CONTRIBUTIONS OF PHARMACIES ACROSS THE COUNTRY

Mrs. HAGAN. Mr. President, today, I am proud to recognize the contributions of our Nations' pharmacies to the American health care system. Over 200 members of the pharmacy community—including practicing pharmacists, pharmacy school faculty and students, state pharmacy leaders, and pharmacy company executives—will come together to highlight the importance of supporting policies that protect access to neighborhood pharmacies and utilizes pharmacists to improve quality and reduce health costs.

Currently, there are over 50,000 community pharmacies operating nationwide. Pharmacists are one of the Nation's most accessible health care providers, and nearly all Americans live within about 2 miles from a community retail pharmacy. Pharmacy has a long history of receiving, filling, billing, and dispensing prescriptions in tandem with counseling. But pharmacists, utilizing their specialized education, also play a major role in medication therapy management, disease state management, immunizations, health care screenings, and other health care services designed to improve patient health and reduce overall health care costs.

Pharmacists help patients adhere to their medications to improve health outcomes and reduce the risks of adverse events and unnecessary costly hospital readmissions and emergency room visits. Pharmacists are uniquely qualified to work with patients to help manage their medications and play an essential role in helping them take their medications as prescribed. Unfortunately, only 50 percent of Americans living with chronic diseases adhere to their drug regimens. Patient nonadherence costs the Nation's economy an estimated \$290 billion each year, not to mention the avoidable loss of quality of life for patients and their loved ones. Congress recognized the important role of local pharmacists when it included a medication therapy management, MTM, benefit in Medicare Part D. As we have seen the increasing power of this benefit in improving patient health outcomes, I support community pharmacy's efforts to strengthen the MTM benefit so it is available for seniors and others struggling with chronic conditions and other illnesses.

As the face of neighborhood health care, pharmacies across the Nation offer these and other cost-saving programs and services to help patients take medicines they need to achieve positive results from appropriate use of their medications. For more than a century, pharmacies and pharmacists have made a difference in the lives of

people in North Carolina and the rest of America. In order to ensure pharmacies continue to exist in our local communities, pharmacists deserve fair reimbursements for the cost effective medications that they dispense.

Today, I celebrate the value of pharmacy and support efforts to protect access to neighborhood pharmacies and utilize pharmacies to improve the quality and reduce the costs of health care. Finally, I would like to congratulate over 200 pharmacy leaders, pharmacists, students, and executives and the pharmacy community for their contributions to the good health of the American people.
