

she was nominated for her great endeavors in Girl Scouting.

Ms. Skinn has worked closely with co-leader and fellow inductee Jan Dobo. Sandy has worked for over 30 years to promote the positive qualities of leadership skills, strong values, confidence and conviction about self-worth to young women. Her love of the outdoors has led to many camping trips, both in Ohio and as far as Maine for activities ranging from outdoor survival training, to week-long sailing and adventures. Sandy and Jan have been co-chairs of the Beavercreek North Service Unit, which serves over 500 girls, as a Council area of Greene, Warren, Miami, Montgomery and Clark Counties. Mr. HARRIS. Mr. Speaker, it is proper and fitting that the United States offer our sincere

congratulations to The Republic of China (Taiwan) on the 100th anniversary of the origins of their Democracy on October 10, 2011.

Taiwan is also a willing partner in helping to respond to the economic melt-down which has so adversely affected the world economy. President Ma Ying-jeou has made stabilizing the world economy a priority, for which he should be congratulated.

RECOGNIZING DR. ADAM G. RIESS,
THE 2011 PHYSICS NOBEL PRIZE
WINNER, FOR HIS OUTSTANDING
ACHIEVEMENTS

HON. JOHN P. SARBANES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 5, 2011

Mr. SARBANES. Mr. Speaker, I rise today to recognize Dr. Adam G. Riess, who was recently awarded the Nobel Prize for his outstanding contributions to the field of physics. Dr. Riess is a constituent of mine living in Baltimore, Maryland.

The Nobel Prize is awarded each year to recipients for outstanding achievement in physics, chemistry, medicine, literature, and peace. These prestigious awards, which were established through the generosity and vision of Albert Nobel, are reserved for the most important discoveries and inventions.

Dr. Riess, who is a professor of physics and astronomy at Johns Hopkins University and a senior staff member at the Space Telescope Science Institute, shares the 2011 physics award with two other scientists for their combined discovery that the universe is expanding at an accelerated rate—a concept that Albert Einstein first introduced but could never fully explain or prove. This discovery was made through extensive years of studying the explosions of supernova stars.

Johns Hopkins University is a Maryland institution second to none in the world and Dr. Riess is the fourth member of the faculty to receive the Nobel Prize. Hopkins, the affiliated Applied Physics Lab, the National Institutes of Health, and other premier scientific institutions in our state showcase the best of public-private partnerships and have produced innovations that change the world and power our local economy. Dr. Riess' discoveries, and the many breakthroughs and innovations that are accomplished in partnership with the federal government, underscore the importance of federal funding for scientific research. Dr. Riess indicated that the Hubble Space Telescope, in particular, was critical to his research.

I applaud Dr. Riess' outstanding achievement as it reflects many years of study and hard work and a deep commitment to scientific innovation. Congratulations to Dr. Riess and his colleagues for their groundbreaking work in the field of physics and for their extraordinary contributions to science.

H.R. 2681 AND H.R. 2250

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 5, 2011

Mr. SENSENBRENNER. Mr. Speaker, I rise today in strong support of H.R. 2681, the Cement Sector Regulatory Relief Act, and H.R. 2250, the Environmental Protection Agency (EPA) Regulatory Relief Act, which are common-sense bills that will reduce uncertainty in the marketplace, and allow businesses to compete and grow.

We can no longer continue with the failed economic policies of the past couple of years. As was seen with the nearly \$1 trillion failed stimulus program from last year, throwing money at our economic problem does not create jobs. Instead, we need to tackle the heart of the issue and create an environment that attracts new businesses and allows them to successfully compete in our global economy. Industries across all sectors have been reluctant to expand, in large part due to the uncertainty over the slew of heavy-handed government regulations. I believe reducing and eliminating these costly regulations will stimulate confidence and allow small businesses to grow and be successful.

Today and tomorrow, Members will have an opportunity to vote on legislation to delay two of these job-killing regulations and give industry officials more time to come into compliance. H.R. 2681 and H.R. 2250 are two important bills that will give the EPA 15 months to re-propose and finalize regulations on boilers, process heaters, incinerators, and cement manufacturing facilities. Additionally, these bills instruct the EPA to establish new rules that are actually achievable, and are in the least burdensome regulatory standard.

The Cement MACT and Boiler MACT rules are two examples of over-regulation by the government that are estimated to cost billions of dollars and hundreds of thousands of jobs. The Boiler MACT regulations are estimated to affect approximately 200,000 boilers, and have a compliance cost of approximately \$14.4 billion, threatening 200,000 jobs. Even the EPA has admitted that more time was needed to consider this rule, given the outpouring of concerns they received from industry officials. The impact of the Boiler MACT regulations will be felt across a wide range of industry sectors including agriculture, chemical, biomass power, forest and paper, refining and municipal utilities. I believe we need to give the EPA more time to reconsider this rule, and we must also give those affected by it a reasonable amount of time to comply.

Additionally, the Cement MACT regulations are another set of rules that will have major implications on jobs. According to the Portland Cement Association (PCA), the likely cost of compliance for the cement industry is estimated at \$3.4 billion, nearly half of the industry's annual revenues. It will cost an additional \$2 billion to comply with incinerator requirements. The PCA estimates that almost 20 percent of the domestic industry will potentially shutdown due to these regulations. In addition to the jobs lost by the plant closures, the effect of rising cement prices on our already struggling construction industry is cause for serious concern.

I am mindful of the fact that we must do our part to preserve our environment for future

generations, which includes reasonable environmental regulations. However, it is troubling to see the EPA's total disregard for our current economic situation, and its push for unrealistic and unattainable goals that are stifling economic growth. Just last month, President Obama addressed a joint session of Congress demanding that Congress pass legislation to restore confidence in our economy and create jobs. I am pleased that House Republicans have once again brought to the floor legislation that does just that. I strongly support passage of H.R. 2681 and H.R. 2250, and urge my colleagues to support these bills.

FRANCES REEVES JOLLIVETTE
CHAMBERS

HON. CORRINE BROWN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 5, 2011

Ms. BROWN of Florida. Mr. Speaker, Frances Reeves Jollivette Chambers, warmly known as Fran, was born on November 13, 1921 in Overtown. She was the sixth of five surviving children born to The Miami Times Founder, the late Henry E.S. Reeves and Rachel Jane Cooper Reeves, who had emigrated in April 1919 from Nassau, Bahamas, to Miami. She wed Cyrus M. Jollivette, Sr., in December 1942. Widowed in January 1960, she wed James R. Chambers in July 1963; he died in June 2000. Her daughters are Miamians Regina Jollivette Frazier and Cleo Leontine Jollivette; her son, Cyrus M. Jollivette, resides in Mandarin, Florida. She is blessed with four grandchildren and three great-grandchildren.

After graduating from Booker T. Washington High in 1938, Chambers was awarded the Bachelor of Arts degree summa cum laude from Bennett College in 1942 and the Master of Arts degree from New York University in 1959. She later studied at the University of Miami and University of Florida and Florida A&M, Florida Atlantic, and Barry universities, amassing more post graduate credits than are required for the doctoral degree. She taught and guided generations of students at Dunbar Elementary, Miami Jackson Senior High, COPE Center North, and Holmes Elementary before retiring from the Dade County Public Schools in July 1979 after more than 37 years as a teacher, reading specialist, counselor, and principal.

Hers has been a lifetime of involvement. In the 1950s she was a volunteer for the March of Dimes and the American Heart Association. In the 1960s she was JESCA board chair, a board member of Senior Centers of Dade County and a member of the American Association of University Women. In the 1970s and 1980s she was a member of the Florida State Board of Optometry and the League of Women Voters. As a retiree in the 1990s she continued her community volunteerism and also traveled the world visiting more than 50 countries and six continents. She is a life member of Alpha Kappa Alpha Sorority and the NAACP, a platinum member of The Links, Inc., and a charter member and past president of the MRS Club, a six-decades-old group of friends. At Incarnation Episcopal Church she is a member of Daughters of the King.

In a far different world almost three decades ago she conceived, developed, and imple-

mented the research plan to publish a book to record, preserve, and transmit the history of Miami's black pioneers. Her goal was to help assure that future generations could appreciate the long and difficult road so many Pioneer Miamians had traveled.

Her vision has been realized. The 120-page hard bound coffee table book, *Linkages & Legacies*, is being published in March 2010 by The Links, Inc., Greater Miami Chapter, through the non-profit Linkages and Legacies, Inc. The publication—a gift to the community—was made possible because so many gave so much and demonstrated the resolve to complete the project even though Chambers could no longer lead nor participate in the effort. It is because of her concept for the book that the AT&T African-American History Calendar was created 17 years ago. In 2010 Fran Chambers is recognized for her vision to help preserve and transmit our history for generations to come.

Since 2000, Fran Chambers has been afflicted with Alzheimer's disease and cared for at her home.

A CONGRESSIONAL RESOLUTION
RECOGNIZING JAN DOBO ON HER
INDUCTION INTO THE GREENE
COUNTY WOMEN'S HALL OF
FAME

HON. STEVE AUSTRIA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 5, 2011

Mr. AUSTRIA. Mr. Speaker, on behalf of the people of Ohio's Seventh Congressional District, I rise today to recognize Ms. Jan Dobo for her induction into the Greene County Women's Hall of Fame.

Ms. Jan Dobo along with five other candidates were selected from a pool of many worthy women to receive this honor, and thus, she was nominated for her great endeavors in girl scouting.

Ms. Dobo has provided countless travel opportunities and taught valuable skills to hundreds of Junior, Cadette and Senior Girl Scouts for well over 30 years and on-going to this day. Despite suffering a debilitating stroke while on a scouting campout, Jan has continued to be deeply involved. Typically, Girl Scout Troops are organized within communities, but Jan and co-leader Sandy Skinn, have always maintained an open troop and allowed any girl to join without consideration of where she lived. The troop has had a reputation for working hard with women in order for them to achieve Gold Awards which is equivalent of an Eagle Scout in Boy Scouting. Jan has also volunteered her home over the last 30 years to be the Girl Scout Cookie Cupboard for the area. Jan has received many awards for her service, including the Thanks II Badge—the highest award to volunteers in Scouting.

Thus, with great pride, I congratulate Ms. Jan Dobo for her exemplary service to Greene County and extend best wishes for the future.
