

work as a front-line care provider taking care of sick people and trying to take care of them in their end of life experiences, which is one of the most precious times that a family gets to spend together. So as a nurse, Bev fought for health care improvement that would improve quality of care to patients and expand access to care so that no American family could say that a loved one died because they didn't have access to the type of care that all Americans deserve.

It's important for those of us who are struggling with this issue of how we provide quality, affordable health care to Americans to think about inspirational people like Bev and what she has done her entire life to help people in need, whether as a community volunteer, as a nurse, as an activist. What is the legacy that we will leave to our children and grandchildren when they look back at this Congress and say, What did you do to help me in my time of need? Because Bev never worries about that question. She says, I'll be the first one in, and I will fight until I don't have any breath in me left to give. That's why you'll still find Bev on her computer every day, networked with friends around the country, talking about issues of vital public importance, trying to be part of the important discussion that Americans have every day about improving the quality of this country.

And predictably, in the wonderful small town where I grew up, Brooklyn, Iowa, Bev's story has inspired many others to pick up the cause, and they formed what has been called Bev's Brigade, an army of loyal volunteers who show up at her house every day to take care of her basic needs after a lifetime of helping others. It's one way we pay it forward in this country, through the example that others have given us, to think every day about what we can do to help each other. And that's why Bev is an example to all of us of what the American spirit is all about.

REMEMBERING AMANDA ROS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Florida (Ms. ROS-LEHTINEN) for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, a few days ago, I lost an irreplaceable part of my family. My mother, Amanda Ros, passed away from complications due to Alzheimer's. She was a warm, loving, and caring woman who led an extraordinary life. She was my father's rock, soulmate, best friend, and companion for 65 years. They led a unique and joyous life. She always kept him company and guided him with her wisdom and her kindness.

It was her strength that helped our family transition as we fled the Castro regime and settled in south Florida. It was her determination and sense of purpose that inspired my father and her to start a small freight forwarding company in Miami that they ran together for over 30 years.

Abu Mandy, as we called her, was an amazing grandmother. When I was first elected to Congress, my kids were very young, and my mother was an unwavering source of support, taking care of them and traveling with me whenever I was in D.C. Her actions made my transition to Congress all the more manageable. My most ambitious goal was never to be a Member of Congress or to be chair of an important committee; it was to be for my children the kind of mother that she was to me.

□ 1010

She always taught me to be proud of my Cuban heritage and of my Jewish legacy.

My mother had many causes that were near and dear to her heart. First and foremost, both my parents championed the cause of a free Cuba. They participated in many projects to achieve this noble goal, and it saddens me deeply that my mother did not live long enough to see this goal of a free Cuba become a reality.

Her other passion, Mr. Speaker, was promoting organ donations. My mother believed in a world where individuals would help and care for one another. She believed that organ donation was the least that one could do for others, and I hope that others heed my mother's passion and become enthusiasts of organ donations.

Losing someone we love to Alzheimer's is sadly becoming all too common in our country. They call Alzheimer's disease "the long goodbye," and it is something that no family should have to go through. You see a person whom you remember to be full of life, wonder and passion become a shell of her former self.

It destroys brain cells and causes memory changes, erratic behaviors and loss of body functions. It slowly and painfully took away my mom's identity, her ability to connect with others, to think, to eat, to talk, to walk, to find her way home.

Every 70 seconds someone new develops Alzheimer's. Too often Alzheimer's falls under the wrongly held belief that it's an expected part of aging. We must raise awareness of the disease and provide a voice to the voiceless. We must improve early screening and detection, giving families and loved ones a better chance to prepare for and slow the onset of this disease.

Families living with an Alzheimer's loved one need all the support that they can get. My mother was fortunate to have our entire family rallying around her, as well as outstanding medical personnel who helped us manage the disease.

Eighty-seven percent of the time, it is family members who are the primary caregivers. Family members need assistance. It is tough for families to deal with everyday struggles of caring for loved ones with this disease, and the emotional stress is quite high. One-third of caregivers develop symptoms of the disease. The financial toll is significant.

My mother may be gone, but her legacy and love will forever be a constant presence in our lives, and we must all work together for a cure for Alzheimer's.

EMPLOYMENT FOR OUR VETERANS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. JACKSON) for 5 minutes.

Mr. JACKSON of Illinois. Mr. Speaker, let me first identify with the two previous speakers and offer my sincerest condolences and heartfelt feelings.

Mr. Speaker, there is no higher sacrifice in our Nation than military service. Our men and women in uniform serve honorably, whether they are stationed at a base here in the United States or serving in a combat zone far from home.

Some join the military out of patriotism. Some join in order to see the world. But for many, those motivations are coupled with another factor: the lack of jobs in our communities. Facing shaky prospects, many young people turn to military service as an honorable, good-paying career.

But too many veterans end up unemployed when they leave the military. After dodging bullets on the battlefield, they find themselves jobless in the marketplace.

In the last few weeks, I've issued a call for unemployed Americans to send me their resumes at resumesforamerica@mail.house.gov so that I may enter their stories into the RECORD as a way of dramatizing the shameful unemployment problem in this Nation. I've heard from thousands of Americans, including a number of veterans, who are struggling under the weight of unemployment.

Mushi Israel of San Diego, California, is a Navy veteran who served for 20 years. He's an information technology specialist who's been out of work for an entire year. As Mr. Israel said, "There are a lot of great people who are out of work like myself who believe in the American Dream and society and just want to do an honest day's work for an honest day's pay."

David Reinke of Burbank, California, was an Army lieutenant who received an honorable discharge in 1980. Although Lieutenant Reinke said in an email to me that his service was "brief and undistinguished," I beg to differ. Anybody who puts on a uniform is distinguished and has the right to a good life right here in America.

David worked for an event staging company for over 20 years. As he put it, "Unfortunately the economic downturn forced our company to lay off 50 percent of the staff in an attempt to remain economically viable. I was one of those casualties."

So after serving our country, Lieutenant Reinke became an economic casualty. He lost his job in January of 2010 and has been substitute teaching, where he tries to make ends meet.

Andy Lang, a retired disabled veteran from Snow Hill, North Carolina, who's been out of work since last January, wrote, "You don't know how scared I am, Congressman. Some days I don't eat. Americans need help and they need it now."

Ms. Harmony Leonard of Bradford, Pennsylvania, wrote to me. She served in the U.S. Navy from 1975 to 1979 and was honorably discharged. Ms. Leonard has worked as a teacher, a grant coordinator, a development officer, a general manager of a restaurant. She's active in her community and said, "I did everything I could to be a vital part of my community, and now that I have accumulated experience and education I seem to be invisible and of little use to society."

She continues, "My saving grace is that I am a veteran, so I have medical care should I need it. And I am not starving because my partner is working in the natural gas industry. But what about me? What about my self-esteem? What about the stigma attached to not working?"

Mr. Speaker, there's not a Member of this body who has a good answer for Ms. Leonard. How can we look our veterans in the eye, thank them for their service, and then tell them they are fresh out of luck when it comes to finding a job? How can we let them down like that?

I want to hear more stories like this because I know they're out there, and I know there are more veterans who serve our country with honor and dignity and now find themselves unemployed.

So I'm calling on unemployed and underemployed veterans to send me your resume and your story to resumesfromveterans@mail.house.gov. I'll submit them for the CONGRESSIONAL RECORD so that the unemployment problem among our veterans can be put front and center before our government. Sending me your resume will not get you a job, but it can help force Washington to end the unemployment problem once and for all.

Again, veterans and servicemembers can send their resume to me at resumesfromveterans@mail.house.gov.

Mr. Speaker, service to our Nation is an honorable profession, and we should honor that service by seeing to that every veteran has a job when their service is over. When you risk your life for your country, we should make sure you have a life when you return. No veteran should be left questioning how they will feed their family, wondering about their self worth, or fretting about their financial future.

It's time, Mr. Speaker, we did something to end unemployment once and for all for everybody, especially our veterans.

RESUME—MUSHI ISRAEL

Hello Resumes for America, after seeing Rev. Jesse Jackson on CNN this morning in discussion about the state of unemployment in the U.S., I decided to send in my resume. And I hope this will bring light to the gov-

ernment as to the real conditions of the country. There are lots of great people who are out of work like myself who believe in the American dream and society and just want to do an honest days work for an honest days pay.

I am a Navy veteran who served 20 years for my country. I have a BS degree in Information Technology, and my background in Naval Telecommunication is my expertise. I'm currently working on a Masters Degree in Information Technology Project Management. I'm also working on Cisco Certification Network Associate (CCNA), Cisco Information System Security Professional (CISSP) courses.

I believe it's so unfair for people like myself to be out of work when there are so many jobs that are outsourced to third world countries just for the profits of companies. What are we to do? I realize we are of a globalization for products and services around the world, but to the expense of US workers that help build this country and help to defend for the rights and privileges for all.

Help.

RESUME—REINKE, DAVID L.

DEAR REPRESENTATIVE JACKSON: This is an interesting project you have undertaken. Perhaps it will put a human face on the statistics, perhaps it will even do some good. As a so-called "99'er" I must admit to a sense of desperation as the end approaches.

For the past 20+ years I have worked in the Event Staging industry providing audio/visual support to various clients and events. Unfortunately the economic downturn forced our company to lay off over 50% of the staff in an attempt to remain economically viable. I was one of those casualties.

By way of background I would note that I was commissioned as a Lieutenant of Armored Cavalry in the Regular Army of the United States and received an honorable discharge in 1980. While my service was brief and undistinguished, my father, on the other hand, retired from the US Army as a full Colonel after 30 years including service in World War Two and Vietnam. My mother, who was an AAU age group swimming coach for over 30 years, had ancestors who fought in the American Revolution. Her two brothers and brothers-in-law all served in World War Two (one in Europe and three in the Pacific).

My wife's family too has a long record of service to our Republic. Her father is a civilian veteran of the attack on Pearl Harbor, while her two uncles served in both Korea and Vietnam (one a Marine and the other an Army NCO) as did her brother who served in Vietnam with the US Army and then joined the Air Force which he served in for 20 years.

Today my wife, who holds an MFA in Theatre, teaches Drama, Reading and Speech as a volunteer at a local school, while I work as a substitute teacher when occasion calls.

We are not asking for any special favors, just an opportunity to go back to work full time.

My resume is attached.
Best of luck to you with this project.
Respectfully,

DLR.

RESUME—ANDY LANG

Mr. Jackson, I am sending you my resume. I am a 24 year disabled Veteran retired. I served my country but it seems as though my country is not serving me! There is so much bickering and an unwillingness from the people we elected in Washington to help us. The price of gasoline keeps going up its over 3.15 a gallon where I live in North Carolina its hard to go look for a job. Something HAS to be done NOW to solve the problem not 5-10 years from now. Get rid of the tax on gasoline across the board. Even when they finally change over to another form of energy for automobiles how will the poor and middle class and older people be able to afford the change? I'm 55 now with no job, I fear soon I will be living on the street. Our elected officials in Washington say they care about us but in reality all they care about is themselves! You don't know how scared I am! Somedays I don't eat! We need to stop sending the millions of dollars to other countries! Americans NEED Help NOW!

EDUCATION

Macon Area Vocational College—Macon, Ga., Business Education—January 1980-May 1982.

Middle Georgia Technical College—Warner Robins, Ga., Accounting, Associate Degree.

Rose State College—Midwest City, Ok., Music, Associate Degree.

EMPLOYMENT

Army Corps Of Engineers—Deck Hand
August 2009—January 2010

I performed a variety of work in the maintenance and repair of the deck and general housekeeping functions on dredges, towboats, barges or other floating plant vessels.

Midcoast Aviation—Aircraft Painter—July 2008—January 2009

I was a aircraft painter my many duties included taping, wrapping, washing of the airplane, wiping down the airplane with solvent, priming, applying the top coat with a HVLP gun.

Strom Aviation—Aircraft Painter—June 2008—July 2008

I stripped paint from Coast Guard C-130's by applying with high pressure hose. Let the stripper set for a while till paint blister then removed with high pressure washer till all paint was gone from airplane.

Areotek—Industrial Painter—April 2006—June-2008

I worked as a contractor as a Industrial Painter for Oklahoma Gas & Electric. I painted all of the states Power equipment. I also was responsible for the upkeep of the paint shop as well of the disposal of the hazardous paint booth filters, dirty floor paper, waste paint cans and the upkeep and everyday maintenance on my paint guns, sanders and other tools I used in the shop.

Adecco—Industrial Painter—November 2001—April 2006

I worked the same job site as the above! Oklahoma Gas & Electric just changed Temp services so I stayed in the same place but got paid by different people.

Tinker Air Force Base—August 1984—October 2001

I started out as a Corrosion control specialist. I painted Air Force F-4's and F-16 jets. Later the Air Force sent me to Sheet Metal School and I became a Aircraft Sheet Metal Mechanic.

Robins Air Force Base—April 1980—August 1984

I was a warehouseman. I issued tools, took daily and weekly inventories, built pallets to be shipped out daily. Drove a electric and gas powered fork lift. Was involved with daily shipping and receiving.

ACCOMPLISHMENTS

I served in the United States Coast Guard—April 1975—April 1979.

I served in the United States Air Force Reserves—April 1980—Oct 2000.

Attended Air Force NCO Leadership Academy Air Force Aircraft Airframe Repair Warehouseman Training school.

RESUME—HARMONY J. LEONARD

Attached is my resume.
Yesterday I received yet another rejection letter. I could paper a wall with them.

I moved to Bradford PA to combine households with my partner after dating long distance for 5½ years. With our youngest children graduating we thought it time. Before moving here the only job I could find was managing a health food coop in Virginia. At \$10 an hour I supported my son and myself. Poverty level? Absolutely. My son joined the Navy for job security and because there was no money for college.

Since moving I have given up finding employment. I have discovered I have several strikes against me: Education; experience;

age; and I am a woman. While the first two can be addressed outwardly the last two I can not prove but I suspect.

Yesterday I had an interview with a local non-profit organization. Sitting with the director and two managers I was told, "We wanted to talk with you but we can't afford you." We talked for an hour and a half with me acting as a consultant. Should I send them a bill for my services?

My fear is that I will never work again; that I will age out before I find employment.

I feel betrayed by our society. I worked through college as a single parent in the hopes I could earn a better living for my children. I volunteered in my community. I did everything I could to be a vital part of my community and now that I have accumulated experience and education I seem to be invisible and of little use to society.

I was very disappointed during the recent State of the Union address that President Obama did not address the employed. There are over 30 million of us with no income, and in my case no unemployment. The vision of the speech seemed to skip over the current reality. At my age I probably will not see the future he predicts. What will happen to those of us who are caught between being productive citizens and retirement? We are the invisible people falling through the cracks.

My saving grace is that I am a veteran so I have medical care should I need it. And I am not starving because my partner is working in the natural gas industry. But what about me? What about my self esteem? What about the stigma attached to not working?

Thank you for all you are doing to bring the plight of the unemployed to light.

Sincerely,

MS. HARMONY LEONARD.

GET DOWN TO THE BUSINESS OF PUTTING PEOPLE BACK TO WORK

The SPEAKER pro tempore. The Chair recognizes the gentleman from Rhode Island (Mr. CICILLINE) for 5 minutes.

Mr. CICILLINE. Mr. Speaker, I rise today with a question for my friends on the other side of the aisle: When will we get down to the business of putting people back to work?

My constituents in the First District of Rhode Island sent me to here to do everything I can to get our economy
