STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LIEBERMAN (for himself and Mr. DODD):

S. 3498. A bill to support the establishment and operation of Teach-

ers Professional Development Institutes; to the Committee on Health, Education, Labor, and Pensions.

Mr. LIEBERMAN. Mr. President, today I am introducing legislation, along with my friend and colleague, the senior Senator from Connecticut, Mr. DODD, that will strengthen the content knowledge and instructional skills of our present K-12 teacher workforce and thus ultimately raise student achievement.

The Teachers Professional Development Institutes Act would establish eight new Teachers Professional Development Institutes throughout the nation each year over the next 5 years based on the model which has been operating at Yale University for over 30 years. Every Teachers Institute would consist of a partnership between an institution of higher education and the local public school system in which a significant proportion of the students come from low-income households. These Institutes will strengthen the present teacher workforce by giving each participant an opportunity to gain more sophisticated content knowledge and a chance to develop curriculum units with other colleagues that can be directly applied in their classrooms. We know that teachers gain confidence and enthusiasm when they have a deeper understanding of the subject matter that they teach and this translates into higher expectations for their students and an increase in student achievement.

The Teachers Professional Development Institutes are based on the Yale-New Haven Teachers Institute model that has been in existence since 1978. For over 30 years, the Institute has offered, 5 or 6 13-session seminars each year, led by Yale faculty, on topics that teachers have selected to enhance their mastery of the specific subject area that they teach. The subject selection process begins with representatives from the Institutes soliciting ideas from teachers throughout the school district for topics on which teachers feel they need to have additional preparation, topics that will assist them in preparing materials they need for their students, and topics that will assist them in addressing the standards that the school district requires. As a consensus emerges about desired seminar subjects, the Institute director identifies university faculty members with the appropriate expertise, interest and desire to lead the seminar. University faculty members, especially those who have led Institute seminars before, may sometimes suggest seminars they would like to lead, and these ideas are circulated by the representatives as well. The final decisions on which seminar topics are offered are ultimately made by the teachers who participate. In this way, the offerings are designed to respond to what teachers believe is needed and useful for both themselves and their students.

The cooperative nature of the Institute seminar planning process ensures
