

debilitating disease for which no cure has yet been developed.

Lymphedema is a blockage of lymph vessels that causes an accumulation of fluid, protein, and other cellular waste. This results in a swelling of the body in places where the blockage occurs. Though lymphedema can be passed down genetically, it most frequently occurs after surgical procedures to remove damaged lymph nodes or vessels. Often it is a tragic side-effect to cancer treatments, the highest risk occurring in breast and prostate cancer patients.

Doctors can screen for lymphedema using a number of diagnostic tools, and early detection is important to minimize the effects of this disease. Lymphedema, sadly, is not curable, but it is treatable through compression, specially designed exercises, or, in some cases, surgery.

One of my constituents, Jennifer Onks Hovatter of Johnson City, lost her husband Thomas to complications arising from lymphedema in 2007. Every year on June 18th—the day that Thomas passed away—Jennifer holds the Thomas Hovatter Lymphedema Awareness Day in memory of her husband.

I hope others will join me in tying a turquoise ribbon around their tree the weekend of June 17–19, and help Jennifer bring awareness to this chronic, debilitating disease.

HONORING CALIFORNIA STATE UNIVERSITY, FRESNO

HON. JEFF DENHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. DENHAM. Mr. Speaker, I rise today to acknowledge and honor California State University, Fresno as the University celebrates its Centennial Anniversary Year.

Starting from humble beginnings as the Fresno Normal School, CSU, Fresno has evolved into an acclaimed university. Serving a culturally diverse student body, Fresno State has pledged to be a university accessible to students from all backgrounds with the desire to attain higher education. It is this commitment to serving all students which makes this university indispensable to the Central Valley.

Fresno State attracts both national and international attention for its many academic programs. Among the nationally acclaimed programs is the Jordan College of Agricultural Sciences and Technology. CSU, Fresno operates the first commercially bonded winery on any U.S. university campus, and student-produced wines have won hundreds of awards, bringing much needed interest to the Central Valley. In addition, the Jordan College of Agricultural Sciences and Technology is also working to solve many of the most pressing issues in agriculture. The college has become a pioneer in water-saving irrigation techniques and equipment that has been utilized.

With 64 bachelor's, 44 master's and three doctoral subject areas, CSU, Fresno has come a long way. The University has contributed much to the economic, civic and social well-being of our community.

Mr. Speaker, please join me in honoring California State University, Fresno on its Centennial Anniversary.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

SPEECH OF

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 14, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2112) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2012, and for other purposes:

Mr. VAN HOLLEN. Madam Chair, I rise today in strong opposition to the misguided Fiscal Year 2012 Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act. This bill puts the economic recovery at risk by cutting funding to the Commodities Futures Trading Commission, which will prevent the CFTC from implementing important reforms in the Dodd-Frank Wall Street Reform Act. The bill also slashes critical food security programs aimed at protecting our most vulnerable citizens, children and seniors. The bill also cuts important food safety programs at the Food and Drug Administration.

The Dodd-Frank Wall Street Reform Act took the important step of bringing the vast majority of over-the-counter derivatives out of the shadows and onto regulated exchanges and clearinghouses, where the risk will be borne by the counterparties and the markets they trade on—not the taxpayer. Astonishingly, rather than providing the Commodities Future Trading Commission with the resources necessary to implement this critical reform, the new majority is proposing to slash CFTC funding by 44 percent below President Obama's request—and \$30 million below current levels. This is like telling a cop he's got seven times more territory to patrol but less money to do it with. Unable to repeal the Dodd-Frank Wall Street Reform law, the Republicans are now clearly trying to starve it to death—which is a prescription for continued pain at the pump as speculators run amok in our futures markets and gouge hard-working consumers. This is a step in the wrong direction and ignores the mistakes of the past.

The cuts to food safety net programs in this legislation are devastating at a time when millions of Americans are unable to purchase food. The cuts also target the most vulnerable in our society. The Special Supplemental Nutrition Program for Women, Infants and Children is cut by \$650 million in this bill. The Center on Budget and Policy Priorities estimates that the cuts in this bill would force WIC to turn away 200,000 to 350,000 eligible low-income women and young children next year. The bill would force WIC to turn away 3,200 to 5,600 eligible low-income women and

young children in Maryland. The USDA says WIC has saved more than 200,000 babies from dying at birth. Economists estimate that every \$1 invested in WIC saves between \$1.77 and \$3.13 in health care costs in the first 60 days after an infant's birth by reducing the instance of low-birthweight babies and improving child immunization rates. The bill also cuts food aid for low-income seniors through cuts to the Commodity Supplemental Food Program and assistance to food banks through the Emergency Food Assistance Program. According to the USDA's Economic Research Service, 50.2 million Americans lived in food-insecure households in 2009, including 17.2 million children.

The bill slashes the Food and Drug Administration by \$572 million. These cuts are 21 percent below the President's request and \$285 million or 12 percent below current funding levels. These cuts will prevent FDA from improving food safety efforts and increase the risk of food-borne illnesses. The CDC estimates that 48 million Americans get sick from contaminated food, 325,000 people are hospitalized, and 5,000 of these people die every year. E. coli outbreaks in Europe recently killed 31 people and made more than 3,000 people sick. Outbreaks like this remind us of the importance of strong food safety regulations.

I will monitor the progress of this bill in the Senate and conference. I am hopeful that future changes and improvements will give me a chance to vote on a more acceptable alternative.

HONORING DIANE HARGRAVE

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. GRAVES of Missouri. Mr. Speaker, I proudly pause to recognize Diane Hargrave of Saint Joseph, Missouri. Diane is active in the community through her work and has been chosen to receive the YWCA Women of Excellence Award for Woman in Support Services.

Within her 23 years of service to the Northwest Missouri Psychiatric Rehabilitation Center, Diane has continually excelled at a complex set of responsibilities. She has assisted with five successful federal and state inspections, and has served several facility leaders on her journey to her current title as Assistant to the Chief Operating Officer. Diane holds the complete history of the facility in her hands, and has been praised for her assistance through a major leadership reorganization. Her knowledge of the facility has been instrumental for hospital leadership navigating service delivery in the complicated public mental health care setting. Diane has guided coworkers to top administrative leadership positions, while helping NMPRC maintain rigorous accreditation—and all with humor and generosity.

Mr. Speaker, I proudly ask you to join me in recognizing Diane Hargrave. She has made an amazing impact on countless individuals in the St. Joseph Community. I am honored to represent her in the United States Congress.

VIRGINIA BEACH ELKS LODGE
#2268

HON. E. SCOTT RIGELL

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. RIGELL. Mr. Speaker, I rise today to commend Paul Shoemaker and the Virginia Beach Elks Lodge #2268. On Sunday, June 12, 2011, the Virginia Beach Elks Lodge #2268 held a Flag Day Ceremony at the Flame of Hope Memorial in Virginia Beach, VA, to commemorate the adoption of the Flag of the United States. I would like to thank Chief Warrant Officer Floyd R. Shoemaker, Sr. for attending the ceremony and for his 43 years of service in the Navy, Air Force, and Army. I would also like to thank Colonel Francis X. Cubillo, USMC; Mayor William D. Sessoms, Jr.; Captain Robert N. Geis, USN; Karyn Swenor; Beverly Hamby; the Green Run High School NJROTC; Ron McGregor; and Samantha Spencer for participating in the ceremony. The Elks did an incredible job putting this event together, and I commend them for their continued service in the Hampton Roads community.

RANDLEMAN WINS CHAMPIONSHIP ON THE FINAL OUT

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. COBLE. Mr. Speaker, unlike other sports, baseball is unique because there is no clock. Unless weather intervenes, the game ends only when the leading team records 27 outs. The baseball team at Randleman High School, located in the Sixth District of North Carolina, discovered that getting the last out can be the most difficult of all. Randleman won the North Carolina High School Athletic Association State 2-A championship on Saturday, June 4, 2011, in dramatic fashion by collecting that final out with a play at the plate.

The Randleman Tigers won this state championship with an 8-7 victory over defending state champion East Rutherford High School. The game was played on Doak Field at North Carolina State University. The Tigers won the best of three series, two games to one. This was Randleman's first appearance in the finals since 1985 and marks an important achievement in the school's history.

In the last inning, a six-run lead dissolved to two. Another hit scored the seventh run for East Rutherford, but as the tying run was heading to the plate, Randleman's Tyler Walls launched a perfect throw to cut-off man Dylan Richardson. The Tiger's shortstop never paused as he whipped the relay to catcher Zach Bach to get the last out and give Randleman its first state title ever. Head Coach Van Hurley, Jr., told the Asheboro Courier Tribune, "To win like that, Curtis [Linthicum] to throw like that. It's all unbelievable. We had three outs to get and six runs to give. I had complete confidence that he was going to do it."

With a grand slam on Friday and pitching the gutty win on Saturday, Curtis Linthicum received the MVP award. Joining him on the state championship team were Will Albertson, Easton Welch, Ted Luna, Jacob Tally, Dexter Allen, Jeremy Taylor, Dylan Richardson, Ryan Vickers, Cody Trogon, Tyler Walls, Connor Pratt and Zach Bach. The winning team was led by Head Coach Van Hurley, Jr., who was ably assisted by coaches Shawn Barker, Clayton Welch and Scott Clemons.

The Tigers finished their extraordinary season with a record of 28-4 and the satisfaction that comes from experiencing the result of practice and hard work right up until that final out. On behalf of the citizens of the Sixth District of North Carolina, we congratulate the Randleman High School baseball team for winning the 2011 state title.

IN SUPPORT OF EXPANDING THE PRIMARY CARE WORKFORCE AND OPPOSING H.R. 1216

HON. KATHY CASTOR

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Ms. CASTOR of Florida. Mr. Speaker, I rise today to acknowledge the importance of the primary care workforce and support provisions included in the Affordable Care Act to expand the number of primary care physicians, especially in my home state of Florida.

One of the smartest things we can do in health care today is to bolster primary care and family medicine. Your primary care doctor is your family doctor; the one you and your family see for checkups, and the doctor who is most likely to understand your health care needs. It is widely understood that if we are going to be more efficient in America with our health care dollars, we need to focus on prevention and boost the number of primary care doctors. There is a great demand for primary care physicians across the country and training new doctors in a community teaching setting is vital.

Training doctors is an especially critical issue in my home state of Florida. We have a significant doctor shortage. Florida has great medical schools and are turning out quality medical school graduates, but that is not enough because we do not have a sufficient number of residency slots. Florida is short nearly 3,000 new GME positions to meet current physician demand. Florida is the third most populous state, but ranks 44th in the nation in terms of the number of residency positions under Medicare. Those numbers reflect a brewing crisis situation. Not only does Florida have the largest and fastest growing percentage of citizens over 65, we have a rapidly aging physician population—25 percent of Florida's physicians are over 65. We need to do everything possible to train new primary care doctors all across the country, but especially in Florida. H.R. 1216 will take us backwards and that is why I strongly oppose its passage.

Before we take up legislation to terminate an initiative that encourages the training of new doctors in primary care, family medicine and internal medicine, please understand our

country's need for physicians who are most effective for our families. I urge my colleagues to support a robust primary care workforce. We need to work together to develop modern methods to train primary care physicians—and the Teaching Health Centers GME program, which my colleagues on the other side of the aisle seek to eliminate, is an innovative new model to help train more primary care physicians and encourage them to practice in communities. Physicians who train in a community setting have a better understanding of the needs of the communities they serve. Many organizations—like MedPAC and the Council on Graduate Medical Education—have called for a community-based GME program, so why do Republicans want to eliminate these opportunities before they start? Residency rotation through rural and outpatient locations provide great training opportunities for physician residents; and it encourages the resident to practice in out-patient or rural communities.

If we do not work together to find common sense solutions for our primary care workforce, America will be short of the doctors we need to serve in our communities and our families and neighbors will suffer the consequences. This is why I voted against H.R. 1216 and why I strongly oppose any attempt to eliminate innovated methods for training our future primary care workforce.

HONORING FIREFIGHTER SCOTT DAVIS

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. PENCE. Mr. Speaker, today I rise to honor the service and sacrifice of one of Indiana's bravest.

Firefighter Scott Davis was tragically killed yesterday while fighting a fire at Tabernacle of Praise Church in Muncie, Indiana. He is the first Muncie firefighter to give his life in the line of duty since 1955.

Those who knew Firefighter Davis were not surprised at his boldness and bravery in the Tabernacle of Praise fire. He was a former Yorktown fire chief, and had been with the Muncie Fire Department since June 15, 2005.

He bravely sacrificed his life protecting the community, and in so doing, he will forever be remembered as a hero and servant leader.

In the midst of great tragedy, I honor Firefighter Davis and the other brave men and women who risk their lives every day to protect their community. We must always be grateful for those who run in when others run out.

Firefighter Davis was a man of faith, a devoted husband to his wife Raeanne, and loving father of three children—Jake, Emma, and Max. My family and I offer our deepest condolences and prayers to his loved ones, and we honor the legacy of Firefighter Davis' life of sacrificial service.

The Good Book tells us that "The Lord is close to the brokenhearted." And that is my prayer for the Davis family and the Muncie community.
