

through the direction of Advanced Trauma Life Support, ATLS, education at the University of Michigan.

Dr. Burney's service to the citizens of the State of Michigan in the development of emergency and trauma care has spanned the past three decades. Since May 1982, Richard has provided ATLS in the State of Michigan and has directed over 133 ATLS courses instructing thousands of Michigan physicians in the principles and practice of caring for the acutely injured patient. Richard's efforts earned him recognition from the American College of Surgeons, ACS, as State and Regional ATLS faculty in 1988.

As a member and subsequent chairman of the Michigan ACS Committee on Trauma between 1988 and 1994, Dr. Burney provided leadership in shaping improved quality and access to care initiatives for acutely injured patients in the State of Michigan. During his tenure on the National ACS Committee on Trauma between 1994 and 2004, Dr. Burney participated in the development of the National Trauma Data Bank, which created the largest repository of data on the injured patient and enabled objective comparative research in Trauma.

Dr. Burney has authored 95 articles and book chapters regarding the care of the injured patient and has served on the Editorial Boards of the Journal of Trauma and The Annals of Emergency Medicine for 14 years each. Between 1985 and 2009, Dr. Burney served as chief of the Division of Emergency Services, medical director of the Survival Flight team, and executive committee of the Transportation Research Institute at the University of Michigan.

With accidental injury remaining the cause of the largest number of years of productive life lost in the United States, Dr. Burney's remarkable contribution to the expert treatment of acutely injured patients has saved countless lives. As a preeminent physician and professor, Dr. Burney has shared his knowledge selflessly and has worked to advance a crucial medical field. Please join me in celebrating Dr. Burney's achievements and in recognizing his legacy of excellence, which will continue to touch patients and students of medicine alike for years to come.

HONORING LONNIE BRAXTON, STUART ENGLISH, AND CHRISTOPHER DUNCAN

### HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. COURTNEY. Madam Speaker, I rise today to honor three incredible athletes from eastern Connecticut. Lonnie Braxton III of New London, Stuart English of Madison, and Christopher Duncan of Groton all competed in the 2010 Special Olympics National Games in Lincoln, Nebraska earlier this month. These three tennis players, along with every other member of Connecticut's team, made our State proud by bringing tough competition to their opponents and exemplifying sportsmanship.

I want to congratulate Lonnie in particular for winning the gold medal in the singles competition. He went undefeated in the division and gave an incredible performance over the

course of the games. Lonnie's victory is the product of hard work and a great deal of training in Connecticut. All of this training happened as Lonnie continued with his classes and work at Puffins restaurant in Groton. I have had the pleasure of eating at Puffins and Lonnie is very hard-working and pleasant for all the customers. What a great role model for us all.

Stuart and Christopher also took home medals playing tennis for Connecticut—winning bronze and silver in singles, respectively. The Connecticut tennis team gave an excellent performance and I am particularly proud of the strong eastern Connecticut contingent on that team.

Having attended ceremonies and events of Special Olympics Connecticut, I am familiar with the good work they do. These competitions are, above anything else, about the athletes who participate in them. We should be grateful for the unique opportunity they provide and the overwhelmingly positive impact that the competitions have on the lives of the athletes. I ask my colleagues to join me in congratulating Lonnie, Stuart, Christopher, and every member of the Connecticut tennis team for their hard work and victory at the National Special Olympics.

### RECOGNIZING THE PROGRESS AND INSPIRATION OF NASA

#### HON. ALAN GRAYSON

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. GRAYSON. Madam Speaker, I rise today to honor the incredible innovations and inspiring achievements of NASA on the 52nd anniversary of their founding. As the world's space pioneers, NASA has pushed the boundaries of the possible, contributing significant scientific discovery along the way.

NASA was established when President Eisenhower signed the National Aeronautics and Space Act 52 years ago today. Soon after, NASA sent the first U.S. astronaut into space through Project Mercury—Alan B. Shepard, Jr., and shortly thereafter, John Glenn became the first U.S. Astronaut to orbit the earth. NASA built upon this success with Project Gemini, collecting information on weightlessness, space docking, reentry, and executing spacewalks. Finally, in 1969, Project Apollo fulfilled President Kennedy's bold ambition to send a man to the moon before the end of the decade. We all watched as Neil Armstrong took mankind's first steps on the moon and affirmed America's place as the technological leaders of the modern world.

In words that were as poetic as the occasion was meaningful, Armstrong said, "That's one small step for a man, one giant leap for mankind." Buzz Aldrin quickly joined Armstrong on the moon as Michael Collins continued to circle overhead. I was 11 years old that day. I joined people everywhere in watching and celebrating this tremendous collective accomplishment. I remember it clearly. My family was on vacation, but I had persuaded my parents to let me stay in the hotel room alone all day to watch the television, so I could see these giant men take those giant steps. Their mission was a landmark moment for America, for the world, and for all time. Americans are

still inspired by these men and their mission to travel over 250,000 miles of dead space to reach our closest celestial neighbor. I remember thinking then that humankind as a species is capable of true greatness. While wolves howl at the moon, humans visit it.

NASA has conducted many more space flights since that historic day, and it constantly strives to contribute to humanity's knowledge of the universe and ourselves. It inspired a generation to pursue careers in science and engineering, and to believe in the power of American society. Alone in that hotel room, watching TV, I certainly felt a lasting sense of meaning—a connection to those three brave astronauts. Those astronauts represented, in that moment, America's destiny. A destiny shared by the thousands of men and women who worked to make it happen.

NASA's efforts continue today, but their legacy is already assured. From inspiring children to dream to inventing the water filter, NASA has shaped American society in ways we can hardly begin to count. In this, the most competitive, technology-oriented century man has ever known, we are lucky to have an institution like NASA. An institution that will continue to spur us to achieve what was once thought impossible.

Central Florida is proud of NASA and all that it has done. As a member of the Science and Technology Committee, I have great respect and admiration for NASA's contributions to space exploration. NASA has been, and continues to be, a positive and productive force for the advancement of our Nation's interests. I look forward to watching as they continue to carry us into the future.

### BEN HUESO HONORED WITH 2010 COMMUNITY SERVICE AWARD

#### HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 29, 2010

Mr. FILNER. Madam Speaker, I rise today to honor a very dedicated public servant on the San Diego City Council. City Council President Ben Hueso considers quality of life issues such as job creation, neighborhood livability and protecting the environment his top priorities this year. Since his 2006 election to the San Diego City Council, Hueso has advocated for District Eight constituents and the city as whole as a Councilmember, developing an open, consensus-building management style. As Council President, he schedules items for consideration by the Council, chairs Council meetings, and selects committee chairs and committee vice-chairs for approval by a Council majority.

In addition to serving as Council President, Hueso chairs the Rules, Open Government and Intergovernmental Relations Committee, serves on SANDAG's Borders Committee, and as First Alternate for SANDAG's Executive Committee. He is San Diego County's representative for the League of California Cities and sits on the Otay Valley Regional Park Policy Committee. Hueso recently completed his service as a Commissioner on the California Coastal Commission, where he helped protect California's coastal resources.

Prior to becoming a Councilmember, Hueso successfully owned and operated a small business in Logan Heights. His strong community

advocacy includes service as a member of the Policy Chief's Advisory Committee, founding the central Commercial District Revitalization Corporation, belonging to the Inner City Business Associations and serving as a board member for the Sherman Heights Community Center.

Hueso holds a bachelor's of arts degree from the University of California, Los Angeles; he also completed postgraduate work in Community and Economic Development at San Diego State University. He and his wife, Laura, live in Logan Heights with their four young sons.

I am happy to join in honoring San Diego City Councilman Ben Hueso with the Community Service Award presented to him at the 28th Annual John S. Lyons Memorial Banquet in San Diego on September 11, 2010.

#### THE NATIONAL DAY OF RECOGNITION FOR PARENTS OF SPECIAL NEEDS CHILDREN RESOLUTION

#### HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, July 29, 2010*

Mr. BURTON of Indiana. Madam Speaker, I rise today to introduce a resolution in support of a national day of recognition for parents of special needs children. I am honored to have had the opportunity to work with my good friend Representative TURNER from Ohio in sponsoring this resolution. I encourage all of my colleagues to support it.

Children with special health care needs are defined as those children who have a chronic physical, developmental, behavioral, or emotional condition that requires special health-related services of a type or amount to go above and beyond what is generally required for children. The Department of Health and Human Services' most recent National Survey of Children with Special Health Care Needs estimates that 14 percent of children between the ages of 0 and 17 in the United States are diagnosed as having special health care needs.

As many in this Chamber already know, I am active in promoting autism awareness and advocating for more research; my only grandson is autistic and I have taken it upon myself to learn about autism and the challenges families face living with autism. Parents serve a critical role in the development of special needs children and in preparing them to succeed in school and life. All too often, children with special needs require specialized services that go well beyond those required by children generally. I believe the time has come to recognize the selfless dedication, compassion, and sacrifice of these parents.

The resolution is simple. It calls for recognition of the importance of honoring the Nation's parents of special needs children; that a National Day of Recognition for Parents of Special Needs Children should be established to honor such parents; and urges the President to issue a proclamation calling on the people of the United States to observe such a day with appropriate ceremonies, programs, and activities.

Again, I would like to encourage all of my colleagues to co-sponsor this critically important resolution.

#### SOCIAL SECURITY TURNS 75

#### HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, July 29, 2010*

Mr. GEORGE MILLER of California. Madam Speaker, in just a few weeks, we will celebrate the 75th anniversary of the enactment of the Social Security Act.

Americans have benefitted greatly from this extraordinary program over the past 75 years. In fact, almost half of today's elderly would live in poverty without it. It is the most successful domestic program in our nation's history.

There can be no better time to renew our commitment to defend this program, to reinvigorate it and to do everything we can to ensure that Social Security is funded, solvent, and available for generations to come.

From its very inception, Social Security was a promise of economic security and stability for older Americans after a lifetime of hard work. Over the years, that promise has been strengthened to protect Americans in case of severe disability and the death of a breadwinner as well. Year after year, Social Security continues to deliver on that promise. For three-quarters of a century, through 13 recessions, Americans have been able to depend on benefits that arrive on time and in full.

More than 50 million Americans rely on Social Security now. Six in 10 seniors rely on Social Security for more than half of their income. And more than 6 million children—nearly one in 10—receive part of their family income from Social Security.

For 75 years, we have stood by the program that we created: strengthening it in the 1950s and '60s, and preserving its solvency in the '70s and '80s. Now, as we all know, the retirement of the Baby Boom generation will create new and real challenges for Social Security. And we need to respond to those challenges with innovative solutions that guarantee the system's long-term strength for generations to come.

But make no mistake, opponents of Social Security have not given up their effort to undermine this great program. Republicans in Congress continue to deliberately exaggerate the system's problems in an attempt to scare the public into supporting the radical idea of privatizing Social Security.

The Senior Republican on the House Budget Committee, for example, unveiled his Party's plan to eliminate Medicare and privatize and cut Social Security, rehashing the failed policies that President George Bush tried to carry out but was stopped, thanks to Democratic opposition in Congress.

According to the Washington Post, "Some GOP lawmakers also have endorsed [Rep. PAUL] RYAN's alternative budget plan, which would wipe out deficits in part by privatizing social security and replacing traditional Medicare benefits with an insurance voucher for people age 55 and older."

Their strategy poses a risk to all Americans, and experts concur that privatizing Social Security will not solve the challenges facing the system.

The recent economic meltdown on Wall Street reinforces the folly of trying to tie the Social Security Trust Fund to the ups and downs of a volatile stock market. When the market crashed in 2008, investors lost 30 per-

cent or more of their savings. Social Security recipients didn't lose a nickel in benefits. Had previous efforts to privatize Social Security succeeded, seniors would have lost trillions more in the recent stock market meltdown and economic recession. The American people deserve the income security they have earned.

In the wake of the current economic crisis, Social Security is more important than ever. Social Security was created at a time when the American economy had crumbled and was struggling to recover. Pensions were almost non-existent, and a majority of seniors were unable to support themselves after retirement. Thanks to Social Security, millions of seniors today can live their lives with dignity and independence instead of poverty and despair.

In December of this year, the President's Bipartisan Commission on Fiscal Responsibility will release recommendations on meaningful ways to improve America's long-term fiscal outlook, including the future of Social Security. I look forward to reading the report and reviewing their recommendations to ensure that Social Security is strengthened, not weakened.

As we approach August 14, the date of the 75th anniversary of Social Security, we can all be grateful for the creation of this program and we can all rededicate ourselves to ensuring its continued success. I remain committed to preserving Social Security's guaranteed, lifelong, inflation-protected insurance benefits for retirees, disabled workers and their families, and the survivors of deceased workers for generations to come.

#### CONGRATULATING SAVAGE PRECISION FABRICATION, INC. FOR 2010 UNITED STATES SMALL BUSINESS ADMINISTRATION SUBTRACTOR OF THE YEAR

#### HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, July 29, 2010*

Mr. SAM JOHNSON of Texas. Madam Speaker, it is my pleasure to recognize Savage Precision Fabrication, Inc. of Wylie, Texas.

Founded by W.T. and JoAnn Gardner in 1975, and still run by the couple today, Savage Precision has been named the 2010 Subcontractor of the Year by the United States Small Business Administration, SBA. This is the fourth time that the company has earned a prestigious designation from the SBA.

As a top-notch manufacturer of precision-machined and sheet metal components, Savage serves a number of major aerospace and defense contractors, as well as high-tech corporations. In fact, the company proudly supplies F-35 Joint Strike Fighter parts to Lockheed-Martin, playing a crucial support role for our Armed Forces.

Service to country has always been a priority at Savage Precision. The company's founder and CEO, W.T. Gardner, is a United States Army veteran. He and JoAnn grew their company through their belief in the American principles of honesty, loyalty, and hard work. From the moment they opened the doors of Savage Precision, the couple's company motto was, "If it doesn't work, you don't have to pay me." That's fair, that's right, and that's true commitment to excellence.
