

for whom the park is named, were each in their own right giants of conservation ideas and practice. This legislation will expand the park's land area to help our generation and future generations to better fulfill and carry forward its mission.

The boyhood home of George Perkins Marsh, one of America's first conservationists, and later the home of Frederick Billings, the property was given to the American people by its most recent owners, Laurance S. and Mary F. Rockefeller. The park was created by an Act of Congress and signed into law by President George Bush on August 26, 1992. It is a living symbol of America's conservation ethic. The Marsh-Billings-Rockefeller National Historic Park tells a story of conservation history and the evolving nature of land stewardship in America.

The park puts the idea of conservation stewardship into a modern context, interpreting the idea of place and the ways in which people can balance natural resource conservation with the requirements of our 21st Century world. It is also a repository for the histories of these three American families. Visitors can tour the mansion and gardens and learn more about conservation by hiking in the sustainably managed forest, and they can visit the land stewardship exhibit at the Carriage Barn Visitor Center. The park operates in partnership with The Woodstock Foundation and the adjacent Billings Farm and Museum—a working dairy farm and a museum of agricultural and rural life that offers visitors the opportunity to experience both farm and forest landscapes, in side-by-side settings.

This new legislation would expand the boundaries of the park to incorporate the neighboring King Farm. The land and structures of this historic Woodstock farm will allow the National Park Service to expand the scope and delivery of its telling of the conservation story. The farm will provide a setting for programs in sustainable agriculture and a venue for community groups and others to undertake related projects and educational opportunities activities that have been limited in the past by the sensitivity of the historic structures constituting the Rockefeller estate. Model forestry activities and the trail network will also be enhanced through this boundary expansion.

This legislation also formally establishes the Conservation Studies Institute within the Marsh-Billings-Rockefeller National Historical Park. The Institute has evolved within the National Park Service over the past decade to enhance leadership in conservation throughout the National Park Service and to facilitate stewardship partnerships in local communities. It is through these partnerships that the Institute inspires collaborative conservation to engage communities and help them build their vision for the future. The park, the Institute and their

Vermont setting are a great fit and a valuable setting in which to offer prototypes for conservation and sustainable practices on so many fronts.

A Vermont author and professor, John Elder, said this at the park's dedication on June 5th 1998:

There is a mandate to invent an entirely new kind of park. It must be one where the human stories and the natural history are intertwined; where the relatively small acreage serves as an educational resource for the entire National Park Service and a seedbed for American environmental thought; and where the legacy of American conservation and its future enter into dialogue, generating a new environmental paradigm for our day.

This is a unique opportunity to enhance the mission of the Marsh-Billings-Rockefeller National Historical Park and its service to the American people.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 585—DESIGNATING THE WEEK OF AUGUST 2 THROUGH AUGUST 8, 2010, AS “NATIONAL CONVENIENT CARE CLINIC WEEK,” AND SUPPORTING THE GOALS AND IDEALS OF RAISING AWARENESS OF THE NEED FOR ACCESSIBLE AND COST-EFFECTIVE HEALTH CARE OPTIONS TO COMPLEMENT THE TRADITIONAL HEALTH CARE MODEL

Mr. INOUE submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 585

Whereas convenient care clinics are health care facilities located in high-traffic retail outlets that provide affordable and accessible care to patients who might otherwise be delayed or unable to schedule an appointment with a traditional primary care provider;

Whereas millions of people in the United States do not have a primary care provider, and there is a worsening primary care shortage that will prevent many people from obtaining 1 in the future;

Whereas convenient care clinics have provided an accessible alternative for more than 15,000,000 people in the United States since the first clinic opened in 2000, continue to expand rapidly, and as of June 2010 consist of approximately 1,100 clinics in 35 States;

Whereas convenient care clinics follow rigid industry-wide quality of care and safety standards;

Whereas convenient care clinics are staffed by highly qualified health care providers, including advanced practice nurses, physician assistants, and physicians;

Whereas convenient care clinicians all have advanced education in providing quality health care for common episodic ailments including cold and flu, skin irritation, and muscle strains or sprains, and can also provide immunizations, physicals, and preventive health screening;

Whereas convenient care clinics are proven to be a cost-effective alternative to similar treatment obtained in physician offices, urgent care, or emergency departments; and

Whereas convenient care clinics complement traditional medical service providers by providing extended weekday and

weekend hours without the need for an appointment, short wait times, and visits that generally last only 15 to 20 minutes: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of August 2 through August 8, 2010 as “National Convenient Care Clinic Week”;

(2) supports the goals and ideals of National Convenient Care Clinic Week to raise awareness of the need for accessible and cost-effective health care options to complement the traditional health care model;

(3) recognizes the obstacles many people in the United States face in accessing the traditional medical home model of health care;

(4) encourages the use of convenient care clinics as a complimentary alternative to the medical home model of health care; and

(5) calls on the States to support the establishment of convenient care clinics so that more people in the United States will have access to the cost-effective and necessary emergent and preventive services provided in the clinics.

Mr. INOUE. Mr. President, today I rise to recognize all of the providers who work in retail-based Convenient Care Clinics in a Resolution to designate August 2 through August 8, 2010, as National Convenient Care Clinic Week. National Convenient Care Clinic Week will provide a national platform from which to promote the pivotal services offered by the more than 1,100 retail-based convenient care clinics in the United States.

Today, thousands of nurse practitioners, physician assistants, and physicians provide care in convenient care clinics. At a time when Americans are more and more challenged by the inaccessibility and high costs of health care, convenient care offers a vital high-quality primary care alternative.

This resolution will help pave the way for this effort. I ask my colleagues to join me in supporting this tribute to Convenient Care Clinics.
