

Upon election to the Congress, she joined the Congressional Staff as my Executive Secretary. As a freshman Congressman, I was the beneficiary of Vivian's previous experience with secretarial and paralegal work. She immediately became responsible for my schedule and constituent services in the district office, which was all done without computers in those early days of our careers in the House.

In 1975, Vivian succeeded Virginia Bell as my District Administrator. As my District Administrator, her responsibilities expanded to the role of a Chief of Staff in the District. Viv managed the district offices, directed work activities, supervised staff, and oversaw and coordinated activities in the different communities of my Congressional District. As a woman in this role in the 1970s and proceeding decades, she was quite an effective leader and powerful force in pushing my agenda forward in the district. She continued this role until January 1999, when Vivian reduced her work load and went part-time.

Although at part-time, my loyal colleague, Vivian Jones, still coordinates my schedule in conjunction with the scheduler in Washington, handles all personnel matters pertaining to the district staff, and prepares correspondences of varying complexity for my signature. Vivian continues to arrive at the office in the wee hours of the morning on her assigned days. As always, she remains committed to offering a sympathetic ear or to jump start a slow or reluctant bureaucracy for a constituent.

Vivian's dynamic spirit and sense of purpose serves me and her fellow colleagues as the motivation and driving force of the office. I thank her for her incredible service over the years, her devoted friendship, and wish her many blessings.

#### SUPPORTING THE MISSION AND GOALS OF 2010 NATIONAL CRIME VICTIMS' RIGHTS WEEK

SPEECH OF

**HON. DAVID G. REICHERT**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 20, 2010*

Mr. REICHERT. Mr. Speaker, I ask that we take time to recognize National Crime Victims' Rights Week. As a law enforcement officer for 33 years, protecting victims of crime and their rights is a mission close to my heart.

In the King County Sheriff's office, I saw unspeakable tragedies firsthand. I saw the consequences of crime and how it affects victims—sometimes for the rest of their lives. There are few things more painful than looking into the eyes of a victim, knowing that a criminal's selfish, terrible deed has done irreparable damage to an innocent life.

As a cop, you live with the hard truth that you can't prevent every crime. But what we can all do is provide as much support and aid to victims as possible. We can help them receive justice and return some normalcy to their lives.

I urge my colleagues to keep victims of crimes in their hearts and minds, especially when voting for measures that will support their ability to move beyond the tragedies they've suffered and are working to overcome.

LUKE BRYAN, CMA "TOP NEW ARTIST" 2010

**HON. SANFORD D. BISHOP, JR.**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mr. BISHOP of Georgia. Madam Speaker, I rise today to honor Luke Bryan, of Leesburg, Georgia, who won the 45th Annual Academy of Country Music Award for Top New Artist on Sunday, April 18th in Las Vegas, Nevada.

All of us in Southwest Georgia are proud of his accomplishment and I would like to recognize and applaud Mr. Bryan's dedication and determination to his art. He has worked diligently, and his album, "Doin' My Thing," peaked at the Number Two spot on the Country Album Billboard. On behalf of my constituents in Georgia's Second Congressional District, I offer my congratulations on a job well done!

I cannot put into words the amount of pride that everyone in Leesburg, and indeed in the Second Congressional District, has in being able to claim this outstanding musician as one of us. He has accomplished a special goal, one that could not have been possible without the unrelenting support and encouragement from his family and community.

The "Top New Artist" winner was elected through fan votes by voting online in February and March. Residents of the City of Leesburg and the State of Georgia should be commended for the outstanding loyalty and support they displayed in voting for Mr. Bryan.

Madam Speaker, Luke Bryan has worked hard, persevered, made sacrifices, and developed the character that will help him to succeed. Once again, I congratulate Mr. Bryan on his achievement.

#### THE DIVERSE TEACHERS RECRUITMENT ACT OF 2010

**HON. SUSAN A. DAVIS**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mrs. DAVIS of California. Madam Speaker, I rise today to support the effort to bring more diversity to our national teaching force.

Striking statistics compiled by the Department of Education show a lack of diversity among teachers. During the 2007–2008 school year, an estimated 7 percent of teachers were African-American, 7 percent Latino, and 1.2 percent were Asian. More than 83 percent of teachers were white. A total of 75.9 percent of teachers were female and only 24.1 percent male.

Some educators believe this lack of diversity leaves some students without an inspiring role model to whom they can relate. The result may be lower test scores and higher dropout rates within some student demographics.

I am introducing the Diverse Teachers Recruitment Act of 2010 to address this lack of diversity. The legislation provides grants to school districts to create and implement recruitment programs to bring teachers from underrepresented groups into the classroom.

The grantee will track and compile data showing results of the program, including minority teacher recruitment rates. Data will also

include the impact on student learning, growth, and attendance rates.

The Department of Education will analyze the programs and disseminate which were effective in recruiting teachers from underrepresented groups. Successful results could be replicated in other school districts.

It is a worthwhile effort to bring teachers from underrepresented groups into our classrooms. This legislation begins a national effort to build a teaching force that reflects the diverse population of the United States to enhance the learning experience of our students.

#### OUR UNCONSCIONABLE NATIONAL DEBT

**HON. MIKE COFFMAN**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mr. COFFMAN of Colorado. Madam Speaker, today our national debt is \$12,871,255,665,556.84.

On January 6th, 2009, the start of the 111th Congress, the national debt was \$10,638,425,746,293.80.

This means the national debt has increased by \$2,232,829,919,263.00 so far this Congress. The debt has increased \$8,206,250,340.50 since just yesterday.

This debt and its interest payments we are passing to our children and all future Americans.

#### CELEBRATING THE 100TH BIRTHDAY OF THE TOLEDO BOARD OF REALTORS

**HON. MARCY KAPTUR**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Ms. KAPTUR. Madam Speaker, I rise today to recognize the Toledo Board of Realtors on the milestone occasion of the 100th anniversary of its founding. The Toledo Board of Realtors was founded in February of 1910 by a handful of Toledo real estate brokers. The association's first president was Irving B. Hiatt, who eventually assumed the presidency of the National Association of Realtors.

Formed as the Toledo Real Estate Board, its first membership consisted of about 28 brokers. The Board was formed to "Collect and circulate valuable and useful information pertaining to the real estate, manufacturing, industrial and mercantile interests of the city of Toledo and its citizens; To oppose the enactment of laws detrimental to said interest; to encourage legislation for needed public improvements; to foster an equitable system of taxation and assessment and to secure the enactment and enforcement of laws and ordinances for the further protection, convenience and welfare of the real estate owners, leaseholders and brokers."

In 1910 the Board developed a map of every manufacturing site in the city indicating whether the site was on the water, rail or inland. In 1912 Multiple Listing Service was established and it was mandatory that all members include their listings. The brokers gathered in the Board office each week and exchanged information about their listings.

The Toledo Realtor magazine was first published, semi-monthly in 1928.

Since its inception, the Toledo Board of Realtors continues its efforts to protect consumers in real estate transactions, to promote affordable housing and to expand ownership and protection of private property rights. Its members maintain the highest degree of professionalism while fostering an expertise in the field in order to ensure able representation of clients.

Today the Toledo Board represents approximately 1400 Realtor members. They continue a tradition of excellence over the course of a century. We celebrate their achievements and honor the efforts of those on whose shoulders they stand.

A TRIBUTE TO BROADCASTING  
LEGEND ROY ISOM

---

**HON. DEVIN NUNES**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mr. NUNES. Madam Speaker, the San Joaquin Valley has lost a broadcasting giant. Roy Isom, the "voice of agriculture" in the valley, passed away on April 15, 2010. Because agriculture is so vital to the survival of our communities, Roy could also be called the "voice of the valley."

Roy was in television and radio for more than four decades. San Joaquin Valley radio listeners were truly fortunate when he joined KMJ Radio Fresno in 1981 as news director and farm news editor. Roy produced an hour-long morning agricultural news show each day in tune with the needs and concerns of farmers and businesses in the valley. His program was influential in educating Californians about the important role agriculture plays in their lives.

Because of his outstanding reporting, Roy won two coveted awards. In 1994, he was the California Farm Bureau Federation Agricultural Reporter of the Year. In 2005, he was a recipient of the Fresno County Farm Bureau Heavy Puller Award. Roy won these awards because he was one of the best and most knowledgeable reporters on agricultural issues in California. It is a fitting memorial to Roy that a scholarship in his name has been established with the Ag One Foundation at California State University, Fresno.

Roy was also member of the prestigious National Association of Farm Broadcasters and an active member of the Sanger Masonic Lodge.

Like all residents of the valley, I extend my condolences to Roy's family and friends during their time of grief. I can only hope that it is of comfort to those closest to Roy to know that the "voice of agriculture" may be silent now, but his legendary reporting on agriculture issues will be remembered for generations to come.

COMMENDING DR. SHUKLA AND  
DR. GRADY FOR THEIR WORK IN  
INDIA

**HON. JIM McDERMOTT**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mr. McDERMOTT. Madam Speaker, I rise today to commend the critical medical work that was recently performed in Gujarat, India by Dr. Aseem Shukla and Dr. Richard Grady. Dr. Shukla is a pediatric urologist, Director of Pediatric Urology at the University of Minnesota Amplatz Children's Hospital and is the co-founder of the Hindu American Foundation (HAF). Dr. Grady is a pediatric urologist and a world-renowned expert in pediatric bladder reconstruction at Seattle Children's Hospital. Joining Dr. Shukla and Dr. Grady in India were Dr. Anjana Kundu, a Pediatric Anesthesiologist from Seattle Children's Hospital and Dr. Kenneth Smith, a Chief Resident in Urology at the University of Minnesota. I am especially proud of the fact that both Dr. Grady and Dr. Kundu are my constituents and that the Seattle Children's Hospital is in my district.

Dr. Shukla and Dr. Grady assembled their team of physicians and medical staff in the city of Ahmedabad and conducted 20 major reconstructive surgeries on children over an eight-day period, with each surgery lasting over twelve hours in duration. These children had serious urinary tract and genital abnormalities, which are the third most common congenital abnormality in the developing world. These abnormalities leave these children and young adults shunned and at the risk of further severe medical conditions. By performing these surgeries, these physicians have not only saved lives, they have transformed them.

While Dr. Shukla has been traveling to India twice a year for several years, with a commitment to build the much needed specialty of pediatric urology there with the support of the Hindu American Foundation. This latest medical mission could not have happened without the generous support of International Volunteers in Urology, a non-profit education and membership organization founded in 1995 by Dr. Catherine R. deVries. IVUmed's primary mission is to make quality urological care available to people around the world. The organization does so by organizing workshops where both physicians and nurses are trained and teams perform clinical evaluations, lectures, patient consultations and dozens of hands-on surgeries within a one to two-week period. In this way, IVUmed has provided treatment to thousands of men, women and children in nearly 30 countries in the areas of women's health, urology and tropical diseases.

IVUmed is unique because it is the only global nonprofit organization dedicated to teaching urology in developing countries. Their motto is "Teach One—Reach Many." Many physicians in developing nations do not have the resources to travel and acquire the necessary training to improve their skills. By training local medical professionals who then train residents and other doctors, IVUmed transforms urologic care for entire regions in the

developing world on a permanent basis. The organization has an over 6,000 volunteers and supporters around the world. In addition to treating thousands of patients, providing medical and surgical education to hundreds of physicians and nurses, IVUmed has also donated over half a million dollars worth of supplies and equipment to doctors around the world.

I would also like to recognize the numerous Indian physicians who contributed to the success of this medical mission: Dr. Balagopal Nair and Dr. Mohan Abraham with the Amrita Institute of Medical Sciences and Research Center; Dr. P.K. Dave, Dr. Rakesh Joshi and Dr. Sudhir Chandna of the B.J. Medical College in Ahmedabad; Dr. Mahesh Desai with the Muljibhai Patel Urological Hospital; and Dr. D.K. Gupta and Minu Bajpai with the All India Institute of Medical Sciences.

Hindu philosophy teaches that Seva, or Service, if carried out selflessly, is the highest devotion. The compassion shown by this team of American and Indian physicians exemplifies this spirit. Their dedication in bettering the lives of so many children should serve as an inspiration to us all. As a physician and the co-chair of the Congressional Caucus on India and Indian Americans, I would like to commend the joint efforts of the talented physicians and individuals who made this medical mission such a success.

---

REFORM OF WALL STREET BANKS

---

**HON. RUSH D. HOLT**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 21, 2010*

Mr. HOLT. Madam Speaker, I rise today to join my colleagues and the President in calling for comprehensive reform of Wall Street banks, to increase disclosure and transparency for the protection of the public and the stability of the economy.

As the President's statement yesterday indicated, at its peak, the "Shadow Banking System" financed approximately \$8 trillion in assets, which in many instances were mismanaged largely without oversight, contributing to the economic collapse at the end of 2008. We are just recovering from the economic collapse—but without meaningful reform of Wall Street the public will continue to be at risk.

That is why I supported, and strengthened with several amendments, the Wall Street Reform and Consumer Protection Act when it was considered in the House in December. The legislation would implement important reforms that would limit the ability of financial institutions to "game the system," and provide regulators with the information they need to identify and manage systemic risk. I urge my colleagues to continue to fight for enactment of these necessary reforms.
