

the President to the next of kin or other representative of those individuals killed as a result of the terrorist attacks of September 11, 2001, and to the memorials established at the 3 sites that were attacked on that day.

S. 3320

At the request of Mr. WHITEHOUSE, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 3320, a bill to amend the Public Health Service Act to provide for a Pancreatic Cancer Initiative, and for other purposes.

S. 3326

At the request of Ms. CANTWELL, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 3326, a bill to provide grants to States for low-income housing projects in lieu of low-income housing credits, and to amend the Internal Revenue Code of 1986 to allow a 5-year carryback of the low-income housing credit, and for other purposes.

S. 3339

At the request of Mr. KERRY, the names of the Senator from Georgia (Mr. ISAKSON) and the Senator from Oregon (Mr. MERKLEY) were added as cosponsors of S. 3339, a bill to amend the Internal Revenue Code of 1986 to provide a reduced rate of excise tax on beer produced domestically by certain small producers.

S. 3363

At the request of Mr. CARDIN, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor of S. 3363, a bill to amend the Water Resources Research Act of 1984 to reauthorize grants for and require applied water supply research regarding the water resources research and technology institutes established under that Act.

S. 3397

At the request of Ms. KLOBUCHAR, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 3397, a bill to amend the Controlled Substances Act to provide for take-back disposal of controlled substances in certain instances, and for other purposes.

S. 3409

At the request of Ms. LANDRIEU, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 3409, a bill to make certain adjustments to the price analysis of propane prepared by the Secretary of Commerce.

S. 3411

At the request of Mrs. GILLIBRAND, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 3411, a bill to provide for the adjustment of status for certain Haitian orphans paroled into the United States after the earthquake of January 12, 2010.

S. 3434

At the request of Mr. BINGAMAN, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S.

3434, a bill to provide for the establishment of a Home Star Retrofit Rebate Program, and for other purposes.

S. 3474

At the request of Mr. FEINGOLD, the name of the Senator from South Carolina (Mr. GRAHAM) was added as a cosponsor of S. 3474, a bill to provide an optional fast-track procedure the President may use when submitting rescission requests, and for other purposes.

S. 3477

At the request of Mr. WEBB, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 3477, a bill to ensure that the right of an individual to display the Service Flag on residential property not be abridged.

S. RES. 411

At the request of Mrs. LINCOLN, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. Res. 411, a resolution recognizing the importance and sustainability of the United States hardwoods industry and urging that United States hardwoods and the products derived from United States hardwoods be given full consideration in any program to promote construction of environmentally preferable commercial, public, or private buildings.

S. RES. 541

At the request of Mr. CONRAD, the names of the Senator from Vermont (Mr. SANDERS), the Senator from New York (Mr. SCHUMER), the Senator from Maine (Ms. SNOWE), the Senator from North Dakota (Mr. DORGAN), the Senator from Kansas (Mr. BROWNBACK), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Minnesota (Mr. FRANKEN), the Senator from Virginia (Mr. WARNER), the Senator from Illinois (Mr. DURBIN), the Senator from Ohio (Mr. BROWN) and the Senator from Hawaii (Mr. INOUE) were added as cosponsors of S. Res. 541, a resolution designating June 27, 2010, as "National Post-Traumatic Stress Disorder Awareness Day".

S. RES. 552

At the request of Mr. BENNET, the names of the Senator from California (Mrs. FEINSTEIN), the Senator from Colorado (Mr. UDALL), the Senator from Maine (Ms. SNOWE), the Senator from Kansas (Mr. BROWNBACK) and the Senator from Michigan (Ms. STABENOW) were added as cosponsors of S. Res. 552, a resolution designating June 23, 2010, as "Olympic Day".

AMENDMENT NO. 4382

At the request of Mrs. LINCOLN, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of amendment No. 4382 intended to be proposed to H.R. 4213, a bill to amend the Internal Revenue Code of 1986 to extend certain expiring provisions, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BAUCUS (for himself and Mr. GRASSLEY):

S. 3513. A bill to amend the Internal Revenue Code of 1986 to extend for one year the special depreciation allowances for certain property; to the Committee on Finance.

Mr. BAUCUS. Mr. President, over the past several months, we have seen some improvement in our economy.

One year ago, in the first quarter of 2009, GDP was declining at an annual rate of more than 6 percent. Just 1 year later, in the first quarter of 2010, GDP grew at an annual rate of 3 percent.

This marks the third consecutive quarter of real economic growth.

It is not just the GDP that is growing. Consumer spending has risen at an annual rate of 3.5 percent this year. Manufacturing output rose 9 percent over the first 4 months of the year. Businesses have increased spending on equipment and boosted their inventory investments.

But one economic indicator continues to lag behind—employment.

The national unemployment rate stands at 9.7 percent. Over the course of this Great Recession, the American economy has lost more than 8 million jobs. In total, 15 million Americans remain out of work.

We must act to create jobs and get Americans back to work.

We began creating jobs with the 2009 Recovery Act. The nonpartisan Congressional Budget Office reports that last year's Recovery Act added 1.2 to 2.8 million people to America's payrolls.

In March, Congress passed the HIRE Act. The HIRE Act, which includes a payroll tax exemption for new hires, should help to bolster job creation in the coming months.

This week, we are considering the American Jobs and Closing Tax Loopholes Act. That bill will create jobs by providing tax cuts and certainty to American businesses. It will create jobs by improving our nation's infrastructure. And it will create jobs by making direct investments in jobs for young adults and needy families.

After we consider the American Jobs and Closing Tax Loopholes Act, the Senate will consider a small business jobs bill. The Finance and Small Business committees are currently writing that bill.

Today, I am introducing another important jobs bill. This bill will extend bonus depreciation through 2010. I am introducing this extension as a stand-alone bill because of the unique ability of bonus depreciation to help businesses and create jobs.

In 2008, Congress temporarily allowed businesses to recover the costs of certain capital expenditures more quickly than under ordinary depreciation schedules. The 2008 law allowed businesses to immediately write off 50 percent of the cost of depreciable property placed in service in 2008.

The Recovery Act extended bonus depreciation. But the provision expired at the end of 2009.

My bill would extend bonus depreciation to property placed in service in 2010.

Bonus depreciation provides a double benefit. It helps two sets of businesses. It helps the business that purchases the equipment. It helps the business that sells the equipment.

The businesses that purchase equipment can write off those purchases more quickly.

This provides a significant tax savings. That savings makes equipment more affordable and encourages purchases.

The savings gained from expensing, rather than the slower depreciation, allows businesses to use that money to invest in the business itself. Businesses can use those savings to hire employees.

The more purchases that are made, the more other businesses are helped. This proposal will help manufacturers and suppliers to retain and hire employees as their businesses rebound.

I have heard from a number of business owners in Montana that bonus depreciation has been extremely helpful for their business.

An extension of bonus depreciation will boost economic activity by hundreds of millions of dollars. It will create hundreds of jobs in my home state of Montana.

Bonus depreciation is a cost-effective provision that provides real relief for businesses. Bonus depreciation creates jobs.

I urge my Colleagues to support this important bill.

By Mr. BEGICH (for himself, Mr. WYDEN, and Ms. KLOBUCHAR):

S. 3514. A bill to amend the Outer Continental Shelf Lands Act to prohibit a person from entering into any Federal oil or gas lease or contract unless the person pays into an Oil Spill Recovery Fund, or posts a bond, in an amount equal to the total of the outstanding liability of the person and any removal costs incurred by, or on behalf of, the person with respect to any oil discharge for which the person has outstanding liability, and for other purposes; to the Committee on Environment and Public Works.

Mr. BEGICH. Mr. President, I rise to introduce legislation requiring BP and other oil companies to set aside ample funding in an escrow account controlled—not by the company but by the Federal Government—to address the damage and claims from a major catastrophic oil spill like the current Gulf of Mexico spill.

Twenty-one years ago, the oil tanker Exxon Valdez ran aground, gushing an estimated 11 million gallons of crude oil into Alaska waters. This was the worst oil spill in American history, with oil hitting 1,300 miles of shoreline and killing hundreds of thousands of birds and marine mammals. Thousands of hard-working Alaskans, just like the residents of the Gulf, lost millions of dollars as their livelihoods collapsed.

To add insult to injury, for nearly two decades Exxon fought the legitimate claims of Alaskans harmed by the

spill for nearly two decades. The case went all the way to the Supreme Court when in 2008, the Court issued a final judgment, reducing Exxon's punitive liability to just 10 percent of what the original court had ordered. During those 19 years, hundreds of Alaskans entitled to damages had died; thousands of others' lives were forever harmed.

We Alaskans learned many lessons from the Exxon Valdez spill. One of the most important was to set up a system as early as possible to guarantee that those affected by oil spills are justly compensated. That is what my bill is designed to do. I am certainly pleased BP has agreed to set up an escrow account voluntarily, but I believe Congress should underscore their commitment in law and to protect Americans from future spills.

This bill, the Guaranteed Oil Spill Compensation Act of 2010, requires BP or any other party responsible for an oil spill interested in future Federal oil and gas leases to deposit into an escrow account held by the U.S. Government enough money to compensate those affected by a spill. In the event of a spill, the Secretary of Interior can make an assessment of outstanding liability under provisions of the Federal legislation passed in the aftermath of the Exxon Valdez, the Oil Pollution Act of 1990, OPA 90. The spiller must then deposit funds equal to the total liability minus the liability established for incident by OPA 90 into a separate fund to be administered by the Secretary for claims and costs related to that spill. Unexpended funds would be returned to the spiller at the earlier of 5 years after the date of deposit or the date the Secretary determines all Federal, State, and civil claims have been satisfied. The measure would have no effect on other liability.

I believe this legislation achieves what many of us want: ensuring Americans damaged by this oil spill and future catastrophic spills are fairly compensated in a timely way. This didn't happen to Alaskans with the Exxon Valdez. We must ensure it does happen for our Americans in the Gulf of Mexico. This is another tool as Congress works on liability reform designed to make those injured whole again, while at the same time allowing responsible companies to provide oil our country needs.

The Guaranteed Oil Spill Compensation Act of 2010 is the first of a package of bills I intend to introduce designed to make oil companies financially responsible for the cost of oil spills; expand scientific research, especially in the Arctic; provide a steady source of Federal funding for additional science and resources needed in the Far North to deal with oil and gas development; and provide greater citizen involvement in oil development.

By Mrs. SHAHEEN (for herself, Mr. UDALL of Colorado, and Mr. BINGAMAN):

S. 3515. A bill to authorize and enhance the programs of the Department of the Interior relating to the detection of, response to, and mitigation and cleanup of oil spills on Federal land managed by the Department, and for other purposes; to the Committee on Environment and Public Works.

Mrs. SHAHEEN. Mr. President, I rise today to join with my colleagues Senator MARK UDALL and Chairman JEFF BINGAMAN of the Senate Energy Committee to introduce the Department of the Interior Research and Technologies for Oil Spill Prevention and Response Act of 2010. Legislation intended to make sure we have the proper resources available to respond to future oil spills.

While we are still getting to the bottom of what caused the Deepwater Horizon disaster in the Gulf, one thing is absolutely clear: BP was totally unprepared to respond, contain and clean-up this kind of spill.

From "junk shots" to containment domes that failed to work at depth, BP was caught totally flat footed by this spill. Even BP's CEO, Tony Hayward, admitted that BP didn't "have the tools in the toolbox" to respond to this spill.

The oil and gas industry has poured significant sums of money into developing technologies to find and produce oil and gas, but when I asked oil executives at a recent Energy Committee hearing what they've done in the way of research and development to respond to and clean up oil spills the response I got was: little to nothing.

The technologies being used today in the Gulf are the same technologies we used twenty years ago to clean-up the Exxon Valdez spill. The oil and gas industry needs to do better. Since they won't do it themselves, they can pay the government to lead on research and development. We need to have updated, innovative, and effective technologies at the ready to clean up after any oil spill—large or small.

We have to make sure that—through proper research and development—we are prepared to prevent and respond to future oil spills. And that is what my legislation is intended to do.

The legislation I am introducing today with Senators UDALL and BINGAMAN does the following:

It creates a new Oil Spill research and development program within the Interior Department to focus on research and development technologies to respond to, contain and clean up oil spills and ensure we're prepared to respond to future spills.

It establishes an independent Scientific Advisory Board to identify gaps and focus the research and development program on priority areas. We know the concerns of the scientists were ignored leading up to the Deepwater Horizon explosion. This provision will make sure their important voices are heard.

It makes the oil and gas industry pay for this critical research and development. In order to make sure this import effort has the resources it need to be successful, my legislation creates a dedicated funding source to pay for this research and development, and

this funding will come entirely from royalties, rent, and bonuses from domestic oil and gas producers.

This legislation is one part of a broader effort to ensure that we are prepared for future oil spills and that the catastrophe in the Gulf never happens again.

I look forward to working with my colleagues to incorporate this legislation into comprehensive legislation the Senate is crafting to respond to the Deepwater Horizon spill and reform the federal agency responsible for oil and gas development in the outer continental shelf. I urge my colleagues to support this legislation so that we can ensure we are prepared to handle future oil spills.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3515

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Department of the Interior Research and Technologies for Oil Spill Prevention and Response Act of 2010”.

SEC. 2. PURPOSE.

The purpose of this Act is to maintain and enhance the world-class research and facilities of the Department of the Interior and to ensure that there is adequate knowledge, practices, and technologies to detect, respond to, contain, and clean up oil spills occurring on Federal land managed by the Department of the Interior, whether onshore or on the outer Continental Shelf.

SEC. 3. DEFINITIONS.

In this Act:

(1) **BOARD.**—The term “Board” means the Science and Technology Advisory Board established under section 5(a).

(2) **FUND.**—The term “Fund” means the Oil Spill Technology and Research Fund established by section 13(a).

(3) **PROGRAM.**—The term “program” means the program established under section 4(a).

SEC. 4. AUTHORIZATION OF DEPARTMENT OF THE INTERIOR OIL SPILL RESEARCH AND DEVELOPMENT PROGRAM.

(a) **IN GENERAL.**—The Secretary shall carry out a program of research, development, technology demonstration, and risk assessment to address issues associated with the detection of, response to, and mitigation and cleanup of oil spills occurring on Federal land managed by the Department of the Interior, whether onshore or on the outer Continental Shelf.

(b) **SPECIFIC AREAS OF FOCUS.**—The program shall include research, development, demonstration, validation, personnel training, and other activities relating to—

(1) technologies, materials, methods, and practices—

(A) to detect the release of hydrocarbons from leaking exploration or production equipment;

(B) to characterize the rates of flow from leaking exploration and production equipment in locations that are remote or difficult to access;

(C) to protect the safety of workers addressing hydrocarbon releases from exploration and production equipment;

(D) to contain, respond to, and clean up oil spills, including with the use of dispersants,

containment vessels, booms, and skimmers, particularly under worst-case release scenarios;

(E) to contain, respond to, and clean up an oil spill in extreme or harsh conditions on the outer Continental Shelf; and

(F) for environmental assessment, restoration, and long-term monitoring;

(2) fundamental scientific characterization of the behavior of oil and natural gas in and on soil and water, including miscibility, plume behavior, emulsification, physical separation, and chemical and biological degradation;

(3) behavior and effects of emulsified, dispersed, and submerged oil in water; and

(4) modeling, simulation, and prediction of oil flows from releases and the trajectories of releases on the surface, the subsurface, and in water.

SEC. 5. SCIENCE AND TECHNOLOGY ADVISORY BOARD.

(a) **IN GENERAL.**—The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to establish an independent committee, to be known as the “Science and Technology Advisory Board”, to provide scientific and technical advice to the program, including—

(1) the identification of knowledge gaps that the program should address;

(2) the establishment of scientific and technical priorities; and

(3) an annual review of the results and effectiveness of the program, including successful technology development.

(b) **REPORTS.**—Reports and recommendations of the Board shall promptly be made available to Congress and the public.

SEC. 6. RESEARCH AND TECHNOLOGY PLAN.

(a) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, and every 2 years thereafter, the Secretary, in consultation with the Board, shall develop and publish a research and technology plan for the program.

(b) **CONTENTS.**—The plan under this section shall—

(1) identify research needs and opportunities;

(2) propose areas of focus for the program;

(3) establish program priorities, including priorities for the research centers of excellence under section 7, demonstration projects under section 8, and research grants under section 9; and

(4) estimate—

(A) the extent of resources needed to conduct the program; and

(B) timetables for completing research tasks under the program.

(c) **PUBLICATION.**—The Secretary shall timely publish—

(1) the plan under this section; and

(2) a review of the plan by the Board.

SEC. 7. RESEARCH CENTERS OF EXCELLENCE.

(a) **RESPONSE TECHNOLOGIES FOR DEEPWATER, ULTRA DEEPWATER, AND OTHER EXTREME ENVIRONMENT OIL SPILLS.**—

(1) **ESTABLISHMENT.**—The Secretary shall establish at 1 or more institutions of higher education a research center of excellence for the research, development, and demonstration of technologies necessary to respond to, contain, mitigate, and clean up deepwater, ultra deepwater, and other extreme environment oil spills.

(2) **GRANTS.**—The Secretary shall provide grants to the research center of excellence established under paragraph (1) to conduct and oversee basic and applied research in the technologies described in that paragraph.

(b) **OIL SPILL RESPONSE AND RESTORATION.**—

(1) **ESTABLISHMENT.**—The Secretary, in coordination with the Undersecretary of Commerce for Oceans and Atmosphere, shall es-

tablish at 1 or more institutions of higher education a research center of excellence for research and innovation in oil spill fate, behavior and effects, and damage assessment and restoration.

(2) **GRANTS.**—The Secretary shall provide grants to the research center of excellence established under paragraph (1) to conduct and oversee basic and applied research in the areas described in that paragraph.

(c) **OTHER RESEARCH CENTERS OF EXCELLENCE.**—The Secretary may establish such other research centers of excellence as the Secretary determines to be necessary for the research, development, and demonstration of technologies necessary to carry out this Act.

SEC. 8. DEMONSTRATION PROJECTS.

(a) **IN GENERAL.**—In carrying out the program, the Secretary shall conduct deepwater, ultra deepwater, and other extreme environment oil spill response demonstration projects for the purpose of developing and demonstrating new integrated deepwater oil spill mitigation and response systems that use the information and implement the improved practices and technologies developed from the program.

(b) **REQUIREMENTS.**—The mitigation and response systems developed under subsection (a) shall use technologies and management practices for improving the response capabilities to deepwater oil spills, including—

(1) improved oil flow monitoring and calculation;

(2) improved oil spill response capability;

(3) improved subsurface mitigation technologies;

(4) improved capability to track and predict the flow and effects of oil discharges in both subsurface and surface areas for the purposes of making oil mitigation and response decisions; and

(5) any other activities necessary to achieve the purposes of the program.

SEC. 9. RESEARCH GRANTS.

In carrying out the program, the Secretary may award competitive grants in coordination with research centers of excellence under section 7 and consistent with the research and technology plan under section 6 to institutions of higher education or other research institutions—

(1) to carry out projects that are relevant to the goals and priorities of the research and technology plan; and—

(2)(A) to advance research and development; or

(B) to demonstrate technologies.

SEC. 10. PILOT PROGRAMS FOR FIELD TESTING TECHNOLOGIES.

(a) **IN GENERAL.**—The Secretary, in coordination with the Administrator of the Environmental Protection Agency, shall conduct a pilot program to conduct field tests on new oil spill response, mitigation, and cleanup technologies developed under the program in the waters of the United States.

(b) **RESULTS.**—The results of the field tests conducted under subsection (a) shall be used—

(1) to refine oil spill technology research and development; and

(2) to assist the Secretary and the Administrator of the Environmental Protection Agency in the development of safety and environmental regulations under this Act and other applicable laws.

SEC. 11. PEER REVIEW OF PROPOSALS AND RESEARCH.

(a) **IN GENERAL.**—Any award of funds under the program shall be made only after the Secretary has carried out an impartial peer review of the scientific and technical merit of the proposals for the award.

(b) **REQUIREMENTS.**—The Secretary shall ensure that any research conducted under the program shall be peer-reviewed, transparent, and made available to the public.

SEC. 12. COORDINATION WITH OTHER AGENCIES.

(a) IN GENERAL.—In carrying out this Act, the Secretary shall consult and coordinate, as appropriate, with other Federal agencies and programs, including the Interagency Coordinating Committee on Oil Pollution Research established under section 7001 of the Oil Pollution Act of 1990 (33 U.S.C. 2761).

(b) RESPONSIBILITY OF THE SECRETARY.—Notwithstanding any requirements to consult or coordinate, the Secretary shall maintain authority, direction, and control of the program.

SEC. 13. OIL SPILL TECHNOLOGY AND RESEARCH FUND.

(a) ESTABLISHMENT.—There is established in the Treasury of the United States a revolving fund, to be known as the “Oil Spill Technology and Research Fund”, consisting of such amounts as are transferred to the Fund under subsection (b), to be administered by the Secretary, to be available without fiscal year limitation and not subject to appropriation, to carry out the program.

(b) TRANSFERS TO FUND.—From any Federal royalties, rents, and bonuses derived from Federal onshore and offshore oil and gas leases issued the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) or the Mineral Leasing Act (30 U.S.C. 181 et seq.) that are deposited in the Treasury, and after distribution of any funds described in subsection (c), there shall be transferred to the Fund \$25,000,000 for each of fiscal years 2010 through 2020, to remain available until expended.

(c) PRIOR DISTRIBUTIONS.—The distributions referred to in subsection (b) are those required by law—

(1) to States and to the Reclamation Fund under section 35(a) of the Mineral Leasing Act (30 U.S.C. 191(a)); and

(2) to other funds receiving amounts from Federal oil and gas leasing programs, including—

(A) any recipients pursuant to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g));

(B) the land and water conservation fund, pursuant to section 2(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-5(c));

(C) the Historic Preservation Fund, pursuant to section 108 of the National Historic Preservation Act (16 U.S.C. 470h); and

(D) the coastal impact assistance program established under section 31 of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a).

(d) PROHIBITION.—Amounts in the Fund may not be made available for any purpose other than a purpose described in subsection (a).

(e) ANNUAL REPORTS.—

(1) IN GENERAL.—Not later than 60 days after the end of each fiscal year beginning with fiscal year 2010, the Secretary shall submit to the Committee on Appropriations of the House of Representatives, the Committee on Appropriations of the Senate, the Committee on Energy and Natural Resources of the Senate, and the Committee on Natural Resources of the House of Representatives a report on the operation of the Fund during the fiscal year.

(2) CONTENTS.—Each report shall include, for the fiscal year covered by the report, the following:

(A) A statement of the amounts deposited into the Fund.

(B) A description of the expenditures made from the Fund for the fiscal year, including the purpose of the expenditures.

(C) Recommendations for additional authorities to fulfill the purpose of the Fund.

(D) A statement of the balance remaining in the Fund at the end of the fiscal year.

By Mr. BINGAMAN (for himself, Ms. MURKOWSKI, and Mr. DORGAN):

S. 3516. A resolution to amend the Outer Continental Shelf Lands Act to reform the management of energy and mineral resources on the Outer Continental Shelf, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. BINGAMAN. Mr. President, today I am pleased to introduce the Outer Continental Shelf Reform Act of 2010. This act takes a number of important steps to ensure that the Outer Continental Shelf will be managed in a balanced, prudent, and vigilant way, to ensure energy production, safety, and protection of the environment. Its goal is to create a culture of excellence in this endeavor that benefits those who work in the oil industry, those who depend on other marine resources, and all Americans who care deeply about our oceans and coastal environment.

This legislation is being introduced against the backdrop of oil still gushing into the Gulf of Mexico more than 60 days after the initial explosion of the Deepwater Horizon rig. As the Congress formulates its overall response to this disaster, its first order of business must be to continue to care for the families of those who lost their lives in the rig explosion and those Gulf residents who are suffering every day through loss of livelihood and of places and wildlife that they love. Several Senate committees have important roles to play in formulating legislation in that regard.

At the same time, it also is essential that we look to the future, and to creating a better structure and system within the regulatory agency. That is a particular responsibility of the Committee on Energy and Natural Resources. One goal must be, of course, to prevent future disasters. But we can and must do more than that.

Congress should create organizational resources and a set of principles and requirements that will have safety, environmental protection, and innovation at its core. We should require that both industry and agency employees have the expertise, experience, and commitment to quality necessary to handle the complex issues involved. If we do this right, it is my hope that we can see tangible results on all fronts, and a shift away from the cascade of failures that led to the Deepwater Horizon accident and towards work of the highest quality.

Thus, this bill clarifies the multiple responsibilities of the Department of the Interior in managing the Outer Continental Shelf—appropriate energy and other economic development and the protection of human health and safety and the marine and coastal environment. It reforms the structure of the regulatory apparatus of the Department consistent with these responsibilities. The new organizational structure requires that the Department avoid organizational conflicts of inter-

est between its revenue-raising missions and its planning, permitting, and regulatory missions.

The bill increases the safety requirements for drilling wells, focusing on best available technology, a systems analysis, risk assessment, an evidentiary safety case, and a full engineering review. In furtherance of the development of these standards and their evolution of new and better technology, it requires new research programs within the Department, independent of the leasing program, whose data must be considered by the regulators. It provides dedicated funding for the highest priority research, including in the areas of well control and spill response, and an independent science advisory board outside the agency to provide oversight.

It establishes new requirements for investigation of all accidents and the public sharing of data from those reviews so that all can learn from mistakes before they become major problems. It allows the National Transportation Safety Board to provide an independent and highly skilled investigation of any accident at the request of the Secretary.

In order to fully enforce the safety requirements, the bill imposes an inspection fee on industry participants to fully fund enough well-trained inspectors to perform real and meaningful inspections more often. It also increases the sanctions on poor operators, including increased civil and criminal penalties applicable to those who violate the law, and the financial responsibility requirements to ensure that those who participate in development of the Outer Continental Shelf can afford to pay for any damage they cause.

The bill provides the Department of the Interior with adequate time to carry out necessary reviews, clarifies the issues that need to be addressed, and makes the input of other Federal agencies occur in a transparent way. In this way, the process will have more predictability and all stakeholders will have greater understanding of what is under consideration. The result will be better decisions that will be capable of being implemented with greater certainty.

Finally, the bill takes steps to ensure that the taxpayers will get a fair return for development of energy resources. The Secretary will be required to regularly review the amounts of royalties and other charges applicable to those developing the Outer Continental Shelf, compare them to charges levied by States and other countries, and consider whether adjustments are necessary to achieve fair fiscal policies.

I believe these policies and resources can set us on a new and constructive path toward managing the incredible natural resources of the Outer Continental Shelf. I welcome ideas from others that may enhance our ability in this regard. We must commit ourselves to the goal of excellence in this important endeavor. We start today.

I am pleased to be joined by Senator MURKOWSKI, ranking Republican on the Energy and Natural Resources Committee, and Senator DORGAN, as original cosponsors of this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3516

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Outer Continental Shelf Reform Act of 2010”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Purposes.
- Sec. 3. Definitions.
- Sec. 4. National policy for the outer Continental Shelf.
- Sec. 5. Structural reform of outer Continental Shelf program management.
- Sec. 6. Safety, environmental, and financial reform of the Outer Continental Shelf Lands Act.
- Sec. 7. Reform of other laws.
- Sec. 8. Savings provisions.
- Sec. 9. Budgetary effects.

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to rationalize and reform the responsibilities of the Secretary of the Interior with respect to the management of the outer Continental Shelf in order to improve the management, oversight, accountability, safety, and environmental protection of all the resources on the outer Continental Shelf;

(2) to provide independent development and enforcement of safety and environmental laws (including regulations) governing—

(A) energy development and mineral extraction activities on the outer Continental Shelf; and

(B) related offshore activities; and

(3) to ensure a fair return to the taxpayer from, and independent management of, royalty and revenue collection and disbursement activities from mineral and energy resources.

SEC. 3. DEFINITIONS.

In this Act:

(1) DEPARTMENT.—The term “Department” means the Department of the Interior.

(2) OUTER CONTINENTAL SHELF.—The term “outer Continental Shelf” has the meaning given the term in section 2 of the Outer Continental Shelf Lands Act (43 U.S.C. 1331).

(3) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

SEC. 4. NATIONAL POLICY FOR THE OUTER CONTINENTAL SHELF.

Section 3 of the Outer Continental Shelf Lands Act (43 U.S.C. 1332) is amended—

(1) by striking paragraph (3) and inserting the following:

“(3) the outer Continental Shelf is a vital national resource reserve held by the Federal Government for the public, which should be managed in a manner that recognizes—

“(A) the need of the United States for domestic sources of energy, food, minerals, and other resources;

“(B) the potential impacts of development of those resources on the marine and coastal environment and on human health and safety; and

“(C) the long-term economic value to the United States of the balanced and orderly

management of those resources that safeguards the environment and respects the multiple values and uses of the outer Continental Shelf;”;

(2) in paragraph (4)(C), by striking the period at the end and inserting a semicolon;

(3) in paragraph (5), by striking “; and” and inserting a semicolon;

(4) by redesignating paragraph (6) as paragraph (7);

(5) by inserting after paragraph (5) the following:

“(6) exploration, development, and production of energy and minerals on the outer Continental Shelf should be allowed only when those activities can be accomplished in a manner that provides reasonable assurance of adequate protection against harm to life, health, the environment, property, or other users of the waters, seabed, or subsoil; and”;

and

(6) in paragraph (7) (as so redesignated)—

(A) by striking “should be” and inserting “shall be”; and

(B) by adding “best available” after “using”.

SEC. 5. STRUCTURAL REFORM OF OUTER CONTINENTAL SHELF PROGRAM MANAGEMENT.

(a) IN GENERAL.—The Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) is amended by adding to the end the following:

“SEC. 32. STRUCTURAL REFORM OF OUTER CONTINENTAL SHELF PROGRAM MANAGEMENT.

“(a) LEASING, PERMITTING, AND REGULATION BUREAUS.—

“(1) ESTABLISHMENT OF BUREAUS.—

“(A) IN GENERAL.—Subject to the discretion granted by Reorganization Plan Number 3 of 1950 (64 Stat. 1262; 43 U.S.C. 1451 note), the Secretary shall establish in the Department of the Interior not more than 2 bureaus to carry out the leasing, permitting, and safety and environmental regulatory functions vested in the Secretary by this Act and the Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701 et seq.) related to the outer Continental Shelf.

“(B) CONFLICTS OF INTEREST.—In establishing the bureaus under subparagraph (A), the Secretary shall ensure, to the maximum extent practicable, that any potential organizational conflicts of interest related to leasing, revenue creation, environmental protection, and safety are eliminated.

“(2) DIRECTOR.—Each bureau shall be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate.

“(3) COMPENSATION.—Each Director shall be compensated at the rate provided for level V of the Executive Schedule under section 5316 of title 5, United States Code.

“(4) QUALIFICATIONS.—Each Director shall be a person who, by reason of professional background and demonstrated ability and experience, is specially qualified to carry out the duties of the office.

“(b) ROYALTY AND REVENUE OFFICE.—

“(1) ESTABLISHMENT OF OFFICE.—Subject to the discretion granted by Reorganization Plan Number 3 of 1950 (64 Stat. 1262; 43 U.S.C. 1451 note), the Secretary shall establish in the Department of the Interior an office to carry out the royalty and revenue management functions vested in the Secretary by this Act and the Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701 et seq.).

“(2) DIRECTOR.—The office established under paragraph (1) shall be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate.

“(3) COMPENSATION.—The Director shall be compensated at the rate provided for level V

of the Executive Schedule under section 5316 of title 5, United States Code.

“(4) QUALIFICATIONS.—The Director shall be a person who, by reason of professional background and demonstrated ability and experience, is specially qualified to carry out the duties of the office.

“(c) OCS SAFETY AND ENVIRONMENTAL ADVISORY BOARD.—

“(1) ESTABLISHMENT.—The Secretary shall establish, under the Federal Advisory Committee Act (5 U.S.C. App.), an Outer Continental Shelf Safety and Environmental Advisory Board (referred to in this subsection as the “Board”), to provide the Secretary and the Directors of the bureaus established under this section with independent scientific and technical advice on safe and environmentally compliant energy and mineral resource exploration, development, and production activities.

“(2) MEMBERSHIP.—

“(A) SIZE.—

“(i) IN GENERAL.—The Board shall consist of not more than 12 members, chosen to reflect a range of expertise in scientific, engineering, management, and other disciplines related to safe and environmentally compliant energy and mineral resource exploration, development, and production activities.

“(ii) CONSULTATION.—The Secretary shall consult with the National Academy of Sciences and the National Academy of Engineering to identify potential candidates for membership on the Board.

“(B) TERM.—The Secretary shall appoint Board members to staggered terms of not more than 4 years, and shall not appoint a member for more than 2 consecutive terms.

“(C) CHAIR.—The Secretary shall appoint the Chair for the Board.

“(3) MEETINGS.—The Board shall—

“(A) meet not less than 3 times per year; and

“(B) at least once per year, shall host a public forum to review and assess the overall safety and environmental performance of outer Continental Shelf energy and mineral resource activities.

“(4) REPORTS.—Reports of the Board shall—

“(A) be submitted to Congress; and

“(B) made available to the public in an electronically accessible form.

“(5) TRAVEL EXPENSES.—Members of the Board, other than full-time employees of the Federal government, while attending a meeting of the Board or while otherwise serving at the request of the Secretary or the Director while serving away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for individuals in the Federal Government serving without pay.

“(d) SPECIAL PERSONNEL AUTHORITIES.—

“(1) DIRECT HIRING AUTHORITY FOR CRITICAL PERSONNEL.—

“(A) IN GENERAL.—Notwithstanding sections 3104, 3304, and 3309 through 3318 of title 5, United States Code, the Secretary may, upon a determination that there is a severe shortage of candidates or a critical hiring need for particular positions, recruit and directly appoint highly qualified accountants, scientists, engineers, or critical technical personnel into the competitive service, as officers or employees of any of the organizational units established under this section.

“(B) REQUIREMENTS.—In exercising the authority granted under subparagraph (A), the Secretary shall ensure that any action taken by the Secretary—

“(i) is consistent with the merit principles of chapter 23 of title 5, United States Code; and

“(ii) complies with the public notice requirements of section 3327 of title 5, United States Code.

“(2) CRITICAL PAY AUTHORITY.—

“(A) IN GENERAL.—Notwithstanding section 5377 of title 5, United States Code, and without regard to the provisions of that title governing appointments in the competitive service or the Senior Executive Service and chapters 51 and 53 of that title (relating to classification and pay rates), the Secretary may establish, fix the compensation of, and appoint individuals to critical positions needed to carry out the functions of any of the organizational units established under this section, if the Secretary certifies that—

“(i) the positions—

“(I) require expertise of an extremely high level in a scientific or technical field; and

“(II) any of the organizational units established in this section would not successfully accomplish an important mission without such an individual; and

“(ii) exercise of the authority is necessary to recruit an individual exceptionally well qualified for the position.

“(B) LIMITATIONS.—The authority granted under subparagraph (A) shall be subject to the following conditions:

“(i) The number of critical positions authorized by subparagraph (A) may not exceed 40 at any 1 time in either of the bureaus established under this section.

“(ii) The term of an appointment under subparagraph (A) may not exceed 4 years.

“(iii) An individual appointed under subparagraph (A) may not have been an employee of the Department of the Interior during the 2-year period prior to the date of appointment.

“(iv) Total annual compensation for any individual appointed under subparagraph (A) may not exceed the highest total annual compensation payable at the rate determined under section 104 of title 3, United States Code.

“(v) An individual appointed under subparagraph (A) may not be considered to be an employee for purposes of subchapter II of chapter 75 of title 5, United States Code.

“(C) NOTIFICATION.—Each year, the Secretary shall submit to Congress a notification that lists each individual appointed under this paragraph.

“(3) REEMPLOYMENT OF CIVILIAN RETIREES.—

“(A) IN GENERAL.—Notwithstanding part 553 of title 5, Code of Federal Regulations (relating to reemployment of civilian retirees to meet exceptional employment needs), or successor regulations, the Secretary may approve the reemployment of an individual to a particular position without reduction or termination of annuity if the hiring of the individual is necessary to carry out a critical function of any of the organizational units established under this section for which suitably qualified candidates do not exist.

“(B) LIMITATIONS.—An annuitant hired with full salary and annuities under the authority granted by subparagraph (A)—

“(i) shall not be considered an employee for purposes of subchapter III of chapter 83 and chapter 84 of title 5, United States Code;

“(ii) may not elect to have retirement contributions withheld from the pay of the annuitant;

“(iii) may not use any employment under this paragraph as a basis for a supplemental or recomputed annuity; and

“(iv) may not participate in the Thrift Savings Plan under subchapter III of chapter 84 of title 5, United States Code.

“(C) LIMITATION ON TERM.—The term of employment of any individual hired under subparagraph (A) may not exceed an initial term of 2 years, with an additional 2-year appointment under exceptional circumstances.

“(e) CONTINUITY OF AUTHORITY.—Subject to the discretion granted by Reorganization Plan Number 3 of 1950 (64 Stat. 1262; 43 U.S.C. 1451 note), any reference in any law, rule, regulation, directive, or instruction, or certificate or other official document, in force immediately prior to the date of enactment of this section—

“(1) to the Minerals Management Service that pertains to any of the duties and authorities described in this section shall be deemed to refer and apply to the appropriate bureaus and offices established under this section;

“(2) to the Director of the Minerals Management Service that pertains to any of the duties and authorities described in this section shall be deemed to refer and apply to the Director of the bureau or office under this section to whom the Secretary has assigned the respective duty or authority; and

“(3) to any other position in the Minerals Management Service that pertains to any of the duties and authorities described in this section shall be deemed to refer and apply to that same or equivalent position in the appropriate bureau or office established under this section.”.

(b) CONFORMING AMENDMENT.—Section 5316 of title 5, United States Code, is amended by striking “Director, Bureau of Mines, Department of the Interior” and inserting the following:

“Bureau Directors, Department of the Interior (2).

“Director, Royalty and Revenue Office, Department of the Interior.”.

SEC. 6. SAFETY, ENVIRONMENTAL, AND FINANCIAL REFORM OF THE OUTER CONTINENTAL SHELF LANDS ACT.

(a) DEFINITIONS.—Section 2 of the Outer Continental Shelf Lands Act (43 U.S.C. 1331) is amended by adding at the end the following:

“(r) SAFETY CASE.—The term ‘safety case’ means a body of evidence that provides a basis for determining whether a system is adequately safe for a given application in a given environment.”.

(b) ADMINISTRATION OF LEASING.—Section 5(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)) is amended in the second sentence—

(1) by striking “The Secretary may at any time” and inserting “The Secretary shall”; and

(2) by inserting after “provide for” the following: “operational safety, the protection of the marine and coastal environment.”.

(c) MAINTENANCE OF LEASES.—Section 6 of the Outer Continental Shelf Lands Act (43 U.S.C. 1335) is amended by adding at the end the following:

“(f) REVIEW OF BOND AND SURETY AMOUNTS.—Not later than May 1, 2011, and every 5 years thereafter, the Secretary shall—

“(1) review the minimum bond amounts for mineral leases under subsection (a)(11); and

“(2) set any bonds, surety, or other evidence of financial responsibility required in amounts adequate to permit lessees to fulfill all obligations under this Act or the Oil Pollution Act of 1990 (33 U.S.C. 2701 et seq.).

“(g) PERIODIC FISCAL REVIEWS AND REPORTS.—

“(1) ROYALTY RATES.—

“(A) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection and every 3 years thereafter, the Secretary shall carry out a review of, and prepare a report that describes—

“(i) the royalty and rental rates included in new offshore oil and gas leases and the rationale for the rates;

“(ii) whether, in the view of the Secretary, the royalty and rental rates described in subparagraph (A) would yield a fair return to

the public while promoting the production of oil and gas resources in a timely manner; and

“(iii) whether, based on the review, the Secretary intends to modify the royalty or rental rates.

“(B) PUBLIC PARTICIPATION.—In carrying out a review and preparing a report under subparagraph (A), the Secretary shall provide to the public an opportunity to participate.

“(2) COMPARATIVE REVIEW OF FISCAL SYSTEM.—

“(A) IN GENERAL.—Not later than 2 years after the date of enactment of this subsection and every 5 years thereafter, the Secretary in consultation with the Secretary of the Treasury, shall carry out a comprehensive review of all components of the Federal offshore oil and gas fiscal system, including requirements for bonus bids, rental rates, royalties, oil and gas taxes, and oil and gas fees.

“(B) INCLUSIONS.—The review shall include—

“(i) information and analyses comparing the offshore bonus bids, rents, royalties, taxes, and fees of the Federal Government to the offshore bonus bids, rents, royalties, taxes, and fees of other resource owners (including States and foreign countries); and

“(ii) an assessment of the overall offshore oil and gas fiscal system in the United States, as compared to foreign countries.

“(C) INDEPENDENT ADVISORY COMMITTEE.—In carrying out a review under this paragraph, the Secretary shall convene and seek the advice of an independent advisory committee comprised of oil and gas and fiscal experts from States, Indian tribes, academia, the energy industry, and appropriate nongovernmental organizations.

“(D) REPORT.—The Secretary shall prepare a report that contains—

“(i) the contents and results of the review carried out under this paragraph for the period covered by the report; and

“(ii) any recommendations of the Secretary and the Secretary of the Treasury based on the contents and results of the review.

“(3) REPORT DEADLINE.—Not later than 30 days after the date on which the Secretary completes each report under this subsection, the Secretary shall submit copies of the report to—

“(A) the Committee on Energy and Natural Resources of the Senate;

“(B) the Committee on Finance of the Senate;

“(C) the Committee on Natural Resources of the House of Representatives; and

“(D) the Committee on Ways and Means of the House of Representatives.”.

(d) LEASES, EASEMENTS, AND RIGHTS-OF-WAY.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is amended by striking subsection (d) and inserting the following:

“(d) DISQUALIFICATION FROM BIDDING.—No bid for a lease may be submitted by any entity that the Secretary finds, after notice and opportunity for a hearing—

“(1) is not meeting due diligence, safety, or environmental requirements on other leases; or

“(2)(A) is a responsible party for a vessel or a facility from which oil is discharged, for purposes of section 1002 of the Oil Pollution Act of 1990 (33 U.S.C. 2702); and

“(B) has failed to meet the obligations of the responsible party under that Act to provide compensation for covered removal costs and damages.”.

(e) EXPLORATION PLANS.—Section 11 of the Outer Continental Shelf Lands Act (43 U.S.C. 1340) is amended—

(1) in subsection (c)—

(A) in the fourth sentence of paragraph (1), by striking “within thirty days of its submission” and inserting “by the deadline described in paragraph (5)”;

(B) by striking paragraph (3) and inserting the following:

“(3) MINIMUM REQUIREMENTS.—

“(A) IN GENERAL.—An exploration plan submitted under this subsection shall include, in such degree of detail as the Secretary by regulation may require—

“(i) a complete description and schedule of the exploration activities to be undertaken;

“(ii) a description of the equipment to be used for the exploration activities, including—

“(I) a description of the drilling unit;

“(II) a statement of the design and condition of major safety-related pieces of equipment;

“(III) a description of any new technology to be used; and

“(IV) a statement demonstrating that the equipment to be used meets the best available technology requirements under section 21(b);

“(iii) a map showing the location of each well to be drilled;

“(iv) (I) a scenario for the potential blowout of the well involving the highest potential volume of liquid hydrocarbons; and

“(II) a complete description of a response plan to control the blowout and manage the accompanying discharge of hydrocarbons, including—

“(aa) the technology and timeline for regaining control of the well; and

“(bb) the strategy, organization, and resources necessary to avoid harm to the environment and human health from hydrocarbons; and

“(v) any other information determined to be relevant by the Secretary.

“(B) DEEPWATER WELLS.—

“(i) IN GENERAL.—Before conducting exploration activities in water depths greater than 500 feet, the holder of a lease shall submit to the Secretary for approval a deepwater operations plan prepared by the lessee in accordance with this subparagraph.

“(ii) TECHNOLOGY REQUIREMENTS.—A deepwater operations plan under this subparagraph shall be based on the best available technology to ensure safety in carrying out the exploration activity and the blowout response plan.

“(iii) SYSTEMS ANALYSIS REQUIRED.—The Secretary shall not approve a deepwater operations plan under this subparagraph unless the plan includes a technical systems analysis of—

“(I) the safety of the proposed exploration activity;

“(II) the blowout prevention technology; and

“(III) the blowout and spill response plans.”; and

(C) by adding at the end the following:

“(5) DEADLINE FOR APPROVAL.—

“(A) IN GENERAL.—In the case of a lease issued under a sale held after March 17, 2010, the deadline for approval of an exploration plan referred to in the fourth sentence of paragraph (1) is—

“(i) the date that is 90 days after the date on which the plan or the modifications to the plan are submitted; or

“(ii) the date that is not later than an additional 180 days after the deadline described in clause (i), if the Secretary makes a finding that additional time is necessary to complete any environmental, safety, or other reviews.

“(B) EXISTING LEASES.—In the case of a lease issued under a sale held on or before March 17, 2010, the Secretary, with the consent of the holder of the lease, may extend the deadline applicable to the lease for such

additional time as the Secretary determines is necessary to complete any environmental, safety, or other reviews.”;

(2) by redesignating subsections (e) through (h) as subsections (f) through (i), respectively; and

(3) by striking subsection (d) and inserting the following:

“(d) DRILLING PERMITS.—

“(1) IN GENERAL.—The Secretary shall, by regulation, require that any lessee operating under an approved exploration plan obtain a permit—

“(A) before the lessee drills a well in accordance with the plan; and

“(B) before the lessee significantly modifies the well design originally approved by the Secretary.

“(2) ENGINEERING REVIEW REQUIRED.—The Secretary may not grant any drilling permit until the date of completion of a full engineering review of the well system, including a determination that—

“(A) critical safety systems (including blowout prevention) will use best available technology; and

“(B) blowout prevention systems will include redundancy and remote triggering capability.

“(3) MODIFICATION REVIEW REQUIRED.—The Secretary may not approve any modification of a permit without a determination, after an additional engineering review, that the modification will not degrade the safety of the well system previously approved.

“(4) OPERATOR SAFETY AND ENVIRONMENTAL MANAGEMENT REQUIRED.—The Secretary may not grant any drilling permit or modification of the permit until the date of completion and approval of a safety and environmental management plan that—

“(A) is to be used by the operator during all well operations; and

“(B) includes—

“(i) a description of the expertise and experience level of crew members who will be present on the rig; and

“(ii) designation of at least 2 environmental and safety managers that—

“(I) are employees of the operator;

“(II) would be present on the rig at all times; and

“(III) have overall responsibility for the safety and environmental management of the well system and spill response plan; and

“(C) not later than May 1, 2012, requires that all employees on the rig meet the training and experience requirements under section 21(b)(4).

“(e) DISAPPROVAL OF EXPLORATION PLAN.—

“(1) IN GENERAL.—The Secretary shall disapprove an exploration plan submitted under this section if the Secretary determines that, because of exceptional geological conditions in the lease areas, exceptional resource values in the marine or coastal environment, or other exceptional circumstances, that—

“(A) implementation of the exploration plan would probably cause serious harm or damage to life (including fish and other aquatic life), property, mineral deposits, national security or defense, or the marine, coastal or human environments;

“(B) the threat of harm or damage would not disappear or decrease to an acceptable extent within a reasonable period of time; and

“(C) the advantages of disapproving the exploration plan outweigh the advantages of exploration.

“(2) COMPENSATION.—If an exploration plan is disapproved under this subsection, the provisions of subparagraphs (B) and (C) of section 25(h)(2) shall apply to the lease and the plan or any modified plan, except that the reference in section 25(h)(2)(C) to a develop-

ment and production plan shall be considered to be a reference to an exploration plan.”.

(f) OUTER CONTINENTAL SHELF LEASING PROGRAM.—Section 18 of the Outer Continental Shelf Lands Act (43 U.S.C. 1344) is amended—

(1) in subsection (a)—

(A) in the second sentence, by inserting after “national energy needs” the following: “and the need for the protection of the marine and coastal environment and resources”;

(B) in paragraph (1), by striking “considers” and inserting “gives equal consideration to”; and

(C) in paragraph (3), by striking “, to the maximum extent practicable,”;

(2) in subsection (b)—

(A) in paragraph (3), by striking “and” at the end;

(B) in paragraph (4), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(5) provide technical review and oversight of the exploration plan and a systems review of the safety of the well design and other operational decisions;

“(6) conduct regular and thorough safety reviews and inspections, and;

“(7) enforce all applicable laws (including regulations).”;

(3) in the second sentence of subsection (d)(2), by inserting “, the head of an interested Federal agency,” after “Attorney General”;

(4) in the first sentence of subsection (g), by inserting before the period at the end the following: “, including existing inventories and mapping of marine resources previously undertaken by the Department of the Interior and the National Oceanic and Atmospheric Administration, information provided by the Department of Defense, and other available data regarding energy or mineral resource potential, navigation uses, fisheries, aquaculture uses, recreational uses, habitat, conservation, and military uses on the outer Continental Shelf”; and

(5) by adding at the end the following:

“(i) RESEARCH AND DEVELOPMENT.—

“(1) IN GENERAL.—The Secretary shall carry out a program of research and development to ensure the continued improvement of methodologies for characterizing resources of the outer Continental Shelf and conditions that may affect the ability to develop and use those resources in a safe, sound, and environmentally responsible manner.

“(2) INCLUSIONS.—Research and development activities carried out under paragraph (1) may include activities to provide accurate estimates of energy and mineral reserves and potential on the outer Continental Shelf and any activities that may assist in filling gaps in environmental data needed to develop each leasing program under this section.

“(3) LEASING ACTIVITIES.—Research and development activities carried out under paragraph (1) shall not be considered to be leasing or pre-leasing activities for purposes of this Act.”.

(g) ENVIRONMENTAL STUDIES.—Section 20 of the Outer Continental Shelf Lands Act (43 U.S.C. 1346) is amended—

(1) by redesignating subsections (a) through (f) as subsections (b) through (g), respectively;

(2) by inserting before subsection (b) (as so redesignated) the following:

“(a) COMPREHENSIVE AND INDEPENDENT STUDIES.—

“(1) IN GENERAL.—The Secretary shall develop and carry out programs for the collection, evaluation, assembly, analysis, and dissemination of environmental and other resource data that are relevant to carrying out the purposes of this Act.

“(2) SCOPE OF RESEARCH.—The programs under this subsection shall include—

“(A) the gathering of baseline data in areas before energy or mineral resource development activities occur;

“(B) ecosystem research and monitoring studies to support integrated resource management decisions; and

“(C) the improvement of scientific understanding of the fate, transport, and effects of discharges and spilled materials, including deep water hydrocarbon spills, in the marine environment.

“(3) USE OF DATA.—The Secretary shall ensure that information from the studies carried out under this section—

“(A) informs the management of energy and mineral resources on the outer Continental Shelf including any areas under consideration for oil and gas leasing; and

“(B) contributes to a broader coordination of energy and mineral resource development activities within the context of best available science.

“(4) INDEPENDENCE.—The Secretary shall create a program within the appropriate bureau established under section 32 that shall—

“(A) be programmatically separate and distinct from the leasing program;

“(B) carry out the environmental studies under this section;

“(C) conduct additional environmental studies relevant to the sound management of energy and mineral resources on the outer Continental Shelf;

“(D) provide for external scientific review of studies under this section, including through appropriate arrangements with the National Academy of Sciences; and

“(E) subject to the restrictions of subsections (g) and (h) of section 18, make available to the public studies conducted and data gathered under this section.”; and

(3) in the first sentence of subsection (b)(1) (as so redesignated), by inserting “every 3 years” after “shall conduct”.

(h) SAFETY RESEARCH AND REGULATIONS.—Section 21 of the Outer Continental Shelf Lands Act (43 U.S.C. 1347) is amended—

(1) in the first sentence of subsection (a), by striking “Upon the date of enactment of this section,” and inserting “Not later than May 1, 2011, and every 3 years thereafter.”;

(2) by striking subsection (b) and inserting the following:

“(b) BEST AVAILABLE TECHNOLOGIES AND PRACTICES.—

“(1) IN GENERAL.—In exercising respective responsibilities under this Act, the Secretary, and the Secretary of the Department in which the Coast Guard is operating, shall require, on all new drilling and production operations and, to the maximum extent practicable, on existing operations, the use of the best available and safest technologies and practices, if the failure of equipment would have a significant effect on safety, health, or the environment.

“(2) IDENTIFICATION OF BEST AVAILABLE TECHNOLOGIES.—Not later than May 1, 2011, and not later than every 3 years thereafter, the Secretary shall identify and publish an updated list of best available technologies for key areas of well design and operation, including blowout prevention and blowout and oil spill response.

“(3) SAFETY CASE.—Not later than May 1, 2011, the Secretary shall promulgate regulations requiring a safety case be submitted along with each new application for a permit to drill on the outer Continental Shelf.

“(4) EMPLOYEE TRAINING.—

“(A) IN GENERAL.—Not later than May 1, 2011, the Secretary shall promulgate regulations setting standards for training for all workers on offshore facilities (including mobile offshore drilling units) conducting energy and mineral resource exploration, development, and production operations on the outer Continental Shelf.

“(B) REQUIREMENTS.—The training standards under this paragraph shall require that employers of workers described in subparagraph (A)—

“(i) establish training programs approved by the Secretary; and

“(ii) demonstrate that employees involved in the offshore operations meet standards that demonstrate the aptitude of the employees in critical technical skills.

“(C) EXPERIENCE.—The training standards under this section shall require that any offshore worker with less than 5 years of applied experience in offshore facilities operations pass a certification requirement after receiving the appropriate training.

“(D) MONITORING TRAINING COURSES.—The Secretary shall ensure that Department employees responsible for inspecting offshore facilities monitor, observe, and report on training courses established under this paragraph, including attending a representative number of the training sessions, as determined by the Secretary.”; and

(3) by adding at the end the following:

“(g) TECHNOLOGY RESEARCH AND RISK ASSESSMENT PROGRAM.—

“(1) IN GENERAL.—The Secretary shall carry out a program of research, development, and risk assessment to address technology and development issues associated with outer Continental Shelf energy and mineral resource activities, with the primary purpose of informing the role of research, development, and risk assessment relating to safety, environmental protection, and spill response.

“(2) SPECIFIC AREAS OF FOCUS.—The program under this subsection shall include research, development, and other activities related to—

“(A) risk assessment, using all available data from safety and compliance records both within the United States and internationally;

“(B) analysis of industry trends in technology, investment, and interest in frontier areas;

“(C) analysis of incidents investigated under section 22;

“(D) reviews of best available technologies, including technologies associated with pipelines, blowout preventer mechanisms, casing, well design, and other associated infrastructure related to offshore energy development;

“(E) oil spill response and mitigation;

“(F) risks associated with human factors; and

“(G) renewable energy operations.

“(3) INFORMATION SHARING ACTIVITIES.—

“(A) DOMESTIC ACTIVITIES.—The Secretary shall carry out programs to facilitate the exchange and dissemination of scientific and technical information and best practices related to the management of safety and environmental issues associated with energy and mineral resource exploration, development, and production.

“(B) INTERNATIONAL COOPERATION.—The Secretary shall carry out programs to cooperate with international organizations and foreign governments to share information and best practices related to the management of safety and environmental issues associated with energy and mineral resource exploration, development, and production.

“(4) REPORTS.—The program under this subsection shall provide to the Secretary,

each Bureau Director under section 32, and the public quarterly reports that address—

“(A) developments in each of the areas under paragraph (2); and

“(B)(i) any accidents that have occurred in the past quarter; and

“(ii) appropriate responses to the accidents.

“(5) INDEPENDENCE.—The Secretary shall create a program within the appropriate bureau established under section 32 that shall—

“(A) be programmatically separate and distinct from the leasing program;

“(B) carry out the studies, analyses, and other activities under this subsection;

“(C) provide for external scientific review of studies under this section, including through appropriate arrangements with the National Academy of Sciences; and

“(D) make available to the public studies conducted and data gathered under this section.

“(6) USE OF DATA.—The Secretary shall ensure that the information from the studies and research carried out under this section inform the development of safety practices and regulations as required by this Act and other applicable laws.”.

(i) ENFORCEMENT.—Section 22 of the Outer Continental Shelf Lands Act (43 U.S.C. 1348) is amended—

(1) in subsection (d)—

(A) in paragraph (1)—

(i) in the first sentence, by inserting “, each loss of well control, blowout, activation of the blowout preventer, and other accident that presented a serious risk to human or environmental safety,” after “fire”; and

(ii) in the last sentence, by inserting “as a condition of the lease” before the period at the end;

(B) in the last sentence of paragraph (2), by inserting “as a condition of lease” before the period at the end;

(2) in subsection (e)—

(A) by striking “(e) The” and inserting the following:

“(e) REVIEW OF ALLEGED SAFETY VIOLATIONS.—

“(1) IN GENERAL.—The”;

(B) by adding at the end the following:

“(2) INVESTIGATION.—The Secretary shall investigate any allegation from any employee of the lessee or any subcontractor of the lessee made under paragraph (1).”; and

(3) by adding at the end of the section the following:

“(g) INDEPENDENT INVESTIGATION.—

“(1) IN GENERAL.—At the request of the Secretary, the National Transportation Safety Board may conduct an independent investigation of any accident, occurring in the outer Continental Shelf and involving activities under this Act, that does not otherwise fall within the definition of an accident or major marine casualty, as those terms are used in chapter 11 of title 49, United States Code.

“(2) TRANSPORTATION ACCIDENT.—For purposes of an investigation under this subsection, the accident that is the subject of the request by the Secretary shall be determined to be a transportation accident within the meaning of that term in chapter 11 of title 49, United States Code.

“(h) INFORMATION ON CAUSES AND CORRECTIVE ACTIONS.—

“(1) IN GENERAL.—For each incident investigated under this section, the Secretary shall promptly make available to all lessees and the public technical information about the causes and corrective actions taken.

“(2) PUBLIC DATABASE.—All data and reports related to an incident described in paragraph (1) shall be maintained in a database that is available to the public.

“(i) INSPECTION FEE.—

“(1) IN GENERAL.—The Secretary shall collect a non-refundable inspection fee, which shall be deposited in the Ocean Energy Enforcement Fund established under paragraph (3), from the designated operator for facilities subject to inspection under subsection (c).

“(2) ESTABLISHMENT.—The Secretary shall establish, by rule, inspection fees—

“(A) at an aggregate level equal to the amount necessary to offset the annual expenses of inspections of outer Continental Shelf facilities (including mobile offshore drilling units) by the Department of the Interior; and

“(B) using a schedule that reflects the differences in complexity among the classes of facilities to be inspected.

“(3) OCEAN ENERGY ENFORCEMENT FUND.—There is established in the Treasury a fund, to be known as the ‘Ocean Energy Enforcement Fund’ (referred to in this subsection as the ‘Fund’), into which shall be deposited amounts collected under paragraph (1) and which shall be available as provided under paragraph (4).

“(4) AVAILABILITY OF FEES.—Notwithstanding section 3302 of title 31, United States Code, all amounts collected by the Secretary under this section—

“(A) shall be credited as offsetting collections;

“(B) shall be available for expenditure only for purposes of carrying out inspections of outer Continental Shelf facilities (including mobile offshore drilling units) and the administration of the inspection program;

“(C) shall be available only to the extent provided for in advance in an appropriations Act; and

“(D) shall remain available until expended.

“(5) ANNUAL REPORTS.—

“(A) IN GENERAL.—Not later than 60 days after the end of each fiscal year beginning with fiscal year 2011, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a report on the operation of the Fund during the fiscal year.

“(B) CONTENTS.—Each report shall include, for the fiscal year covered by the report, the following:

“(i) A statement of the amounts deposited into the Fund.

“(ii) A description of the expenditures made from the Fund for the fiscal year, including the purpose of the expenditures.

“(iii) Recommendations for additional authorities to fulfill the purpose of the Fund.

“(iv) A statement of the balance remaining in the Fund at the end of the fiscal year.”.

(j) REMEDIES AND PENALTIES.—Section 24 of the Outer Continental Shelf Lands Act (43 U.S.C. 1350) is amended—

(1) by striking subsection (b) and inserting the following:

“(b) CIVIL PENALTY.—

“(1) IN GENERAL.—Subject to paragraphs (2) through (3), if any person fails to comply with this Act, any term of a lease or permit issued under this Act, or any regulation or order issued under this Act, the person shall be liable for a civil administrative penalty of not more than \$75,000 for each day of continuance of each failure.

“(2) ADMINISTRATION.—The Secretary may assess, collect, and compromise any penalty under paragraph (1).

“(3) HEARING.—No penalty shall be assessed under this subsection until the person charged with a violation has been given the opportunity for a hearing.

“(4) ADJUSTMENT.—The penalty amount specified in this subsection shall increase each year to reflect any increases in the Consumer Price Index for All Urban Consumers

published by the Bureau of Labor Statistics of the Department of Labor.”;

(2) in subsection (c)—

(A) in the first sentence, by striking “\$100,000” and inserting “\$10,000,000”; and

(B) by adding at the end the following: “The penalty amount specified in this subsection shall increase each year to reflect any increases in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.”; and

(3) in subsection (d), by inserting “, or with reckless disregard,” after “knowingly and willfully”.

(k) OIL AND GAS DEVELOPMENT AND PRODUCTION.—Section 25 of the Outer Continental Shelf Lands Act (43 U.S.C. 1351) is amended by striking “, other than the Gulf of Mexico,” each place it appears in subsections (a)(1), (b), and (e)(1).

SEC. 7. REFORM OF OTHER LAWS.

(a) COORDINATED MAPPING INITIATIVE.—Section 388(b) of the Energy Policy Act of 2005 (43 U.S.C. 1337 note; Public Law 109-58) is amended by adding at the end the following:

“(4) FEDERAL AGENCIES.—Any head of a Federal department or agency shall, on request of the Secretary, provide to the Secretary all data and information that the Secretary determines to be necessary for the purpose of including the data and information in the mapping initiative, except that no Federal department or agency shall be required to provide any data or information that is privileged or proprietary.”.

(b) DEDICATED FUNDING FOR OUTER CONTINENTAL SHELF RESEARCH ACTIVITIES.—Section 999H(d) of the Energy Policy Act of 2005 (42 U.S.C. 16378(d)) is amended by striking paragraph (4) and inserting the following:

“(4) 25 percent shall be used for research activities required under sections 20 and 21 of the Outer Continental Shelf Lands Act (43 U.S.C. 1346, 1347).”.

SEC. 8. SAVINGS PROVISIONS.

(a) EXISTING LAW.—All regulations, rules, standards, determinations, contracts and agreements, memoranda of understanding, certifications, authorizations, appointments, delegations, results and findings of investigations, or any other actions issued, made, or taken by, or pursuant to or under, the authority of any law (including regulations) that resulted in the assignment of functions or activities to the Secretary, the Director of the Minerals Management Service (including by delegation from the Secretary), or the Department (as related to the implementation of the purposes referenced in this Act) that were in effect on the date of enactment of this Act shall continue in full force and effect after the date of enactment of this Act unless previously scheduled to expire or until otherwise modified or rescinded by this Act or any other Act.

(b) EFFECT ON OTHER AUTHORITIES.—This Act does not amend or alter the provisions of other applicable laws, unless otherwise noted.

SEC. 9. BUDGETARY EFFECTS.

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the Congressional Record by the Chairman of the Senate Budget Committee, provided that such statement has been submitted prior to the vote on passage.

By Mr. KERRY. (for himself and Mr. LUGAR) (by request):

S.J. Res. 34. A joint resolution relating to the approval of the proposed agreement for nuclear cooperation be-

tween the United States and the Russian Federation; to the Committee on Foreign Relations for a period not to exceed 45 session days pursuant to 42 U.S.C. 2159.

Mr. KERRY. Mr. President, today Senator LUGAR and I introduce, by request, a resolution of approval of the proposed agreement for peaceful nuclear cooperation between the United States and the Russian Federation, which the President transmitted to Congress on May 10, 2010, pursuant to section 123 b. and 123 d. of the Atomic Energy Act. Pursuant to Section 130 i.(2) of that Act, the majority and minority leaders have designated Senator LUGAR and me to introduce this resolution.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 561—DESIGNATING JUNE 25, 2010, AS “NATIONAL HUNTINGTON’S DISEASE AWARENESS DAY”

Mr. BURR (for himself, Mr. DODD, Mr. INHOFE, and Ms. COLLINS) submitted the following resolution; which was considered and agreed to:

S. RES. 561

Whereas Huntington’s Disease is a progressive degenerative neurological disease that causes total physical and mental deterioration throughout a 15- to 20-year period;

Whereas each child of a parent with Huntington’s Disease has a 50-percent chance of inheriting the Huntington’s Disease gene;

Whereas the onset of Huntington’s Disease typically begins in mid-life, between the ages of 30 and 45, though onset may occur as early as the age of 2;

Whereas children who develop the juvenile form of Huntington’s Disease rarely live to adulthood;

Whereas, after the onset of Huntington’s Disease, the average lifespan of an individual with Huntington’s Disease is 15 to 20 years, and the younger the age of onset, the more rapid the progression of the disease;

Whereas Huntington’s Disease affects approximately 30,000 individuals and 200,000 genetically “at risk” individuals in the United States;

Whereas, since the discovery of the gene that causes Huntington’s Disease in 1993, the pace of Huntington’s Disease research has accelerated;

Whereas, although no effective treatment or cure for Huntington’s Disease exists as of the date of this resolution, scientists and researchers are hopeful that breakthroughs will be forthcoming;

Whereas researchers across the United States are conducting important research projects involving Huntington’s Disease; and

Whereas the Senate is an institution that can raise awareness in the general public and the medical community of Huntington’s Disease: Now, therefore, be it

Resolved, That the Senate—

(1) designates June 25, 2010, as “National Huntington’s Disease Awareness Day”; and

(2) recognizes that all people of the United States should become more informed about and aware of Huntington’s Disease.

AMENDMENTS SUBMITTED AND PROPOSED

SA 4385. Mrs. HUTCHISON (for herself, Mr. LEMIEUX, and Mr. CORNYN) submitted an
