

back on the road toward economic development. By providing incentives for trade and investment in Haiti's textile sector, this legislation will help to create jobs for Haitians struggling to recover from the earthquake.

I am very grateful to the Committee on Ways and Means for consulting with the domestic industry, listening to the concerns of American manufacturers, and crafting this bill so that it will benefit workers both in Haiti and in the United States. In addition, this bill continues the International Labor Organization's monitoring program, ensuring that the factories benefitting from U.S. trade preferences respect the fundamental rights of their workers.

Mr. Speaker, Haiti faces a long road ahead. On January 11, 2010, Haiti was already the poorest country in the Western Hemisphere; a day later, the nation was left to cope with horrific devastation, loss of life, and trauma.

This bill is one way we can help Haitians rebuild their country and grow their economy. I strongly urge my colleagues to join me in supporting this important legislation.

OF NEBRASKA

NATIONAL HUNTINGTON'S
DISEASE AWARENESS MONTH

HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 6, 2010

Mr. FILNER. Madam Speaker, I rise today to recognize the month of May as National Huntington's Disease Awareness month.

As some of you may know, Huntington's Disease is a genetic, neurodegenerative disease that causes total physical and mental deterioration over a 10 to 25 year period.

It is a rare disease, affecting 30,000 Americans and places another 200,000 at risk of inheriting it from an affected parent. Because it is a genetic disorder, Huntington's Disease profoundly affects the lives of entire families—emotionally, socially and financially.

This devastating disease has no treatment or cure and slowly diminishes an individual's ability to walk, talk, and to reason. Eventually, every person with Huntington's Disease becomes totally dependent upon others for care.

In my home State of California there are more than 117,000 individuals impacted by Huntington's Disease.

Last year, Congressman BILBRAY and I introduced H.R. 678, the Huntington's Disease Parity Act of 2009.

This legislation does two things. First, it directs the Social Security Administration to re-

verse and update the medical criteria for determining disability benefits for people with HD.

The second part of the legislation removes the 2-year waiting period before receiving Medicare benefits. This allows individuals to receive the treatment and care they desperately need.

In honor of National Huntington's Disease Awareness Month, I urge my fellow members of Congress to support H.R. 678 and help families across the Nation receive the critical benefits they need and deserve.

HONORING MRS. RAMONA
HATFIELD

HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 6, 2010

Mr. RUPPERSBERGER. Madam Speaker, I rise before you today to honor Ramona Hatfield, a finalist for the 2010 Military Spouse of the Year Award by Military Spouse Magazine. She has gone above and beyond the call of duty to support her fellow military families and deserves our utmost gratitude and respect.

Ramona, who lives in Curtis Bay, worked resiliently to create a spouse club to support the morale and welfare of the Coasties in the Greater Baltimore Area, turning an idea and a handful of volunteers into a program that has benefitted thousands of families. Her work has provided emergent day care for families in crisis, holiday parties for families away from home and scholarships for both spouses and dependent children. Admired and trusted by military commanders, Ramona's colleagues consider her a "go-to" spouse for the things that matter most.

Ramona is instrumental in organizing special care for families in times of crisis. She is working to create a first-of-its-kind facility to provide affordable and reliable childcare for single or dual military families. In addition to coordinating the spouse and dependent scholarships each year, she operates a pantry that has provided free infant and toddler items to 1,500 military families to date.

Ramona's efforts are all the more remarkable considering her responsibilities at home. While caring for her mother, mother-in-law and her own household, Ramona volunteers at her church as a youth minister, belongs to the spouse organization, works full-time and plays an active role in her daughter's high school activities. Her colleagues say that Ramona puts her own needs aside to tend to the needs of others and lives each day to its fullest. Her friends and colleagues describe Ramona as a "ray of sunshine," "trustworthy" and "dependable." She exemplifies the Greater Baltimore Area's Coast Guard Spouse Association motto: unconditional love and support.

Madam Speaker, I ask that you join with me today to honor Ramona Hatfield. Her compassion and dedication to the Coast Guard community and her family is an inspiration to us all. It is with great pride that I congratulate Ramona Hatfield on her exemplary service to her community and our country.

WE NEED AN "ALL OF THE
ABOVE" ENERGY STRATEGY NOW

HON. ADRIAN SMITH

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 6, 2010

Mr. SMITH of Nebraska. Madam Speaker, last week this Administration announced it would allow the private investment and development of the Cap Wind Energy Project off the coast of Massachusetts.

This is a step in the right direction, toward a real, comprehensive energy plan.

As higher energy prices hit American families, it becomes once again necessary for Congress to take an "all of the above" approach to our energy policy.

It is absolutely essential we continue to utilize our natural energy resources through research, development, and domestic exploration.

The American Energy Act, which I support, encourages clean and renewable sources of energy such as nuclear power, solar, and wind.

It also lowers fuel costs, reduces our dependence on foreign oil, and creates jobs.

We have delayed an "all of the above" energy strategy for too long. Now is the time to act.

IN HONOR OF MISS AYSNLEY
TAYLOR INGLIS

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 6, 2010

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to recognize Aynsley Taylor Inglis, a Delaware native, who has been selected to compete in the International Ballet Competition this summer. This competition is the most prestigious international competition held in North America, with contestants from around the globe com-

peting every four years in an Olympic style event. This is truly a remarkable accomplishment, as Miss Inglis' selection to this competition distinguishes her as being among the elite professional ballerinas in the world.

As a participant in the International Ballet Competition held in Jackson, Mississippi, Aynsley will represent the First State Ballet Theatre, her home State of Delaware, and the United States of America. She will be one of only six American competitors in a field of 39 professional female ballerinas from around the world. According to the USA International Ballet Competition Executive Director, Sue Lobrano, there were a record number of applicants for this year's event, making it the most competitive year in the history of the prestigious competition.

I commend Aynsley for her hard work and tireless dedication to achieving excellence within her profession, and because of her commitment to excellence, she is truly deserving of this great honor. I have the utmost confidence that Aynsley will make us proud by representing our State and Nation with grace and poise.

COMMEMORATING THE KIDNEY
DIALYSIS SEMINARS KICK-OFF

HON. JOHN H. ADLER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 6, 2010

Mr. ADLER of New Jersey. Madam Speaker, I rise today to commemorate the Kidney Dialysis Seminars annual 'KDS Kick-Off' taking place on May 6, 2010. KDS is a non-profit organization that provides quality motivational education events for patients on dialysis throughout South Jersey.

I would particularly like to honor KDS for their efforts coordinating this event, and for their tremendous commitment to educating the community about Chronic Kidney Disease and renal disease. The proceeds from the event will support its valuable programs, such as motivational education seminars and cooking demonstrations to encourage patients to adhere to their treatment regimens and enhance their quality of life.

More than 20 million Americans have chronic kidney disease, which if left untreated can lead to End Stage Renal Disease. Complications associated with kidney disease are common, but can be reduced if appropriate education is provided prior to the onset of renal failure. KDS helps people with a number of steps chronic kidney disease patients can take to reduce renal failure and better prepare themselves for dialysis, including making lifestyle changes, learning about renal replacement options, and seeking a compatible kidney donor.

Kidney disease cannot be reversed, but, with appropriate education, its effects can be slowed, improving the quality of life for renal patients. Madam Speaker, please join me in applauding the efforts of the Kidney Dialysis Seminars organization. I am confident that this event will do much to increase support and funding for those whose lives are intimately affected by chronic kidney disease.
