

insurance industry. They are doing everything. They are creating ads. They are making contributions. But what they are also doing is producing fake memos that say, "from the Democrats," with something crossed out on top.

But the fact remains here that there is no reluctance to talk about the real CBO score: \$1.2 trillion of savings for the American people. That is the fact. That is nothing we are hiding from.

Mr. GARRETT of New Jersey. Will the gentleman yield?

Mr. WEINER. I will yield if only for the purpose of telling the source of the document.

Mr. GARRETT of New Jersey. Will the gentleman not yield on the facts then?

Mr. WEINER. I asked the gentleman a direct question. Ladies and gentlemen—

Mr. GARRETT of New Jersey. I am responding with a direct answer.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. SPEIER. I yield the gentleman 30 additional seconds.

Mr. WEINER. Ladies and gentlemen, what you saw just now is a microcosm for this debate, a real piece of legislation that for a year we have been working on and a fake document that they won't even give the source for. We are going past that, and we are going to wait until Thursday, I say to my colleague, or Wednesday. We are going to do it when the bill is ready to be passed because we have debated this thing for a long time. We are here to solve the problems of the American people, not quote from fake memos.

Ms. FOXX. Mr. Speaker, I yield 1½ minutes to the gentleman from Georgia (Mr. BROWN).

Mr. BROWN of Georgia. Mr. Speaker, I am going to vote for this bill, but we are embarking upon a history for women that is going to be bleak. My mother died from metastatic breast cancer at age 63. A government panel just recently said women under 50 cannot get a mammogram and women over 50 can only get one every 2 years. This is the kind of rationing of care which is going to be exploded upon the American public.

When a woman walks into an abortion clinic, there are two people who walk in that are alive. When she walks out, there is one dead and one wounded. We are creating more abortions. We are going to support the abortion industry in the Senate bill. The American people need to understand very clearly, the Senate bill that we will be voting on in just a few days is going to promote abortions and it is going to kill unborn children.

We hear a lot of confusion, and we hear a lot of confusion about the CBO. I call the CBO parameters, what was given by them, zombie economics because a person would have to be dead without a soul walking around to believe the parameters that were given to the CBO, and it is just not factual. This

is going to create more debt and it is going to put people out of work. It is going to deny access to care to many people, particularly the poor people and the elderly, and it is going to be disastrous for women because, particularly the constraints on Medicare reimbursement, women expend more of those dollars than anybody else and they are going to be denied care because of it.

Ms. SPEIER. Mr. Speaker, to the gentleman who just spoke, I cannot understand how anyone seated in this Chamber today cannot appreciate the fact that the language from the Senate version of the bill already expands the Hyde language. Under the Senate version of the bill, a woman in the exchange paying for her insurance totally on her own is going to be required now to make out two checks: one for her insurance contribution and one for her abortion services should she ever need them.

Mr. BROWN of Georgia. Will the gentlemanly yield?

Ms. SPEIER. I yield to the gentleman from Georgia.

Mr. BROWN of Georgia. The facts are that the Federal Government will require all insurance policies to get that extra tax. It is not called a tax, but it is an extra tax that is going to be forced upon anybody who pays for insurance, and that tax is going to be what is paying for abortions. So abortions are going to be paid. They are going to be forced on the American people by the Senate bill. And that's just the facts. That's the simple facts of the bill.

Ms. SPEIER. Reclaiming my time, Mr. Speaker, I think it is very important for the American people to appreciate that the Hyde amendment is alive and well in this bill. In fact, it is extended in this bill. Many of us who are concerned about making sure that women have access to the services they need recognize that many of them are not going to access these services now because they are not going to have insurance to cover it.

I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, in closing, I support the underlying bill that we have been talking about, H. Res. 1174, Women's History Month and urge people to vote for it. But I do want to say that Republicans have been maligned, I believe, on the floor today in many, many ways. A majority of Republicans in the House voted for Medicare. Republicans support Medicare and support Social Security. We have never, ever suggested doing away with those programs.

We know that the bill that is being proposed by the Democrats does not control cost, will not improve access, will not improve care for people in this country, and we know that is going to happen. We want to protect the American people. We want to protect their freedom. We do not want to turn our lives over to the government to run not just health care, but everything about our lives.

Mr. Speaker, I yield back the balance of my time.

Ms. SPEIER. Mr. Speaker, again, I urge my colleagues to join me in supporting this resolution recognizing Women's History Month. Let me also suggest that we are all going to go down in history this weekend for the kinds of votes we take. If there ever was an issue on health care that must be addressed and is addressed in this bill, it is gender discrimination. And the dirty little secret in health care is that women have been discriminated against for decades in health insurance.

In fact, a 22-year-old woman, a healthy 22-year-old woman is going to pay 150 percent more for her health insurance than a 22-year-old healthy man. A 40-year-old nonsmoking woman is going to pay more for her health insurance than a 40-year-old male smoker. Those are the kinds of discrimination that continue to exist in health care today that will not exist once we have health care reform.

One in five women over 50 is not getting mammograms today. That will not be the case anymore because every woman in America will have access to those kinds of screenings.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Ms. SPEIER) that the House suspend the rules and agree to the resolution, H. Res. 1174.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. SPEIER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.
