

STATEMENT FOR PETER HAKIM
OF INTERAMERICAN DIALOGUE

HON. GREGORY W. MEEKS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Mr. MEEKS of New York. Madam Speaker, it is my honor to congratulate Peter Hakim for his tremendous work in leading the Inter-American Dialogue for over 16 years. It is impossible to fully express in words what he has accomplished as President. As a leader, Peter has facilitated discussion, cooperation and understanding of some of the toughest issues confronting our hemisphere and generated conversations among leaders that inevitably bettered our ability to work together. Whether on drug policy, immigration, the plight of Afro-Latinos or countless other issues, I have seen the fruits of his labor and I believe the legacy of success will be a model for future leaders to follow. Although Peter will now move on as President Emeritus, I am heartened to know that Michael Shifter will continue the momentum. Michael's role at the Dialogue has already shown us his exemplary work on the policies affecting the Americas. His work as president of the organization will no doubt be exemplary as well.

The list of Peter's accomplishments is long and my time is short, but I will end with this: I wish all the best to Peter and look forward to Michael Shifter now running with the baton.

HONORING PETER HAKIM

HON. CONNIE MACK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Mr. MACK. Madam Speaker, I rise today to honor Mr. Peter Hakim for his service at the Inter-American Dialogue. Peter has testified in front of the Western Hemisphere Subcommittee several times and has always been a passionate advocate for issues in Latin America. His personal insight into the inner workings of Latin American politics has been both constructive and resourceful to our Subcommittee and to Members of Congress.

Madam Speaker, the Inter-American Dialogue is an organization that brings an incredible amount of information to the discourse on freedom in Latin America. Through discussions and lectures, the Dialogue has brought greater awareness to the current issues facing Latin America.

I would also like to honor Mr. Michael Shifter, the new President of the Inter-American Dialogue, upon his appointment to this important role. I'm sure the Dialogue will benefit greatly from Michael's leadership and experience, and I look forward to working with both Michael and the Dialogue as we work toward greater freedom, security and prosperity in Latin America and the hemisphere.

THANKING PETER HAKIM

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Mr. ENGEL. Madam Speaker, I rise today to thank Peter Hakim for his 16 years of outstanding service as President of the Inter-American Dialogue. Under Peter's leadership, the Inter-American Dialogue has become a top center for policy analysis on U.S.-Latin American relations.

As Chairman of the House Foreign Affairs Subcommittee on the Western Hemisphere, I have benefited enormously from the first-rate work of the Inter-American Dialogue. My colleagues and I—and our staffs—consistently count on the Inter-American Dialogue's superb analysis of U.S.-Latin American relations.

Peter Hakim testified at my first hearing as Subcommittee Chairman in 2007, and I am pleased that he is closing out his tenure as Dialogue President as a witness at my hearing on U.S. Policy toward the Americas in 2010 and Beyond. His insights are extremely useful to me as I carry out oversight of our policies toward Latin America and the Caribbean. My colleagues and I have also greatly benefited from the dinner discussions organized by Peter and the Inter-American Dialogue where we debate key hemispheric issues. I am pleased that Peter will continue to serve the Inter-American Dialogue as President Emeritus, and I look forward to working with him in the coming years.

I also would like to commend Michael Shifter on his selection as the next president of the Inter-American Dialogue. Michael, who has served as the Dialogue's Vice President for Policy for several years, is clearly the best person for the job. Michael is no stranger to the Western Hemisphere Subcommittee himself. He has testified before my Subcommittee at hearings on the Colombia-Ecuador border crisis and Honduras. His essays and opinion pieces are published in a wide array of top U.S. and Latin American publications, and are a great resource for all of us in Congress.

I congratulate Peter Hakim and Michael Shifter and wish both of them and the Inter-American Dialogue many more years of success.

**HONORING USC PRESIDENT
STEVEN SAMPLE**

HON. DIANE E. WATSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Ms. WATSON. Madam Speaker, I, DIANE WATSON, along with Mr. BECERRA, Ms. BONO MACK, Mr. CAMPBELL, Ms. CHU, Mr. DREIER, Mr. FILNER, Mr. GARAMENDI, Ms. NAPOLITANO, Ms. RICHARDSON, Mr. ROYCE, Ms. ROYBAL-ALLARD, Mr. SHERMAN, and Mr. VISCOSKY, rise today to honor University of Southern California's 10th President, Steven B. Sample. After 15 years of dedicated leadership, President Sample will be retiring this August.

Steven Sample led an institutional rise at USC that is unparalleled in American higher education, helping the university become a highly selective undergraduate institution. He

drove faculty excellence to new levels. Not only did he create a network of global scholars and programs, but he also focused on building successful partnerships in local neighborhoods to spur economic and educational development. During his tenure, USC earned 20 national championships in men's and women's intercollegiate sports. In addition, he completed the largest fund-raising campaign in the history of higher education.

Under Sample's leadership, the University of Southern California attracted increasingly accomplished students, with SAT scores rising 300 points. Applications have nearly tripled since 1991. USC is now among the top five universities in the number of National Merit Scholars and first in the country in the number of international students.

By training, Steven B. Sample is an electrical engineer and a member of the National Academy of Engineering and the American Academy of Arts and Sciences. His patents in the field of digital appliance controls have been licensed to practically every major manufacturer of appliance controls and microwave ovens in the world. More than 300 million home appliances have been built using his inventions.

President Sample's *The Contrarian's Guide to Leadership*, a Los Angeles Times best seller, was named one of six "must-reads" for leaders by Harvard Management Update of the Harvard Business School.

Sample donates all royalties to a scholarship fund for USC undergraduates. This book is translated into a leadership course that Sample teaches to Trojans every year.

His outreach has created numerous jobs locally. The University of Southern California became the largest private employer in the City of Los Angeles. It was ranked in the top five of a survey titled "Great Colleges to Work For" by the Chronicle of Higher Education in 2006, under Sample's leadership.

As a past chairman of the Association of American Universities, Sample understands the importance of intellectual collaboration. That is why he founded the Association of Pacific Rim Universities. Sample has also dedicated himself to promoting Los Angeles as the de facto capital of the Pacific Rim with its strong entrepreneurial-based businesses and commerce, the busiest seaports in the United States, creativity and intellectual capital, and unparalleled diversity.

Steven Sample's presidency of the University of Southern California has significantly benefitted the City of Los Angeles, the State of California, and, most important, thousands of Trojan students.

Kathryn Sample is her husband's most trusted ally and advisor and has dedicated herself unreservedly to helping strengthen USC's position as a world-class research university. They have two daughters, Michelle Sample Smith and Elizabeth Sample, and two grandchildren, Kathryn and Andrew Smith.

CONGRATULATING THE 2008 NATIONAL MEDAL OF TECHNOLOGY AND INNOVATION LAUREATES

HON. ZOE LOFGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Ms. ZOE LOFGREN of California. Madam Speaker, today I rise as the proud sponsor of

House Resolution 935, congratulating Drs. John E. Warnock and Charles M. Geschke of Adobe Systems, Dr. Esther Sans Takeuchi, Dr. Forrest M. Bird, and IBM Corporation as the recipients of the 2008 National Medal of Technology and Innovation. The National Medal of Technology and Innovation is the highest honor for technological achievement bestowed by the President on leading innovators in the United States.

The National Medal of Technology and Innovation has been awarded annually since 1985 and recognizes outstanding contributions to America's economic, environmental, and social well-being through the development of technological products, processes, and innovation.

The purpose of the National Medal of Technology and Innovation is to recognize those who have made lasting contributions to America's competitiveness, standard of living, and quality of life through technological innovation. By highlighting the national importance of technological innovation, we hope to inspire future generations of Americans to prepare for and pursue technical careers to keep America at the forefront of global technology and economic leadership.

The 2008 National Medal of Technology and Innovation Laureates include innovation and achievement in the display and dissemination of information, lifesaving medical technology, and computer design and development.

I'm particularly proud that two of the 2008 Medal recipients, Drs. John E. Warnock and Charles M. Geschke, hail from my district in San Jose, California. Drs. Warnock and Geschke, through their work at Adobe Systems, pioneered innovations that were crucial to the revolution in desktop publishing that began in the 1980s and continues today. The advances in desktop publishing had, and continue to have, a profound effect on the way we create and communicate information across mediums such as print, video, and Internet. It is fitting that today we recognize two individuals who have been influential in informing how we create, communicate, and interact with information; the work of Drs. Warnock and Geschke played a prominent role in ushering in what we know as "The Information Age."

As a Member representing Silicon Valley, I know firsthand how technological and scientific innovations provide invaluable contributions to our society. Research and innovation have long been key drivers of our economy, particularly in the Bay Area. Advances in science, medicine, and technology will continue to shape our economy and our world. Therefore, it is vital that we encourage and recognize those who lead the way in these critical areas—those like our 2008 National Medal of Technology and Innovation Laureates. It is my hope that in spotlighting the very best in technology and innovation, we provide encouragement to the next generation of students, researchers, scientists, entrepreneurs, and businesses to continue to invest their time, energy, expertise, and resources into creating the next era of technological achievement. It is through innovation and advancement in science and technology that we will continue to be a leader in the global economy, protect our environment, and improve the lives of all Americans.

Again, I am proud to join my colleagues in honoring the 2008 recipients of the National Medal of Technology and Innovation, and I urge the passage of the resolution.

INTRODUCTION OF RESOLUTION
RECOGNIZING WEST VIRGINIA
NATIONAL GUARD AND LOCAL
RESPONDERS

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Mr. RAHALL. Madam Speaker, today I have introduced a resolution recognizing the heroic efforts of the West Virginia National Guard and local responders.

On Thursday, February 18, 2010, the heroic actions of West Virginians brought about the highly successful rescue of 17 military personnel who were on board a U.S. Navy helicopter—participating in the Operation Southbound Trooper X annual military exercise, which went down in deep, snow-covered, and very rugged terrain in Pocahontas County, West Virginia.

The remarkable rescue was an outstanding and highly coordinated effort on the part of many highly trained professionals as well as private citizens, who worked under very difficult conditions to reach the crew and personnel on board the aircraft, many of whom had been injured in the crash.

West Virginians are the best neighbors for whom you could ever wish. It is a truth that has been proven time and again. This heroic rescue effort was, thankfully, a rare event, but it was not at all out of character for our State. In fact, it was merely illustrative of the best of West Virginia.

The swift response; astounding skills and abilities; enormous courage; and, profound determination of all those involved in the rescue operation—from those who serve in and lead our West Virginia National Guard; to our local fire, rescue, law enforcement and first responder units; and the countless volunteers, families and neighbors nearby—most certainly made the difference between life and death.

While no expression of gratitude would ever be sought for such selfless acts, the hope that one good turn deserves another never dims with West Virginians.

On behalf of my fellow West Virginians, I'm pleased to introduce the following resolution to honor their good deeds, and to illuminate them as a beacon for others.

HONORING ALCALDE NIELS CHEW

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Ms. WOOLSEY. Madam Speaker, I rise today with my colleague, Representative MIKE THOMPSON, to honor Alcalde Niels Chew, who was bestowed the title of honorary mayor of the City of Sonoma because of his commitment to his community and its citizens. The naming of an Alcalde, which means "magistrate" or "mayor" in Spanish, is a tradition that began in 1975 as a way to acknowledge the citizen of the year.

Niels is best known for his generosity, humility, and his unwavering dedication to the causes he believes in, which is why he was selected from a long list of candidates. According to Niels, his father is responsible for instilling in him the value of service.

"During the Depression, no one in need ever came to our house and left empty-handed," he said.

Niels embraces quite a history of community service to the City of Sonoma, dating back to 1984 when he and his wife Susan first moved to Sonoma. Since then, Niels has graciously shared his warehouse with many area nonprofits who have stored their food and clothing donations in his facility.

As owner of Dowling Miner Magnets until 2004, he provided opportunities to Becoming Independent to train and support people with developmental disabilities.

Currently, Niels serves on the board of the Sonoma Valley Hospital Foundation, Operation Youth, and the Sonoma Overnight Shelter. He was formerly the president of Kiwanis of Sonoma Plaza and trustee of the Sonoma Valley Unified School District.

One of his most notable and impactful service endeavors has been his continuous support of the Sonoma Valley Mentoring Alliance as a dedicated mentor and founding board member. He is even credited with starting the organization because he added the organization's executive director to his payroll at Dowling Magnets so she could kick-off the mentoring program.

As a result of his initial investment, what began as a 10-hour weekly commitment at Flowery School blossomed into an organization that has been successfully connecting caring adults with at-risk students for more than 12 years.

"He has a heart the size of a continent, especially where kids are concerned," said Ms. Kathy Witkowicki, Executive Director of the Mentoring Alliance. "We could never put a value on all that he has contributed to the Mentoring Alliance over the years, because it's priceless."

Madam Speaker, Niels Chew's commitment to service is a powerful example of the positive difference one person can make. We are thankful for the charitable contributions made by this humble and thoughtful leader and philanthropist and we wish him continued prosperity as he spends time with his children and grandchildren.

IN CELEBRATION OF SAN MATEO COUNTY'S PARTICIPATION IN "STREETS ALIVE"

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 9, 2010

Ms. SPEIER. Madam Speaker, every American can do something to address some of the most pressing issues facing our nation today—health care, energy independence, the obesity epidemic—simply by riding a bicycle or taking a walk.

That is why I commend the County of San Mateo and other cities in the 12th Congressional District of California for joining in the "Streets Alive" celebration as part of World Health Day festivities on April 11, 2010. This worthwhile endeavor is part of "1000 Cities, 1000 Lives," an international project to enlist 1000 local governments around the globe to open streets and public spaces to pedestrians and bicyclists as a worldwide message of cooperation and commitment to healthy and active living.
