

In closing, I want to commend the Hoh Tribe and tribal council, Chairwoman Maria Lopez, and Alexis Berry, the executive director, for their vision, their steadfastness of purpose, and their sustained effort to fix a serious problem. You have done a remarkable job of doing your part to solve the very difficult problem that you face. Now it is up to the House to pass this legislation so it can soon be signed into law.

I appreciate the gentlewoman yielding me time today. This is an important issue in my district, and I appreciate the bipartisan cooperation that we have received on this bill.

Mr. CONYERS. Madam Speaker, I rise tonight in support of the "Hoh Indian Tribe Safe Homelands Act." This act declares that 37 acres of land within Olympic National Park is held in trust by the United States for the benefit of the Hoh Indian Tribe, a federally recognized tribe.

The Hoh Tribe has demonstrated a compelling need to add lands to its existing Reservation to provide a safe area in which to construct housing and other facilities for its members. The present reservation area is in a tsunami zone and prone to major flooding. Additionally, Federal agencies such as the Bureau of Indian Affairs, the Department of Housing and Urban Development, and the Federal Emergency Management Agency have limited authority to assist the tribe with housing and other improvements and services due to the dangerous and unsustainable location of the reservation.

I applaud Chairman RAHALL for his diligence in transferring this land to the Hoh Indian Tribe to enable them to live with a sense of stability and without fear of flooding.

I encourage my colleagues to support the bill.

Mr. CHAFFETZ. Madam Speaker, I again urge passage of this important bill and support its passage.

I have no further requests for time, and I yield back the balance of my time.

Ms. BORDALLO. Madam Speaker, I again urge Members to support this bill.

I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 1061, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Ms. BORDALLO. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

HONORING THE LIFE OF JACQUES-YVES COUSTEAU

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and agree to the

resolution (H. Res. 518) honoring the life of Jacques-Yves Cousteau, explorer, researcher, and pioneer in the field of marine conservation, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 518

Whereas Jacques-Yves Cousteau was born on June 11, 1910, in Saint-Andre-de-Cubzac, France, to Daniel and Elizabeth Cousteau;

Whereas Jacques-Yves Cousteau in 1930, after having made his preparatory studies at the College Stanislas in Paris, entered the Naval Academy in Brest and became an officer gunner;

Whereas after serving in the French Army during World War II, he was decorated with the Legion of Honor, France's highest honor;

Whereas in 1950, Jacques-Yves Cousteau founded the French Oceanographic Campaigns (COF), and he leased a ship called Calypso and equipped her as a mobile laboratory for field research and as a support base for diving and filming where he traversed the most interesting seas of the planet as well as big and small rivers;

Whereas from 1952 to 1953, Jacques-Yves Cousteau took the Calypso to the Red Sea and shot the first color footage ever taken at a depth of 150 feet, for a documentary titled "The Silent World";

Whereas "The Silent World" was filmed using ground-breaking skin-diving gear that Cousteau invented with engineer Emile Gagnan in 1943, freeing divers from heavy helmets and allowing them to be free and weightless as if in space;

Whereas in 1956, "The Silent World" won the top award at the Cannes Film Festival and the Academy Award for Best Documentary Feature in the United States;

Whereas in 1973, Jacques-Yves Cousteau created the Cousteau Society for the Protection of Ocean Life;

Whereas in 1977, Jacques-Yves Cousteau was awarded the United Nations International Environment prize for outstanding contributions in environmental advocacy;

Whereas in 1977, the "Cousteau Odyssey" series premiered on PBS, and seven years later, the "Cousteau Amazon" series made its television premiere;

Whereas in 1985, in honor of his achievements, Jacques-Yves Cousteau received the Grand Croix dans l'Ordre National du Mérite from the French government and the United States Presidential Medal of Freedom from President Ronald Reagan;

Whereas throughout all of his voyages, Jacques-Yves Cousteau produced over 120 films and authored or contributed to roughly 50 books; and

Whereas Jacques-Yves Cousteau passed away in Paris on June 25, 1997, after spending a lifetime of 87 years inventing, exploring, and storytelling; Now, therefore, be it

Resolved, That the House of Representatives honors the life, achievements, and distinguished career of Jacques-Yves Cousteau, explorer, researcher, and pioneer in the field of marine conservation.

The SPEAKER pro tempore (Mr. SALAZAR). Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Utah (Mr. CHAFFETZ) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members

may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of House Resolution 518. It's a resolution to honor the life and achievements of Jacques-Yves Cousteau, introduced by my good friend from Florida, ILEANA ROS-LEHTINEN.

Mr. Cousteau spent his lifetime as a researcher, explorer, and pioneer in the field of marine conservation. He produced more than 120 films, wrote more than 50 books, and was the first diver to take color footage at a depth over 150 feet. Mr. Cousteau's work brought the colorful, exotic, and unknown world of undersea life to the homes of people around the world and, in doing so, sparked a generation of conservation-minded ocean activists.

The Cousteau Society for the Protection of Ocean Life, founded by Cousteau in 1973, today boasts more than 360,000 members globally. House Resolution 518 would officially honor the brilliant and inspirational work of Jacques-Yves Cousteau and recognize his invaluable contributions to our understanding of the world's oceans. It is most fitting that we honor him today, Mr. Speaker, because today is World Oceans Day.

With that, I ask Members on both sides of the aisle to support the passage of this resolution.

I reserve the balance of my time.

Mr. CHAFFETZ. Mr. Speaker, I yield such time as she may consume to the author of this legislation, the gentlewoman from Florida (Ms. ROS-LEHTINEN).

Ms. ROS-LEHTINEN. Mr. Speaker, I thank my good friend, the gentleman from Utah, Congressman CHAFFETZ, for yielding me the time.

Mr. Speaker, as the author of House Resolution 518, I would like to also thank the Natural Resources Committee ranking member, Congressman DOC HASTINGS, as well as Chairman NICK RAHALL for their support and their assistance in moving this resolution to the floor today. Today is World Oceans Day.

I would also like to recognize the bipartisan support by members of the Natural Resources Committee, including Oceans Subcommittee chair MAD-ELINE BORDALLO. Thank you very much, Madam Chair, and Congresswoman LOIS CAPPS of California.

Later this evening, Mr. Speaker, Congresswoman CAPPS and I will be honored by the National Marine Sanctuary Foundation for our work on ocean issues, namely, coastal restoration and coral reef rehabilitation. Of course, we take inspiration from the extraordinary life and career of Captain Jacques-Yves Cousteau.

Captain Cousteau was a pioneering explorer of the seas and of the many environmental issues that we face today. When explaining his relentless passion for ocean exploration and conservation, he said, "People protect what they love."

My congressional district, Mr. Speaker, includes the Florida Keys National Marine Sanctuary, one of the largest coral reef tracts in the world, countless species of fish and wildlife, and three national parks.

Today, countless small business owners and their families are fighting to protect the ecosystem and the way of life that they hold dear. For 50 days, crude oil from the Deepwater Horizon oil rig has spewed 40 million gallons of oil in the Gulf of Mexico, resulting in the worst environmental disaster in American history.

According to recent analysis by the University of Central Florida, the oil rig disaster will cost Florida's economy \$2.2 billion and 39,000 jobs in the tourism and fishing industry. I am certain that Captain Cousteau would be horrified by BP's nonchalance in responding to this crisis.

My constituents in the beautiful Florida Keys are particularly frustrated and angry at the lack of transparency and lag response times by BP. BP must work on all fronts at once. It is responsible for capping the leak to prevent more oil from gushing into the gulf, and it must provide the financial support to those individuals whose livelihoods have been devastated.

□ 1445

BP and the Coast Guard must also make a stronger effort at coordinating with our local governments, especially in the Keys, and utilizing the expertise and know-how of local businessmen and fishermen, as well as our many research facilities in Florida's colleges and universities.

As oil makes its way further into north Florida beaches, hundreds of fishermen, environmental activists, students, and other concerned residents have gathered together ready to assist in the cleanup effort. Commercial fishermen and charter boat captains have offered their assistance to lay boom and to skim oil before it reaches the shore.

In Key West, organizations like the United Way and the Florida Keys Environment Coalition have gathered volunteers ready to patrol the shoreline for tar balls. I am so grateful for the leadership of these great local organizations during this crisis. Their daily activism is a tribute to Jacques Cousteau.

Ms. BORDALLO. Mr. Speaker, I reserve the balance of my time.

Mr. CHAFFETZ. Mr. Speaker, I yield myself such time as I may consume.

House Resolution 518 recognizes the life of Jacques Cousteau for bringing the underwater world to the living rooms of the Nation through his television shows and documentaries.

I, like countless others, was impacted by the dramatic way in which he showed us a world that was so foreign and so far away. The work that he did, with that staff and that crew, had a profound impact upon countless people, including myself. It's an honor to stand here in support of the passage of this important resolution and thank him and the great impact that he had for the deep appreciation and education that he gave relating to our oceans.

We urge passage of this resolution.

Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, in closing, I want to go on record to say that I agree with the gentlewoman from Florida that this oil spill is a tragedy. I will work very closely with our chairman, Mr. NICK RAHALL, to ensure that the laws are changed to prevent such a disaster in the future.

Mr. Speaker, I again urge Members to support this resolution.

Mr. FALCOMA. Mr. Speaker, I rise today in support of H. Res. 518, legislation honoring the life of Jacques-Yves Cousteau, explorer, researcher, and pioneer in the field of marine conservation.

First I want to thank the chief architect, the gentle lady from Florida, Ms. ILEANA ROSELEHTINEN, for her leadership on this important resolution. I also want to thank the gentle lady from Guam, Chairwoman of the Subcommittee on Insular Affairs, Oceans and Wildlife, my good friend MADELINE BORDALLO, and all my colleagues on the Natural Resources Committee for their support on H. Res. 518.

This house resolution enjoys bi-partisan support as well as the blessings of the Cousteau family. And it is most fitting that we approve this measure to recognize the life and accomplishments of Jacques Cousteau on the 100th anniversary of his birth on June 11, 1910.

Mr. Speaker, H. Res. 518 recognizes an exceptional individual that has left an indelible mark on marine science, research and conservation. Over the span of his career, Mr. Cousteau produced over 120 films, authored or contributed to 50 books, invented the skin diving gear, and was awarded the prestigious United Nations International Environmental prize as well as the Presidential Medal of Freedom from President Ronald Reagan.

In 1952–53, Mr. Cousteau sailed to the Red Sea on the *Calypso* and filmed the first color footage ever taken at 150 feet depth. Called "The Silent World", the documentary won the Academy Award for the Best Documentary Feature in the United States and was also awarded the top honor award at the Cannes Films Festival in 1956.

Mr. Speaker, I am pleased to know that the legacy of Cousteau lives on with his family. An article by Shelly Banjo in today's edition of the *Wall Street Journal* highlighted the works of Fabien Cousteau, grandson of Jacques Cousteau. Following the footsteps of his grandfather, the younger Cousteau is pursuing marine conservation projects to restore and protect bodies of water around the world. These efforts are not only important to sustain our oceans and marine resources, but they would also teach and educate everyone on the value of our oceans and aquatic life.

At the time when our nation is facing one of its worst oil spills in our history, the legacy of

Cousteau continues to serve as a reminder to all of us about the importance and values in marine conservation and about managing our natural resources.

Mr. Speaker, I urge my colleagues to support H. Res. 518.

Mrs. CAPPS. Mr. Speaker, I rise to offer my support for H. Res. 518, a resolution honoring the life and accomplishments of the great environmentalist Jacques Cousteau.

Jacques Cousteau was an inventor, an explorer and a concerned citizen of our world.

He invented a waterproof housing for an underwater movie camera in 1936, and in 1943, with French engineer Emile Gagnon created the Aqualung, which allowed divers to swim untethered underwater for several hours. Cousteau fought for the French in World War II, and the Aqualung was used by divers to locate and remove enemy mines after the war.

In 1950 he purchased the ship *Calypso* from which to conduct his explorations of the world oceans, beginning the work for which he is perhaps best known: bringing the excitement of the oceans to the public.

He showed people around the world the beauty of ocean ecosystems—from the Red Sea to Antarctica and from the Caribbean to the Indian Ocean—exploring the depths with a sense of adventure and exposing the oceans as the last earthy frontier to be explored.

He also lectured, produced amazing underwater photography, and published many books. Two of his films, "The Silent World" and "World Without Sun" won Academy Awards for best documentary.

His television program, "The Undersea World of Jacques Cousteau," which aired from 1968 to 1976, won multiple Emmy's and brought the marvels of his expeditions and the undersea world into American homes, inspiring many to love the sea and to pursue careers in marine science.

In 1974 he founded The Cousteau Society to help raise public awareness of ocean issues and help promote wise management of our ocean resources. And in 1985 he was awarded the Medal of Freedom by President Ronald Reagan. Finally, in 1989 he was honored by the French with membership in the French Academy.

Mr. Speaker, Jacques Cousteau taught the world how to appreciate, understand, explore, use, and preserve the oceans. We all owe a debt of gratitude to him and his family for raising the public awareness and support for the wonder and beauty of the world's oceans.

As we celebrate World Oceans Week, it is my hope that we can honor the wisdom of Jacques Cousteau by working together to improve the health of our oceans, so that our children and grandchildren will have a chance to enjoy and cherish them as he did.

I encourage all of my colleagues to join me in supporting this resolution honoring the world renowned Jacques Cousteau.

I yield back the balance of my time. The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and agree to the resolution, H. Res. 518, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6 p.m. today.

Accordingly (at 2 o'clock and 48 minutes p.m.), the House stood in recess until approximately 6 p.m.

□ 1800

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Ms. ESHOO) at 6 p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 5072, FHA REFORM ACT OF 2010, AND PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

Mr. PERLMUTTER, from the Committee on Rules, submitted a privileged report (Rept. No. 111-503) on the resolution (H. Res. 1424) providing for consideration of the bill (H.R. 5072) to improve the financial safety and soundness of the FHA mortgage insurance program, and providing for consideration of motions to suspend the rules, which was referred to the House Calendar and ordered to be printed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 1061, by the yeas and nays;

H. Res. 518, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. The second electronic vote will be conducted as a 5-minute vote.

HOH INDIAN TRIBE SAFE HOMELANDS ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 1061) to transfer certain land to the United States to be held in trust for the Hoh Indian Tribe, to place land into trust for the Hoh Indian Tribe, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, as amended.

The vote was taken by electronic device, and there were—yeas 347, nays 0, not voting 84, as follows:

[Roll No. 337]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1826

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Ms. SCHWARTZ. Mr. Speaker, on rollcall No. 337, had I been present, I would have voted "yes."

Mr. McDERMOTT. Mr. Speaker, on rollcall No. 337, had I been present, I would have voted "yea."

HONORING THE LIFE OF JACQUES-YVES COUSTEAU

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution (H. Res. 518) honoring the life of Jacques-Yves Cousteau, explorer, researcher, and pioneer in the field of marine conservation, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.
