

CSW continues to effect change in all aspects of our society by supporting the work of its non-profit member groups. The sixty-three non-profit member groups currently supported by Community Shares of Wisconsin are groups independently involved in tackling social and environmental issues both locally and nationwide. By working with CSW, each member non-profit group gains access to a larger network of supporters and more abundant resources with which to advance its mission.

For 40 years, CSW has utilized this pooled resource model to devise innovative solutions and ideas that generate lasting changes in social justice across the United States. It is due to the hard work of CSW member organizations like the Fair Housing Center of Greater Madison that more Wisconsinites can live in affordable housing complexes that offer permanent shelter and community safety. Other members of the CSW, like the Wisconsin Women's Network, are committed to the betterment of women's health, safety, and workplace protections. Although these are just a few examples, it is without a doubt that the civil rights and liberties of our family, friends, and neighbors stand better protected today thanks to the dedication and commitment of CSW member groups.

In addition to advancing social justice, the pursuit for environmental preservation is one of CSW's highest priorities. By supporting non-profit groups such as Clean Wisconsin, Friends of Wisconsin State Parks, and the River Alliance of Wisconsin, CSW works to improve the condition of Wisconsin's waters and its air quality. The great State of Wisconsin now thrives as a haven for residents and tourists who take pleasure in the outdoors and depend on the State's natural resources on a daily basis.

Today, CSW continues to bring together thousands of donors to benefit a multiplicity of causes through its non-profit member groups. I extend my sincerest congratulations to Community Shares of Wisconsin on its 40 years of forward thinking and its steadfast pursuit of justice and environmental protection for our community, both here in Wisconsin and across this great Nation.

IN RECOGNITION OF MICHAEL J.
CRILLY

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Ms. SPEIER. Mr. Speaker, it is with great respect and admiration that I rise today to pay tribute to Superintendent Michael J. Crilly, who retires this month from the Jefferson Union High School District.

Superintendent Crilly came up through the ranks, spending 39 years in the Jefferson Union High School District as teacher, vice principal, principal, associate superintendent and, for the past 17 years, superintendent. During his tenure at the helm, Mike led the district through two successful bond campaigns, allowing school buildings and fields to be upgraded and modernized to better serve a growing and changing student body. He partnered with the City of Daly City to develop the Challenge Leadership Program, bringing students from various schools together to find

ways to improve their education and learn important leadership skills. Mike also formed a partnership with San Francisco State University, the South San Francisco Unified School District and Serramonte Shopping Center to conduct an annual college fair, providing students access to representatives from nearly 70 colleges and universities.

In 2007, he was named Regional Superintendent of the Year by the Association of California School Administrators, a recognition justly deserved.

Mr. Speaker, Mike Crilly is not an administrator who feels that public service ends at the close of business. He gives tirelessly to his community, having served as President or Chairperson of the San Mateo County Superintendents' Association, Daly City—Colma Chamber of Commerce and Western Association of Schools and Colleges Accrediting Committee. Mike has also served on the Association of California School Administrators, Daly City Economic Development Advisory Committee, Daly City—Quezon City Sister City Committee, Pacifica Library Task Force, Skyline College President's Council and the Seton Medical Center Board of Directors.

A native San Franciscan, Mike Crilly was educated in local schools. He received his Bachelor of Arts from St. Patrick's University and his Secondary Teaching Credential and Administrative Services Credential from the University of San Francisco. Mike and his incredible wife, Patricia, raised three inspiring daughters—Jennifer, Megan and Erin—and Mike's retirement will leave even more time to enjoy his family, especially grandchildren Brayden and Ellie.

If I know Mike, retirement will also encourage more home remodeling and gardening projects but I'm sure there'll be plenty of baseball squeezed in as well.

Mr. Speaker, Superintendent Crilly has served his students and his community with the greatest honor and distinction. I am privileged to call him a friend and fellow public servant. I ask my colleagues in the House of Representatives to join me in thanking Superintendent Michael J. Crilly for his service to our nation and to the students and taxpayers of the Jefferson Union High School District.

EMPOWERING PARENTS THROUGH
QUALITY CHARTER SCHOOLS ACT

SPEECH OF

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 13, 2011

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2218) to amend the charter school program under the Elementary and Secondary Education Act of 1965:

Mr. BLUMENAUER. Mr. Chair, I voted in favor of House Resolution 2218, the Empowering Parents Through Quality Charter Schools Act. While I support most of the legislation, I have a few concerns which I would like to highlight.

I welcome the additional accountability requirements and the increased access measures incorporated into this legislation, as well as the specific encouragement for public char-

ter schools and traditional public schools to share best practices. However, I am worried about the authority given to the Secretary to dispense charter planning grant money. We have often seen this discretionary authority used to coerce school districts or states into adopting policies that do not fit within the state's education framework.

While I appreciate the bipartisan nature of this legislation, and the important advances it makes for accountability and access issues, I hope that the discretionary authority given to the Secretary is used judiciously.

IN RECOGNITION OF KAREN
PHILIP

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Ms. SPEIER. Mr. Speaker, it is with immense appreciation and a tinge of regret that I rise today in honor of Karen K. Philip, who retires at the end of this month as Deputy Superintendent of the San Mateo County Office of Education.

There is no doubt that she has earned her retirement, after thirty-eight years educating the children—and impressing the parents—of California's 12th Congressional District.

Mr. Speaker, I doubt that anyone has ever met Karen Philip where they did not learn something. She is the consummate educator, beginning in 1973 in the South San Francisco Unified School District, where she served for seventeen years as a teacher, speech therapist, special education administrator and principal, Karen has dedicated her life to the children of San Mateo County.

From there, she was recruited by the Millbrae School District to serve as Assistant Superintendent for Curriculum and Instruction and, after just two years, was appointed Superintendent of the District, a post she held for fifteen years. During her tenure in Millbrae, the schools in her charge received many prestigious awards, including three California Distinguished School Awards and the National Blue Ribbon, awarded in Washington D.C. to Taylor Middle School.

Throughout her career, Deputy Superintendent Philip has been tapped for numerous leadership positions, including serving as President of the San Mateo County Superintendents Association, the Special Education Local Plan Area Board, and Soroptomist International of Millbrae/San Bruno. She has also been named a "Woman of Distinction" by Soroptomist International, received the California "Schoolmasters Award" in 2011 and was inducted into the San Mateo County "Women's Hall of Fame".

Mr. Speaker, as with all true educators, Karen's greatest achievement is in the many thousands of children—most who are now adults—who have benefitted from her passion and extraordinary talent for teaching. No doubt, our county's loss is Karen's grandchildren's gain. Now they get to spend even more time soaking in all the incredible lessons their brilliant grandmother has to offer.

Karen was born and raised in Michigan and attended Detroit's Wayne State University, where she received a Bachelor of Arts in Speech and English and her Master Degree in Communication Disorders and Sciences.

Mr. Speaker, I have been honored to work with this incredible woman on promoting sound education policy for more than two decades. I ask my colleagues in the House of Representatives to join me in thanking Deputy Superintendent Karen Philip for her remarkable service to our nation's children and wish she and her husband, Lou, a phenomenal retirement filled with exciting travel, good health and the love of their amazing family: Kimberly and her husband Keith, Jeff, and his wife Jenn, and grandchildren Lydia, Mark, Caitlin, John, Emma and Amelia.

RECOGNIZING DR. GEORGE R.
CARRUTHERS

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Ms. NORTON. Mr. Speaker, I rise today to ask the House of Representatives to join me in recognizing Dr. George R. Carruthers, a world-renowned scientist, an innovative leader in astronomy and engineering, and a resident of the District of Columbia.

Through the guidance and encouragement of his father, Dr. Carruthers discovered his interest in engineering. After graduating from Englewood High School in Chicago, Dr. Carruthers earned a bachelor's of science degree in aeronautical engineering, a master's degree in nuclear engineering, and a doctorate degree in aeronautical and astronomical engineering at the University of Illinois.

Though born in Ohio and raised in Illinois, Dr. Carruthers has spent most of his distinguished career as a resident of the nation's capital. Since joining the U.S. Naval Research Laboratory in 1964, Dr. Carruthers has co-invented the far-ultra violet electrographic camera, which was first used in sounding rockets in 1966 and was used during the Apollo 16 mission to the moon in 1972, giving scientists fresh, revealing images of Earth and space. He was also the first to detect molecular hydrogen in deep space in 1970. Dr. Carruthers has been a driving force in the use of ultra-violet astronomy. Not only was he involved in the review of the early design of the Hubble Space Telescope, which was carried into orbit in 1990, where it remains and continues to operate, he has refurbished the telescope in the Observatory on the campus of Howard University, enabling students, educators, families, and the general public to use the telescope to view special astronomical events.

Dr. Carruthers was inducted into the National Inventor's Hall of Fame in 2003, and has received numerous awards, including the Black Engineer of the Year in 1987, the Arthur S. Fleming Award in 1971, the Exceptional Achievement Scientific Award from the National Aeronautics and Space Administration in 1972 and the Warner Prize from the American Astronomical Society in 1973.

The District of Columbia and its residents are particularly grateful for Dr. Carruthers' work in helping to develop the next generation of engineers by creating the Science and Engineering Apprentice Program, a summer program in which D.C. Public Schools high school students work side-by-side with professional scientists. Dr. Carruthers has also edited and co-authored several publications and co-pro-

duced a series of instructional videos on Earth and space science for high school students.

For more than two decades, Dr. Carruthers has been an active member of Science, Mathematics, Aerospace, Research, and Technology (S.M.A.R.T.), Inc., where he has shared his knowledge through presentations and hands-on activities with students, educators, families, and the general public. Dr. Carruthers spent six years coordinating workshops in aerospace, science and technology for African-American students in the D.C. metropolitan area for S.M.A.R.T. and the National Air and Space Museum.

Dr. Carruthers is the editor of the National Technical Association (NTA) Journal and newsletter, is the President of the D.C. Chapter of NTA, and was a secretary of the Development Fund for Black Students in Science and Technology for more than two decades.

For a lifetime of achievements and for continuing contributions to science, engineering, and astronomy, as recognized throughout the nation and the world, I ask the House to join me in celebrating the uniquely distinctive place of Dr. George R. Carruthers in science.

PERSONAL EXPLANATION

HON. JAMES A. HIMES

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Mr. HIMES. Mr. Speaker, I was unable to be present to cast my vote on Mr. HOLT's amendment to H.R. 2218—Empowering Parents through Quality Charter Schools Act. I wish the record to reflect my intentions had I been able to vote.

Had I been present for rollcall No. 702, I would have voted "yes."

IN RECOGNITION OF RICHARD
BOITANO

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Ms. SPEIER. Mr. Speaker, I rise this today to ask my colleagues in the House of Representatives to join me in recognizing Richard Boitano as he retires as Associate Superintendent of Education for the Jefferson Union High School District.

Rick Boitano has served his community for 38 years as a teacher, Vice-Principal, District Director of Pupil-Personnel Services and Associate Superintendent. In addition, he has been active in numerous organizations dedicated to helping young people and the community at large, including the San Mateo County Juvenile Justice Planning Council, San Mateo County TANF Planning Council, San Mateo County Community Schools Task Force, Board of Directors of Youth Empowering Systems, Inc., San Mateo County Juvenile Justice and Delinquency Prevention Commission, Pacifica Youth Service Bureau, Every 15 Minutes Alcohol Abuse Prevention Program and the Association of California School Administrators.

In addition, Rick has been a presenter at the California State Juvenile Officers' Associa-

tion Annual Training Conference, the San Mateo County Prevention Coordinators Meeting, and the National School Transportation Association Convention on Gang Awareness, School Safety and Gang Intervention.

Rick has also served as Chairperson of the WASC School Accreditation Process and the San Mateo County Gang Task Force Schools Division. In addition, Rick is a member and past-president of St. Pius Catholic Church Mens' Club.

Rick Boitano was born and raised in San Francisco, having received his Bachelor of Arts, Secondary Teaching Credential and Administrative Services Credential from the University of San Francisco. He and Beverly, his lovely wife of 35 years, have raised four boys—Tim, Jonathan, Matt and Andrew—and his retirement will provide extra time for his grandson, Jude.

Mr. Speaker, I commend Rick for his decades of service to the young people of California's 12th Congressional District. He has earned his retirement and I wish him nothing but the best, which is exactly what he gave the students and parents of the Jefferson Union High School District every day for thirty-eight years.

RECOGNIZING AZERBAIJAN AND
THE AZERI PEOPLE

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 14, 2011

Mr. SHUSTER. Mr. Speaker, as the Co-Chairman of the Congressional Azerbaijan Caucus, I would like to take this opportunity to recognize Azerbaijan and the Azeri people for their ongoing support of the United States and our allies in the Global War on Terror. Azerbaijan has been a consistent supporter of U.S. efforts in the fight against terrorism, and the Azeris have worked with us to strengthen economic and political stability in the Caspian region. It is important that we recognize the sacrifices made by our allies and continue to thank them for their support.

As we reflect back on the recently passed 10th anniversary of the terrorist attacks of September 11, we must remember that the fight against terrorism is not a fight against Islam. On September 11, 2001, Americans of all faiths and citizens from around the world tragically lost their lives.

Today, uniformed and civilian men and women around the world work shoulder to shoulder to combat the ongoing threat of terrorist attacks that don't just affect the United States, but virtually every nation. This effort is not one of faith; rather it is an effort to keep citizens of all nations safe from barbaric acts of terrorism.

Immediately after 9/11, Azerbaijan, a majority Muslim nation, was among the first to offer strong support and assistance to the United States. Azerbaijan participated in operations Iraq and is actively engaged in Afghanistan, having recently doubled its military presence there. Azerbaijan has extended important over-flight clearances for U.S. and NATO flights to support ISAF and has regularly provided landing and refueling operations at its airports for U.S. and NATO forces. Also, Azerbaijan plays an important role in the Northern
