

be able to congratulate our team, the University of Kentucky, on winning the national championship following Alabama this year. That is our hope. And I endorse this resolution. I urge my colleagues to support it, and I reserve the balance of my time.

Ms. HIRONO. Mr. Speaker, I notice my friend, Mr. BACHUS, the introducer of this resolution, probably awaiting a chance to make some remarks. So I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield as much time as he may consume to Mr. BACHUS from Alabama.

Mr. BACHUS. Mr. Speaker, I want to thank the gentlelady from Hawaii and the gentleman from Kentucky, and the Education and Labor Committee for expediting this resolution, and for your kind words in support of the University of Alabama and its fine football team upon winning the national championship.

And Mr. Speaker, I thank you and the Congress for giving the Alabama delegation the opportunity to congratulate the University of Alabama and its football team for winning the national championship. All members of the Alabama delegation have joined with me and Congressman ARTUR DAVIS. I and he are the lead cosponsors of this resolution.

This is a celebration of the culmination of a very successful season on and off the field of play. And as I say, it culminated in the game between the University of Alabama and University of Texas, two teams that exemplify college football and college athletics at its best.

In the previous year, Alabama was undefeated, but then lost to Florida in the SEC championship game and Utah in the Sugar Bowl. Disappointing losses like that might tear some teams apart. Instead, it made the university's coaching staff and players even more committed and determined to put in the hard work and dedication needed to make it all the way to the top. The hard work started in spring practice and continued through the long fall schedule.

One important lesson is never allow your defeats to hold you back. Last week we honored Mark Ingram, who also has overcome challenges to win the Heisman Trophy. Alabama did this, they put the last two defeats of the former season behind them and dedicated them to the year ahead.

To make it to the national championship game, you must have the discipline to win in the regular season week in and week out. Alabama always came prepared to play to the very end, whether it was in the season opener against a talented Virginia Tech team, or against the demanding competition in the SEC, which many believe is presently the toughest football conference in the Nation, although I am sure some of my colleagues would debate that.

There were games won by comfortable margins, and there were close calls against the University of Ten-

nessee and Auburn University. There was the return match-up with Florida, the defending SEC champion and the defending national champion, and its outstanding quarterback, Tim Tebow, in the SEC title game.

Each game and each victory was a building block towards the BCS championship game on January 7, where the team achieved its ultimate goal. The match-up in Pasadena was fitting because the University of Alabama and the University of Texas both have proud football histories, with legendary coaches, with coaches like Paul "Bear" Bryant and Darrell Royal.

The fans on both sides were avid and dedicated, who came out so to support their teams in great number and with great enthusiasm. But in doing so, they were very respectful and hospitable towards each other. That is the way college athletics should be. That is the way that things should be on the floor of this House. And we should all be committed to that. And I think that we are.

The game itself had inspiring personal stories. The quarterback for Texas, Colt McCoy, is a fine young man. When he was injured, his team took from his example and never gave up, fighting until the end. Alabama's quarterback, Greg McElroy, quietly played with two broken ribs. Alabama running back Mark Ingram, the MVP of the game and the first Heisman Trophy winner in school history, is a student-athlete of outstanding character and spirit. But it was a team effort. In the end, Alabama came out on top, and finished the season with a perfect 14-0 record, and its first national championship season since 1992, under Coach Gene Stallings.

There was another undefeated team, and that was Boise State University. And I congratulate coach Chris Peterson of Boise State. When someone said they should be invited to the White House together with the University of Alabama, he graciously said there is only one national champion, that is the University of Alabama, and they should be invited. So I congratulate Boise State University on their successful undefeated year, as do all citizens of Alabama.

The passionate fans in Alabama can be very proud of the way that their student-athletes have represented both the university and the state. I commend President Dr. Robert Witt and his administration, and Coach Nick Saban and his fine staff, for setting high standards on and off the field. And last but not least, we congratulate the alumni, the fans, and the students of the University of Alabama for their support.

But most of all, it was the players, the athletes, each and every one of them. Through their hard work, these players have earned the right to be called champions. We at Alabama salute them, are proud of them, and we appreciate the opportunity to honor them with this resolution.

Ms. HIRONO. I would like to ask whether the gentleman from Kentucky has any further speakers.

Mr. GUTHRIE. I have no further requests for time.

In closing, and I should have said before about Boise State, they had an outstanding team this year. And I also want to close with Texas. I didn't mention the University of Texas. What a quality program, quality athletes, quality coach. And there was a special relationship with a Colt McCoy, the quarterback, and Jordan Shipley, the wide receiver. If people had a chance to watch the game, Colt McCoy I think went out on the second possession injured.

If the story that I have heard is correct, which has been told to me, is their fathers played together at Abilene Christian University in Abilene, Texas. And so these kids have known each other their entire life, and probably were sitting on the stage that they had always dreamed of played together their entire life, and then within the second series Colt McCoy was injured. If you watched the game, there was nobody that played as well on the field that night as Jordan Shipley. And I imagine he just increased his game to make up for his friend. And that just shows the class of Texas. Those are two athletes I mentioned. All of them are wonderful and fantastic young men. And I want to congratulate them as well.

With that, I yield back the balance of my time.

Ms. HIRONO. Mr. Speaker, once again I would like to congratulate the University of Alabama for their tremendous win. And I in particular would like to thank my friend, Mr. BACHUS, for his comments about how good sportsmanship should be played on all fields, including this field.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Hawaii (Ms. HIRONO) that the House suspend the rules and agree to the resolution, H. Res. 1007.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

CONGRATULATING THE NORTHWESTERN UNIVERSITY FEINBERG SCHOOL OF MEDICINE

Ms. HIRONO. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 1004) congratulating the Northwestern University Feinberg School of Medicine for its 150 years of commitment to advancing science and improving health.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 1004

Whereas, on March 12, 1859, the origins of Northwestern University Feinberg School of Medicine began with Drs. Hosmer A. Johnson, Edmund Andrews, Ralph N. Isham, and David Rutter signing an agreement to establish the medical department of Lind University, which provided the first graded curriculum in a United States medical school;

Whereas, on October 9, 1859, the medical school marked its first session;

Whereas, on April 26, 1864, the medical department of Lind University became Chicago Medical College;

Whereas in 1870, Chicago Medical College entered into an agreement with Northwestern University to serve as the University's Department of Medicine;

Whereas in 2002, Northwestern University Board of Trustees renamed the medical school in honor of benefactor Reuben Feinberg;

Whereas the Feinberg School of Medicine is one of the Nation's pre-eminent medical schools, producing the next generation of leaders in medical and related fields through its innovative research and educational programs;

Whereas the Feinberg School of Medicine supports the provision of the highest standard of clinical care by its clinical affiliates for their patients;

Whereas the Feinberg School of Medicine is cited annually by national college rankings as one of the top medical schools for research;

Whereas Feinberg School of Medicine alumni are leaders in their fields;

Whereas the Feinberg School of Medicine is a leader in aligning experts from various disciplines to create a collaborative research enterprise that explores the fertile discovery space between disciplines; and

Whereas Feinberg School of Medicine faculty are nationally and internationally prominent physicians and scientists who have an impact on our most pressing medical and research issues: Now, therefore, be it

Resolved, That the House of Representatives—

(1) congratulates the Feinberg School of Medicine on the momentous occasion of its 150th anniversary, and expresses its best wishes for continued success;

(2) recognizes and commends the Feinberg School of Medicine for its dedication to educating world class physicians and scientists, sponsoring cutting edge medical research, and providing highly specialized clinical care; and

(3) directs the Clerk of the House of Representatives to make available enrolled copies of this resolution to the Feinberg School of Medicine for appropriate display.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Hawaii (Ms. HIRONO) and the gentleman from Kentucky (Mr. GUTHRIE) each will control 20 minutes.

The Chair recognizes the gentlewoman from Hawaii.

GENERAL LEAVE

Ms. HIRONO. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on H. Res. 1004 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

Ms. HIRONO. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of H. Res. 1004, which congratulates the Northwestern

University Feinberg School of Medicine for its the 150 years of commitment to advancing science and health through educating students and supporting significant research in the medical field.

The Feinberg School of Medicine started their first classes in 1859, and is now one of 11 colleges at Northwestern University. Feinberg School of Medicine enrolls over 4,130 students; 1,600 full-time, 200 part-time, and 284 research students, and has established itself as one of the most premier medical schools in the Midwest.

Much has changed at Feinberg School of Medicine over its 150-year history, but the core principles have remained constant. The school still strives to empower its students to make a difference and use their education to positively impact the world around them. As one example, Feinberg's free community health outpatient medical clinic, located on the west side of Chicago, provides medical care to low-income patients, while offers Feinberg students a practical environment in which to learn from one another and attending physicians. Through the clinic's interactive learning style and commitment to public service, the community health clinic gives students a taste of clinical medicine and prepares students to be successful by giving them practical, first-hand experience in the field of medicine.

The Feinberg School of Medicine is also part of the McGraw Medical Center of Northwestern University. Nearly all of its attending staff members have faculty appointments at the school, and many medical students and residents receive some of their education at this center and the community health clinic. Because of these connections, medical students and residents have an opportunity to apply the knowledge learned in the classroom to real patients, situations, and medical settings.

Through its research initiatives, state of the art clinical facilities, consistent outreach to the local community, and innovative curriculum, the medical school attracts bright and talented individuals to its faculty and student body. Feinberg School of Medicine produced a number of leaders and innovators in the medical field, including Mary Harris Thompson, Northwestern's first female medical graduate, and by some accounts, the first female surgeon in the U.S.; John A. D. Cooper, who was among the most prominent medical educators of the 20th century; Debi Thomas, the first African-American figure skater to win a medal at the Winter Olympics in 1988. She completed Feinberg School of Medicine in 1997, and has since become a leading orthopedic surgeon. These are only a few of the school's notable alumni changing the medical profession as we know it.

I want to express my support for Northwestern University's Feinberg

School of Medicine and thank Congressman DAVIS for bringing this bill forward. I urge my colleagues to support this resolution.

I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield myself as much time as I may consume.

As well as the previous resolution, I actually have another brother who graduated from Northwestern University, along with my sister-in-law. That is where they met, but the undergrad school, not the medical school. But they certainly loved and enjoyed their time at Evanston next to one of our world's great cities, Chicago.

I rise today in support of the House Resolution 1004, congratulating Northwestern University's Feinberg School of Medicine for its 150 years of commitment to advancing science and improving health.

□ 1515

The Feinberg School of Medicine was founded in 1859 as the Medical Department of Lind University. The department became Chicago Medical School in 1864. The medical school affiliated with Northwestern University in 1870 and was renamed the Feinberg School of Medicine in 2002.

The School of Medicine has exemplified excellence since its founding in the 19th century. It was founded with the intention of leading the reform of the medical education system. Northwestern School of Medicine led reform by demanding an extended program, correlated hospital instruction, a graded curriculum, and rigorous graduation requirements. The school also premiered the honors program in medical education in the combined M.D./Ph.D. program.

Today, the Feinberg School of Medicine remains at the forefront of medical education. It is ranked among the top 20 American medical research schools by U.S. News & World Report and accepts only 6.5 percent of applicants. The Feinberg School of Medicine is also part of the McGraw Medical Center of Northwestern University, one of the Nation's leading academic medical centers focused on research, education, and clinical services.

Today, with an increasing need for health care and constantly changing resources and technology, the demand for high-quality, innovative medical schools is high. Feinberg School of Medicine provides this challenging education based on ongoing research and the latest developments.

I am happy to congratulate the Feinberg School of Medicine on the 150th anniversary of their founding and ask my colleagues to support this resolution.

Mr. Speaker, I yield such time as she may consume to the gentlelady from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, I rise today also in strong support of House Resolution

1004, a resolution recognizing the 150th anniversary of the Northwestern University Feinberg School of Medicine. I thank the gentleman from Illinois, Congressman DANNY DAVIS, for introducing this resolution.

I am an alumni of Northwestern University School of Law, and I am pleased to see that the School of Medicine is continuing the Northwestern tradition of excellence. As was mentioned, according to U.S. News & World Report, Feinberg is now ranked in the top 20 medical schools in the country. When I attended law school, in the downtown campus was the School of Medicine, the School of Law, and then the business school, which moved out to Evanston. But the complex has grown, certainly in the medical school, since 1859 as the Medical Department of Lind University, then the Feinberg School of Medicine becoming a part of Northwestern University in 1870. People now that would see the complex in Chicago, it is huge and continues to grow and to provide the excellence for education for so many students.

A couple of other notable alumni that went to the school there are Charles Mayo, one of the founders of the Mayo Clinic, which is certainly well known—it's nice to have that distinguished type of graduate from the school—and John Cooper, the first president of the Association of American Medical Colleges. So the illustrious 150-year history of Northwestern University Feinberg School of Medicine is such that we have to commend the administration, the doctors, the faculty, and all that are involved in making the School of Medicine one of the best in the country. I am proud to have gone to the school, and I am proud to support this resolution.

Mr. GUTHRIE. Mr. Speaker, I yield back the balance of my time.

Ms. HIRONO. Mr. Speaker, once again, I congratulate the Feinberg School of Medicine for their leadership in medicine and science and urge my colleagues to support this resolution.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Hawaii (Ms. HIRONO) that the House suspend the rules and agree to the resolution, H. Res. 1004.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Ms. HIRONO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

CONGRATULATING THE DARTMOUTH OUTING CLUB OF HANOVER, NEW HAMPSHIRE

Ms. HIRONO. Mr. Speaker, I move to suspend the rules and agree to the reso-

lution (H. Res. 776) congratulating the Dartmouth Outing Club of Hanover, New Hampshire, for 100 years of service to the United States and its wilderness, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 776

Whereas, December 14, 2009, marks the centennial of the founding of the Dartmouth Outing Club (DOC) at Dartmouth College in Hanover, New Hampshire;

Whereas the DOC, the oldest and largest collegiate outing club in the Nation, was founded by Fred Harris, Dartmouth Class of 1911;

Whereas the DOC has continually promoted environmental stewardship through student leadership;

Whereas the DOC has promoted environmental stewardship by caring for over 100 miles of hiking trails, including over 70 miles of the Appalachian National Scenic Trail from Route 12 in Woodstock, Vermont, to Route 112 in Woodstock, New Hampshire, as well as maintaining cabins and shelters and teaching wilderness skills, sports, and safety to students and community members;

Whereas the DOC is a student-run club and has consistently focused on student leadership by providing students with the opportunity to lead by carrying out projects which have included constructing the Class of '66 Lodge, organizing the largest freshman trips program in the country, and directing sub-clubs that together allow students to learn about, appreciate, and experience the natural environment year-round;

Whereas a division of the DOC which promoted environmental sustainability and conservation has displayed leadership in environmental conservation by testifying before Congress regarding the Alaska National Interests Lands Conservation Act in the spring of 1977;

Whereas the DOC has promoted sustainability by having Dartmouth students buy and re-engineer a passenger bus into the DOC's Big Green Bus, powered by vegetable oil and solar energy;

Whereas, on June 16, 2009, 15 Dartmouth College students began the Big Green Bus' fifth annual cross-country trip, traveling 11,300 miles to promote environmental awareness; and

Whereas throughout 2009, the Dartmouth Outing Club, along with current members and alumni of Dartmouth College, took part in Centennial Celebrations for the organization by participating in a 100-mile hike of Outing Club trails, a Riverfest on the Connecticut River, the 63rd annual Woodsmen's Weekend, and a hike of the entire Appalachian National Scenic Trail from Georgia to Maine by students and alumni simultaneously in different sections: Now, therefore, be it

Resolved, That the House of Representatives congratulates the Dartmouth Outing Club of Hanover, New Hampshire, for 100 years of service to the United States and its wilderness, and commends the Club's ongoing commitment to further environmental stewardship and student leadership.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Hawaii (Ms. HIRONO) and the gentleman from Kentucky (Mr. GUTHRIE) each will control 20 minutes.

The Chair recognizes the gentlewoman from Hawaii.

GENERAL LEAVE

Ms. HIRONO. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on H. Res. 776 into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

Ms. HIRONO. I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H. Res. 776, celebrating the Dartmouth Outing Club of Hanover, New Hampshire, for 100 years of service to the United States and its wilderness.

Dartmouth has a rich history. In his arguments in 1818 to the Supreme Court in the Dartmouth College case, Daniel Webster said: "It is, sir, as I have said, a small college, and yet there are those who love it." Dartmouth is no longer small, yet many continue to admire the important contributions of Dartmouth's faculty, students, and organizations, including those of the Dartmouth Outing Club of Hanover.

Founding in 1809, the club set out to pique students' interest in the vast arctic sports that New Hampshire's winter has to offer. However, by the end of the school year, it had grown to encompass the students' year-round recreational activities. This resolution proudly acknowledges and celebrates the club's century of contributions. These contributions include the establishment of many programs and projects which have provided opportunities for students to learn about, appreciate, and experience their natural environment year round. The club teaches wilderness skills and sports and safety know-how. The Environmental Studies Division of the club also offers lessons in environmental sustainability and conservation.

With over 1,500 student members, the Dartmouth Outing Club of Hanover is the largest collegiate outing club in the Nation. The club organizes trips in the out-of-doors and is also tasked with maintaining over 70 miles of the Appalachian National Scenic Trail.

The club has been a pioneer for environmental sustainability. In the spring of 1977, the club testified before Congress regarding the Alaska Lands Act, which led to the establishment of the Dartmouth Organic Farm. In addition, Dartmouth's Outing Club built a carbon-neutral greenhouse and re-engineered the club's big green bus to run on vegetable oil and solar energy.

This resolution encourages us all to join in the celebration of the Dartmouth Outing Club's 100 years of exemplary service to our Nation's wilderness and the Dartmouth community.

Mr. Speaker, once again, I express my support of H. Res. 776 and urge my colleagues to support this measure.

I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I rise in support of House Resolution 776 and yield myself such time as I may consume.
