

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Ms. TITUS). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

PEDESTRIAN SAFETY ENHANCEMENT ACT OF 2010

Mr. BARROW. Madam Speaker, I move to suspend the rules and pass the bill (S. 841) to direct the Secretary of Transportation to study and establish a motor vehicle safety standard that provides for a means of alerting blind and other pedestrians of motor vehicle operation.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 841

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Pedestrian Safety Enhancement Act of 2010”.

SEC. 2. DEFINITIONS.

As used in this Act—

(1) the term “Secretary” means the Secretary of Transportation;

(2) the term “alert sound” (herein referred to as the “sound”) means a vehicle-emitted sound to enable pedestrians to discern vehicle presence, direction, location, and operation;

(3) the term “cross-over speed” means the speed at which tire noise, wind resistance, or other factors eliminate the need for a separate alert sound as determined by the Secretary;

(4) the term “motor vehicle” has the meaning given such term in section 30102(a)(6) of title 49, United States Code, except that such term shall not include a trailer (as such term is defined in section 571.3 of title 49, Code of Federal Regulations);

(5) the term “conventional motor vehicle” means a motor vehicle powered by a gasoline, diesel, or alternative fueled internal combustion engine as its sole means of propulsion;

(6) the term “manufacturer” has the meaning given such term in section 30102(a)(5) of title 49, United States Code;

(7) the term “dealer” has the meaning given such term in section 30102(a)(1) of title 49, United States Code;

(8) the term “defect” has the meaning given such term in section 30102(a)(2) of title 49, United States Code;

(9) the term “hybrid vehicle” means a motor vehicle which has more than one means of propulsion; and

(10) the term “electric vehicle” means a motor vehicle with an electric motor as its sole means of propulsion.

SEC. 3. MINIMUM SOUND REQUIREMENT FOR MOTOR VEHICLES.

(a) RULEMAKING REQUIRED.—Not later than 18 months after the date of enactment of this Act the Secretary shall initiate rulemaking, under section 30111 of title 49, United States Code, to promulgate a motor vehicle safety standard—

(1) establishing performance requirements for an alert sound that allows blind and

other pedestrians to reasonably detect a nearby electric or hybrid vehicle operating below the cross-over speed, if any; and

(2) requiring new electric or hybrid vehicles to provide an alert sound conforming to the requirements of the motor vehicle safety standard established under this subsection.

The motor vehicle safety standard established under this subsection shall not require either driver or pedestrian activation of the alert sound and shall allow the pedestrian to reasonably detect a nearby electric or hybrid vehicle in critical operating scenarios including, but not limited to, constant speed, accelerating, or decelerating. The Secretary shall allow manufacturers to provide each vehicle with one or more sounds that comply with the motor vehicle safety standard at the time of manufacture. Further, the Secretary shall require manufacturers to provide, within reasonable manufacturing tolerances, the same sound or set of sounds for all vehicles of the same make and model and shall prohibit manufacturers from providing any mechanism for anyone other than the manufacturer or the dealer to disable, alter, replace, or modify the sound or set of sounds, except that the manufacturer or dealer may alter, replace, or modify the sound or set of sounds in order to remedy a defect or non-compliance with the motor vehicle safety standard. The Secretary shall promulgate the required motor vehicle safety standard pursuant to this subsection not later than 36 months after the date of enactment of this Act.

(b) CONSIDERATION.—When conducting the required rulemaking, the Secretary shall—

(1) determine the minimum level of sound emitted from a motor vehicle that is necessary to provide blind and other pedestrians with the information needed to reasonably detect a nearby electric or hybrid vehicle operating at or below the cross-over speed, if any;

(2) determine the performance requirements for an alert sound that is recognizable to a pedestrian as a motor vehicle in operation; and

(3) consider the overall community noise impact.

(c) PHASE-IN REQUIRED.—The motor vehicle safety standard prescribed pursuant to subsection (a) of this section shall establish a phase-in period for compliance, as determined by the Secretary, and shall require full compliance with the required motor vehicle safety standard for motor vehicles manufactured on or after September 1st of the calendar year that begins 3 years after the date on which the final rule is issued.

(d) REQUIRED CONSULTATION.—When conducting the required study and rulemaking, the Secretary shall—

(1) consult with the Environmental Protection Agency to assure that the motor vehicle safety standard is consistent with existing noise requirements overseen by the Agency;

(2) consult consumer groups representing individuals who are blind;

(3) consult with automobile manufacturers and professional organizations representing them;

(4) consult technical standardization organizations responsible for measurement methods such as the Society of Automotive Engineers, the International Organization for Standardization, and the United Nations Economic Commission for Europe, World Forum for Harmonization of Vehicle Regulations.

(e) REQUIRED STUDY AND REPORT TO CONGRESS.—Not later than 48 months after the date of enactment of this Act, the Secretary shall complete a study and report to Congress as to whether there exists a safety need to apply the motor vehicle safety standard required by subsection (a) to conventional

motor vehicles. In the event that the Secretary determines there exists a safety need, the Secretary shall initiate rulemaking under section 30111 of title 49, United States Code, to extend the standard to conventional motor vehicles.

SEC. 4. FUNDING.

Notwithstanding any other provision of law, \$2,000,000 of any amounts made available to the Secretary of Transportation under section 406 of title 23, United States Code, shall be made available to the Administrator of the National Highway Transportation Safety Administration for carrying out section 3 of this Act.

□ 1730

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. BARROW) and the gentleman from Pennsylvania (Mr. PITTS) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia.

GENERAL LEAVE

Mr. BARROW. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. BARROW. I yield myself such time as I may consume.

Madam Speaker, as hybrid and electric vehicles take hold in the market, they bring lots of benefits to consumers trying to shield themselves from rising gas prices and help reduce our Nation's dependence on foreign oil, but the near-silent operation of their combustion-free engines has presented unintended challenges for blind and sighted pedestrians.

NHTSA research, including a study published in April this year, confirms that the absence of sounds indicating vehicle movement can create serious safety risks for blind and sighted pedestrians, unable to detect vehicles as they back up, turn, or approach an intersection.

Earlier, NHTSA research found that hybrid and electric vehicles are two times more likely to be involved in a pedestrian collision at a low speed than conventional vehicles. Blind pedestrians are among the most vulnerable; but cyclists, seniors, and children are also among those greatly affected as the number of hybrid and electric vehicles on the road increases.

The bill before us offers a straightforward solution directing the National Highway Traffic Safety Administration to create a standard for hybrid and electric vehicles to emit appropriate conforming sounds when traveling at low speeds. In addition, the bill gives the agency 3 years to develop the standard, gives manufacturers a 3-year phase-in period, calls on NHTSA to consider the overall community noise impact, and protects against the unauthorized disabling, modification, or replacement of the sounds.

I am pleased that the bill has received strong support from the National Federation of the Blind and the Alliance of Automobile Manufacturers. I commend manufacturers of hybrid and electric vehicles that have already stepped forward to work with NHTSA to address this serious safety issue.

I also want to thank my chairman, Chairman RUSH, and my colleagues, the gentleman from New York (Mr. TOWNS) and the gentleman from Florida (Mr. STEARNS), for their leadership on this issue, which has a strong record of bipartisan awareness and support. I urge my colleagues to support this legislation.

I reserve the balance of my time.

Mr. PITTS. Madam Speaker, I yield myself such time as I may consume.

I rise in support of Senate 841. I commend Congressman TOWNS and Congressman STEARNS for their efforts to improve pedestrian safety as the champions of the House companion legislation to Senate 841. They have worked with all the stakeholders to champion the legislative compromise that the Senate passed and which is before us today.

The National Federation of the Blind and the auto industry support the compromise legislation that will ensure pedestrian safety is not compromised by evolving engine technology.

The success of hybrid cars represents technological progress, but the byproduct is a silent engine that has raised concerns they are not audible to pedestrians and can jeopardize their safety. Quiet technology makes it very difficult for the blind and other pedestrians, such as children, joggers, or bicyclists, to evaluate traffic they do not see. The concern is greatest for blind pedestrians that rely on audible attributes of cars to evaluate direction and speed of traffic to ensure their safety. New vehicles that employ hybrid or electric engine technology can be silent, rendering them extremely dangerous in situations where vehicles and pedestrians come into proximity with each other.

The changes required by the legislation will become more important as hybrid technology becomes more and more widely deployed, and so I urge support.

I reserve the balance of my time.

Mr. BARROW. Madam Speaker, I yield such time as he may consume to the gentleman from New York (Mr. TOWNS).

Mr. TOWNS. Madam Speaker, I would like to thank the gentleman from Georgia for yielding time, and of course the ranking member as well. I rise to urge my colleagues to vote in favor of S. 841, the Pedestrian Safety Enhancement Act.

Today, environmentally friendly vehicles are quickly becoming a staple in the lives of Americans who are attempting to go green. I applaud the use of technology that decreases air pollution and fossil fuel consumption; however, we must address an unforeseen consequence of such innovation.

Over the years, we have heard tragic stories involving pedestrians and hybrid or electric vehicles. Not too long ago, news accounts were the story of a young child hit by a hybrid car. This accident was not caused by a driver's negligence or a car's manufacturing defect. It occurred because the child never heard the approaching car. The hybrids: engines were simply too quiet. Environmentally friendly vehicles such as hybrids often fail to produce audible sounds when driven.

The silent nature of these vehicles, coupled with the growing popularity, presents a dilemma: How do we protect individuals dependent on sounds for their safety, such as unsuspecting pedestrians and the blind? The solution lies in the Pedestrian Safety Act.

This act requires the Secretary of Transportation to conduct a study of the minimum level of sound required for environmentally friendly vehicles. Once this safety standard is determined, it will be applied to all new automobiles manufactured or sold in the United States beginning 2 years after the standard is issued. This is an effective way, not only to prevent avoidable injuries to pedestrians, but to do so without impeding innovation with stringent regulations.

It is clear that environmentally friendly vehicles are growing in popularity. While it is important to embrace technology that benefits our environment, we must do so with the safety of all citizens in mind.

This bill successfully passed the Senate last week and has been a long time coming here in the House. Our Chamber's companion bill, H.R. 734, has 238 bipartisan cosponsors. The bill coming to us from the Senate is even stronger. It is completely deficit neutral and supported by the Alliance of Automobile Manufacturers, the National Federation of the Blind, the Association of International Automobile Manufacturers, and the American Council of the Blind.

Before I conclude, Madam Speaker, let me take a moment to thank my colleague and friend, Representative CLIFF STEARNS, who has worked over the years with me on this bill. I want to thank staff members James Thomas and Nicole Alexander for their tremendous assistance in helping us move this important legislation forward. I would also like to thank Emily Khoury and Dana Grayson and all other staff that have made this moment a reality. This bill has been a model of bipartisanship and will benefit pedestrians across the country for years to come.

I urge all of my colleagues here in the House of Representatives to join me in supporting this very important legislation.

□ 1740

Mr. PITTS. Madam Speaker, I yield back the balance of my time.

Mr. BARROW. Madam Speaker, I urge my colleagues to support this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. BARROW) that the House suspend the rules and pass the bill, S. 841.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BARROW. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

REGULATED INVESTMENT COMPANY MODERNIZATION ACT OF 2010

Mr. LEVIN. Madam Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 4337) to amend the Internal Revenue Code of 1986 to modify certain rules applicable to regulated investment companies, and for other purposes.

The Clerk read the title of the bill.

The text of the Senate amendment is as follows:

Senate amendment:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE, ETC.

(a) *SHORT TITLE.*—This Act may be cited as the "Regulated Investment Company Modernization Act of 2010".

(b) *REFERENCE.*—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

(c) *TABLE OF CONTENTS.*—The table of contents for this Act is as follows:

Sec. 1. Short title, etc.

TITLE I—CAPITAL LOSS CARRYOVERS OF REGULATED INVESTMENT COMPANIES

Sec. 101. Capital loss carryovers of regulated investment companies.

TITLE II—MODIFICATION OF GROSS INCOME AND ASSET TESTS OF REGULATED INVESTMENT COMPANIES

Sec. 201. Savings provisions for failures of regulated investment companies to satisfy gross income and asset tests.

TITLE III—MODIFICATION OF RULES RELATED TO DIVIDENDS AND OTHER DISTRIBUTIONS

Sec. 301. Modification of dividend designation requirements and allocation rules for regulated investment companies.

Sec. 302. Earnings and profits of regulated investment companies.

Sec. 303. Pass-thru of exempt-interest dividends and foreign tax credits in fund of funds structure.

Sec. 304. Modification of rules for spillover dividends of regulated investment companies.

Sec. 305. Return of capital distributions of regulated investment companies.

Sec. 306. Distributions in redemption of stock of a regulated investment company.

Sec. 307. Repeal of preferential dividend rule for publicly offered regulated investment companies.
