

HONORING VICE CHAIRMAN OF
THE JOINT CHIEFS OF STAFF

HON. ADAM SMITH

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. SMITH of Washington. Mr. Speaker, I rise today to recognize General James E. Cartwright for his forty years of accomplished military service. His unparalleled dedication to our troops and his visionary leadership in defense of our national security have left an indelible mark.

We have been extremely grateful over the past five years to have benefited from his thoughtful and candid advice and recommendations, and are grateful for his testimony at many Congressional hearings on our nation's security and the future of our Armed Forces.

General Cartwright hails from Rockford, Illinois. He graduated from the University of Iowa in 1971 and was commissioned a second lieutenant in the United States Marine Corps shortly thereafter. The General served as a Naval Flight Officer in the F-4 and as a pilot in the F-4, OA-4 and the F-18. His flying career also included command of the First Marine Aircraft Wing in Okinawa, Japan.

After an assignment as the Director for Force Structure, Resources and Assessment (J-8) on the Joint Staff, then Lieutenant General Cartwright was promoted to General and became the first Marine Corps officer to lead United States Strategic Command.

During his dedicated tenure as head of STRATCOM, General Cartwright led the development of strategies to counter a changed security environment and rapidly emerging new threats, particularly in the critical areas of nuclear proliferation, cyber, space, and missile defense. His vision and leadership were essential to ensure that we are able to successfully and reliably meet the new challenges of a post-Cold War era.

We are grateful for his service during the last four years as the eighth Vice Chairman of the Joint Chiefs of Staff. The General's leadership also contributed directly to the integration of technologies that enabled, as an example, the destruction of a failing satellite by a missile for the first time, and the successful and historic raid against Osama Bin Laden.

He reduced the loss of American lives in combat by facilitating the rapid delivery of much-needed new capabilities to the battlefield. Specifically, I would like to recognize his contribution to leading the MRAP program which resulted in a remarkable fifty percent decrease in deaths attributed to Improvised Explosive Device attacks. General Cartwright has been a bulwark in honoring the dedication and sacrifice of the 2.4 million active, guard and reserve members of the Armed Forces and their families, has steadfastly advocated for our wounded warriors, and kept the memory of those who made the ultimate sacrifice on our battlefields in our hearts and minds.

General Cartwright's vision, dedication and invaluable leadership will prove a lasting legacy for the Armed Forces and for our country.

IN SUPPORT OF H.R. 2644, THE
AVIATION JOBS AND SAFETY
ACT OF 2011

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Ms. RICHARDSON. Mr. Speaker, I rise in support of the 4,000 workers of the Federal Aviation Administration who were furloughed on July 22nd. For this reason, I urge the immediate passage of H.R. 2644, the Aviation Jobs and Safety Act of 2011, which will provide a clean extension and end this nonsense.

Republicans claim to focus on jobs, but time and time again, we see them cut, delay, and disable every program that comes their way. The partial shutdown of the Federal Aviation Administration has become the primary tactic of the Republican Party, which would rather send people home than send them to work.

The failure to pass a clean FAA extension is the latest example of this tactic. Since 2007, Congress has passed 20 short term extensions without controversial provisions. Breaking that precedent, House Republican leadership decided to attach policy riders to weaken unions and kill jobs, knowing full well it would never be approved by the Senate.

Mr. Speaker, the 4,000 furloughed FAA employees are non-partisan career civil servants who in many cases have spent more than two decades working to provide the public with safe, modern and efficient air travel in this country.

The Republican-led FAA shutdown has caused the FAA to issue 217 stop-work orders on \$11 billion worth of air traffic control and safety-related contracts, and that number will continue to grow.

Because of this, nearly 86,000 construction jobs are now in jeopardy around the country. That's 90,000 people waiting to work, needing to pay their mortgages and feed their families.

Contracts are waiting to be honored and work is waiting to be done, but the Republicans are held up on issues such as subsidies to rural airports, which cost about \$200 million a year.

Mr. Speaker, in just 10 days, the FAA shutdown has already cost the American taxpayer \$300 million. Every day the Republican leadership holds out costs this country \$30 million in lost airport fees.

Also troubling is how the airlines have reacted to the FAA shutdown. Instead of passing cost savings on to air travelers, almost every one of the airlines raised their ticket prices and pocketed the money. The situation was there and they took advantage of it.

My Republican colleagues are fond of saying that cutting taxes and dismantling government bureaucracies will streamline business and result in greater value to the consumer, but I fail to see the airlines acting on that principle.

On July 26th I joined my Democratic colleagues in the House Transportation and Infrastructure Committee in introducing H.R. 2644, which will end this job-killing standoff immediately. I call on my Republican colleagues to pass a clean extension so we can return to the business of negotiating a long-term authorization bill.

Mr. Speaker, it is incredibly unfair to hold thousands of American jobs hostage while we

battle over promises we have already made and signed into law. This is exactly the same tactic that we saw Republicans employ with their threatened shutdown of the federal government in March and their senseless debate over the debt-ceiling which threatened the entire economy.

I remain committed to passing an authorization bill that adequately funds critical components of our transportation infrastructure, such as the implementation of the Next Generation Air Traffic Control system, and I am concerned that reckless cuts necessitate the firing of many safety personnel and put the flying public at risk. Right now the workers who should be moving these projects forward are sitting at home worried about the money they are not able to earn.

Mr. Speaker, we must pass H.R. 2644 immediately. Every day we wait costs our country money. This pointless shutdown erodes confidence of the hundreds of small businesses who contract for the federal government, and puts nearly 90,000 jobs in needless jeopardy.

I urge my colleagues to for a clean funding extension of the FAA before we leave Washington for the district work period. Thousands of jobs and livelihoods hang in the balance.

THE GREATEST LOVE IN HONOR
OF AN AMERICAN HERO
CORPORAL TODD S. LOVE 1ST RECON
MARINE, THE UNITED STATES
MARINES

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. GINGREY of Georgia. Mr. Speaker, I rise today to honor a strong son of the south, Corporal Todd Love of Acworth, Georgia of the United States Marines. On October 25, 2010, while on foot patrol in Sangin Afghanistan, Corporal Love stepped on an IED, gravely wounding himself. Losing both his legs and part of his hand and lower arm. His will to win and his recovery are the stuff that movies are made of. Incredible, is his will to live, and his smile and can do attitude teaches all about the meaning of the words faith and courage. He makes every United States Marine whoever wore the uniform proud. And with the help of his family he is miles ahead of his recovery. I ask that this poem penned in honor of valor by Albert Caswell be placed in the RECORD.

The . . .
The Greatest Love . . .
Your Greatest Gift, as like from our Lord up
above . . .
So selfless Todd, this!
The Greatest Love . . .
To march off to war . . .
All for God and Country Todd, as was your
burden bore!
To walk into The Valley of Death . . .
All for our Nation, to so bless!
But, ready to die for your Brothers In Arms
. . . so yes!
Is The Greatest Love!
Armed, with only but your fine courage so
left!
All in your Most Magnificent Shades of
Green . . .
As moving ever forth, as out into the face of
evil you were so seen!

To give up your two fine legs and arm . . .
 And not to worry about what may come to
 you . . . such harm!
 The . . .
 The Greatest Love!
 To come back home . . .
 As all of this pain and heartache, you now so
 own!
 As that most magnificent face of courage, to
 you now so belongs!
 As you rebuild, but with only your iron will!
 The Greatest Love!
 As you so Teach Us Todd, as you so would!
 As You So Beseech Us Todd, as you so could!
 As Out To All of Our Hearts, You So Reach
 Us Todd, create such good!
 As The Title of Hero Todd, you now so own!
 As our Lord God Walks with you, Todd your
 not alone!
 The Greatest Love!
 As you make me weep!
 With all of that splendid courage, all in your
 heart so very deep!
 For Heaven So Holds A Place!
 All For Such Magnificent Men as you, of
 such Grace!
 Who somehow will not so lose their faith!
 No matter what the darkest of all days!
 As you but bring tears to our face . . .
 As to Heaven one day Todd, you will come
 home . . . and fine your place!
 As an Angel in The Army of Our Lord . . .
 his blessed son for all you've faced!
 All because of you, and your Greatest Love!
 Amen!

REINTRODUCTION OF THE GEO- THERMAL PRODUCTION EXPAN- SION ACT

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. INSLEE. Mr. Speaker, today, Representative MIKE SIMPSON and I reintroduced the bipartisan Geothermal Production Expansion Act, a companion to S.1149, introduced by Senators WYDEN, CRAPO, RISCH and MERKLEY. Our bill will ensure that geothermal resources that are near federal lands are developed, creating American jobs in rural areas. I thank my colleagues for their leadership and working together on this important bill.

As we work to develop American energy resources and become more energy independent, it is extremely important that we remove barriers to the production of domestic, clean, renewable resources that have been

discovered and can be financed in the private market. This legislation will help remove a significant barrier to deploying geothermal energy and creating the accompanying jobs.

Currently, proven geothermal developers are not producing clean, reliable geothermal electricity, despite specific valid geothermal discoveries in the west that adjoin federal lands. The Geothermal Production Expansion Act would ensure that if a developer has made the upfront investments to discover and validate a geothermal resource that is adjacent to federal lands, there will be reasonable certainty that they will be able to secure a lease for a small parcel of the adjoining land necessary to develop and produce geothermal energy. Taxpayers would be compensated for the fair market value of the lease, and would receive increased royalties for the increased geothermal production.

Already under EPACT 2005 amendments, the Bureau of Land Management (BLM) is allowed to issue three different non-competitive leases for geothermal resources. Our legislation simply creates a fourth category whereby the BLM may issue a non-competitive geothermal lease for only these qualified companies who hold legal rights to develop geothermal leases on certain adjoining lands.

This legislation would spur immediate economic development in rural areas and ensure that developers who have invested substantial capital and made high risk investments can secure and develop geothermal discoveries. It will also add renewable, domestically produced energy resources to the American electricity supply. In the 111th Congress, the House Natural Resources committee held a hearing on the Geothermal Production Expansion Act, and I offered and passed this legislation as an amendment to the Consolidated Land, Energy, and Aquatic Resources Act of 2010 (H.R. 3534), but unfortunately did not reach the floor of the U.S. House of Representatives. I urge Congress to pass this bill into law this year.

IN RECOGNITION OF MR. JACK MCKEON

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. PALLONE. Mr. Speaker, I rise today to recognize Mr. Jack McKeon, a native of South

Amboy, New Jersey and a member of the All-American Amateur Baseball Association (AAABA) Hall of Fame's Class of 2011. The AAABA established the Hall of Fame in 1994 and continues to induct a new class of prestigious individuals every August. This year they induct Mr. McKeon, an outstanding individual who has dedicated his life to the game of baseball. His performance on and off the field are worthy of this body's recognition.

Jack McKeon, nicknamed "Trader Jack", began his baseball career in 1948 as a participant in the AAABA Tournament and later signed with the Pittsburgh Pirates in 1949. Mr. McKeon nobly served in the United States Air Force from 1950 to 1951 but quickly returned to his baseball career in 1952 as a minor league player. He maintained a starting position with various minor league teams for three more years. By the age of twenty-four, Mr. McKeon began as a player's manager from 1956 through 1959 and continued managing in the minor leagues for the next seventeen years. As a result of his outstanding efforts, he was the recipient of four 'Manager of the Year' Awards for his performance in the Minor Leagues.

Jack McKeon made his Major League Baseball debut in 1973 as Manager with the Kansas City Royals and remained a member of this club for three consecutive seasons. He has also been recognized as Manager with the Oakland Athletics, Manager and General Manager of the San Diego Padres, and Major League Scout and Manager for the Cincinnati Reds. Mr. McKeon is most notably known for leading the San Diego Padres to a National League pennant win in 1984. He also led the 2003 Florida Marlins to the World Series, winning the Championship later that year. Consequently, he was named '2003 Manager of the Year'. Jack McKeon is the only manager in history to win 1,000 games in both the minor and major leagues. In 2005, Jack McKeon retired as Manager of the Florida Marlins and currently holds a position as special advisor to the owner.

Mr. Speaker, once again, please join me in congratulating Mr. Jack McKeon for his numerous accolades and congratulate him for his acceptance as a member of the All-American Amateur Baseball Hall of Fame's Class of 2011.
