HON. KEN CALVERT

OF CALIFORNIA

CONGRATULATING ISRAEL ON
OECD MEMBERSHIP

SPEECH OF

HON. MICHAEL E. McMAHON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 2010

Mr. McMAHON. Mr. Speaker, I rise today to congratulate our close ally and partner, Israel, for her accession to membership in the Organization for Economic Co-operation and Development. I also want to thank the Congresswoman ILEANA ROS-LEHTINEN for introducing this Resolution, of which I am honored to be an original co-sponsor.

Israel first sought membership in OECD 10 years ago, and since then, Israel has been the most active nonmember country. Her aggressive pursuit of far-reaching economic reforms has led to her placement among the top business-friendly countries. Today, Israel is a world leader in providing access to credit markets, investor protections, and financial market sophistication. Her quality of life index also ranks among the top in life expectancy, judicial independence and legal rights.

The two pillars of the OECD are a commitment to democratic government and a free-market based economy. Its recognition of Israel's advanced economy, however, has been too long in coming and this delay has subjected Israel to too many politicized attacks from unfriendly nations and multilateral institutions.

Now, Israel's membership will strengthen the OECD's strategic economic importance in the world and benefit all members by providing access to Israel's advanced labor market and innovations in science and technology. Their membership also signifies another step forward in the cause to end religious intolerance and anti-Semitic economic and cultural policies.

Israel's commitment to our shared values of democracy, human rights, and freedom make her one the most important strategic allies of the United States. We will continue to support Israel in every way possible and work with her to defend herself against the aggressions of all enemies. I call on all responsible nations to do the same and congratulate OECD and Israel for this momentous partnership.

HONORING THE DECEASED MA-
RINE CORPORAL JEFFREY JOHN-
SON OF TOMBALL

HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 27, 2010

Mr. BRADY of Texas. Madam Speaker, I rise today to recognize and honor Marine Corporal Jeffrey Johnson of Tomball, TX, part of the 3rd Battalion 1st Marines, 1st Marine Division, who was killed on May 11, 2010, while on foot patrol by an improvised explosive device south of Marjah in the Garmsir District of Helmand Province, Afghanistan. He was 21 years old.

In 2007, after graduating from Waller High School, Corporal Johnson accepted the call to become one of the few and the proud as a Marine. In doing so, he joined a family legacy of service to America, with grandfathers having served in the Navy and Air Force and four of his uncles in the National Guard.

His family, friends, and fellow Marines recall Corporal Johnson as a smart, humorous, loving, and hard working person. His father, Jerry, said that his son loved being a Marine and believed strongly in America's fight for freedom and against terrorists overseas.

Corporal Johnson leaves behind a wife, Katy, his parents, grandparents, three siblings, and many other family members. He also leaves behind a very proud community. The people of Tomball and Magnolia, Texas, lined the streets of town to welcome this man home, and stand today behind his family and support them in their grief.

Madam Speaker, the Bible says in John 15:13, "Greater love hath no man than this, that a man lay down his life for his friends." Corporal Johnson paid the ultimate price for his fellow Marines, his wife and family, and this country. May we, as the House of Representatives, never forget that our freedoms are given by almighty God and secured by our Armed Forces, one soldier at a time.

IN HONOR OF JESSE CLIFTON
ALPHIN, SR., FOR HIS 90TH
BIRTHDAY

HON. BOB ETHERIDGE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 27, 2010

Mr. ETHERIDGE. Madam Speaker, I rise today to honor Jesse Clifton Alphin, Sr., for his continued service to his community, county and state.

Jesse Alphin has been my friend for many years, and I am pleased to be able to honor him in recognition of his 90th birthday. Jesse had held many important posts throughout his career, including Rotary Club president, member and chairman of the Harnett County Board of Commissioners, and, notably, the less formal position as a prominent businessman and leader in Harnett County.

A resident of Dunn, North Carolina, Jesse established Alphin Brothers, Inc. in 1947 and has since grown this small family-owned general store into a federally inspected meat manufacturer and food distributor. Alphin Brothers, Inc. provides meat to both small mom-n-pops diners and drive-ins and large distributors and corporate food conglomerates, testimony to its success in the food distribution business. Jesse's integral business leadership in Harnett County has resulted in hundreds of jobs and opportunities for fellow North Carolinians, in addition to quality food and service for over 50 years.

Jesse's strong presence in the business community is matched by his leadership in his church, his community, and as a dedicated family man. His philanthropic endeavors include work with the University of North Carolina at Chapel Hill, Campbell University, and other civic projects to foster the local school system. Jesse's untiring commitment to his wife of over 69 years, Allene, and his children make him a man to be admired. It is a true testament of a man's success to look at the success of his family, and I can honestly say his family has sure shown him to be a mighty successful man.

Madam Speaker, I urge my colleagues to join me today in recognizing Jesse Clifton Alphin, Sr., a man who truly lived the American dream and is still living it. A great friend to me and to North Carolina, I take the time today to wish Jesse a happy birthday and many more.

CONGRATULATING ISRAEL ON OECD MEMBERSHIP

SPEECH OF

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 2010

Mrs. MALONEY. Mr. Speaker, I am pleased to join my colleagues in supporting H. Res. 1391, congratulating Israel for its accession to membership in the Organization for Economic Co-operation and Development, OECD. On May 10, 2010, Israel became the 32nd member of the OECD by unanimous vote of the other members. This is an extraordinary achievement for a small, beleaguered nation that came into existence little more than six decades ago.

Sixty-two years ago, Israelis began the difficult process of creating a country from nothing. For more than a thousand years, the territory that is now Israel had been ruled by a series of far-off empires. It had no infrastructure, no history of self-rule, no major industrial base and very few large enterprises.

After Israel's establishment in 1948, Israelis created their own institutions from scratch. Israel has grown from an impoverished backwater colony to an economic powerhouse in the region. And although it has fewer natural resources than most nations of the world, it has made the most of what it has, investing in knowledge, development, innovation and medicine. Today, Israel is a center of scientific, medical and technological innovation, a leader in agriculture, water purification, alternative energy and public health.

Israel is a flourishing democracy, with a strong free press, a free and independent judiciary and a strong banking system that protects the safety and soundness of its financial institutions. The World Bank ranks Israel among the 30 countries in which it is easiest to do business. It is tied for fourth in ease of getting credit and tied for fifth in protecting investors. Similarly, the World Economic Forum rated Israel fifth of 133 nations on the Forum's legal rights index and 15th in judicial independence and 15th in financial market sophistication.

Israel's founders wanted to create an agricultural Garden of Eden—and since much of its territory consists of desert, its farmers developed techniques for growing crops in arid ground, using very little water. These techniques are now being marketed and used in developing nations across the globe. As part of its acceptance into OECD, Israel has agreed to increase its aid to underdeveloped nations in Africa, Asia, and Latin America. As part of that promise, Israel will be sending hundreds of experts in agriculture, water, and irrigation to impoverished areas, as well as experts in alternative energy, public health, education, and internal security. By sharing its knowledge, Israel will be helping its neighbors and improving relationships with developing countries. Even before OECD acceptance, Israel astounded the world by arriving in Haiti with a high tech field hospital that was able to perform sophisticated procedures and save lives.

With oil-producing nations hostile to it, and very little oil or gas of its own, Israel learned to become energy efficient, using solar power and other alternative fuels. With little land and

few natural resources, Israel positioned itself at the cutting edge of technological innovation. Many of the technological innovations we take for granted, including instant messaging, security firewalls, artificial stents, wireless computer chips, were developed in Israel. In 2010, the World Economic Forum ranked Israel 27th out of 133 countries in its Growth Competitiveness Index. Israel ranked third in quality of scientific research institutions, fourth in utility patents, seventh in life expectancy, ninth in innovation, 15th in availability of the latest technologies. Israel leads the world in the number of high-technology start-up companies, scientific publications, and research and development spending per capita.

Acceptance in the OECD is a mark of member nations' respect for Israel's economic progress, and it will help Israel attract foreign investors and develop its markets. Membership will enhance Israel's status in the world and will enhance its participation in other international bodies. It is no secret that the Palestinian Authority tried hard to deny Israel membership in the OECD precisely because they were concerned that OECD membership would enhance Israel's reputation in the world and strengthen its ties with other nations around the globe.

Mr. Speaker, Israel's accession to the OECD is a remarkable achievement. I am pleased to join my colleagues in saluting Israel's success and in expressing appreciation to the OECD members for their unanimous decision to accept Israel as a member. For all of the foregoing reasons, I urge my colleagues to support H. Res. 1391.
