(2) increasing the responsibility of non-custodial parents for the long-term care and financial well-being of their children;

Whereas research shows that working with men and boys to change attitudes towards women can have a profound impact on reducing violence against women;

Whereas research shows that women are significantly more satisfied in relationships when responsible fathers participate in the daily care of children;

Whereas children around the world do better in school and are less delinquent when fathers participate closely in their lives;

Whereas responsible fatherhood is an important component of successful development policies and programs in countries throughout the world;
