

order to allow for the delivery of military assistance to Libyan rebels.

According to The Washington Post, NATO “appears to allow rebel flights that shuttle personnel, food, medicine—and allegedly some weapons and communications equipment—between rebels in the eastern city of Benghazi and a stretch of two-lane highway . . . in the west. On Monday, two reporters watched a four-engine jet take off from the highway and climb quickly into the sky.”

As you know, such actions would be in direct violation of UNSCR 1973 and will continue to prolong the war which shows no signs of ending soon. Last month, France, a leading proponent of the war in Libya and member of NATO enforcing the no-fly zone, was reported to be arming Libya rebels in contravention to U.N. Security Council Resolution on Libya. The United Nations must take immediate action to hold member states accountable for allowing violations of U.N. Security Council resolutions. The U.N. cannot stand idly by as its member states take actions under its name that clearly serve to further their own political interests, rather than protect Libyan civilians.

I would welcome the opportunity to meet to discuss ways we can work together toward your stated priority for the U.N., sustainable development. I look forward to hearing from you.

Sincerely,

DENNIS J. KUCINICH,
Member of Congress.

ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

SPEECH OF

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 14, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2354) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2012, and for other purposes:

Mr. WAXMAN. Mr. Chair, earlier today, during consideration of H.R. 2354, Ms. CAPPS offered an amendment that would have required peer-reviewed seismic studies to be completed and lessons learned from the Japanese nuclear disaster before the Nuclear Regulatory Commission considers an application to renew the operating licenses for the Diablo Canyon nuclear power plant in California. I thought this was a reasonable approach. Unfortunately, that amendment was ruled out of order. Though this second Capps amendment is less precise than the original amendment, I support it because I believe it is crucial that the necessary seismic studies be completed and considered during the license renewal process. The Nuclear Regulatory Commission must have a comprehensive understanding of what went wrong at the Fukushima Daiichi reactors and access to the latest scientific information in order to ensure that Diablo Canyon can be safely operated after the current licenses expire in 2024 and 2025. I urge my colleagues to support this amendment.

IN RECOGNITION OF THE 40TH ANNIVERSARY OF THE HARRY VAN ARSDALE JR. CENTER FOR LABOR STUDIES AT SUNY EMPIRE STATE COLLEGE

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 19, 2011

Mr. NADLER. Mr. Speaker, I rise today in recognition of the Harry Van Arsdale Jr. Center for Labor Studies at SUNY Empire State College on the occasion of its 40th anniversary.

The New York State legislature created SUNY Empire State College in 1971 in order to provide educational opportunities to adults not adequately served by traditional residential colleges. At the same time, it also established the Center for Labor Studies, which was renamed in 1986 to honor the distinguished labor leader, the long-time business manager of IBEW Local 3 and president of the New York City Central Labor Council, who did so much to support its creation.

The Harry Van Arsdale Jr. Center for Labor Studies at SUNY Empire State College continues to fulfill its namesake's dream of providing wage-earning adults with an opportunity to develop their labor leadership skills and to earn a college degree in a learning environment that celebrates their achievements and recognizes their particular needs. To do so, the Van Arsdale Center provides flexible, worker-friendly educational programs delivered by highly qualified faculty to ensure that its trade union students and other working adults may acquire the analytical and communicative skills that are the hallmark of a college degree.

The center currently serves several important constituencies in the New York City area, including IBEW Local 3 and United Association Local 1 apprentices, as well as paraeducators affiliated with the United Fed-

eration of Teachers. The longest-standing of these partnerships is with the Joint Industry Board of the Electrical Industry in New York City (JIB), and it is one of the center's most successful partnerships. Since 1978 every registered electrical apprentice in IBEW Local 3 has been required to complete, in addition to their related classroom instruction in electrical theory, an academic course of study in which they learn to read and write at the college level and for which they are awarded a college degree; or, if they already have a degree, a 20-credit certificate in "Labor and the Construction Industry." Other programs were added later: the paraeducator program of the UFT in 2006, the college degree program of UA Local 1 in 2008; and others are in development.

The Harry Van Arsdale Jr. Center for Labor Studies has graduated more than 5,000 men and women, many of whom have gone on to hold positions of honor in the New York City labor movement and beyond. Please join me in congratulating this exemplary educational organization on the occasion of its 40th anniversary.

Mr. DENHAM. Mr. Speaker, I rise today to acknowledge and congratulate Madera resi-

dent Milenda G. Meders, or Millie as she is known, upon being named "2011 Senior Farmer of the Year" by the Madera Chamber of Commerce. This award is a tribute to Milenda's professional accomplishments in the farming industry, as well as her dedicated service and leadership in many Central Valley agriculture and farming community organizations.

Milenda was born on August 8, 1935. She and her twin brother, Michael, were raised on a Chowchilla dairy farm founded by her parents, Carl and Gayle Gaumnitz, in the 1920's. Together, she and her husband have farmed field row crops, almonds, and raised cattle.

Over the past 51 years, Milenda's contribution to the farming community reached beyond her professional accomplishments. Milenda served on the board of the Chowchilla Fair for 16 years, and was the Chowchilla Fair Livestock Superintendent for 20 years. She also served as Director of the Madera County Cattleman's Association for 12 years; Director of the Chowchilla Water District; and has volunteered her time and agricultural expertise as a member of the Ag Advisory Committee at Chowchilla High School. Her contributions to these organizations and the Madera County farming community have been honored with several prestigious awards.
