SATELLITE TELEVISION
EXTENSION AND LOCALISM ACT

The PRESIDING OFFICER. I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3333, introduced earlier today.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 3333) to extend the statutory license for secondary transmissions under title 17, United States Code, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Mr. President, I am pleased that the Senate will pass the Satellite Television Extension and Localism Act, STELA, of 2010. This legislation modernizes and extends important statutory copyright licenses that allow cable and satellite companies to retransmit the content transmitted by television broadcasters. STELA also includes important Communications Act authorizations that allow for the retransmission of broadcast television signals by satellite and cable providers.

Ensuring that Americans have access to broadcast television content is important, and it is particularly relevant for consumers in rural areas who might not otherwise be able to receive these signals over-the-air. The legislation that the Senate is passing today will ensure that nobody will be left in the dark for the foreseeable future. Broadcast television plays a critical role in cities and towns across the country, and remains the primary way in which consumers are able to access local content such as news, weather, and sports.

Cable and satellite providers help to expand the footprint of broadcast stations by allowing them to reach view-

ers who are unable to receive signals over-the-air. Vermont is an example of how cable and satellite companies can provide service to consumers in rural areas who might not otherwise receive these signals.

Vermonters will see improved service when this legislation is enacted. Today, DirecTV is permitted to use the licenses to provide Windham and Bennington Counties with stations from the Burlington television market, but DISH Network is not. This legislation will permit DISH to provide their subscribers in southern Vermont with the same service. As soon as DISH Network uses this authority, virtually everyone in the State will be able to access the news and information that is truly important to Vermonters.

One other important way that STELA will preserve and improve existing service for consumers is by correcting a flaw in the statutory copyright license for the cable industry. An unintended result of current law is that the cable license requires the cable industry to pay copyright holders for signals that many of their subscribers do not actually receive. This is often referred to as the phantom signal problem. The effect of this anomaly in the law is that Comcast is required to pay copyright royalties based on their subscriber base across the northeast for the Canadian television content that is only provided to subscribers in Burlington, VT.

The bill corrects this flaw by giving the cable industry the flexibility to continue to provide signals that are tailored to local interests—signals that might otherwise have been pulled from cable line-ups. This will benefit industry and consumers. For instance, subscribers in Burlington will still be able to receive programming such as “Hockey Night in Canada,” which has been a tradition, without fear that Comcast will have to remove the channel or raise prices because it is being charged royalties based on subscribers in Boston.

In addition, the legislation will expand consumer access to their States’

public television programming and low-power, community-oriented stations that will promote media diversity.

This is the third time the Senate will have passed substantially the same reauthorization language. The bill is the product of many hours of hard work and compromise among four committees in both Houses of Congress. No single member or committee chairman would have written it in this exact way, but the final language represents a fair compromise on important issues. For instance, I would have preferred the approach included in the Senate Judiciary Committee-approved bill for providing incentives to DISH Network to launch additional local markets, rather than lifting a court-ordered injunction. As a matter of policy, lifting a court-ordered injunction based on copyright infringement is something I generally do not support, but others insisted upon it and it is part of the compromise embodied in STELA.

Overall, this is a good bill that will preserve and improve the service that consumers across the country are accustomed to receiving. I hope the third time the Senate passes it will be the final time and that it will be considered promptly by the House and signed into law by the President.

Mr. CONRAD: This is the Statement of Budgetary Effects of PAYGO Legislation for S. 3333. This statement has been prepared pursuant to Section 4 of the Statutory Pay-As-You-Go Act of 2010 (Public Law 111-139), and is being submitted for printing in the CONGRESSIONAL RECORD prior to passage of S. 3333 by the Senate.

Total Budgetary Effects of S. 3333 for the 5-year Statutory PAYGO Scorecard: \$0.

Total Budgetary Effects of S. 3333 for the 10-year Statutory PAYGO Scorecard: \$0.

Also submitted for the RECORD as part of this statement is a table prepared by the Congressional Budget Office, which provides additional information on the budgetary effects of this Act.

CBO ESTIMATE OF THE STATUTORY PAY-AS-YOU-GO EFFECTS FOR A BILL TO EXTEND THE STATUTORY LICENSE FOR SECONDARY TRANSMISSIONS UNDER TITLE 17, UNITED STATES CODE, AND FOR OTHER PURPOSES AS PROVIDED TO CBO BY THE SENATE COMMITTEE ON THE JUDICIARY ON MAY 6, 2010

	By fiscal year, in millions of dollars—

Statutory Pay-As-You-Go Impact ^a	0	0	0	0	0	0	0	0	0	0	0	0

^a The bill would authorize the Copyright Office to charge fees to cable and satellite providers to offset a portion of the costs of operating the copyright licensing program. This provision would increase both revenues and direct spending by \$8 million over the 2010–2020 period.

Mr. WHITEHOUSE. I ask unanimous consent that the bill be read a third time; passed, and the motion to reconsider be laid upon the table, and that any statements relating to the measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 3333) was ordered to be engrossed for a third reading, was read the third time and passed, as follows:

“(a) SECONDARY TRANSMISSIONS INTO LOCAL MARKETS.—

“(1) SECONDARY TRANSMISSIONS OF TELEVISION BROADCAST STATIONS WITHIN A LOCAL MARKET.—A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station into the station’s local market shall be subject to statutory licensing under this section if—

“(A) the secondary transmission is made by a satellite carrier to the public;

State, the statutory license provided for in this paragraph shall apply to the secondary transmission of the primary transmission of such system to any subscriber in any county or county equivalent within such State, if such subscriber is located in a designated market area that is not otherwise eligible to receive the secondary transmission of the primary transmission of a noncommercial educational broadcast station located within the State pursuant to paragraph (1).

“(2) LIMITED TEMPORARY WAIVER.—

“(A) IN GENERAL.—Upon a request made by a satellite carrier, a court that issued an injunction against such carrier under subsection (a)(7)(B) before the date of the enactment of this subsection shall waive such injunction with respect to the statutory license provided under subsection (a)(2) to the extent necessary to allow such carrier to make secondary transmissions of primary transmissions made by a network station to unserved households located in short markets in which such carrier was not providing local service pursuant to the license under section 122 as of December 31, 2009.

“(B) EXPIRATION OF TEMPORARY WAIVER.—A temporary waiver of an injunction under subparagraph (A) shall expire after the end of the 120-day period beginning on the date such temporary waiver is issued unless extended for good cause by the court making the temporary waiver.

Upon motion pursuant to subparagraph (A)(iii), the court shall appoint a special master to conduct the examination and provide a report to the court as provided in paragraph (4)(B).

“(C) VOLUNTARY TERMINATION.—At any time, an entity recognized as a qualified carrier may file a statement of voluntary termination with the court certifying that it no longer wishes to be recognized as a qualified carrier. Upon receipt of such statement, the court shall reinstate the injunction waived under paragraph (1).

“(D) LOSS OF RECOGNITION PREVENTS FUTURE RECOGNITION.—No entity may be recognized as a qualified carrier if such entity had previously been recognized as a qualified carrier and subsequently lost such recognition or voluntarily terminated such recognition under subparagraph (C).

“(ii) RECORDS OF QUALIFIED CARRIER.—Beginning on the date that is one year after the date on which the qualified carrier is recognized as such under paragraph (3)(B), but not later than December 1, 2011, the qualified carrier shall provide the special master with all records that the special master considers to be directly pertinent to the following requirements under this section:

“(I) Proper calculation and payment of royalties under the statutory license under this section.

“(II) Provision of service under this license to eligible subscribers only.

“(iii) SUBMISSION OF REPORT.—The special master shall file the report required by clause (i) not later than July 24, 2012, with the court referred to in paragraph (1) that issued the injunction, and the court shall transmit a copy of the report to the Register of Copyrights, the Committees on the Judiciary and on Energy and Commerce of the House of Representatives, and the Committees on the Judiciary and on Commerce, Science, and Transportation of the Senate.

“(iv) EVIDENCE OF INFRINGEMENT.—The special master shall include in the report a statement of whether the examination by the special master indicated that there is substantial evidence that a copyright holder could bring a successful action under this section against the qualified carrier for infringement.

“(v) SUBSEQUENT EXAMINATION.—If the special master's report includes a statement that its examination indicated the existence of substantial evidence that a copyright holder could bring a successful action under this section against the qualified carrier for infringement, the special master shall, not later than 6 months after the report under clause (i) is filed, initiate another examination of the qualified carrier's compliance with the royalty payment and household eligibility requirements of the license under this section since the last report was filed under clause (iii). The special master shall file a report on the results of the examination conducted under this clause with the court referred to in paragraph (1) that issued the injunction, and the court shall transmit a copy to the Register of Copyrights, the Committees on the Judiciary and on Energy and Commerce of the House of Representatives, and the Committees on the Judiciary and on Commerce, Science, and Transportation of the Senate. The report shall include a statement described in clause (iv).

The qualified carrier shall make available to the Comptroller General all records and individuals that the Comptroller General considers necessary to meet the Comptroller General's obligations under this clause. The Comptroller General shall report the results of the monitoring required by this clause to the Committees on the Judiciary and on Energy and Commerce of the House of Representatives and the Committees on the Judiciary and on Commerce, Science, and Transportation of the Senate at intervals of not less than six months during such period.

“(C) AFFIRMATION.—A qualified carrier shall file an affidavit with the district court and the Register of Copyrights 30 months after such status was granted stating that, to the best of the affiant's knowledge, it is in compliance with the requirements for a qualified carrier. The qualified carrier shall attach to its affidavit copies of all reports or orders issued by the court, the special master, and the Comptroller General.

“(D) COMPLIANCE DETERMINATION.—Upon the motion of an aggrieved television broadcast station, the court recognizing an entity as a qualified carrier may make a determination of whether the entity is providing local-into-local service to all DMAs.

“(E) PLEADING REQUIREMENT.—In any motion brought under subparagraph (D), the party making such motion shall specify one or more designated market areas (as such term is defined in section 122(j)(2)(C)) for which the failure to provide service is being alleged, and, for each such designated market area, shall plead with particularity the circumstances of the alleged failure.

“(F) BURDEN OF PROOF.—In any proceeding to make a determination under subparagraph (D), and with respect to a designated market area for which failure to provide service is alleged, the entity recognized as a qualified carrier shall have the burden of proving that the entity provided local-into-local service with a good quality satellite signal to at least 90 percent of the households in such designated market area (based on the most recent census data released by the United States Census Bureau) at the time and place alleged.

“(5) FAILURE TO PROVIDE SERVICE.—

“(A) PENALTIES.—If the court recognizing an entity as a qualified carrier finds that such entity has willfully failed to provide local-into-local service to all DMAs, such finding shall result in the loss of recognition of the entity as a qualified carrier and the termination of the waiver provided under paragraph (1), and the court may, in its discretion—

“(i) treat such failure as an act of infringement under section 501, and subject such infringement to the remedies provided for in sections 502 through 506 and subsection (a)(6)(B) of this section; and

“(ii) impose a fine of not less than \$250,000 and not more than \$5,000,000.

“(B) EXCEPTION FOR NONWILLFUL VIOLATION.—If the court determines that the failure to provide local-into-local service to all DMAs is nonwillful, the court may in its discretion impose financial penalties for non-compliance that reflect—

“(i) the degree of control the entity had over the circumstances that resulted in the failure;

“(ii) the quality of the entity's efforts to remedy the failure and restore service; and

“(iii) the severity and duration of any service interruption.

“(6) PENALTIES FOR VIOLATIONS OF LICENSE.—A court that finds, under subsection (a)(6)(A), that an entity recognized as a qualified carrier has willfully made a secondary transmission of a primary transmission made by a network station and embodying a performance or display of a work to a subscriber who is not eligible to receive the transmission under this section shall reinstate the injunction waived under paragraph (1), and the court may order statutory damages of not more than \$2,500,000.

“(7) LOCAL-INTO-LOCAL SERVICE TO ALL DMAS DEFINED.—For purposes of this subsection:

Such test shall be conducted within 30 days

after the date the subscriber submits a request for the test. If the written findings and conclusions of a test conducted in accordance with such clause demonstrate that the subscriber does not receive a signal that meets or exceeds the requisite signal intensity standard in such clause, the subscriber shall not be denied the retransmission of a signal of a network station under section 119(d)(10)(A) of title 17, United States Code.”;

SEC. 206. PROCESS FOR ISSUING QUALIFIED CARRIER CERTIFICATION.

Part I of title III is amended by adding at the end the following new section:

“SEC. 342. PROCESS FOR ISSUING QUALIFIED CARRIER CERTIFICATION.

“(a) **CERTIFICATION.**—The Commission shall issue a certification for the purposes of section 119(g)(3)(A)(iii) of title 17, United States Code, if the Commission determines that—

“(1) a satellite carrier is providing local service pursuant to the statutory license under section 122 of such title in each designated market area; and

“(2) with respect to each designated market area in which such satellite carrier was not providing such local service as of the date of enactment of the Satellite Television Extension and Localism Act of 2010—

“(A) the satellite carrier’s satellite beams are designed, and predicted by the satellite manufacturer’s pre-launch test data, to provide a good quality satellite signal to at least 90 percent of the households in each

such designated market area based on the most recent census data released by the United States Census Bureau; and

“(B) there is no material evidence that there has been a satellite or sub-system failure subsequent to the satellite’s launch that precludes the ability of the satellite carrier to satisfy the requirements of subparagraph (A).

“(b) **INFORMATION REQUIRED.**—Any entity seeking the certification provided for in subsection (a) shall submit to the Commission the following information:

“(1) An affidavit stating that, to the best of the affiant’s knowledge, the satellite carrier provides local service in all designated market areas pursuant to the statutory license provided for in section 122 of title 17, United States Code, and listing those designated market areas in which local service was provided as of the date of enactment of the Satellite Television Extension and Localism Act of 2010.

“(2) For each designated market area not listed in paragraph (1):

“(A) Identification of each such designated market area and the location of its local receive facility.

“(B) Data showing the number of households, and maps showing the geographic distribution thereof, in each such designated market area based on the most recent census data released by the United States Census Bureau.

“(C) Maps, with superimposed effective isotropically radiated power predictions obtained in the satellite manufacturer’s pre-launch tests, showing that the contours of the carrier’s satellite beams as designed and the geographic area that the carrier’s satellite beams are designed to cover are predicted to provide a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

“(D) For any satellite relied upon for certification under this section, an affidavit stating that, to the best of the affiant’s knowledge, there have been no satellite or sub-system failures subsequent to the satellite’s launch that would degrade the design performance to such a degree that a satellite transponder used to provide local service to any such designated market area is precluded from delivering a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

“(E) Any additional engineering, designated market area, or other information the Commission considers necessary to determine whether the Commission shall grant a certification under this section.

“(c) **CERTIFICATION ISSUANCE.**—

“(1) **PUBLIC COMMENT.**—The Commission shall provide 30 days for public comment on a request for certification under this section.

“(2) **DEADLINE FOR DECISION.**—The Commission shall grant or deny a request for certification within 90 days after the date on which such request is filed.

“(d) **SUBSEQUENT AFFIRMATION.**—An entity granted qualified carrier status pursuant to section 119(g) of title 17, United States Code, shall file an affidavit with the Commission 30 months after such status was granted stating that, to the best of the affiant’s knowledge, it is in compliance with the requirements for a qualified carrier.

“(e) **DEFINITIONS.**—For the purposes of this section:

“(1) **DESIGNATED MARKET AREA.**—The term “designated market area” has the meaning given such term in section 122(j)(2)(C) of title 17, United States Code.

“(2) **GOOD QUALITY SATELLITE SIGNAL.**—

“(A) IN GENERAL.—The term “good quality satellite signal” means—

“(i) a satellite signal whose power level as designed shall achieve reception and demodulation of the signal at an availability level of at least 99.7 percent using—

“(I) models of satellite antennas normally used by the satellite carrier's subscribers; and

“(II) the same calculation methodology used by the satellite carrier to determine predicted signal availability in the top 100 designated market areas; and

“(ii) taking into account whether a signal is in standard definition format or high definition format, compression methodology, modulation, error correction, power level, and utilization of advances in technology that do not circumvent the intent of this section to provide for non-discriminatory treatment with respect to any comparable television broadcast station signal, a video signal transmitted by a satellite carrier such that—

“(I) the satellite carrier treats all television broadcast stations' signals the same with respect to statistical multiplexer prioritization; and

“(II) the number of video signals in the relevant satellite transponder is not more than the then current greatest number of video signals carried on any equivalent transponder serving the top 100 designated market areas.

“(B) DETERMINATION.—For the purposes of subparagraph (A), the top 100 designated market areas shall be as determined by Nielsen Media Research and published in the Nielsen Station Index Directory and Nielsen Station Index United States Television Household Estimates or any successor publication as of the date of a satellite carrier's application for certification under this section.”.
