I am sure that Sonya will be sorely missed in Columbiana, whose residents will reap the benefits of her contributions to their community for years to come. Regardless of where she resides, I know that she will continue to touch the lives of everyone fortunate enough to meet her.

I wish Sonya luck on her journey west, and I ask this entire Senate to join me in recognizing and honoring the life and career of my good friend Sonya Lefkovits.●

RECOGNIZING AXIOM TECHNOLOGIES

● Ms. SNOWE. Mr. President, I have long held the belief that the availability of broadband undoubtedly contributes to business expansion, employment growth, and greater educational opportunities. Indeed, the Internet can truly transform the way small firms do business. This is particularly the case in places like my home State of Maine, which is not only largely rural, but is home to over 150,000 small businesses. As such, it is with great admiration that today I recognize Axiom Technologies, based in the town of Machias, for the firm's outstanding commitment to the goal of bringing broadband Internet service to rural Maine communities that have not previously known its remarkable power.

Founded in 2004 by Nelson Geel and Chris Moody, Axiom originally sought to provide inexpensive consulting services to small businesses and communities in Washington County, Maine's easternmost county. Yet the two quickly realized that there was a growing desire for affordable broadband in the area, which was largely overlooked by corporate providers. As such, the company reevaluated its business vision in an attempt to allow rural areas of the State to benefit from the same advantages of broadband Internet provided to Maine's more urban regions.

In addition to operating on a sustainable financial basis, Axiom Technologies prides itself on always attempting to hold true to a unique social mission as well. Axiom is well aware "of the central role that business plays in society" and seeks to solidify this responsibility "by initiating innovative ways to improve the quality of life in the communities in which [it] operate[s]." Not only has the company done this by spreading equality of access to information through broadband services, but its employees also take it upon themselves to improve their community.

One shining example is Susan Corbett, Axiom's CEO, who was instrumental in the development of a type of community-minded, service-based listserv for Washington County called Mighty Women. In 2006, she, along with some of her entrepreneurial and social

service peers, created the "rolodex" of e-mail contacts that could be solicited to assist those in need throughout eastern Maine. Indeed, in 2009, the Mighty Women listserv mobilized to raise last minute funds for Washington county children who were in need of toys and warm clothing for the holiday season. With just a week before Christmas, the group raised approximately \$3,000 to help give the children the holiday joy that they deserved.

People such as Susan Corbett are representative of the family-like mentality which Axiom Technologies hopes to foster among its employees and within the greater community. Small businesses around the country have historically helped build a sense of community in the areas in which they operate, and Axiom is no exception. The ability to access information via broadband should be something available to all people across America, and Axiom Technologies has built its business around fulfilling this goal. The company has done it economically, but most inspiring, Axiom has attempted to promote the well-being of the people in the communities they serve. When a business cares about helping others as does Axiom, the community can rest assured that Axiom's employees share their goals and aspirations for improving the overall community.

While small businesses are duly noted as the drivers of the Nation's economy, they cannot be overlooked for their positive social impacts on the communities in which they operate. Although they may serve a relatively small market, Axiom is certainly on the cutting edge when it comes to promoting broadband equality, a goal of national importance. I thank everyone at Axiom for their numerous and varied contributions to the health of Maine's economic future and general welfare, and I wish them much success in the years to come.●

TRIBUTE TO ALTON "RED" FRANKLIN

● Mr. VITTER. Mr. President, today I wish to acknowledge Coach Alton "Red" Franklin for his dedicated service to Louisiana and in particular to Haynesville High School in northern Louisiana. I would like to take some time to make a few remarks on his accomplishments.

Throughout his distinguished career as the Haynesville High School football coach, he won 27 district championships and participated in the State playoffs 31 times. The team had 8 undefeated seasons and 191 shutouts. Coach Franklin led the team to 11 State championships in four decades winning four consecutive State championships from 1993 to 1996. Coach Franklin was inducted in the Louisiana High School Coaches Association Hall of Fame in 1991. He was also named State coach of the year 6 times and district coach of the year 23 times throughout his career.

When Coach Franklin retired in January of 2002, he retired as the second most winningest football coach in Louisiana history and number 15 nationally. Coach Franklin had accumulated a remarkable record of 366 wins, 76 losses, and 8 ties.

Even after his outstanding career, Red Franklin continued to be actively involved in his community, returning to Haynesville High in 2003 as a volunteer assistant coach for his son David, the current head coach. In 2009, Red Franklin won his first State championship as an assistant coach to his son. On July 10, 2010, Red Franklin received the high honor of being inducted into the National Federation of State High School Associations Hall of Fame Class of 2010.

Thus, today, I honor a fellow Louisianian, Coach Alton "Red" Franklin, for his exceptional and distinguished service to Haynesville High School and to our State.●
