STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KOHL (for himself, Ms. SNOWE, and Mr. INOUE):

S. 3637. A bill to authorize appropriations for the Housing Assistance Council; to the Committee on Banking, Housing, and Urban Affairs.

Mr. KOHL. Mr. President, I rise today to introduce the Housing Assistance Council Authorization Act. This legislation will re-authorize appropria-

tions for the Housing Assistance Council, HAC, which has been committed to developing affordable housing in rural communities for over 35 years.

HAC was originally given a three-year authorization through the Farm Bill in 2008. During the past three years HAC made \$46.1 million in grants and loans to help build 3,878 homes throughout rural America. The program has leveraged its funding with over \$360 million in other financing and has provided essential technical assistance to local non-profits throughout the country in the form of capacity building grants. These critical services help local organizations, rural communities and cities develop safe and affordable housing.

Throughout the country, approximately $\frac{1}{5}$ of the Nation's population lives in rural communities. About 7.5 million of the rural population is living in poverty and 2.5 million of them are children. Nearly 3.6 million rural households pay more than 30 percent of their income in housing costs. While housing costs are generally lower in rural counties, wages are dramatically outpaced by the cost of housing. Additionally, the housing conditions are often substandard and there are many families doubled up due to lack of housing. Rural areas lack both affordable rental units and homeownership opportunities needed to serve the population.

There are several federal programs that are aimed at developing affordable housing and economic opportunities in rural communities in both the Department of Housing and Urban Development and the Department of Agriculture. However, rural housing programs have traditionally been underfunded. The administration's fiscal year 2011 budget request zeroed two programs that were devoted to helping rural communities: Rural Innovation Fund, and the Self Help Homeownership Program, SHOP. In many regions, federal funding might be the only assistance available for housing and economic development. The Housing Assistance Council is yet another tool that rural communities can utilize when trying to develop affordable housing.

The presence of the HAC in Wisconsin has made a huge impact on rural housing development in Wisconsin and other rural communities across the country. In Wisconsin, HAC has provided close to \$5.2 million in grants and loans to 17 non-profit housing organizations and helped develop 825 units of housing.

Tony Romo, the current quarterback for the Dallas Cowboys, grew up in a HAC-supported self-help home in Burlington, WI. His parents built the home as part of Southeastern Wisconsin Housing Corporation's sweat equity, self-help homeownership program. There are countless examples linking a child's future success to the stability in their childhood home. Tony Romo's story provides one such example of how

a child raised in safe, stable homeownership may go on to later success.

I am very honored to work with Senators SNOWE and INOUE on this legislation. Its passage will allow every state to better serve the needs of the people living in rural areas. I look forward to working with my colleagues to ensure the adoption of this bill.

By Mr. UDALL of Colorado (for himself, Mr. CRAPO, Mr. GREGG, Mr. BENNET and Ms. KLOBUCHAR):

S. 3640. A bill to amend the Internal Revenue Code of 1986 to increase the limitations on the amount excluded from the gross estate with respect to land subject to a qualified conservation easement; to the Committee on Finance.

Mr. UDALL of Colorado. Mr. President, today I am introducing, along with my friend and colleague Senator CRAPO, legislation to encourage further protection of our treasured lands, ranches and family farms. The American Family Farm and Ranchland Protection Act is a bipartisan piece of legislation that rewards those who protect these lands through conservation easements by increasing their exemption from the estate tax. Put simply, we strongly support conservation efforts and believe we need to do more to give Americans a real incentive to protect our nation's land. It is a companion bill to similar bipartisan legislation in the House of Representatives introduced by Congressman BLUMENAUER.

I have long made conservation of America's natural resources a core component of my public service. In my role as chair of the National Parks Subcommittee, I am continuously focused on preserving our public lands and waters, because we owe it to future generations to leave them a sustainable environment. We did not inherit the land from our parents, we are borrowing it from our children.

However, the Government can only do so much, and many of our most important landscapes are privately owned property. If we are serious about conservation, we must acknowledge the important role that private land owners play in the overall effort to preserve our natural resources for generations to come.

Estate taxes can compromise Americans' ability to conserve private property. After the death of a loved one, families are often forced to subdivide a property and sell it for development to pay the costs of estate taxes. This situation could become more common starting in 2011 when the estate tax is set to revert back to the 2001 level of 55 percent above a \$1 million per spouse exemption. Nearly 15 years ago, in an effort to provide some relief and encourage conservation of family farms and ranches, Congress created an exemption from the estate tax of up to 40 percent of the value of the land, capped at \$500,000, for land permanently protected by a conservation easement.
