

EXTENSIONS OF REMARKS

HONORING SERGEANT JAMES T.
HACKEMER

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. HIGGINS. Mr. Speaker, I rise today to honor Sergeant James T. Hackemer, a veteran of the Iraq War who tragically died in an accident on July 8, 2011 at the age of twenty-nine.

A native of the Village of Gowanda, Sergeant Hackemer joined the military after graduating from Gowanda High School. He had hopes of becoming a state trooper after serving his country. Sergeant Hackemer's selfless ambitions made him a model of heroism for his generation.

In March of 2008, Sergeant Hackemer was in southern Baghdad when a bomb exploded under his vehicle. The disaster robbed him of both his legs and his left hip. After spending the next three years in physical therapy, Sergeant Hackemer defied his doctors' expectations by regaining his ability to walk again with the help of prosthetic legs.

After leaving the hospital, Sergeant Hackemer returned to his life in Western New York. Even while struggling with his loss, Sergeant Hackemer made an effort to enjoy life through spending time with his friends and family and learning how to bike again. His story is a lesson of hope for everybody in his community.

Sergeant Hackemer is survived by his wife, Alycia, and his two young daughters, Kaelynn and Addison.

It is my honor to pay tribute to Sergeant James T. Hackemer's life, and I offer my deepest condolences to the Hackemer family for their loss. His resolute spirit and valor will be remembered by those in his community.

PERSONAL EXPLANATION

HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. CARNAHAN. Mr. Speaker, due to being unavoidably delayed, I missed the vote on the Polis Amendment to H.R. 2219 (Roll No. 529). I would like to reflect that I would have voted against this amendment, which failed by a margin of 113–307, had I been present to record my vote.

CRAIG OLIVE "PUTTING PEOPLE
FIRST"

HON. RENEE L. ELLMERS

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mrs. ELLMERS. Mr. Speaker, I rise today to acknowledge my dear friend Craig Olive.

Since taking office in December, 2002, as Johnston County's Registrar of Deeds, Craig Olive has made tremendous strides in efficiency, innovative office automation, streamlining services, reducing costs to citizens and going the extra mile to serve the people of Johnston County.

Craig has been consistent in his efforts to reduce fees, maximize office efficiency, improve computerization and automation of services, and provide excellent customer service for Johnston's citizens. He implemented a recording software program, to streamline the process of recording documents at a cost savings of over \$300,000 in a five year period. He has automated the marriage license process—allowing issuance of a license in 10 minutes. He has also automated the issuance of other vital records, i.e., birth and death certificates, reducing waiting time and increasing productivity. He has digitized all records dating back to the beginning of the county; mid-1700s. Craig was the first Registrar of Deeds in North Carolina to follow the North Carolina Secretary of State's standards and submit an "eRecording." Craig's office was the first in the Nation to electronically record a survey map. Through the automation of his office, Craig has been able to increase the efficiency of his office, while at the same time saving valuable tax dollars.

In service to the county and State, Craig has spearheaded the effort to have legislation enacted that would conceal individuals' Social Security and driver's license numbers from appearing on the Internet, via public records.

Craig and his staff always go the extra mile while treating everyone with respect. In February 2010, NC Secretary of State awarded Craig with the Honorary Keeper of the Constitution for outstanding recordkeeping of public documents.

Craig has been consistent in carrying out policies and methods that have reduced fees and costs for citizens and professionals, improved productivity and efficiency through automation, and has consistently made sure that his office provides outstanding customer service. Mr. Olive, through his service, provides the blueprint of how a Registrar of Deeds office should be run in order to provide the highest levels of efficiency, productivity, innovation and service for the people of this county.

HONORING SCOTT CITY, KANSAS
FOR ITS DESIGNATION AS A 2011
"ALL-AMERICAN CITY"

HON. TIM HUELSKAMP

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. HUELSKAMP. Mr. Speaker, today I recognize the citizens of Scott City, Kansas. In June 2011, the National Civic League recognized Scott City as an "All-American City." Only ten communities across the country received this honor.

Scott City presented to a panel of judges three projects involving community collaboration. First, community members shared information about how the town has been holding potluck dinners and fiestas to bridge gaps that exist among different cultures. These events have facilitated greater dialogue and understanding among the various populations of Scott City.

Second, community members presented information about how town volunteers and First Baptist Church transformed a vacant storefront and warehouse into a community youth center. Known as "Area 96," this site provides a safe and welcoming place for young people to spend their free time, as well as a site for other community groups to utilize.

Third, Scott City residents shared how they have used the renovation and expansion of the Scott County Library as an opportunity to transform the role of the Library in the community from just a building to a community information center. Not only have they increased youth services and youth-driven programs, but they have also expanded their services and offerings for English language learners.

The achievements of Scott City, Kansas demonstrate that the efforts of communities and individuals provide the true backbone of America. I congratulate Scott City for this remarkable and well-deserved honor.

EXPRESSING SUPPORT FOR THE
CASCADIA MARINE TRAIL STUDY
ACT

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. INSLEE. Mr. Speaker, I rise today to introduce the Cascadia Marine Trail Study Act.

The Cascadia Marine Trail is a unique, 150-mile long water trail stretching from the Canadian border south through the San Juan Islands and Puget Sound to Olympia. It was started in the late 1980s by local kayaking enthusiasts wanting to highlight the 5,000-year old small-boating tradition along the water trail. The trail's popularity with both tourists and local boating enthusiasts is a testament to its grassroots beginnings and extensive local support, making it a valuable economic and natural State resource.

The Cascadia Marine Trail has been recognized as a significant environmental and tourist resource, including its 1994 designation as a National Recreation Trail and in 1999 as a National Millennium Trail. In 2005, the American Canoe Association (ACA) designated the trail an ACA-Recommended Water Trail. The trail's 55 safe pull-out zones and campsites are managed by a multitude of State and local agencies, despite its extensive length.

First introduced in 2009, the Cascadia Marine Trail Study Act directs the Department of Interior to study the feasibility of adding the trail to the National Trail system. During the

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

110th Congress, the bill passed the House with unanimous support but unfortunately, did not make it out of the Senate. Today, with bipartisan support, I am reintroducing the Cascadia Marine Trail Study Act. The trail's designation as a National Scenic or Historic Trail, if recommended by the Department of Interior study mandated by the bill, would raise its national profile, provide for educational and interpretive resources along the trail, and coordinate management and restoration of the trail and surrounding campsites.

The bill has wide support, including endorsements from several national and statewide recreation and conservation agencies and is the first step toward enhancing the visibility and preservation of this historic water trail. Designation will help encourage tourism across the Puget Sound, which will bolster local economies in the Puget Sound region. According to the Prosperity Partnership, the Tourism and Visitor industry cluster is the region's largest economic cluster with more than 108,000 jobs across the region. Scenic travel to places like the Cascadia Marine Trail can have a significant impact on the economy of surrounding communities. The Cascadia Marine Trail is a State gem that deserves its chance to become a national treasure.

TRIBUTE TO JOYCE REILLY DREW
UNIVERSITY—CENTER FOR HOLAUST/GENOCIDE STUDIES

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. PAYNE. Mr. Speaker, I ask my colleagues here in the U.S. House of Representatives to join me as I rise to offer this tribute to Ms. Joyce Reilly as she is honored on April 3, 2011 by Drew University's Center for Holocaust/Genocide Studies. This is a well deserved honor for a woman who has had an incredible interest in and compassion for her fellow human beings who have been victims of various atrocities throughout our world. The empathy that Joyce Reilly demonstrates towards all people in general, and victims of genocide, in particular manifested itself when she was a young child. She knew at a tender age that she would want to spend her life promoting activities and serving in capacities that would be meaningful to the survivors and would honor the memories of the deceased.

Joyce Reilly's passion to increase awareness of past and on-going acts of genocide led her to pursue multiple ventures to achieve her goals. Fortunately, for Drew University, Joyce began her studies in psychology there in 1970. She would subsequently work in various residential communities serving emotionally and mentally challenged individuals. These communities included Great Britain, Germany and the United States. A life-long learner, Joyce continued her studies at Mercy College (now Sunbridge College) in Detroit, Michigan and served for a time on its faculty. In 1982, Joyce would move to Kimberton, Pennsylvania where she founded Gheel House, a therapeutic community for the mentally and emotionally challenged. She serves as the Executive Director of Logos Foundation, a foundation for young children endangered by war, poverty and their effects on

modern life. Through Joyce's many interactions with victims and visits to sites of conflicts, she has been able to meet some incredible people including Dr. Joseph Seberenzi, former Speaker of the House in Rwanda who is a survivor of that genocide and a conflict transformation specialist.

Mr. Speaker, I know that the family, friends and associates of the Ms. Reilly are proud of what she has accomplished so far in her life. My office has been fortunate to work with her on Darfur through a collaboration of organizations working to assist those victims who struggle daily to overcome the tragedies visited on its people in recent years. I ask my fellow members to join me in this tribute to excellence. It is a proud moment for me to acknowledge her today and to let her know how much all of us appreciate the work she continues to do.

ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES
APPROPRIATIONS ACT, 2012

SPEECH OF

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 8, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2354) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2012, and for other purposes:

Mr. CONNOLLY of Virginia. Mr. Chair, the Republican Energy and Water Appropriations Act would take American energy policy back to the 19th century. It slashes funding for solar, advanced vehicles, building efficiency, biomass, home weatherization, advanced energy research, and loan guarantees for renewable energy. Incredibly, as gas prices remain high the Republicans gut funding for fuel efficient automobiles. These cuts would be devastating for domestic manufacturers of renewable energy and energy efficiency technology, as well as our domestic auto industry. Consider the magnitude of these cuts:

\$97 million cut in solar funding, helping Chinese solar manufacturers at the expense of American producers;

\$46 million cut in fuel efficient vehicles, hurting consumers at the pump while putting American auto producers at a competitive disadvantage;

\$61 million cut in building efficiency, which will expose consumers to rising electricity prices;

\$33 million cut in biomass research, crippling a critical domestic industry which supports the timber industry and diversifies our electric generation portfolio;

\$141 million cut in home weatherization funding, an 81 percent cut in a program which saves consumers money by reducing their electric bills;

\$80 million cut for Advanced Research Projects Agency—Energy (ARPA-E), a 44 percent cut in critical clean energy research;

\$1 billion cut in High Speed Rail money, punishing commuters in congested regions like the Washington-Boston corridor;

\$43 million cut in science research, hurting American competitiveness.

In addition to attacking domestic manufacturing, clean energy production, and efficiency programs, the Republicans have inserted policy riders to advance a radical anti-environmental agenda at the expense of Americans' public health. Their rider would block the Army Corps of Engineers and Environmental Protection Agency from implementing the Clean Water Act in accordance with guidance from those agencies. Following a decade of regulatory uncertainty following a Supreme Court decision, the Obama administration issued guidance to help landowners comply with the Clean Water Act. This guidance replaced a confusing patchwork of lower level court decisions and produced the regulatory certainty that Republicans claim to support. This rider demonstrates that the Republicans are not actually interested in regulatory "certainty;" they are simply opposed to any and all environmental and public health regulations. Since they know they can't win a public debate about these public health standards, they are trying to sneak in a rider to an appropriations bill to block the regulations.

American entrepreneurs developed the solar panel and more sophisticated wind turbines, yet China and Germany are far ahead of American wind and solar production. The Obama administration requested funding increases for renewable energy so America can compete and produce clean energy generation domestically, but the Republican budget would actually slash clean energy funding.

Just as the American auto industry is recovering as a result of the Obama Administration's intervention, this Republican appropriations bill would gut advanced vehicle and vehicle efficiency funding. We need to produce more efficient vehicles and advanced hybrid vehicles here in America. The American auto industry declined in the 1970s and 1980s as foreign competitors produced more efficient, technologically advanced vehicles. We cannot afford to give up market share again by surrendering to foreign auto producers.

This Republican appropriations bill is not an isolated attack on American clean energy production and industrial competitiveness. The same Republicans have already passed legislation in the House—thankfully not the Senate—to repeal the Clean Air Act and block vehicle efficiency standards in the future. Never in the history of American politics has one of our great political parties been so blind to opportunities of the future and determined to repeat failures of the past.

We have a real opportunity to boost American manufacturing of clean energy and advanced vehicles. Just as a result of the Recovery Act we went from producing 2 percent to 40 percent of advanced batteries. We cannot allow this Republican appropriations bill to reverse that progress and cripple American industrial competitiveness.

HONORING THE MEN AND WOMAN
WHO TRAVEL WITH THE NATIONAL 9/11 FLAG

HON. MICHAEL H. MICHAUD

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 12, 2011

Mr. MICHAUD. Mr. Speaker, I rise today to recognize those who travel around the country with the National 9/11 Flag.
