 (3) These challenges can be met with the help of comprehensive programs specifically targeted to engage coastal watershed communities, schoolchildren, and the general public to develop engaged and environmentally literate citizens who are better able to understand complex environmental issues, assess risk, evaluate proposed plans, and understand how individual decisions affect the environment at local, regional, national, and global scales.
- (4) The intrinsic social and conservation values of wildlife-dependent and other outdoor recreation can play an important role in out $door \ educational \ programs \ that \ address \ the$ myriad of coastal and ocean concerns, as well as instill a sustainable conservation ethic that will enable them to face those challenges to the betterment of both the environment and coastal communities.
- (b) PURPOSE.—The purpose of this Act is to advance environmental literacy, develop public awareness and appreciation of the economic, social, recreational, and environmental benefits of coastal watersheds, and emphasize stewardship of critical coastal and marine resources, including an understanding of how climate change is impacting those resources, through the establishment of-
- (1) an Environmental Literacy Grant Program; and
- (2) regional programs under the B-WET Proaram.
