

Michigan University on winning the national iOMe Challenge competition, which focused on solutions to make the U.S. retirement system solvent for future generations.

WMU's proposal was the collaborative effort of four students from the University's Lee Honors College—Sam Demorest, Lauren Hearit, Ashley Horvat, and Brad Kent—with the guidance and encouragement of WMU Professor Susan Hoffmann. The proposal submitted by the WMU team was one of 41 entries submitted by schools in 17 states for the opportunity to travel to Washington and present their ideas before Members of Congress. The iOMe Challenge asked college students across the country to think, analyze, and propose a solution addressing the issue of retirement for future generations. The WMU team analyzed every potential aspect of what life in retirement could be four decades from now and collaboratively put together a proposal that directly meets the challenges that lie ahead. The Western Michigan University team's project was selected by an independent blue-ribbon panel who judged based on content, style, economic soundness, and accessibility to young Americans.

Certainly there are a number of proposals for going about preserving the retirement system, and I have been deeply impressed by the recommendations of the team at Western Michigan. Their objective analysis of our current system and common retirement preparation practices, including each aspect's strengths and weaknesses, is sound and pragmatic. The adaptability within our current system allowed these students to provide cost cutting solutions that actually raised benefits for all Americans, while ensuring the system's long-term viability.

With a steadily aging population, significant reforms will need to be made to ensure the retirement system remains viable not only for today's retirees but generations to follow. To simply continue to kick this issue further down the road will only compound the problem for future American retirees. That is why this issue deserves constant attention from all Americans, especially younger generations who will be most greatly impacted. I commend these four students at Western Michigan University for their leadership in taking up this difficult issue, in order to show that our nation's future leaders will not be ignored when we discuss possible solutions regarding our future retirement problems.

Once again, congratulations to the team at Western Michigan University. You make your university, state, and nation very proud.

EARMARK DECLARATION

HON. ANH "JOSEPH" CAO

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. CAO. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326—the Defense Appropriations Act, 2010:

As requested by me, Rep. ANH "JOSEPH" CAO, H.R. 3326—the Defense Appropriations Act, 2010, provides for funding for the National World War II Museum Expansion in the

amount of \$10,000,000. This funding would be used to design and construct the U.S. Freedom Pavilion and its exhibitions which teach the importance of service to the nation, including the importance of service in the United States Armed Forces.

As requested by me, Rep. ANH "JOSEPH" CAO, H.R. 3326—the Defense Appropriations Act, 2010, for Tulane University for Biosensors for Defense Application in the amount of \$2,500,000. This funding will leverage Tulane and Xavier Universities biosensor and risk assessment technologies (which provide real-time information about threats from bioterrorism and environmental polluters) program to develop biologically derived sensors for detecting pollutants and contaminants.

INTRODUCTION OF COLUMBIA RIVER RESTORATION ACT

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. BLUMENAUER. Madam Speaker, today I am pleased to introduce the Columbia River Restoration Act. The Columbia River is the largest river in the Pacific Northwest, supplying fishermen with jobs, serving as a recreational resource, and providing power to the Northwest. The river and its tributaries provide significant ecological and economic benefits to the Pacific Northwest and the entire country. Approximately 8 million people, including my constituents, inhabit the basin and depend on its resources for their health and survival. The 14 hydropower dams in the Columbia Basin provide over 75% of the power for the Northwest. Half of the 7.3 million acres of income producing farm and ranch land in Idaho, Oregon, and Washington are irrigated with the Columbia River; sales from these exceed \$10 billion annually. Traditionally, the Columbia and its tributaries have been the largest salmon producing river system in the world, with annual returns peaking at up to 30 million fish. Recognizing the river's importance, the Environmental Protection Agency, EPA, designated the Columbia River as an Estuary of National Significance in 1995 and a Large Aquatic Ecosystem in 2006.

Sadly, after years of treating this great river like a machine, we know that the Columbia River is plagued by habitat loss and degraded with dangerous PCBs and other chemical pollutants that are detrimental to fish and wildlife, including thirteen species of salmon and steelhead listed under the Endangered Species Act as threatened or endangered. Legacy contaminants such as DDT that were banned in the 1970s are still detected in juvenile Chinook salmon. According to EPA and tribal surveys, these contaminated fish are consumed in large quantities by tribal populations, putting them at risk. Other pesticides and contaminants, such as hormone disruptors from pharmaceutical and personal care products, have been found in the river and salmon and may impair salmon growth, health, and reproduction. These contaminants threaten not only the health of fish and wildlife, but the humans who depend on them.

I am proud that stakeholders in the Columbia Basin have come together in a partnership including states, tribal governments, public

and private entities, and key federal partners to look with a hundred-year vision toward the future of the river, and to clean it up and make it a sustainable resource for generations. The Lower Columbia River Partnership (LCREP), for example, works to protect the estuary's ecosystem and its species, reduce pollution, and provide information about the river to the public. The partnership has restored 2,600 acres of habitat, opened 41.7 miles of stream habitat, completed toxic and conventional pollutant water quality monitoring, and engaged in innovative public involvement and restoration efforts in the region. LCREP has worked with the EPA to complete a Comprehensive Conservation and Management Plan to guide recovery efforts in the lower basin. EPA has also worked with stakeholders to develop a Toxics Reduction Action Plan to reduce toxics throughout the Basin. While there have been numerous studies and projects for toxics reduction and habitat restoration on the river, it is time for a broader, more comprehensive, and better funded effort.

The bill I am introducing today would authorize the EPA to work with LCREP, the States of Oregon, Washington, and Idaho, Columbia Basin tribal governments, local governments, citizen groups, industry, and other Federal agencies to develop and implement a collaborative and comprehensive strategy to increase monitoring and reduce pollution in the basin. Through a new Columbia River Program Team located in EPA's Region 10 Oregon Operations Office, EPA will assist and support the implementation of the Toxics Action and Comprehensive Plans to reduce toxics, coordinate the major functions of the Federal government related to the plans, track progress toward meeting the goals and objectives of the plans, and share this information with the public. The legislation authorizes \$40 million a year for this effort.

Restoration projects, toxic monitoring and other activities associated with the restoration effort will create between 700 and 900 jobs a year in the region for biologists, construction workers, and others. It will also enable the river to continue supporting jobs in the farming, hydropower, recreation and transportation industries.

I am pleased to be joined by some of my colleagues in Oregon and Washington in introducing this legislation. I look forward to working with stakeholders in the Pacific Northwest to move it quickly.

A TRIBUTE TO CLAUDIE C. ROYAL

HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. NEUGEBAUER. Madam Speaker, in celebration of Black History Month, I want to recognize Claudie C. Royal for his dedication to the 19th Congressional District of Texas, as well as his leadership in honoring Black History Month in Abilene, Texas. Although Claudie passed away in 2008, the Abilene community continues to carry on his memory and the initiatives he started.

Claudie was born on February 15, 1945 in Marlin, Texas, and raised in Abilene where he graduated from Woodson High School. After high school, Claudie married his high school

sweetheart, Lula, on April 13, 1964. He also attended Cisco Jr. College and was an active member of Plum Street United Methodist Church. For over 18 years, Claudie was employed by the Keebler Cookie Company.

Abilene remembers Claudie for planning many community activities and for his boldness in executing these plans. He dedicated his life to the youth, the elderly, the truly disadvantaged and those in the community who were not being treated fairly. He encouraged others to become involved in the community.

In 1980, Claudie organized an annual march honoring the late Dr. Martin Luther King, Jr. Today that annual march and associated activities are widely acknowledged and participated in by the citizens of Abilene. In 1981, Claudie was the driving force behind the development of a park constructed in the community of Pasadena Heights in Abilene. Through Claudie's influence, the park was named to honor Mr. Nelson Wilson, Sr., a community leader and long time resident of the city. In 1989, Claudie established H.O.P.E., a successful organization devoted to stopping and preventing youth drug use. In 1995, he was honored with the Dr. Martin Luther King, Jr. Human Services Award. After his death, the Abilene City Council permanently named February 15 as Claudie C. Royal Day to honor him.

Claudie was a strong Christian and family man. Claudie and Lula had 5 children: Michael, Cedric, deceased, Michelle, Mitchell and Matthias Royal, and five grandchildren: Mylles, Michael Ryan, BriAnna, Myller, and Mylliah.

During Black History Month, we pay tribute to generations of African Americans who struggled with adversity and made great contributions to shaping our Nation. We should keep in mind those who made a difference in their communities, and Claudie Royal truly made a difference in Abilene, Texas. The 19th Congressional District thanks Claudie for the imprint he left on his community. Even though he is no longer with us, we remember his devoted service to Abilene.

PERSONAL EXPLANATION

HON. STEVE KING

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. KING of Iowa. Madam Speaker, on roll-call No. 18, I was unable to vote because my arrival in Washington from Iowa was delayed by severe winter weather. Had I been present, I would have voted "yea."

HONORING PAUL WHITE

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. RADANOVICH. Madam Speaker, I rise today to posthumously honor Paul White upon being honored with the "Trail Blazers Award" by the African American Museum. Mr. White will be honored at the African American History Month Celebration and Banquet on Saturday, February 6th, 2010 in Fresno, California.

Mr. Paul White was born on March 23, 1947 in Oklahoma City, Oklahoma. At age eleven his mother passed away and he, along with his five siblings, moved to Fresno, California to be raised by their grandparents. He graduated from Edison High School in 1962 and attended Fresno City College where he played basketball. He graduated from California State University, Fresno with a Bachelors of Arts degree and a Masters degree in Public Administration.

Mr. White served the Fresno community for over thirty years with distinguished careers in health care administration, human resources and social services. He was the first African American Assistant Administrator at Saint Agnes Hospital, Valley Medical Center and the Fresno County Health Department. Mr. White served as the Assistant Executive Director of Fresno County Economics Opportunity Commission for many years.

Outside of work, Mr. White was heavily involved with various community organizations including: the Black Infant Health Project, Babies First, the Marjaree Mason Center, March of Dimes, the California Transplant Donor Network, United Network of Organ Sharing, Minority Affairs Committee, Boy Scouts of America and he served on the Board of Directors for West Fresno Health Care Coalition, Inc. For his dedicated service, Mr. White has also been recognized and awarded by many organizations including: Fresno Metro Ministries, the California Transplant Donor Network, the United Black Men of Fresno, former California Lieutenant Governor Cruz Bustamante and the California State Senate and Assembly. Mr. White passed away on March 17, 2005. He and his wife, Sheila, had been married for forty years. Together they raised six children and had nine grandchildren.

Madam Speaker, I rise today to posthumously honor Paul White. I invite my colleagues to join me in honoring his life and wishing the best for his family.

HONORING EVAN LYSACEK

HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. QUIGLEY. Madam Speaker, I rise today to congratulate Evan Lysacek on winning an Olympic gold medal in men's figure skating. Evan skated a breathtaking routine in both the short program and free skate to reach the pinnacle of his sport on its greatest stage. All of us in the Chicago area are proud not only of what he has accomplished but also the way he has represented himself, his family, the state of Illinois and all of the United States.

Born in Chicago and raised in Naperville, Evan attended Neuqua Valley High School, where he graduated with honors. In Vancouver, he became the first American man to win gold in figure skating since Brian Boitano in 1988. Evan was the U.S. Champion in 2007 and 2008 and World Champion in 2009, but did not skate his best at the 2006 Olympics in Torino, finishing fourth. His story of triumph and redemption is one we can all learn from. I wish Evan the best of luck in his figure skating career and beyond, and am so proud to recognize him today.

PERSONAL EXPLANATION

HON. CHARLES W. DENT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. DENT. Madam Speaker, I regret that I was unavoidably absent on Monday, February 22, 2010, due to a death in my family. Had I been present for the two votes which occurred, I would have voted "aye" on H.R. 4425, rollcall No. 49 and H.R. 4238, rollcall No. 50.

EARMARK DECLARATION

HON. ROY BLUNT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. BLUNT. Madam Speaker, I submit the following:

Priority Name: Thunder Radar Pod (TRP)

Appropriated Amount: \$1.6 million

Account: Air Force—RDT&E

Legal Name of Requesting Entity: Mid-American Precision Products

Address of Requesting Entity: 1927 West 4th Street, Joplin, MO 64801

Description of Request: The use of taxpayer funds is justified because the Air National Guard (ANG) has an essential requirement to provide its F-16 fighter forces with all-weather, day & night strike and situational awareness capability that will complement its current EO/IR capability with the Advanced Targeting Pods. This capability can only be provided with an airborne Synthetic Aperture Radar (SAR) that is capable of seeing through cloud cover, inclement weather, and smoke obscured targets or areas of interest. Lack of an all weather targeting capability will continue to limit the USAF's ability to effectively fulfill its Destruction of Enemy Air Defense (DEAD) tasking regardless of weather and allow the enemy to operate unfettered in poor metrological conditions. This all-weather DEAD capability will not be realized until approximately 2018 with the fielding of a like capability in the F-35, making the procurement of the TRP in the near-term time frame critical.

RETIREMENT OF MARIE RICHARD

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 23, 2010

Mr. POE of Texas. Madam Speaker, after more than fifty years of working for The Beaumont Enterprise newspaper, Marie Richard has decided to retire. She is the longtime assistant to the editor and very well known throughout the company and the community.

She began her newspaper career in 1959. At the age of twenty, she started working for the Beaumont Enterprise newspaper, and now at the age of seventy, she is ending her wonderful career.

She is recognized for fortifying relationships with the newspaper's customers; an aspect of her job she has enjoyed the most. She is also recognized for her work with the newspaper's
