

development and an increasingly interdependent national economy, Congress “ushered in a new era of federal regulation under the commerce power,” beginning with the enactment of the Interstate Commerce Act in 1887 and the Sherman Antitrust Act in 1890.

*Gonzales v. Raich*, 545 U.S. 1 (2005). Finally, this Bill respects the Tenth Amendment and preserves the rights of each state to establish and enforce their own anti-trust or unfair competition statutes, and it narrowly construes the Interstate Commerce Clause to actions that involve actual commerce, a product that is purchased and sold, administered and utilized across state lines, and has a clear effect on national commerce. In this manner, this Act would satisfy even Justice Thomas’ concurring view of the Interstate Commerce Clause, set forth in *United States v. Lopez*, 514 U.S. 549, 586-87 (1995), that the Commerce Clause empowers Congress only to regulate the buying and selling of goods and services trafficked across state lines. Modern class action lawsuits typically seek out class members from multiple jurisdictions, advertise nationwide, and predominate interstate issues to such a degree courts of multi-district jurisdiction are sometimes appointed. In this regard, class action lawsuits also engage in commerce across state lines and have been subjected to Congressional regulation, including the Class Action Fairness Act of 2005.

The Interstate Commerce Clause does not, as some have suggested, contain federal powers that are “unlimited” and indeed, the original application of this clause was quite narrow, as most aptly described in *Federalist No. 42*. In that tract, James Madison explains that the purpose undergirding the regulation of commerce among the States was to prevent each state from imposing taxes, duties or tariffs on goods from another state that would in effect limit trade among the states and create animus that “would nourish unceasing animosities, and not improbably terminate in serious interruptions of the public tranquility.” We follow here today, however, an accepted and long standing interpretation of the Commerce Clause that is not broad in that it regulates actual commerce involved between or transacted across state lines.
