second most wins in school history.

VCU President Michael Rao and Athletic Director Norwood Teague have done an exemplary job of supporting this successful athletic program and the gifted student-athletes of the Rams basketball team. The VCU athletes and coaching staff have earned the pride and respect of the VCU students, faculty, alumni, all Rams fans and the Commonwealth of Virginia.

Madam Speaker, please join me in congratulating the Rams for their successful 2010 basketball season and their achievement as CBI champions.

A TRIBUTE TO THE CENTRAL KENTUCKY NEWS JOURNAL

HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. GUTHRIE. Madam Speaker, I rise today to honor a great news source in the Commonwealth of Kentucky—the Central Kentucky News-Journal. This year, the Central Kentucky News-Journal will celebrate its 100th anniversary.

After a series of changes in ownership, Mrs. T. W. Buchanon became the editor-manager of the journal and it was launched as the Central Kentucky News-Journal in January of 1910. The newspaper now, one hundred years

later, is in circulation twice a week, providing unparalleled coverage for the citizens of Taylor County.

As a community paper, the Central Kentucky News Journal plays an important role bringing readers news and articles that directly affect their readers. Campbellsville and the Commonwealth of Kentucky are fortunate to have such an outstanding newspaper with a proven history of providing exceptional news coverage.

I am proud to represent the employees at the Central Kentucky News-Journal and thank them for the countless contributions they have made.

Madam Speaker, I ask my colleagues to join me in honoring the Central Kentucky News-Journal and congratulating them on 100 amazing years.

CONDEMNING TERRORIST ATTACKS IN KAMPALA, UGANDA

SPEECH OF

HON. HENRY C. "HANK" JOHNSON, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 27, 2010

Mr. JOHNSON of Georgia. Mr. Speaker, I rise today in support of H. Res. 1538, which condemns the terrorist attacks that took place on July 11, 2010, in Kampala, Uganda. This terrorist behavior is simply unacceptable and our nation must express our disapproval of the responsible parties who committed these horrible attacks.

Mr. Speaker, the situation in East Africa is grave. Unfortunately, the situation isn't getting any better either, given that this is the worst terrorist attack that this region has witnessed since 1998. The responsible party for these horrifying terrorist attacks is the hard-line Somali militant group, al-Shabab. Even more frightening is the fact that this group has threatened further attacks, if Uganda and Burundi continue to supply troops to an African Union peacekeeping force in Somalia. This continued threat of terrorist attacks is not only a dire concern in this area of East Africa, but also for our nation. Uganda, a key U.S. ally, is also a training ground for soldiers for Somalia's transitional government, the government which al-Shabab is seeking to overthrow. Both the United States and the United Kingdom support this mission. Consequently, we have responsibility to support and protect the peacekeeping forces that are working to provide stability in Somalia. In order for strength to be restored in the failing state of Somalia and the surrounding countries like Uganda, we must also find a way to remove the terrorist group al-Shabab from its destabilizing role.

Mr. Speaker, as the trend in globalization continues to increase, the connections among nations become more and more intertwined. Therefore, as Representatives of Congress, we must pass this resolution to call on our administration to work with the international community to address the security threat emanating from Somalia. This will hopefully ensure that this violence doesn't overspill more into other nations.

Again, I fully support this resolution and I urge my colleagues to support it as well.

HONORING LINDER'S 100TH ANNIVERSARY CELEBRATION

HON. BETTY MCCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Ms. MCCOLLUM. Madam Speaker, it is an honor to recognize the 100th Anniversary of Linder's Garden Center in Saint Paul, Minnesota. Linder's is a family-owned greenhouse that began as a small business selling fresh produce to local restaurants, and has grown into a Garden Center selling more than 25 million plants each year.

In 1910, a Swiss immigrant with humble beginnings named Albert Linder brought his horse drawn wagon filled with celery stalks and other fresh vegetables to local markets and restaurants. Linder soon found success as a result of his hard work and dedication to plants. At its peak, this burgeoning small business operated six greenhouses for celery seedlings.

By the 1940's, Linder had stopped using horse drawn wagons because trucks enabled him to expand his business to customers located farther away. Facing strong competition and celery blight, Linder was eventually forced to change the model of his business. He decided to move away from celery seedling and focused on cut flowers and bedded plants. This change proved profitable for Linder's and allowed Linder to remain successful even during difficult economic times.

Modern day Linder's continues to focus on flowers and plants, but has expanded to include green houses, and a garden center which hosts educational classes that allow budding urban gardeners to learn more about plant care. In 1970, the third generation of the Linder family took over the business. Robert, Dave and Lillian Linder have successfully continued their grandfather's business and continue to make our community beautiful.

Madam Speaker, please join me in rising to honor Linder's 100th Anniversary. I am honored to submit this statement recognizing this resilient and successful Saint Paul family-owned business. They are truly an example of the American dream being fulfilled. Their hard work and dedication have made them a successful Minnesota business.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. COFFMAN of Colorado. Madam Speaker, today our national debt is \$13,247,793,649,102.86.

On January 6th, 2009, the start of the 111th Congress, the national debt was \$10,638,425,746,293.80.

This means the national debt has increased by \$2,609,367,902,809.06 so far this Congress.

This debt and its interest payments we are passing to our children and all future Americans.

CELEBRATING 100 YEARS OF
SCOUTING

HON. KENNY MARCHANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. MARCHANT. Madam Speaker, it gives me great pleasure to rise today to recognize the centennial anniversary of the Boy Scouts of America. Over the last one hundred years, the Boy Scouts of America has remained devoted to its mission of dedicated service through developing social and moral skills in young men throughout the United States. This organization has produced some of our Nation's best and brightest leaders as a result of a simple creed that was embedded in them as young adults.

In 1909, William Boyce was a lost American in the fog on the streets of London. He encountered a young boy, now known as the "Unknown Scout," who voluntarily assisted him on his way. When Boyce offered compensation for the boy's good deed, the boy declined and stated that he was doing his "Good Turn" as a Scout. On February 8, 1910, Boyce brought the idea of Scouting to the United States and formed the Boy Scouts of America. Since its founding, the organization has been committed to preparing young people to make ethical and moral choices over their lifetimes by instilling in them the values of the Scout Oath and Law.

Through one hundred years of service, Boy Scouts of America remains dedicated to building the character of servant leaders within our communities. Boy Scouts of America has worked with over one hundred and ten million young adults, two million of which have gone on to become Eagle Scouts. I also applaud the work of the Scouting leaders who are devoted to the mission of mentoring young adults through countless hours of service projects, Pinewood Derby races, and other activities in order to build America's leaders of tomorrow.

On behalf of the 24th District of Texas, I would like to say "thank you" and "congratulations" to the Boy Scouts of America for the tremendous work it has accomplished over the course of one hundred years. By impacting and developing the lives of youth, the Boy Scouts of America has contributed to the development of a responsible and productive America.

CONGRATULATING THE PARTICIPANTS OF THE HOUSE FELLOWS PROGRAM

HON. JOHN B. LARSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. LARSON of Connecticut. Madam Speaker, I rise today to congratulate the participants of the House Fellows Program. The House Fellows Program, run by the Office of the House Historian, is a unique opportunity for a select group of secondary education American history and government teachers to experience firsthand the inner-workings of Congress. These educators have demonstrated excellence in the classroom, are

dedicated to educating our nation's youth and are truly deserving of our recognition.

One of the goals of the House Fellows Program is to develop curriculum on the history and practice of the House for use in schools. During the program, fellows prepare a brief lesson plan on a Congressional topic of their choosing, which is then shared with the other fellows. These plans will become part of a larger teaching resource database on the House. During the school year following their participation in the House Fellows Program, each Fellow is responsible for presenting his or her experience and lesson plans to at least one in-service institute for teachers of history and government.

The House Fellows Program began in 2006, and since then 75 teachers from across the country have participated in this innovative program.

An additional 45 teachers will be taking part in this summer's program. With plans to select a teacher from every Congressional district over the next several years, the House Fellows Program will impact thousands of high school teachers and their students and will energize thousands of students to become informed and active citizens.

As a former U.S. history teacher, I believe strongly in the importance of civic education. We must continue our efforts to get our youth involved in the political process in districts across the country. Educating teachers about the "People's House" is one of the best ways to do that. I congratulate the following educators who are participating in the third session of this summer's 2010 House Fellows Program: Ms. Cindy Tatum (TANNER, TN-08), Ms. Betsi Foster (TANNER, TN-08), Mr. John Tenney (DELAURO, CT-03), Ms. Carol Gale (LARSON, CT-01), Mr. Robert Nave (MURPHY, CT-05), Mr. Stephen Miller (VAN HOLLEN, MD-08), Ms. Cristy Lenski (LINDER, GA-07), Ms. Judy Walton (EHLERS, MI-03), Mr. William Reinhart (MCKEON, CA-25), Mr. Herrick Smith (MICA, FL-07), Ms. Shannon Gerlach (ROYCE, CA-40), Ms. Darla Faden (SMITH, NE-03), Ms. Gayla Reimer (MILLER, FL-01), Mr. Kris Vass (GOODLATTE, VA-06) and Mr. Tom Beard (GRAYSON, FL-08).

Madam Speaker, I urge all of my colleagues to join me in thanking the Office of the Historian for sponsoring this program. Thanks to Dr. Robert Remini and Dr. Fred Beuttler for their outstanding leadership, and Dr. Thomas Rushford, Mr. Anthony Wallis and Mr. Benjamin Hayes for providing the crucial staff support.

Thank you also to the Office of the Historian interns: Ms. Jacqueline Burns, Mr. Michael Karlik, Ms. Madeleine Rosenberg and Ms. Debbie Kobrin.

INTRODUCTION OF LEGISLATION TO ENCOURAGE THE DEVELOPMENT AND USE OF ENVIRONMENTALLY-SAFE COMPOSITE UTILITY POLES

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. DAVIS of Illinois. Madam Speaker, today I am introducing legislation to encourage the domestic development, adoption and de-

ployment of recyclable and environmentally-safe composite utility poles for use in the distribution and transmission of electricity. As Congress works to invest in our nation's electricity infrastructure to deliver critical new sources of energy to our cities and towns, it is time we also modernize the electricity delivery infrastructure so that it is more reliable, environmentally-safe, and cost-efficient than the current, century-old model. Our 21st Century electricity infrastructure must meet the changing demands of a diverse society, survive unforeseen natural disasters, and help deliver technology to improve our lives. Composite utility poles meet these demands.

Composite products are made from a variety of components such as glass, resins and fiber reinforcements that, when combined, produce stronger and lighter materials. Composites are integrated into products surrounding us every day, including swimming pools, cars, airplanes, wind turbines, and power plant cooling towers. Composite manufacturing in the United States is a fast growing, \$70-billion industry that employs approximately 550,000 Americans. My legislation will help spread this innovative technology to our nationwide network of approximately 130 million aging wooden utility poles. In the process, we also will create high quality, long-term manufacturing jobs here at home.

Composite utility poles last longer and are considerably lighter than wood, concrete and steel. They do not require treatment with harmful chemicals to prevent decay; as a result, they can be used in environmentally-sensitive areas, such as deserts, marshlands, national parks, forests and monument areas. Composite poles withstand severe weather conditions, including extreme temperature changes and fierce winds. They also are impervious to corrosion and require little maintenance, key issues for places like Chicago that must use salt often during winter to address icy road conditions and lose many steel and wooden poles due to the associated corrosiveness of the salt. In urban areas, composite poles can internally house WiFi and other wireless infrastructure and help clean up streetscapes by replacing unstable and unsightly chemically-treated poles with fewer composite poles. Composite pole life expectancy ranges from two to three times as long as traditional wood poles.

My bill takes two steps to promote the development and use of these utility poles. First, it amends the advanced manufacturing credit to allow the Treasury Department and the Energy Department to consider allocating a credit to the advancement of composite technology for our nation's energy infrastructure. Second, it provides a 30% tax credit to purchasers of composite poles that contain 15% recyclable or bio-content material, are recyclable at the end of their life, and are used for electricity distribution and transmission. This credit is intended as a catalyst to expedite the adoption and deployment of composite utility poles, helping taxpayers invest in this new infrastructure. As such, this credit would expire after five years.

In closing, I urge my colleagues to join me in co-sponsoring this legislation to ensure that green energy is transported by green infrastructure.
