

avoided through early intervention at a school-based health clinic.

School-based health centers (SBHCs) are considered one of the most effective strategies for delivering high quality, comprehensive, and culturally-competent primary and preventive health care to adolescents—a population that can be difficult to reach. They remove the barriers that most commonly keep young people away from health services. They are located where students spend most of their waking hours—at school—making them much more accessible than doctor's offices or a clinic. They provide services regardless of a child's ability to pay, eliminating discrimination caused by wealth or the lack thereof. SBHCs reduce absenteeism, tardiness, dropouts, and discipline referrals by helping youth remain in school and engaged in learning.

SBHCs are also vital mental health providers for children and adolescents. Today, May 3rd, is National Children's Mental Health Awareness Day. I cannot think of a more destructive way to mark this day than by passing a bill that eliminates access to mental health services that children desperately need. Bullying, violence, depression and stress are rampant in our school classrooms and playgrounds. SBHC staff are on the scene with the time and resources to address these challenges. More importantly, evidence shows that young people are willing to go to a SBHC for counseling, while the stigma of mental health issues is often enough to keep them from seeking help from other providers. Research shows that students who report depression and past suicide attempts demonstrate greater willingness to seek counseling in a SBHC. Students with perceived weight problems report more willingness to use a school clinic for nutrition information. Sexually active students are more willing to seek information on pregnancy prevention and to have general disease screenings at a SBHC.

More than 350 applications to build school-based health centers have already been received by the Department of Health and Human Services, from 46 states and the District of Columbia, in response to this new funding opportunity enacted as part of health reform. All of these projects are ready to go—which means immediate jobs for construction workers and others involved in building the centers. Defunding this provision is another example of the Republican disconnect from the real issues people care about—creating jobs and protecting children.

Healthy students are better students. Why the Republicans want to eliminate a program that helps kids stay in school and provides opportunities for future success—and creates jobs in the present—is simply beyond my imagination. I urge my colleagues to vote against this bill and give our young people the chance they deserve to succeed.

Mr. LEVIN. Mr. Chair, I rise in strong opposition to this legislation.

This bill is a retreat from a core value: to care for our children. Instead of cutting construction for these school-based health centers, we should be building more clinics to help those in need.

These centers work. They keep our children healthy. I see it at the two school-based clinics in my district in the Hazel Park and the Fitzgerald Public School systems.

For instance, Melissa, the nurse practitioner at the Fitzgerald Clinic, helps those who can't

get care in any other place because their families can't afford insurance or can't afford doctor's fees.

Just this past Friday, she saw a 16-year-old boy who didn't have any insurance because his parents' employer doesn't offer a plan, they can't afford private premiums but earn too much for CHIP or Medicaid. He was desperately ill, with a high fever and nausea. Melissa was able to diagnose and treat his strep throat on the spot. He asked her, "How much do I owe you?" Melissa responded "Nothing." The young man burst into tears because he had been so worried that his family wouldn't be able to pay her.

Another boy couldn't afford to go to an emergency room, but Melissa was able to treat a foot infection that could have resulted in an amputation.

I could give you example after example because the team at the Fitzgerald school does it all. She makes sure that students have the vaccinations they need to stay healthy—300 visits this year—and provides the physicals 200 children will need to play sports. They provide counseling for teens coping with their parents' unemployment and groups for those dealing with alcoholism and family violence.

The bottom line is that these clinics work and we need more of them.

I urge Members to vote no on these irresponsible cuts.

Mr. VAN HOLLEN. Mr. Chair, I rise in opposition to this legislation that would eliminate funding for school-based health centers.

School-based health centers provide much-needed health care services to vulnerable children and adolescents, including primary care, mental health, dental, vision, and nutrition services. They not only help improve children's health, but also help improve the academic performance of students. School-based health centers are a win-win for the student, but also for parents and the community.

By repealing funding for school-based health centers, we will be taking away a health care option—and perhaps the only health care option—for low income children and their families. Without these centers, we will not be building a foundation to promote and advance preventive and wellness-based care that will help save health care costs over time.

Mr. Chair, I urge my colleagues to oppose this misguided bill.

Mr. GENE GREEN of Texas. Mr. Chair, I rise in opposition to H.R. 1214, which repeals a provision in the Affordable Care Act that provides funding for the construction of school health centers. It also rescinds any unobligated funds that have already been appropriated to this program.

The Majority has said their top priority is job creation and getting our economy back on track. This legislation is yet another example of the Republicans' misplaced priorities.

If the Republicans cared about job creation, they would support school based health centers.

School-based health centers started in the 1970s with the first centers opening in Dallas, Texas, and St. Paul, Minnesota. Today, there are approximately 1,700 centers across the country located in 45 states plus the District of Columbia.

In Texas, there are approximately 85 school-based health centers. Most of these centers are located in a permanent facility on a school campus. The centers provide primary care, mental health care, and dental care.

The reason these school-based health centers are so important to working families is because they support families. They allow parents to stay at work while attending to their child's routine health care needs and they save money for our economy as a whole by keeping children out of hospitals and emergency rooms.

Once again, the Republicans are claiming they support helping our working families and yet again we are cutting another service that helps keep parents at work and children healthy.

I strongly oppose this legislation.

Mr. BURGESS. I yield back the balance of my time.

The Acting CHAIR. All time for general debate has expired.

Mr. BURGESS. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. CHAFFETZ) having assumed the chair, Mr. YODER, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 1214) to repeal mandatory funding for school-based health center construction, had come to no resolution thereon.

GENERAL LEAVE

Mr. BURGESS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks on H.R. 1214 and to insert extraneous material into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BURGESS. Mr. Speaker, I would like to reserve a point of order.

The SPEAKER pro tempore. A point of order is reserved.

The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Boswell moves to recommit the bill H.R. 1213 to the Committee on Energy and Commerce with instructions to report the same to the House forthwith with the following amendment:

In section 1, add at the end the following:

(c) CANCER OR OTHER PREEXISTING CONDITION NON-DISCRIMINATION DISCLOSURE CONDITION.—Section 1311 of the Patient Protection and Affordable Care Act, as amended by subsection (a), is amended by inserting before subsection (b) the following new subsection:

“(a) CANCER OR OTHER PREEXISTING CONDITION NON-DISCRIMINATION DISCLOSURE CONDITION.—As a condition for receipt of assistance under this section and in addition to any other requirements for an Exchange, an Exchange may not offer a qualified health plan of a health insurance issuer if that issuer—

“(1) does not agree to publicly disclose the extent to which coverage under such plan has been denied for any individual (including an individual who is a senior or future recipient of Medicare), and the extent to which there has been any increase in the amount of premiums for coverage under such plan for such an individual, based on the individual having cancer or another preexisting condition; or

“(2) has at least one such disclosure demonstrating an instance of such a denial or premium increase on such basis.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Iowa is recognized for 5 minutes in support of his motion.

□ 1750

Mr. BOSWELL. Mr. Speaker, this motion is very simple. It serves as a final amendment to the underlying legislation and would not kill the bill. What it does do is prohibit insurance companies from participating in health insurance exchanges if they deny coverage for cancer or other preexisting conditions, especially for seniors and future Medicare recipients.

My recommit motion is an opportunity for everyone in this Chamber to put the angry rhetoric surrounding health care reform aside and stand up for seniors and future Medicare recipients and every American who has been diagnosed with cancer and other preexisting conditions.

This recommit motion holds special meaning for me because I am a cancer survivor. I was diagnosed with prostate cancer that was most likely caused by my service in the Vietnam War and exposure to Agent Orange. Fortunately, as a career soldier, I had access to affordable, quality public health insurance to help me beat that nasty disease. Many other Americans are not so lucky.

With this in mind, this final amendment is more important than ever. Medicare accepts all seniors; private insurance companies do not. This must change, and requiring these companies to prove that they do not charge more or deny coverage to seniors and the 129 million people under 65 who have a preexisting condition is an important first step.

I would submit that probably every one of us in this Chamber have received calls from some of our constituents who have been paying for insurance for years and years, they got a malady, they got cancer, they're in the hospital, they're getting treatment, insurance comes due and they can't renew it because they've got a preexisting condition. That's got to stop.

Health insurance exchanges will be a one-stop shop for tens of millions of Americans who purchase individual policies. This market must be open

only to the companies that provide affordable insurance to all Americans, young, old, sick and well, male and female. My recommit motion, this final amendment, would require just that.

Our role as a government is to protect the well-being of our citizens, not the bottom line of insurance companies, which are doing just fine by the way.

America's health insurance companies increased their profits by 56 percent in 2009, while 2.7 million people lost their private coverage. The Nation's five largest for-profit insurers reported a combined profit of \$12.2 billion the same year, according to a report by Health Care for America Now.

I support American companies making profits. However, these numbers indicate there is no reason why private insurance companies should deny coverage to seniors or Americans struggling with cancer and other preexisting conditions.

My amendment would ensure that if they want to expand their insurance pool to include Americans purchasing through health care exchanges and grow their customer base even more, then they must cover everyone fairly—seniors, future Medicare recipients, and cancer patients included.

Let's be clear. The passage of this amendment will not prevent the passage of the underlying bill. If the amendment is adopted, it will be incorporated into the bill, and the bill will be immediately voted upon.

So, even though we may disagree on the bill today, we have the opportunity to stand together for those afflicted with cancer and other preexisting conditions and our Nation's future Medicare recipients who would lose guaranteed health care benefits under the Ryan plan.

It's up to us. I urge everyone to vote "yes" on this final amendment.

I yield back the balance of my time.

The SPEAKER pro tempore. Does the gentleman from Texas have a point of order?

Mr. BURGESS. Mr. Chairman, I will withdraw the point of order.

The SPEAKER pro tempore. The gentleman withdraws the point of order.

The gentleman from Texas is recognized for 5 minutes in opposition.

Mr. BURGESS. Mr. Speaker, H.R. 1213 that we've had under discussion all day does nothing about preexisting conditions; therefore, this motion to recommit is irrelevant and unnecessary.

Members were brought here to get runaway spending under control. Rather than help us avoid a fiscal crisis, House Democrats have brought forward a motion to recommit that is irrelevant to the points that have been made on the floor of this House today.

As has been pointed out, Section 1113(a) of the Patient Protection and Affordable Care Act gives the Secretary of Health and Human Services an unlimited appropriation to facilitate enrollment in State health exchanges. We simply do not know how

the Secretary of Health and Human Services will spend these dollars.

The Center for Medicare and Medicaid Services has indicated that States should look to this fund to plug State budget shortfalls.

Section 1311(h) of the Patient Protection and Affordable Care Act gives the Secretary the ability to regulate which doctors can provide care through exchange plans. This fund can be used to federalize how doctors can practice medicine.

Grants under 1113(a) could also be used to provide a 100 percent subsidy for premiums, driving patients out of employer-sponsored insurance.

Under Section 2705, it is already prohibited for a qualified plan to discriminate, and, thus, the motion to recommit attempts to keep the spending going. Continuing to fund State-based exchanges would jeopardize taxpayer resources.

Given the huge uncertainty regarding the Patient Protection and Affordable Care Act, two Federal District Courts have struck down the law. State attorney generals have asked for an expedited review of the litigation, but the Obama administration has refused to allow that to happen. In the interim, repealing this fund is the best thing we can do to protect taxpayer resources at a time of record red ink.

I urge my colleagues to vote “no” on the motion to recommit.

I yield back the balance of my time. The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection. The SPEAKER pro tempore. The question is on the motion to recommit. The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. BOSWELL. Mr. Speaker, I demand a recorded vote.

the committee's director of security to arrange a time and date for that viewing. This will assure the availability of committee staff to assist Members who desire assistance during their review of these classified materials.

I urge interested Members to review these materials in order to better understand the committee's recommendations. The classified Annex to the committee's report contains the committee's recommendations on the intelligence budget for fiscal year 2011 and related classified information that cannot be disclosed publicly.

It is important that Members keep in mind the requirements of clause 13 of House rule XXIII, which only permits access to classified information by those Members of the House who have signed the oath provided for in the rule.

If a Member has not yet signed that oath but wishes to review the classified Annex and Schedule of Authorizations, the committee staff can administer the oath and see that the executed form is sent to the Clerk's office. In addition, the committee's rules require that Members agree in writing to a non-disclosure agreement. The agreement indicates that the Member has been granted access to the classified Annex and that they are familiar with the rules of the House and the committee with respect to the classified nature of the information and the limitations on the disclosure of that information.

I thank the Speaker.
