The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan (Mr. LEVIN) and the gentleman from Michigan (Mr. CAMP) each will control 20 minutes.

The Chair recognizes the gentleman from Michigan (Mr. LEVIN).

GENERAL LEAVE

Mr. LEVIN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. LEVIN. Madam Speaker, I yield myself such time as I may consume.

This is really a vital bill. I bring it to the floor in a bipartisan spirit to move and to make sure that all of the important pieces of this vital legislation, all of them, become law. This bill continues the essential trade adjustment assistance program that we expanded in 2009. Importantly, these reforms were authored on a bipartisan, bicameral basis by Mr. RANGEL and myself, Mr. CAMP, Senators BAUCUS and GRASSLEY. So let me say just a few words about TAA.

Since the reforms were implemented in 2009, more than 155,000 additional trade-impacted workers who might not have been certified under the former TAA program became eligible for TAA worker benefits and training opportunities. More than 155,000. In total, more than 367,000 workers were certified as eligible for TAA support in that time-frame.

In 2010 alone, and I also want to emphasize this number, 227,882 workers took advantage of TAA and participated in the program, receiving case management, training and/or income support. You know, I wish in a way 227,882 people could come here and line up from here. I'm not quite sure how far the line would extend. It would be a very long way. We have a solemn obligation to continue this expanded program.

This legislation also supports U.S. businesses that need inputs or components not produced here in the U.S. in order to manufacture, and I underline that, downstream products here in the United States of America.

Miscellaneous tariff bills like this one have been a part of U.S. policy for 27 years. But in recent years, we have made the process more transparent than ever before, and if I might, I want to pay tribute to all of those who have worked together here in the House and in the Senate in terms of the transparency of this process. Based on these improvements, the Sunlight Foundation has phrased the MTB as "transparency done right."

The last MTB was signed into law in August after passing the House by a bipartisan vote of 378-43. Taken together, according to one study, these two MTBs are expected to increase U.S. production by at least \$4.6 billion over 3 years and to support 90,000 U.S. manufacturing jobs.

Next, the bill also includes an 18-month extension for two preference programs—GSP, the Generalized System of Preferences; and the Andean Trade Preference Act, ATPA—that are set to expire at the end of the year. That means in 2 weeks. Last year, this legislation was passed by voice vote.

Preferences are important tools in U.S. trade policy. They help developing nations capture the opportunities and meet the challenges of trade and globalization, while at the same time, and this is critical to emphasize, providing significant benefits here in the United States. For example, ATPA has helped develop an important market for U.S.-made textiles in the Andean region, while also helping those nations in their efforts to fight trade in narcotics. Also, the majority of U.S. imports, 75 percent using GSP, were imports used to sustain U.S. manufacturing, including raw materials, parts and components, machinery and equipment.

These programs have also, and again I want to emphasize, have been shaped to encourage broad-based economic development, with eligibility criteria regarding worker rights—we have worked on the worker rights provisions over the years—the rule of law, innovation and investment, and policies to fight corruption.

Madam Speaker, there has long been, because of the strength of these programs, bipartisan support for all of them. Each of them relates to U.S. jobs. Each of them relates to U.S. jobs, and it is crucial that we act to continue them today.

I reserve the balance of my time.

Mr. CAMP. Madam Speaker, I yield myself such time as I may consume, and then I will yield the balance of my time to the distinguished gentleman from Texas (Mr. BRADY), the ranking member of the Trade Subcommittee.

Madam Speaker, the national unemployment rate is 9.8 percent. The unemployment rate in my home State of Michigan is 12.8 percent. America is desperately in need of jobs, and American workers need Congress to focus on legislation that will help create jobs. This legislation is a solid step in that direction. I have often said that government can't create jobs; it is the private sector that creates jobs, and Congress can help the private sector by removing barriers to job creation.

This legislation lowers taxes and makes American manufacturers more competitive so they can invest and create the jobs that American workers need now. Therefore, it fits squarely within the core principles of the Republican Party. Republicans support lowering taxes, making American workers more competitive, liberalizing trade, and letting the private sector thrive and create jobs.

At the outset, this legislation extends our trade preference programs, especially the Andean Trade Preferences Act. I would rather see Congress vote on our trade agreement with

Colombia, but for over 3 years, the Speaker has refused to permit a simple up-or-down vote on that agreement. The Speaker has refused to bring that agreement to the floor even though it would level the playing field for American workers and generate new exports and support American jobs.

Despite the lack of progress on that agreement, I strongly support the continuation of the ATPA program. This program is crucial to this country and to Colombia, and we cannot subject such a strong ally to the injury of letting the program expire on top of the insult of our inability to act on that trade agreement.

Furthermore, this legislation extends the bipartisan, bicameral 2009 Trade Adjustment Assistance law that is helping trade-affected workers, farmers, firms, and communities retool and compete in the 21st century. The 2009 law provided a more flexible, cost-effective and accountable regime focusing on retraining. It also recognized the important role of services in the U.S. economy by bringing service workers into the program. These improvements to the TAA program help workers by getting them more quickly off government support and back into good paying, private sector jobs.

Importantly, this legislation delays for a year and a half a controversial U.S. Labor Department final rule mandating that the States use exclusively State employment service employees to administer TAA-funded benefits and services. Unless this delay is enacted now, 27 States will no longer be allowed to use a mix of staff.

□ 1800

Similarly, without this delay, even the other States that elect to use only State ES staff would be adversely affected because they could not make different staffing choices in the future. In today's economy, it makes no sense to require States to make costly changes to successful programs that are helping workers find new jobs.

This delay is also important because it would help restore the 2009 bipartisan, bicameral compromise on this issue. In addition, this legislation removes barriers by lowering taxes on imported inputs that enable value-added, American manufacturing and supports U.S. jobs, inputs that aren't otherwise available in the United States. These provisions have been fully vetted through a bipartisan and transparent process. Finally, this legislation is fully paid for, which is crucial in this time of rapidly rising fiscal deficits. Madam Speaker, I am pleased that this legislation accomplishes all these goals and is a truly bipartisan product.

I want to thank my colleague from Michigan, Chairman LEVIN, for his close cooperation in preparing this legislation and bringing it to the floor today for a vote.

Madam Speaker, I hope the other body takes up this legislation quickly

and passes it. Several of these important programs expire at the end of the year, and there is no time to waste. Further delay would be harmful to American workers.

I reserve the balance of my time.

Mr. LEVIN. Madam Speaker, I now yield 3 minutes to the chair of the Subcommittee on Trade, the gentleman from Tennessee (Mr. TANNER).

Mr. TANNER. Thank you, Chairman LEVIN, and I want to thank Mr. BRADY, who is the ranking member on the Trade Subcommittee.

The mentioning of the Trade Adjustment Provisions and the Generalized System of Trade Preferences are both important. I think they have been covered by Mr. CAMP and Mr. LEVIN in their remarks. I want to talk just a minute about what I consider to be one of the most important features of this bill with respect to American jobs, and that is the miscellaneous tariff provisions contained in the bill.

These miscellaneous tariff provisions allow for U.S. companies to import items that cannot be obtained in this country to be used in the manufacturing process, thereby making U.S. manufacturing concerns more competitive in the world market and in being able to increase employment in our own country. This cannot be, I don't think, overstated or overestimated as to its importance; although, it might be a very small part of what we are trying to do in the whole area of trade.

I hope that we can move forward—even though I won't be here next year, I hope we can move forward on some trade agreements that are pending. This is an exciting time. It is a time for America to get back in the business, and this omnibus trade bill is a good start.

I want to applaud Mr. LEVIN and committee staff and thank them for all the help they have given to the Trade Subcommittee through the years.

The SPEAKER pro tempore (Mr. ALTMIRE). Without objection, the gentleman from Texas will control the time.

There was no objection.

Mr. BRADY of Texas. Mr. Speaker, I yield myself such time as I may consume.

I want to join others in thanking Chairman TANNER, chairman of the Trade Subcommittee, for his leadership and service to our country and our economy through the years. He will be missed.

Mr. Speaker, our economy is struggling, and this Congress hasn't done enough to help promote the job creation we so desperately need. Congress needs a new playbook, and this legislation can be the first new play we run. The bipartisan legislation extends the Generalized System of Preferences and the Andean Trade Preferences Act and renews and establishes certain miscellaneous tariff reductions. In doing so, this bill lowers taxes on the products that American manufacturers need to be more competitive.

More competitive U.S. manufacturers means more jobs for American workers. America's farmers will benefit from this legislation as well, because it will help hold down the cost of fertilizers and pesticides. More importantly, American families will benefit from this legislation. In fact, American families will see double benefits. Not only will it help promote job creation, it will lower costs for consumers. At a time when so many families are struggling to get by, lower taxes on these products can help American families make ends meet.

Expert analysis has demonstrated how these provisions will support American jobs. For example, the miscellaneous tariffs legislation could support as many as 90,000 U.S. jobs. The Preferences program has been found to support 682,000 jobs and lower costs for consumers by \$273 million. In today's difficult economic times, these are clearly policies the Congress should support.

Additionally, the extension of the ATPA program will provide critical support for our strongest ally in South America, Colombia. Right now, Colombia is suffering from terrible flooding and has declared a state of emergency. This natural disaster has badly damaged the Colombian economy, and Colombians cannot afford even a temporary lapse of this program.

I share the frustration of many of my colleagues that Congress has not taken up the U.S.-Colombia trade agreement, which would remove barriers to American sales to Colombia. America's farmers and ranchers are already losing exports as other countries implement trade agreements with Colombia ahead of us and gain a competitive advantage, and that's why this agreement has bipartisan support.

I urge supporters on both sides of the aisle to ensure that the ATPA program does not lapse so we can support our allies in Colombia while we continue our efforts to bring the trade agreement to the floor of Congress for a successful vote.

Also, this legislation continues to authorize the 2009 law updating and approving the Trade Adjustment Assistance program in various respects. Such improvements included allowing better and more successful training options to trade-impacted workers and providing trade adjustment benefits to service workers, given the importance of the service sector in America's economy. The 2009 law also helps ensure TAA program accountability and results by requiring data on the program's performance and its worker outcome. This will enable us to measure how the program is effective and where improvements are needed.

Significantly, this bill prevents the U.S. Department of Labor from forcing Texas and 26 other States to use only so-called State "merit" employees to provide Trade Adjustment Assistance-funded services. This Federal mandate went against the wishes of Congress

and has unnecessarily distracted States from efficiently providing TAA services to trade-impacted workers. The bill delays the ill-advised Labor Department rule for the next year and a half, helping to ensure that the congressional intent behind the 2009 bipartisan TAA law is respected and that each State may continue to decide how best to provide high-quality TAA services to trade-impacted workers to get them retrained and back to work.

Mr. Speaker, I commend Chairman LEVIN and Ranking Member CAMP for working so hard to bring this legislation to the floor. This can be the first play out of a new bipartisan playbook that promotes trade as a means to grow the economy and create jobs. The playbook should also include seeking congressional passage of the three pending trade agreements in the first half of next year: a high-standard Trans-Pacific Partnership agreement by the U.S.-hosted APEC leaders' summit next November, an ambitious outcome to the WTO Doha talks next year, and other trade-opening initiatives.

Mr. Speaker, I yield the balance of my time to the gentleman from California (Mr. HERGER) who has led the Trade Subcommittee in past years.

The SPEAKER pro tempore. Without objection, the gentleman from California will control the balance of the time.

There was no objection.

Mr. HERGER. Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. It is now my privilege to yield 3 minutes to the distinguished member of the Ways and Means Committee from the State of Washington (Mr. McDERMOTT).

(Mr. McDERMOTT asked and was given permission to revise and extend his remarks.)

Mr. McDERMOTT. Mr. Speaker, I rise today in support of the Omnibus Trade Act of 2010.

Mr. Speaker, you know that when the AFL-CIO and the U.S. Chamber of Commerce are energetically in favor of the same bill, that's a pretty good day and probably a pretty good thing to do. This bill helps U.S. businesses. It reduces their costs with tariff reductions on things they need that aren't made here in the United States. Each one of these tariff reductions have been carefully vetted. They have been on the Web site. Anybody can see them. It has been a very transparent process, and it is good that we're able to get it done before we leave the Congress at this time.

It will create billions of dollars of economic activity and help kick-start the creation of jobs. This bill also helps struggling economies around the world—the Andes, the Caribbean, and others—by keeping our trade programs in place and stable for the next 18 months.

□ 1810

We can't let these programs lapse. They are too important to Americans

and also to our good partners worldwide with whom we want economic development, with whom we do better if they're doing better, and these programs are helpful to them. To cut them off is to leave them with no place to sell the goods they are making. In fact, I would like a longer extension, and I really think there needs to be a trade preference bill.

I hope, in the next Congress, Mr. BRADY and others on the other side will bring that forward. We had hoped to get it done this time, but we didn't get it done. We need to do it, and this is a good intermediate step.

Finally, we are keeping our Trade Adjustment Assistance program in place and are continuing to improve on it. This helps hundreds of thousands of workers every year, as you have heard, who are negatively impacted by trade. 227,000 workers have benefited from this in this year alone. They receive educational benefits and help in making the transition from an industry that has disappeared to one that is now expanding in the United States and will provide jobs. Our workers need to be mobile and retrained, and the Trade Adjustment Assistance helps get that done.

This bill costs almost nothing. It is fully paid for and will boost the economy. I urge all of my colleagues to vote for it.

Mr. HERGER. Mr. Speaker, I yield 1½ minutes to a member of the Ways and Means Committee and a member of the Trade Subcommittee, the gentleman from Washington (Mr. REICHERT).

Mr. REICHERT. I thank the gentleman for yielding.

Mr. Speaker, I rise today in strong support of this omnibus trade package. I, along with my friend and colleague from Washington State (Mr. McDERMOTT), urge all of my colleagues to support it.

I am particularly pleased that this bill extends trade preference programs. Preferences are a powerful developmental tool, and they can also be used to improve laws, environment and labor standards, and intellectual property rights protections. Developing nations, American workers, and businesses have benefited considerably when our preference program partnerships move to a permanent free trade agreement.

One country that has graduated from preferences is South Korea. It continues to be among the leading exporters to the United States. It is a great model of how a country can graduate from the preference partnership to a free trade agreement that levels the playing field for American workers—a free trade agreement that deserves broad support and swift passage in the next Congress.

As unemployment remains high, we must continue to knock down trade barriers for American goods and services—“sell American” to customers all over the world—to protect and create jobs here at home.

I urge support for this package today.

Mr. LEVIN. Mr. Speaker, I yield the balance of my time to the gentleman from Washington (Mr. McDERMOTT).

The SPEAKER pro tempore. Without objection, the gentleman from Washington will control the time.

There was no objection.

Mr. McDERMOTT. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, I rise in strong support of H.R. 6517, the Omnibus Trade Act of 2010.

Shipping jobs overseas has become an industry unto itself. Jobs and people are displaced again and again. This is an attempt to try to respond to those workers who have lost jobs under the guise of free trade. Our first line of defense is fair trade that doesn't sacrifice the American workforce.

This is good bipartisan legislation. We haven't had too much of it, so we might not have noticed it.

I am pleased that the committee was able to work in a bipartisan fashion with the minority to extend these programs and provisions that help our workers and businesses compete in this global economy. It is particularly critical that we reauthorize the reforms Congress made to the Trade Adjustment Assistance program, or the TAA, which was passed as part of the Recovery Act in February of last year.

As the chairman pointed out, these reforms have been in place now for some time, and the program has helped hundreds of thousands of workers; 5,000 of those workers whose jobs were shipped overseas during this recession were in New Jersey. They received retraining, support for their incomes, and they were able to keep their health care. We expanded the program's eligibility, including the service sector and more manufacturing jobs; we increased training and health coverage benefits, and we streamlined the program, making it more flexible and efficient for workers to take advantage of.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. McDERMOTT. I yield the gentleman 1 additional minute.

Mr. PASCRELL. One of the most important reforms expands eligibility to all workers whose jobs have been moved overseas, not just for those jobs that were lost to our free trade partners. If we allow this provision to expire, workers whose jobs have been shipped to China or India could be ineligible for TAA benefits. They will be out of luck.

All in all, the Department of Labor estimates that, thanks to these reforms, an additional 155,000 trade-impacted workers were eligible for the TAA program. In New Jersey, almost 90 percent of the workers who received TAA benefits were eligible because of the reforms that we passed in February of 2009. We must continue to fight for those jobs. We must continue to keep American jobs here.

For those who get unavoidably left behind, providing them with the opportunity to get support and retraining at a place like Passaic County Community College, in my district, in Paterson, New Jersey, through the TAA Community College Grant program is the least we can do, Mr. Speaker, for our workers who have been hard hit in the last 10 years.

Mr. HERGER. Mr. Speaker, I reserve the balance of my time.

Mr. McDERMOTT. Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina (Mr. ETHERIDGE).

(Mr. ETHERIDGE asked and was given permission to revise and extend his remarks.)

Mr. ETHERIDGE. I thank the gentleman for yielding.

I want to thank the chairman and ranking member of the committee for their work and the committee's work in bringing the Omnibus Trade Act of 2010 to the floor.

Mr. Speaker, this is an important piece of legislation. It really is about jobs, as you have already heard. At a time when the unemployment rate remains unacceptably high and is really stubborn in a lot of places across this country, this bill will help create jobs and retrain workers for new careers. We tend to forget that sometimes when we think of people losing jobs, of the long-term unemployed and the issues surrounding training for new opportunities.

In my home State of North Carolina, the manufacturers and, really, the manufacturers across the country are the ones which are going to really deliver our economic growth and our national recovery. This bill, as you have already heard, will really help in that regard.

First, it will help lower production costs by leveling the playing field with our international competitors, which is an important piece. You have heard how we do it. It is for those items they purchase that we don't have in this country. When we keep them from paying tariffs, it means that they are more competitive. It means we have more workers working, and people can substitute unemployment checks for paychecks.

As the former State Superintendent of Public Schools in North Carolina, I have always said that education is the key to the future. There is no better way to create jobs than to have a well-educated citizenry and educated workforce. I am pleased that this bill strongly supports job training and that it supports our community colleges to expand access to education for more trade-impacted workers.

□ 1820

While I strongly support this bill, I wish it had included a reauthorization of the cotton trust fund, which would have helped hundreds of workers in North Carolina, and I call on the House

and the Senate to reauthorize the cotton trust fund as soon as possible. Despite this omission, though, the Omnibus Trade Act of 2010 is a good, job-creating bill that will keep American workers competitive in this tough economy we find ourselves in.

I urge my colleagues to join me in supporting this legislation. I thank the gentleman for yielding.

Mr. Speaker, this bill is about jobs: good jobs in American manufacturing, good jobs for workers in export industries, and job training for those negatively impacted by trade. It adjusts tariffs to ensure our manufacturing businesses can compete in the world markets, and supports fair trade for American companies. At a time when the unemployment rate remains unacceptably high, this bill creates jobs and retrains workers for new careers.

Manufacturing is a leading sector of the economy in my State of North Carolina and will be important to the Nation's economy as a whole as we continue the recovery. Throughout this Congress I have been proud to support measures that strengthen our manufacturing industry. In order to grow our economy, we must have manufacturing jobs that allow many Americans the chance to earn good wages. By suspending or reducing duties on over 290 products that are used as inputs or components in domestically manufactured goods, this bill lowers production costs for our manufacturers and helps to level the playing field with our international competitors.

I am pleased that this bill provides assistance and training to workers adversely affected by trade. Trade Adjustment Assistance provides training and associated income support to individuals in need of new skills, modernizing our work force and helping workers find a place in today's economy. Recognizing the critical role that community colleges play, the 2009 TAA reforms provided grants to educational institutions to develop, offer and improve education and career training for workers eligible for TAA. H.R. 6517 expands this critical initiative and makes more workers eligible to participate. I have always believed education is the key to economic prosperity. My home State of North Carolina has seen many economic challenges over the years, but it is our solid commitment to education that has allowed our economy to adapt and attract new industries. As the former Superintendent of Public Schools, I've always said that education is the key to the future. There is no better way to create jobs than education.

While I strongly support this bill, I am disappointed that it reauthorizes the Wool Trust Fund, but not the Cotton Trust Fund. A reauthorization of the Cotton Trust Fund is important to hundreds of workers in North Carolina, and would have enhanced the positive jobs impact of the bill. I hope that Congress will continue to work to make this important grant and tariff relief program to strengthen the U.S. cotton industry.

Despite this omission, the Omnibus Trade Act of 2010 is a good, job-creating bill that extends expiring trade provisions, helps displaced workers acquire new skills in order to compete in our global economy, and supports U.S. manufacturing. I would like to thank Chairman LEVIN for all of his hard work to bring this bill to the floor. This legislation puts Americans to work, and I hope that my colleagues from both sides of the aisle will join me in supporting it.

Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today with renewed hope that our Nation's trade agenda may soon move forward. This legislation includes an extension of trade preference programs, which is important, but is no substitute for passing our pending market-opening agreements with Colombia, Panama, and Korea. Mr. Speaker, if we hope to remain the key player in the global marketplace, we must do all we can to strengthen our ties to important democratic allies. Passage of these agreements will boost economic growth and create U.S. jobs by tearing down trade barriers and significantly increasing our exports into these markets, while at the same time enhancing our national security by bringing greater stability to Asia and South America.

Take the U.S.-Colombia agreement, for example. Colombia is the largest market for U.S. agricultural exports in South America, which makes it an important market for my agriculturally rich northern California district. Yet, we have seen our agriculture exports to Colombia decline by 65 percent over the last 2 years because our products still face tariffs and other barriers, while agriculture products from Argentina and Brazil, two major competitors for America's farmers and ranchers, received duty-free access to the Colombian market. The reason for the disparity is simple: Argentina and Brazil have implemented a trade agreement with Colombia, while our Nation has not. This trend, of U.S. producers losing out to foreign competitors, will only get worse as the European Union and Canada are moving towards implementing their own agreements with Colombia.

Mr. Speaker, it is time for Congress to recognize that continued inaction is suppressing job creation for Americans out of work and denying our producers new opportunities to export. Congress should pass our pending trade agreements without further delays.

I urge the Congress and my colleagues to support this legislation.

Ms. SLAUGHTER. Mr. Speaker, I rise today in support of H.R. 6517, the Omnibus Trade Act of 2010. This bill includes provisions that are critical to our manufacturing base: specifically decreasing the cost of raw materials, extending Trade Adjustment Assistance to workers who have seen their jobs shipped overseas, and making an important technical fix to the Wool Trust Fund program.

Trade Adjustment Assistance is one of the most important lifelines for American workers who have lost their jobs due to international trade. The program helps train workers in new fields, and helps bridge the gap in health insurance benefits for workers and their families. In 2009, Congress made significant improvements by expanding eligibility for service sector workers, manufacturing and secondary workers, and by increasing training funding. The expansion also increased the Workers Health Coverage Tax Credit subsidy to minimize gaps in health insurance coverage for workers and their families. Since the overhaul

more than 10,000 workers in New York alone have been certified to receive TAA benefits, and over 5,000 of these workers would not have received benefits had the extension not been in place. Across the country, TAA has helped more than 155,000 otherwise misplaced workers with the expansion since 2009.

Our vote today will extend the improvements made until June, 2012.

If we in Congress don't take action and instead let these improvements expire, we abandon workers who have already suffered from our tilted trade policies. It is imperative that we pass this legislation to ensure that America's workforce is able to adjust to changing economic environment and America can remain competitive in the global marketplace. H.R. 6517 also includes a technical fix to ensure that the Wool Trust Fund is funded at the level authorized in 2004 and 2008. This program provides payments to U.S. suit makers who have been left at a competitive disadvantage due to an inverted tariff—where the duty on the finished product is lower than the duty on the materials used to make the finished product. Without this fix, we are actually disincentivizing suit makers to operate in the U.S. and that would be tragic for my district, which is home to Hickey-Freeman and 500 of the best suit makers in the world.

The workers at Hickey-Freeman know from experience that over the past 2 years, revenue for this program shrank considerably, resulting in cuts of up to 66 percent to payments made to U.S. companies. H.R. 6517 closes the funding shortfall ensuring that our domestic suit makers continue to manufacture in the U.S. and that they are able to compete on a level playing field.

I strongly support this legislation because it protects many of the manufacturing jobs we have now and provides funding to retrain American manufacturing workers for the jobs of tomorrow.

I encourage my colleagues to join me in supporting H.R. 6517.

Mr. HERGER. I yield back the balance of my time.

Mr. McDERMOTT. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. LEVIN) that the House suspend the rules and pass the bill, H.R. 6517, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

REQUIRING REPORTS ON MANAGEMENT OF ARLINGTON NATIONAL CEMETERY

Mr. FILNER. Mr. Speaker, I move to suspend the rules and pass the bill (S. 3860) to require reports on the management of Arlington National Cemetery.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 3860

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
