

Mr. Speaker, hopefully we've made it very clear in this debate that the agreement and the settlement of the claims is preferable to litigation when fair resolutions are met. I think most people would agree with that. We certainly do on this side of the aisle. That it is better for those to be worked out at the local level, rather than resorting to expensive lawyer fees and years of fighting. And these bills have had a long time of years of fighting, we know that.

Yet we, as Representatives, owe it to our constituents to make certain that settlements are not being made that overly compensate or benefit one community or locality while ultimately being paid out of the pockets of the taxpayers. Settlements must be fair to claimants, the effected community and to taxpayers. Despite several months of efforts to get a clear, direct answer from the Attorney General on the question of whether these settlements are in the interest of taxpayers, they responded, unfortunately, at the very last minute with a short and vague letter that leaves the question largely unanswered.

These three bills, as I mentioned, Mr. Speaker, spend over \$500 million. Taxpayers deserve a transparent and straightforward reply. Because that has not been forthcoming, as I mentioned, I must oppose all three bills. But, Mr. Speaker, in the future, I would hope that the Democrat majority would be put on notice that we expect to hear directly from the Justice Department on the merits of the proposed settlements while this is being considered in the Natural Resources Committee. With hundreds of millions of dollars being spent, these settlements need to be fully vetted and explained in a fully transparent manner with clear answers from the Justice Department. Until that happens, these types of bills should not be advanced to the House floor, as these three bills were advanced to the House floor.

So with that, Mr. Speaker, I urge a "no" vote on this bill.

I yield back the balance of my time.

Mr. RAHALL. Mr. Speaker, I yield myself the balance of my time.

Let me conclude by noting that in a letter dated January 19 from the Department of the Interior and the Department of Justice, they noted, "Both rancor and uncertainty can have substantial economic consequences. The existence of unquantified water rights claims casts a shadow over all water users in a water basin, as no other water user in the basin can ever be certain when these rights may be used and how this will impact other users." The pending bill solves this problem. It provides badly needed certainty.

And before finally concluding, I would note to my colleagues, and I did not really want to do this for fear of scaring off support from my side of the aisle, but I will note that a third of these bills have a cosponsorship of the gentleman from Arizona (Mr. FLAKE),

not an individual known around here for his prolific spending habits. So I do that, again, with the trepidation of scaring off support from my side of the aisle for the pending measure. I will conclude, Mr. Speaker, by asking all Members to support this measure.

I yield back the balance of my time. The SPEAKER pro tempore. All time for debate on the bill has expired.

The Chair understands that the amendment will not be offered.

Pursuant to House Resolution 1017, the previous question is ordered on the bill, as amended.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. RAHALL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

#### SEC. 205. EFFECT.

The SPEAKER pro tempore. After 1 hour of debate on the bill, as amended, it shall be in order to consider the amendment printed in part B of House Report 111-399 if offered by the gentleman from California (Mr. MCCLINTOCK) or his designee, which shall be considered read, and shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent.

The gentleman from West Virginia (Mr. RAHALL) and the gentleman from Washington (Mr. HASTINGS) each will control 30 minutes.

The Chair recognizes the gentleman from West Virginia.

#### GENERAL LEAVE

Mr. RAHALL. Mr. Speaker, I ask unanimous consent that all Members

may have 5 legislative days in which to revise and extend their remarks and insert extraneous material on H.R. 3342.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from West Virginia?

There was no objection.

Mr. RAHALL. Mr. Speaker, I yield myself such time as I may consume.

We are now proceeding with the second of three bills to implement Indian water rights settlement agreements being considered by this body today. The pending measure, like the previous bill, is sponsored by our colleague BEN RAY LUJÁN of New Mexico and cosponsored by MARTIN HEINRICH of that State.

This legislation would settle the water rights of four pueblos in New Mexico under an agreement with the State of New Mexico, Santa Fe County, the city of Santa Fe, and individual water users. It would end 44 years of active litigation involving over 2,500 defendants by ratifying the settlement agreement and funding a regional water system for all water users in the valley.

The previous bill we considered would end 40 years of litigation. The one we are currently considering would end 44 years of litigation. I would say to my colleagues that today we are making history. The American people want certainty. During these tough economic times, we all want to have certainty in our lives. But for many, a long-year certainty with respect to water has not been the case in the Rio Grande watershed. Today we can provide that certainty.

The pending measure would secure water to meet the current and future needs of the pueblos involved, protect water users that make the region unique, preserve irrigation in the area, and provide water for all the region's residents. As in the case of H.R. 3342, water rights settlements improve water management by providing certainty not just to the quantification of a tribe's water rights but also to the water rights of all users. Certainty provides opportunities for economic development, for Indian and non-Indians alike. Where Indian water rights are unquantified, there is often tension and conflict between tribes and their neighbors. The best settlements, like the ones before us today, replace tension with collaboration, mutual interdependence, and trust.

I commend the team of LUJÁN and HEINRICH for their hard work on this matter. I again would acknowledge the long hours of work that have been put into this measure by the distinguished gentlewoman from California, GRACE NAPOLITANO, in her position as chairwoman for our Subcommittee on Water and Power. She has gone through countless hours of hearings and discussions and meetings on these bills. I thank the four pueblos and their settlement partners for their hard work and dedication.

With that, Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

The arguments that I made on the previous bill are exactly applicable to this bill. So let me simply summarize. To summarize, I believe, and we believe on this side, that settlement agreements are in the best interests for all parties involved. But there is an element that needs to be highlighted because settlement agreements generally at the end cost money, and the missing part of these agreements on these three bills that we are considering today is, What is the cost to the taxpayer?

We need to have transparency when we make that decision, and that decision, unfortunately, was not afforded to us in committee, and at the last minute, it was afforded to us in a very ambiguous way. So it's for that reason, while I support the claims settlements as a general principle, not having all the information, I must oppose this bill, as I did the last bill. And with the next bill coming up, I will say essentially the same thing.

So with that, Mr. Speaker, I reserve the balance of my time.

□ 1115

Mr. RAHALL. Mr. Speaker, I am happy to yield such time as she may consume to the distinguished gentlewoman from California (Mrs. NAPOLITANO), the chairlady of our Water and Power Subcommittee.

Mrs. NAPOLITANO. Thank you, Chairman RAHALL and Ranking Member HASTINGS.

You have heard about the three bills. We are here today on these three pieces of legislation that would settle the water rights of six Native American nations in New Mexico and Arizona. The people on these reservations inhabit the same sacred lands as their fathers, their grandfathers, and many generations before. These three bills would provide them with the water that their ancestors were entitled to but never received.

We often take for granted the most basic of our resources, water. The people of the pueblos and the high country of Arizona never have. They understand the value of water and its importance in their cultures and well-being. Water is the lifeblood of these individuals, and when they were assigned reservations of land, their assumption was that they would also have access to the water they needed to survive. They were not, and hence for the last 140-plus years, these individual Americans have been fighting for the right to this most basic of resources, water. It is time today for us to do something about this for these six native nations.

Mr. Chairman, you mentioned Charlie Dorame in your statement as an example of the type of dedication that has been made for these water rights settlements and the subsequent legislation. Leaders in each tribe and pueblo have invested many decades in trying to acquire water rights that for genera-

tions came without legal restrictions but instead were part of their homeland.

For many years these tribes have been treated as second-class citizens of our great country, America. We have taken their lands. We have taken their resources, and we have even taken their water. But instead of complaining, these pueblos and tribes have worked with the Federal Government and the local governments to legally, and I might add very costly, attempt to acquire access to something that always has been part of their lives, water.

Members of these tribes across the country today continue to work to support their sovereign nations. They work with the States and work with the local partners who see the benefit of the settlement not just for the tribal communities but for the entire region.

Mr. Speaker, I would like to say that I have Colorado River Water Users Association's 2010 resolutions, the Western States Water Council, and the National Congress of American Indians here in support of this legislation, people looking for local and regional solutions, just as we have been directing them to do.

Mr. Speaker, I have brought with me these resolutions so we can understand that they have wide support, not only from the Native American areas but also from their neighbors and their friends within the area. Each of these organizations supports the settlement of Indian reserved water rights by negotiation or agreement. They realize in order to plan for the future and for their economy, we need to provide certainty to a basic human right, water.

These resolutions are consistent with the administration's views of supporting collaborative negotiations as an inherent responsibility to Federal trustees to Indian tribes and their members. Most importantly, we can not, we must not forget that we are talking about Americans, Native Americans, human beings. These tribes and pueblos have done everything that we have asked of them and have taken the long walk to walk with the Federal Government's legal restraints and now are in sight of securing for their people a basic human right, water.

After decades, these people have made huge efforts to play by the government rules to acquire rightful access to water that traditionally came with the land that they lived on. The price for these people has been high, the walk long and filled with many disappointments and many empty promises.

I ask that you support this legislation today. Support it because these Native Americans have followed all of the rules, procedures, and hurdles that our government has laid out. Support the legislation because it is the right thing to do and because it is supported by all local community and regional water managers; and, most importantly, because it is time to provide

certainty to the tribes and the pueblos and the people of New Mexico and Arizona that we can do right by them. At the end of the day for this one precious resource, water, we can sit down and appreciate doing the right thing for them.

Water, Mr. Speaker, which you are drinking, is running short in the U.S. We need to preserve it and take care of it, and none other more than our Native Americans love the Earth and what Mother Nature gives us. Help us pass this bill.

2010 RESOLUTIONS ADOPTED BY THE RESOLUTIONS COMMITTEE OF THE COLORADO RIVER WATER USERS ASSOCIATION, DECEMBER 9, 2009

\* \* \* \* \*

\* \* \* production. The federal government should pay for replacement power due to operational changes for recreation, fishery or the environment.

5. Reclamation-constructed and maintained water storage and conveyance systems situated throughout the Colorado River Basin are critically important to the economies, the quality of life and the survival of the people who depend upon waters from the Basin. In order to avoid huge financial impacts associated with performing maintenance that was deferred or making future repairs on an emergency basis, Congress should recognize and appropriate requisite funding to maintain aging, critically important water project infrastructure in the Colorado River Basin and across the West.

6. Reclamation should immediately commence and fully implement the measures identified in its Managing for Excellence action plan, issued in response to the National Research Council's Managing Construction and Infrastructure in the 21st Century Bureau of Reclamation report, including transfer of operation and maintenance responsibility to project sponsors when they are capable and willing to take over such responsibility.

RESOLUTION NO. 2010-4—COLORADO RIVER SALINITY CONTROL

The CRWUA urges continued funding and implementation of measures to control the salinity of the Colorado River. The Administration should request and Congress should provide sufficient funding for the Colorado River Basin Salinity Control Program.

RESOLUTION NO. 2010-5—SETTLEMENT OF INDIAN RESERVED RIGHTS

The CRWUA supports the settlement of Indian reserved water rights by negotiation or agreement, recognizing that:

1. Settlements should result in the least possible disruption of existing water uses and the economies based on those uses, while at the same time providing the affected tribes with the firm water supplies required to meet the long-term needs of the reservation inhabitants and to establish lasting tribal economies.

2. The achievement of these objectives requires federally funded water projects designed to ensure that all of the tribal water needs in the subject basin or watershed are met.

3. Appropriate participation of the Federal, State, local governmental and Tribal entities, and non-Indian water users in the settlement process is required for the success of any negotiated settlement.

4. Any water rights settlements that have been approved by the respective parties should be immediately and fully funded to implement their terms within the specified timeframes. The Federal Government must

take advantage of existing funding authorizations, such as Title VI, Emergency Fund for Indian Safety and Health, of P.L. 110-293, by complying in a timely manner with Congressional mandates and budgeting funds, while continuing to explore and develop new creative solutions to fund Indian water rights settlements.

RESOLUTION OF THE WESTERN STATES WATER COUNCIL IN SUPPORT OF INDIAN WATER RIGHTS SETTLEMENTS, OCTOBER 17, 2008

WHEREAS, the Western States Water Council, an organization of eighteen western states, and adjunct to the Western Governors' Association has consistently supported negotiated settlement of Indian water rights disputes; and

WHEREAS, the public interest and sound public policy require the resolution of Indian water rights claims in a manner that is least disruptive to existing uses of water; and

WHEREAS, negotiated quantification of Indian water rights claims is a highly desirable process which can achieve quantifications fairly, efficiently, and with the least cost; and

WHEREAS, the advantages of negotiated settlements include: (i) the ability to be flexible and to tailor solutions to the unique circumstances of each situation; (ii) the ability to promote conservation and sound water management practices; and (iii) the ability to establish the basis for cooperative partnerships between Indian and non-Indian communities; and

WHEREAS, the successful resolution of certain claims may require "physical solutions," such as development of federal water projects and improved water delivery and application techniques; and

WHEREAS, the United States has developed many major water projects that compete for use of waters claimed by Indians and non-Indians, and has a responsibility to both to assist in resolving such conflicts; and

WHEREAS, the settlement of Native American water claims, and land claims, is one of the most important aspects of the United States' trust obligation to Native Americans and is of vital importance to the country as a whole; and

WHEREAS, current budgetary policy makes it difficult for the Administration, the states and the tribes to negotiate settlements knowing that the settlements may not be funded because funding must be offset by a corresponding reduction in some other tribe or essential Interior Department program.

NOW, THEREFORE, BE IT RESOLVED, that the Western States Water Council reiterates its support for the policy of encouraging negotiated settlements of Indian water rights disputes as the best solution to a critical problem that affects almost all of the Western States; and

BE IT FURTHER RESOLVED, that the Western States Water Council urges the Administration to support its stated policy in favor of Indian land and water settlements with a strong fiscal commitment for meaningful federal contributions to these settlements that recognizes the trust obligations of the United States government; and

BE IT FURTHER RESOLVED, that Congress should explore opportunities to provide funding for the Bureau of Reclamation to undertake project construction related to settlements from revenues accruing to the Reclamation Fund, recognizing the existence of other legitimate needs that may be financed by these reserves.

BE IT FURTHER RESOLVED, that steps be taken to change current budgetary policy to ensure that any land or water settlement, once authorized by the Congress and ap-

proved by the President, will be funded without a corresponding offset to some other tribe or essential Interior Department program.

THE NATIONAL CONGRESS OF AMERICAN INDIANS RESOLUTION NO. DEN-07-069—USE OF THE RECLAMATION FUND FOR INDIAN WATER RIGHTS SETTLEMENTS

WHEREAS, we, the members of the National Congress of American Indians of the United States, invoking the divine blessing of the Creator upon our efforts and purposes, in order to preserve for ourselves and our descendants the inherent sovereign rights of our Indian nations, rights secured under Indian treaties and agreements with the United States, and all other rights and benefits to which we are entitled under the laws and Constitution of the United States, to enlighten the public toward a better understanding of the Indian people, to preserve Indian cultural values, and otherwise promote the health, safety and welfare of the Indian people, do hereby establish and submit the following resolution; and

WHEREAS, the National Congress of American Indians (NCAI) was established in 1944 and is the oldest and largest national organization of American Indian and Alaska Native tribal governments; and

WHEREAS, the settlement of Indian water rights claims is one of the most important aspects of the United States' trust obligations to Native Americans and is of vital importance to the country as a whole; and

WHEREAS, despite the Department of the Interior's (DOI's) long-standing policy favoring the settlement of Indian water rights claims, the Administration has taken an increasingly narrow and restrictive view of its responsibility to fund Indian water rights settlements; and

WHEREAS, under current budgetary policy of the Administration, funding of Indian water rights settlements must be offset by a corresponding reduction in some other discretionary component of the DOI's budget, putting Indian tribes in the untenable position of having to seek funding of these settlements at the expense of some other tribe or essential DOI program; and

WHEREAS, there are currently three Indian water rights settlements affecting six tribes already signed and completed in New Mexico for which federal funding is necessary, including the Aamodt settlement, to which the Pueblo of Tesuque is a signatory; and

WHEREAS, nationwide many other tribes are working on water settlements for which federal funding is necessary; and

WHEREAS, under the Reclamation Act of June 17, 1902, the Reclamation Fund was envisioned as the principal source of funds to finance water development in the seventeen western states, with revenues accruing from project water and power sales, project repayments and receipts from public land sales, federal oil and mineral-related royalties, and other related sources; and

WHEREAS, the unobligated balance in the Reclamation Fund has grown annually in recent years and should serve as a source of funding for Indian water rights settlements.

NOW THEREFORE BE IT RESOLVED, that the NCAI does hereby support the policy of encouraging negotiated settlements of Indian water rights disputes as the best solution to a critical problem that affects almost all of the western states of the United States; and

BE IT FURTHER RESOLVED, that the NCAI urges the Administration to support its stated policy in favor of Indian water rights settlements with a strong fiscal commitment for meaningful federal contributions to these settlements that recognizes

the trust obligations of the United States government; and

BE IT FURTHER RESOLVED, that the NCAI supports changing the current budgetary policy to ensure that any Indian water rights settlement, once authorized by the Congress and approved by the President, will be funded without a corresponding offset to some other tribe or essential DOI program; and

BE IT FURTHER RESOLVED, that the NCAI supports allocation of sources of revenue for the Reclamation Fund to be used to fund Indian water rights settlements and respectfully requests that Congress and the Administration support allocation of monies from the Reclamation Fund or sources paid into it to fund Indian water rights settlements; and

BE IT FURTHER RESOLVED, that the NCAI commits to advocate to the Administration, including the Office of Management and Budget, and Congress that the Reclamation Fund be used to fund Indian water rights settlements; and

BE IT FURTHER RESOLVED, that within four months the NCAI will convene a special water rights meeting with affected tribes and invite key federal agencies to participate. After the initial meeting, NCAI will convene a special water rights meeting at least annually, and report progress to tribal leaders on this resolution at every regular meeting; and

BE IT FINALLY RESOLVED, that this resolution shall be the policy of NCAI until it is withdrawn or modified by subsequent resolution.

Mr. HASTINGS of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, it is my pleasure to yield to the lead sponsor of this legislation, Mr. BEN RAY LUJÁN.

Mr. LUJÁN. Mr. Speaker, I rise today in support of H.R. 3342, the Aamodt Litigation Settlement Act. Before I begin, I would like to thank my colleagues on the Resource Committee: Chairman RAHALL; Chairwoman Napolitano; my colleague from New Mexico, Mr. HEINRICH; and Ranking Member HASTINGS.

I also want to thank the Tesuque Acequia Association; David Ortiz and the Rio Pojoaque Acequia and Well Water Association; D.L. Sanders and the office of the New Mexico State Engineer; Santa Fe County, the city of Santa Fe; and the tribal leaders from Nambe, Pojoaque, Tesuque and San Ildefonso. Thank you for your hard work over the past decade to reach these settlements.

The testimony of the settlement parties and tough negotiations and debate has made the consideration of these bills possible today. The parties to this settlement have worked for a very long time to come up with solutions that are equitable and fair to all water users in the Pojoaque Valley, including tribal and non-tribal residents alike.

Our water resources are precious in New Mexico. Without a reliable water supply, we cannot improve human health, protect our cultures and traditions, or grow our economies. This settlement will protect water resources, advance the implementation of effective water management, and ensure future access to water resources for all

residents encompassed by the settlement. That is what makes H.R. 3342, the Aamodt Litigation Settlement Act of 2009, so important.

I would like to submit for the RECORD letters I have received from the State of New Mexico, the County of Santa Fe, the Rio Pojoaque Acequia and Well Water Association, the Tesuque Acequia Association and others who have asked Congress to take a serious look at the importance of approving these settlements because this piece of legislation is so vital to the prolonged existence of culture and agriculture in my district.

It has taken over 40 years, countless court proceedings, congressional hearings and mediations before this bill arrived at this point. The people of the Pojoaque Valley and surrounding communities have debated and negotiated this water settlement since the 1960s. Parties have informed me, Mr. Speaker, if legislative action does not move forward, the Federal Court is prepared to resume legal proceedings on the underlying Aamodt lawsuit. This litigation would have dire effects upon all non-water rights holders in the basin and incur tremendous court costs and legal fees on American taxpayers. The cost to the government of continued litigation would, and probably will, exceed the cost of the settlement itself.

We heard today, Mr. Speaker, that we did hear from the Attorney General's office saying that they did prefer this course of action to litigation. Senators BINGAMAN and UDALL of New Mexico introduced legislation in the 110th Congress to enshrine this settlement and conducted hearings before the House Resources Committee and the Senate Committee on Indian Affairs. In the 111th Congress, New Mexico's Senators and I reintroduced this bill with my colleague, MARTIN HEINRICH from New Mexico, with improved revisions that took the considerations of the settlement parties into account; and in doing so, we improved the settlement.

In September, additional hearings were held on this bill, and H.R. 3254 was supported at markup in the Natural Resources Committee by unanimous and bipartisan support. This settlement is about people and the quality of life in small rural communities. The future of this community depends on the availability and dependability of a water supply. This settlement ensures just that.

Rather than continuing a course of costly litigation that could tear a community apart, I ask my colleagues to join me in voting to enact these settlements. Thank you again for the leadership to the members of the Subcommittee on Water and Power and the members of the Natural Resources Committee for their support.

You know, Mr. Speaker, as we talk about water settlements going forward, I know that Democrats and Republicans from this side of the aisle and from the other side of the aisle, we all

have the honor of representing constituencies that include Native Americans and tribal communities. In New Mexico there was a school project. They asked the kids to draw pictures where they get their water from. Most kids in school districts across New Mexico drew pictures of water faucets going into water bottles, things of that nature. There were children from Native American communities who drew pictures of their mother and fathers, brothers and sisters carrying water jugs to get water into their homes. They drew pictures of their fathers driving pickup trucks with large water containers like you would to provide water to animals out on the range.

I hope we don't lose sight, Mr. Speaker, of the fact that water is a very precious resource and there are still many people across this great Nation of ours who don't have access to it.

COUNTY OF SANTA FE,  
STATE OF NEW MEXICO,  
Santa Fe, NM, January 14, 2010.

Re Support for Aamodt Litigation Settlement Legislation.

Hon. BEN RAY LUJÁN,  
Andrew Jones, Legislative Director, Cannon  
House Office Bldg., House of Representatives,  
Washington, DC.

DEAR CONGRESSMAN LUJÁN: On behalf of Santa Fe County, I want to affirm the County's strong support for the Aamodt Litigation Settlement Act (H.R. 3342). Santa Fe County expresses its great appreciation to you for your continued support of the settlement and urges your help in securing passage of this very important legislation.

As I testified this past session before the House Subcommittee on Water and Power, the settlement will achieve a fair and equitable resolution of the difficult and entrenched water disputes that have plagued the Pojoaque Valley for so many years. Rather than defining winners and losers, the settlement protects existing uses and allows for future growth by careful management of available water resources. At the same time, it recognizes and safeguards time immemorial and senior use priorities of Pueblos and early Spanish acequias. The settlement also creates a reliable supply to more recent domestic and commercial uses, and is flexible enough to account for changing uses in the future. Without settlement, I am certain valley residents will be subjected to intractable and divisive litigation for many years, fostering regional conflict and leaving junior water users at great risk of curtailment.

Also, as I have previously testified, I recognize that some of my non-Pueblo constituents continue to be dissatisfied with the settlement. Consequently, the County will be conducting a series of community outreach and settlement focus meetings in the coming months. We will do this even if the legislation is first enacted into law. The County has contracted with the adjudication ombudsman program at the University of New Mexico to facilitate the community outreach program. The purpose of the meetings will be to hear public concerns and to provide information about the settlement. Ultimately, the settlement must be accepted by the community to succeed.

On behalf of Santa Fe County, I greatly appreciate your help with this matter.

Sincerely,

HARRY B. MONTOYA,  
Santa Fe County Commissioner.

RIO DE TESUQUE ACEQUIA ASSOCIATION,

*Santa Fe, NM, January 18, 2010.*

DEAR CONGRESSMEN LUJÁN, TEAGUE AND HEINRICH: As president of the board of directors of the Rio De Tesuque Acequia Association, I have been asked to reiterate our support for the proposed settlement agreement of the long standing Aamodt water rights litigation, as per H.R. 3342.

We represent 5 acequias and over 150 irrigation users (parciantes). We have worked with our neighbors at the Tesuque Pueblo for several decades now and we all feel that the settlement represents a good solution for both parties.

The settlement assures all parties a good and reliable water supply for both the acequias and the domestic users. As irrigators, we know the importance of this and know that we cannot be serious about agriculture unless we know we have a reliable source of water.

We appreciate your support and look forward to your vote in support of legislation that will enable the settlement.

Sincerely,

MARGO CUTLER,  
*President.*

Re H.R. 3342, The Aamodt Litigation Settlement Act.

Hon. BEN RAY LUJÁN,  
*Cannon House Office Building,  
Washington, DC.*

DEAR REPRESENTATIVE LUJÁN: I write in strong support of H.R. 3342, The Aamodt Litigation Settlement Act. As you know, my Administration has been instrumental in bringing the interested parties together to reach a settlement and potential closure to this matter. I have witnessed the extraordinary effort that all of the parties have exerted to successfully resolve some of the most contentious issues related to the Aamodt litigation. The parties' commitment to resolution is commendable and should be recognized. Should Congress not pass this Act, it will not only be disappointing to all involved but could also open all of the parties up to more litigation and costly delay.

For its part, New Mexico stands ready to meet its obligations under any settlement. Through legislation that I supported and ultimately signed into law, the State has already committed in statute \$1.0 million in bonding authority as part of the State's share of any settlement. As such, the State is ready to assist in the implementation of any settlement achieved through the passage of H.R. 3342.

Passage of this bill would not only end more than forty years of contentious litigation, but would render a conclusion that is amendable to many. I urge you and your colleagues to pass H.R. 332 and I offer any support that you may need to achieve this worthy goal.

Sincerely,

BILL RICHARDSON,  
*Governor.*

RIO POJOAQUE ACEQUIA  
AND WATER WELL USERS ASSOCIATION,  
*January 14, 2010.*

Hon. BEN RAY LUJÁN,  
*Attention Andrew Jones, Legislative Director,  
House of Representatives, Washington, DC.*

DEAR REPRESENTATIVE LUJÁN: On behalf of the Rio Pojoaque Acequia and Water Well Users Association, I am writing to you to reiterate our strong support for the Aamodt Litigation Settlement Act (H.R. 3342), legislation you introduced in July 2009 and favorably reported by the Committee on Natural Resources on January 12, 2010.

I understand the House of Representatives will consider this important legislation when

it resumes legislative business during the week of January 18, 2010. As you know well, this legislation would ratify the settlement of a Federal lawsuit that was filed in 1966. The settlement itself subject to years of intense negotiations by the State of New Mexico, the City and County of Santa Fe, the Pueblos of Nambe, Pojoaque, San Ildefonso, and Tesuque and others and was signed by these parties in 2006.

In addition to resolving the water claims of the Four Pueblos and providing certainty in terms of long-term water supplies in the region, the centerpiece of H.R. 3342 is the construction of a regional water system that will provide water for residential, municipal, agricultural, and business uses and will serve the Pueblo and non-Pueblo residents in the Pojoaque Basin. I feel compelled to remind you that in the absence of congressional action on H.R. 3342, the parties would return to court and, given the priority of the Pueblos' water rights, the resulting ruling would likely be far more detrimental to the other water users in the Basin.

Thank you for your commitment to settling the Aamodt litigation and your strong support for the citizens of the Pojoaque Basin.

Sincerely,

MEADE P. MARTIN,  
*Vice President, Rio Pojoaque Acequia  
and Water Well Users Association.*

Hon. BEN RAY LUJÁN,

House of Representatives, Washington, DC.*

DEAR REPRESENTATIVE LUJÁN: On behalf of the 18 acequia associations and over 700 water users that comprise the Pojoaque Valley Irrigation District, I am writing to you to reiterate our strong support for the Aamodt Litigation Settlement Act (H.R. 3342), legislation you introduced in July 2009 and favorably reported by the Committee on Natural Resources on January 12, 2010.

I understand the House of Representatives will consider this important legislation when it resumes legislative business during the week of January 18, 2010. *Chairman,  
Pojoaque Valley Irrigation.*

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the issue that we are debating here is not the settlement claims per se. I think we all in this House agree that if you can get agreement with parties involved in litigation and come to agreement amongst them, that is good policy. That has very well been explained by my friends on the other side of the aisle. But what is at issue here is the third part, and that is: Is this claim going to be beneficial to the taxpayers by not costing the taxpayers more than if they went through litigation? That is what the issue is. It is very clear.

Now, the gentleman from New Mexico just a moment ago said something to the effect that this would save the taxpayers money by not going through litigation. I would like to ask the gentleman, and I will yield to the gentleman if he can provide me documents as to that fact. I would be more than happy to yield to the gentleman if he can provide that to me.

Mr. LUJÁN. I appreciate the ranking member from the Natural Resources Committee yielding to me.

Mr. Speaker, what we have here is clear language on the dockets of the State of New Mexico that has been expressed by many of the parties which encouraged them to go to litigation, that very much do hold—that senior water rights holders in the State of New Mexico, which these tribal communities are, do hold senior water rights.

Mr. HASTINGS of Washington. Reclaiming my time, Mr. Speaker, the question I asked the gentleman was about a statement that he made that it would be more costly to go through litigation than to settlement. I asked the gentleman very specifically if he has documentation to that effect. And so I hope that the gentleman would respond to me on that point because that is the difference in this debate on this bill and the last bill.

I would be more than happy to yield to the gentleman if he has that documentation.

Mr. LUJÁN. Mr. Speaker, as we are talking about the importance of how we can achieve cost savings to taxpayers across the country, it is important that we understand the laws and the protections that are held to those individuals that are senior water rights users, which clearly is the reason why so many people could be impacted. And as litigation continues, the cost of litigation adds additional cost to the taxpayers of the country.

Mr. HASTINGS of Washington. Mr. Speaker, I want to interrupt.

Do you have documentation to that point? We asked the Department of Justice specifically on that point, and they have not responded. Do you have documentation on that point? Listen, if this saves the taxpayer money, I am totally in favor of it. All we are asking is for that documentation. If the gentleman has it, please provide it. Does the gentleman have it?

I yield to the gentleman from New Mexico.

Mr. LUJÁN. Mr. Speaker, it is clear that I don't have the response that my ranking member colleague may be looking for. But his counsel may inform him as well as our counsel has informed us that some of that documentation is not public record at this time. With that, I tried to answer the question, but I apologize to the ranking member that we are not able to provide the answer that the ranking member may be looking for.

Mr. HASTINGS of Washington. Reclaiming my time, Mr. Speaker, I just want to emphasize, this is the core point. The gentleman just said he doesn't have it, and yet we are being asked here, Members of the U.S. House, representing everybody in this country, taxpayers who may not be involved with this, to pass judgment and support this settlement agreement when we don't know if the cost is beneficial or not. That's the issue.

I would hope, as I said in my closing remarks on the first bill, when we have future settlements coming forward we can have this information, full transparency, Mr. Speaker, in committee so we don't have to go through this drill on the floor and go back and forth and then unfortunately have somebody say we don't have this documentation.

Mr. Speaker, that's the issue here. We are not arguing about the benefits of the claims. I am sure that they are very good. There have been long negotiations.

Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, I am happy once again to yield such time as he may consume to the cosponsor of this litigation, the gentleman from New Mexico (Mr. HEINRICH).

Mr. HEINRICH. Mr. Speaker, I am very pleased to stand in solidarity with my colleague, Representative BEN RAY LUJÁN, in bringing this very challenging chapter in New Mexico history to a close. I also want to thank Chairman RAHALL and Chairwoman Napolitano for their support of this settlement.

The Aamodt water rights litigation is literally the oldest active case in our Nation's Federal Court, literally older than myself and my colleague. Since 1966, these communities have waited for a resolution to this case. The bill here before us represents the culmination of decades of hard work and difficult compromise by the effective stakeholders to negotiate an agreement that meets each community's long-term needs.

□ 1130

During the committee hearings we heard from representatives of local, State, and Pueblo governments. And I want to commend each of them for their enduring efforts to achieve this settlement.

The Aamodt water settlement will enable the Secretary of Interior, through the Bureau of Reclamation, to create a long-awaited regional water

system. That system will be jointly operated by Santa Fe County, along with the four northern New Mexico Pueblos, and provide a great deal of certainty to all Rio Grande water users. Sixty percent of its capacity will deliver water to the Pueblos, 40 percent will go to the county water utility.

This legislation has been a generation or more in the making, and I look forward to its long-awaited contribution to the well-being of the Pueblos and the future of the entire State of New Mexico.

I would urge my colleagues' support.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from California (Mr. DANIEL E. LUNGREN).

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, I rise in support of the idea of transparency in this and in all things. I think that some observers may not appreciate the issues that are before us when we are dealing with Indian rights, whether it is settlement or something else, because of the unique situation of Native Americans in the United States and how the relationship that we have with the Indian Nations is as a result directly of the Constitution of the United States.

Often it is good for us to remind ourselves of the first principles involved when we are dealing with these issues. And therefore, Mr. Speaker, I would like to also mention that today, in a blow for freedom, in a tremendous action of a return to first principles under the Constitution, the United States Supreme Court finally got it right. The United States Supreme Court, in the case of *Citizens United v. Federal Election Commission*, finally focused on the first amendment and talked about the essence of the first amendment being political speech.

We have been distracted so often in other decisions by the Court that they have lost in many times their focus on the fact that the first amendment is in essence a protection of our political speech. And today they overruled a previous case where they had wandered from that. They said to us that Congress cannot in fact make choices between preferred speakers and nonpreferred speakers, preferred organizations and nonpreferred organizations.

And here is one of the kernels of truth contained in today's majority opinion. "Political speech is so ingrained in this country's culture that speakers find ways around campaign finance laws." That oftentimes in this body we, in the effort to try and cleanse the political system from the possibility of people who might take undue advantage of it, render political speech to the sidelines. And the Court has said the people are smarter than that. They can get around that, and therefore we ought to attempt to allow the full flowering of political speech.

The Court also said this. "Rapid changes to technology—and the creative dynamic inherent in the concept of free expression—counsel against up-

holding a law that restricts political speech in certain media or by certain speakers." This is a great day, Mr. Speaker. This is a great day. The Court said, "Differential treatment of media corporations and other corporations cannot be squared with the first amendment, and there is no support for the view that the amendment's original meaning would permit suppressing media corporations' political speech."

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HASTINGS of Washington. I yield the gentleman an additional 30 seconds.

Mr. DANIEL E. LUNGREN of California. It is said that their previous decision in Austin allows "censorship that is vast in its reach, suppressing the speech of both for-profit and non-profit, both small and large, corporations."

Earlier this week the people of Massachusetts reminded us that here the people prevail, that the Constitution starts with the words, "We, the people." That despite what the pundits say, despite what special interests say, the people prevail. Today the Supreme Court said the people can speak. It is a great day.

Mr. RAHALL. Mr. Speaker, I have no further requests for time, and I am prepared to yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, if I understand, the gentleman will be the last speaker. I know my friend Mr. MCCLINTOCK is not going to offer his amendment. So I will close and I will yield myself the balance of the time by simply saying, Mr. Speaker, that the issue here is not the benefits of these settlements. We think those settlements are good. The one element that we have a question on is what is the cost to the taxpayer? I think that is a very, very legitimate issue for us in the U.S. House to consider.

So with that reason, as I mentioned earlier, I have to reluctantly oppose all three of these bills. And I would hope in the future at the committee level we can have this full transparency on future settlements that we will inevitably have in this Congress.

With that, Mr. Speaker, I urge my colleagues to vote "no" on this bill, and I yield back the balance of my time.

Mr. RAHALL. Mr. Speaker, just to conclude and reiterate what I have already said, that 44 years of litigation is far too long, 40 years of litigation is far too long. We all know the tremendous costs involved in litigation to the Federal taxpayer, the amount of salaries paid to judges, lawyers. We could go on and on about the costs that the taxpayer ends up bearing over some 44 years of litigation, longer time period than Moses spent in the desert. So with that, I would say that this bill is certainly economical to the American taxpayers, and I would urge its passage.

I yield back the balance of my time.  
The SPEAKER pro tempore. All time for debate on the bill has expired.

The Chair understands that the amendment will not be offered.

Pursuant to House Resolution 1017, the previous question is ordered on the bill, as amended.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. RAHALL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.
