

CSU Stanislaus has also been recognized by the American Association of State Colleges and Universities as one of 12 campuses nationwide for outstanding graduation and retention rates. CSU Stanislaus generates more than \$300 million annual impact on the regional economy.

Today, on Founders Day, CSU Stanislaus marks a half-century of excellence as students, alumni, faculty, staff and friends celebrate the University's 50th Anniversary.

IN HONOR OF LORRAINE MADDEN

**HON. MICHAEL N. CASTLE**

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I pay tribute today to Lorraine Madden, the outgoing President of the Ladies Auxiliary of the Delaware Volunteer Firemen's Association (LADVFA).

President Madden has been a life-long member of the Bowers Fire Company Auxiliary. Like many other members of the Auxiliary and Fire Departments, President Madden's father was the Fire Chief, and her mother was President of the Auxiliary. Prior to being elected to this new post, President Madden served as President of the Auxiliary at Bowers and was also the President of the Auxiliary to the Kent County Volunteer Firemen's Association. Her record of service and leadership is commendable, and is a reflection of the organization itself.

When called to action during alarms, LADVFA assist the firemen by serving meals or snacks while the companies are fighting fires or assisting with other emergencies. The services they provide both the fireman and the community are invaluable.

The LADVFA serve such an important function in our community, and to be as effective as possible, they must have dedicated and organized leaders. President Madden has been exactly that over the past year and the State of Delaware and our nation are greatly indebted to her for all of her past and future hard work. Congratulations on a job well done!

HONORING FRAGER'S HARDWARE

**HON. ELEANOR HOLMES NORTON**

OF DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Ms. NORTON. Madam Speaker, I rise today to ask the House of Representatives to join me in congratulating Frager's Hardware, located in Washington, D.C., for 90 years in business.

Throughout its 90 years in business in the Capitol Hill neighborhood, Frager's, as it is commonly known, has remained an indispensable fixture of the community and serves as a prototype of quality customer service.

The community embraces the ownership of Frager's Hardware and appreciates commemorating the anniversary with a week-long Customer Appreciation Event.

The expansion of Frager's Hardware to include a garden center, rental store, and a paint shop demonstrates its commitment to

serving the changing needs of the community and the residents of the District of Columbia.

Madam Speaker, I ask the House of Representatives to join me in celebrating the 90th anniversary of Frager's Hardware.

HONORING THE FACULTY AND STUDENTS AT EASTERN TECHNICAL HIGH SCHOOL

**HON. C.A. DUTCH RUPPERSBERGER**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. RUPPERSBERGER. Madam Speaker, I rise before you today to honor the faculty and students at Eastern Technical High School of Baltimore County, which has recently been designated as a 2010 National Blue Ribbon School. The National Blue Ribbon Award recognizes public and private schools whose students have achieved at very high levels or have made significant progress and successfully closed achievement gaps, especially among disadvantaged and minority students.

Eastern Technical High School is a magnet school that provides 10 different career path programs for students which will help prepare them to become productive members of the workforce in the future. Education is so important in setting our youth up for success and Eastern Technical High School provides a phenomenal example of how to effectively do so. In fact, Newsweek Magazine ranks Eastern Tech as among the top 5% of high schools in the United States.

Madam Speaker, I ask that you join with me today to honor the faculty and students at Eastern Technical High School. It is their hard work and dedication that have won them the recognition of the National Blue Ribbon Award. The school's consistent outstanding performance is an indicator of the faculty's perseverance and the student body's drive. It is with great pride that I congratulate Eastern Technical High School on its exemplary service.

COMMEMORATING SEA OTTER AWARENESS WEEK

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. FARR. Madam Speaker, I rise today as I do every year, to call attention to the 8th Annual Sea Otter Awareness Week, September 26–October 2, 2010, sponsored by Defenders of Wildlife. This week-long event provides the opportunity to educate the broader public on sea otters, their natural history, the integral role they play in the near-shore marine ecosystem, and the conservation issues they are facing.

In the early 1700's, before wide-scale hunting began, sea otters ranged across the North Pacific rim from Japan to Baja California. The worldwide population estimates for that time range from the hundreds of thousands to more than one million. Before the hunting began, there were approximately 16,000–20,000 along California's coast. But killing these animals for their fur all but decimated the popu-

lation until they were thought to be extinct off the coast of California by the early 1900's.

However, in the 1930's a small population of less than 100 animals was discovered in a remote cove on a coastal ranch in Big Sur, on the Central Coast of California. Since that time, groups such as Defenders of Wildlife, Friends of the Sea Otter and Ocean Conservancy have raised public awareness and helped protect this important species under the Marine Mammal Protection Act and the Endangered Species Act. The presence of the California sea otter has become an icon of the state's coastal environment and culture, and these charismatic animals bring significant tourism revenue to Californian coastal communities.

Still, sea otter populations remain threatened. This year's three year population average, counted by the U.S. Geological Survey, totals only 2,711 animals, a 3.6 percent drop in overall population, and 11 percent drop in otter pups since 2009. This is the second year in a row that the population has been in decline. The annual survey saw a decrease in otter numbers throughout their range, and particularly in areas where much of their reproduction occurs. These latest numbers are of great concern and researchers have begun to identify indirect hazards for sea otters such as non-point source pollution, pathogens, and entrapment in fisheries gear that are causing their population growth to reverse. Data also suggests that breeding-age females are dying in higher than usual numbers from multiple causes, including infectious disease, toxin-exposure, heart failure, malnutrition, and shark attacks.

Each day, research is uncovering additional causes of sea otter population declines. A recent study reveals that microcystin, a toxic algae that forms in reservoirs, lakes and stagnant freshwater ponds, is responsible for the deaths of at least 21 sea otters in the Monterey Bay area and researchers state that this is the first ever documentation of a freshwater algal bloom being transmitted to upper-level marine mammals. Such realizations support the need for continued research and preventive measures to respond to these issues, while continuing to ward against the direct killings and takings that still occur.

Sea otters are integrally important to the ecosystem in which they live. For this reason, the decline of southern sea otters off the California coast not only impacts the species itself, but it affects other marine populations and the surrounding ecosystem. The demise of sea otters allows their prey, sea urchins, to proliferate unchecked leading to the alarming overgrazing of kelp beds—one of the oceans nursery grounds for many marine animals. Research shows that the absence of sea otters has a direct link to the sharp decline of kelp along portions of California's coast. Further, the sea otter is effective at monitoring toxins and diseases in the marine environment, which can affect the health of humans and other wildlife.

California took the first step toward addressing these emerging concerns by signing Assembly Bill 2485 into law. This bill establishes a state fund for sea otter conservation where Californians have the option of donating a portion of their tax returns to sea otter conservation. I want to emphasize that this means that Californians voluntarily pay a little more on their tax return to help protect these animals.

Even during these trouble economic times, more than \$228,903 has been raised already this year.

However, this is a federally protected species and California cannot go it alone. In addition to continuing to work with my colleagues to secure Federal funds to support a continued and complete recovery of the population, I am proud that H.R. 556, The Southern Sea Otter Recovery and Research Act, was passed by the House of Representatives in July of 2009. This tremendous success was buoyed by the support and devotion of many people. In the other house, Senator BARBARA BOXER has introduced a companion bill, S. 1748, which passed out of the Senate Committee on Commerce, Science, & Transportation on June 9 by unanimous consent. The Committee hopes to move the bill later this year as a part of their omnibus public lands legislative package. We are just a few steps away from at last making the act into law and bringing needed resources to this threatened species.

Madam Speaker, I applaud the many accomplishments of Defenders of Wildlife, who carry out the important mission to preserve our nation's wildlife and habitat. I also applaud the other nonprofit environmental organizations, working with the Monterey Bay Aquarium, researchers, fishermen, state and federal agencies, schools, and many other institutions and individuals, who devote tremendous effort to protect and recover the southern California sea otter. Sea Otter Awareness Week is just one of their many activities geared towards honoring and saving this species, and I am proud to be associated with this vital work.

---

IN HONOR OF BILL TOBIN

**HON. MICHAEL N. CASTLE**

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. CASTLE. Madam Speaker, it is with great pleasure that I pay tribute today to Bill Tobin, the incoming President of the Delaware Volunteer Firemen's Association (DVFA). President Tobin began his career in the DVFA as a mascot in the Goodwill Volunteer Fire Company in 1959. In 1975 he moved to Lewes, where he joined the Lewes Volunteer Fire Department.

President Tobin's life has been dedicated to serving others. Along with his membership in the Lewes Fire Department, Bill served as President for the Georgetown American Legion Ambulance Company and later became active with the Memorial Volunteer Fire Department in Slaughter Beach. He has served Memorial well in the role of both Treasurer and as Chairman of the Board of Directors since 2000.

I commend President Tobin on his dedication to Delaware's volunteer fire service and tireless efforts on behalf of his community. DVFA is fortunate to have such a man filling this important role. I am confident that President Tobin's experience and leadership will help DVFA continue on the path of exceptional service for which they are known across our state.

REMEMBERING ROBERT P. BILLER

**HON. TOM MCCLINTOCK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. MCCLINTOCK. Madam Speaker, I rise today to remember the life of Robert Biller of La Canada, California. Bob was a gifted educator and passionate advocate for the students of California, and it is with a grateful heart I remember him today.

Bob received his bachelor's degree from University of California, Los Angeles in 1959 and spent the next several years serving his country as the administrator at the U.S. Naval Ordinance Test Station in China Lake, California. He would go on to earn his master's and doctorate degrees from University of Southern California in 1965 and 1969, respectively, winning recognition from his peers and the Henry Reining Jr. Dissertation Award for his dissertation in public administration.

Bob began his professional career in academia teaching at the University of California, Berkeley, where he helped establish the Graduate School of Public Policy and its Experimental Program in Health and Medical Sciences. He returned to USC in 1976, serving as the Dean of Public Administration until 1982. During this time, Bob raised the standard of education for the public administration program and raised the school's first one million dollar endowment as well as serving in leadership roles with the Deans' Council and the Budget Advisory Committee. Bob spent the next twenty years serving in various roles at USC including Executive Vice Provost (1982–1988), Dean of Fine Arts (1987), Dean of Admissions and Financial Aid (1988–1989), Vice President for External Affairs (1988–1992), Vice President for Undergraduate Affairs (1992–1993), Interim Dean of the School of Policy, Planning and Development (1998–2000) and he continued to be actively involved in university life after his official retirement in 2001.

Madam Speaker, it is without a doubt that through his commitment to education and service Bob Biller made USC a better place and its students better off. On behalf of the countless students whose lives he touched, it is my privilege to rise today in recognition of the many accomplishments and contributions of Robert Biller.

---

TAIWAN'S 99TH NATIONAL DAY

**HON. ALBIO SIRE**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. SIRE. Madam Speaker, I rise today to recognize Taiwan as it celebrates its 99th National Day on October 10th, 2010. This national holiday, known as Double Ten Day, commemorates the 1911 uprising that led to the creation of the Republic of China.

After years of one-party rule, Taiwan has held three democratic presidential elections and two transfers of power. I am very excited to see this young democracy blossoming in East Asia.

During an address earlier this year, Taiwan's President Ma Ying-jeou offered this

statement, "It is only under a true democracy that one's citizens can live without fear according to the law, and share in the burdens as well as benefits of good governance."

While Taiwan is a young democracy, it has taken steps to conform to international standards with respects to rule of law and protection of human rights. To this end, Taiwan has codified the following United Nation's documents into domestic law; The International Covenant on Civil and Political Rights and the International Covenant on Economic, Social and Cultural Rights.

Taiwan's budding commitment to democratic practices is impressive. I look forward to the United States partnering with President Ma and Taiwan for many years to come.

RECOGNIZING THE HEROIC ACTIONS OF STAFF SERGEANT JAMIE WEST

**HON. DOUG LAMBORN**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, September 22, 2010*

Mr. LAMBORN. Madam Speaker, I rise today to recognize the courageous and selfless actions of Army Staff Sergeant Jamie West, which have earned him our Nation's highest congressionally authorized award for heroism during peacetime. As a member of the U.S. House Armed Services Committee, I am proud to recognize one of Fort Carson's finest soldiers who placed his own life at risk to save the lives of three Colorado Springs children in 2008. While driving off-duty on February 23, 2008, Staff Sergeant Jamie West observed three children fall through a fragile ice-pond and one of those children becoming completely submerged in the freezing water. The Soldier's Medal citation reads, "Without thought to his own safety, he decided to attempt to rescue the endangered children. With ice crumbling around him and at risk to his own life, he pulled the children from the water and successfully administered first aid until emergency personnel arrived."

Every soldier knows the importance of courage. It is one of the Army's seven core values of soldiering. Courage on and off the battlefield cannot be underestimated. It takes courage to withstand the rigors of war and it takes courage to assume responsibility for life and death decisions. It also takes courage to do the right thing under intense pressure, but the act of courage at the risk of one's own life deserves special recognition.

The pages of American military history are filled with heroes who willingly put their lives at risk in order to save others—and Staff Sergeant West's name will now be inscribed among them.

It was no accident that SSG West was in the vicinity of that pond at the time of crisis. It is clear that, for some providential purpose, he was in the right place at the right time and had demonstrated great courage and personal sacrifice. It is my distinct honor to recognize his heroic actions and commitment to uphold the finest qualities of leadership and military values.
