

The Medtronic mission, in part, states, "To contribute to human welfare by application of biomedical engineering in the research, design, manufacture, and sale of instruments or appliances that alleviate pain, restore health, and extend life."

Not every CEO gets the privilege to lead a company that makes lifesaving products, but for Bill the Medtronic mission is very personal and is a source of encouragement for his distinguished career. Several members of his own family received medical technology products developed and manufactured by the very company he has led. In 2008 when he was made chairman, he recalled the personal feeling he experienced during an assembly for employees. Included in the audience were the family members who had received coronary stents, a heart valve and a pacemaker, and a deep brain stimulator to control tremors caused by a World War II injury.

I have most especially appreciated Bill Hawkins in my role as chair of the Subcommittee on Competitiveness, Innovation, and Export Promotion, where my focus has been creating an innovation agenda that can help grow our economy and create jobs in America. Bill has a true passion for advancing innovation to make the world healthier and has been a major influence on all of Medtronic's innovation-related policies. I could not have asked for a more inspired or committed partner with which to work during the last few years.

Bill has nearly 35 years of career experience in the medical device industry, serving in leadership positions at Novoste Corporation, American Home Products, Johnson & Johnson, Guidant Corporation, and Eli Lilly. He began his medical technology career with Carolina Medical Electronics in 1977.

He joined Medtronic in 2002 as senior vice president and president of the company's vascular business before serving as corporate president and chief operating officer. Bill Hawkins was named chief executive officer of Medtronic in 2007 and assumed the additional role of chairman in 2008. Under his guidance, Medtronic's capacity to serve patients extended further to provide an array of diagnostic, preventive, and chronic disease management solutions. During his decade of service and leadership, the company launched many important new technologies, made major investments in quality and innovation, and successfully navigated through an increasingly challenging environment. I have been pleased to work with Bill on health care and FDA reform and a host of matters that have ensured improved patient access to advanced medical technology.

In March of 2010 Bill received the Biomedical Engineering Society's Distinguished Achievement Award. This award is given to recognize those who have made great contributions to the field of biomedical engineering/bioengineering.

Bill serves on the board of visitors for the Duke University School of Engineering and the board of directors for the Guthrie Theater and the University of Minnesota Foundation.

I know that my colleagues join me, his friends, family, and colleagues in commending Bill Hawkins on his numerous accomplishments and wishing him well as he begins a new phase of his career.

Congratulations, Bill Hawkins.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the Committee on the Judiciary.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON THE CONTINUATION OF THE NATIONAL EMERGENCY THAT WAS ORIGINALLY DECLARED IN EXECUTIVE ORDER 13466 OF JUNE 26, 2008, WITH RESPECT TO THE CURRENT EXISTENCE AND RISK OF THE PROLIFERATION OF WEAPONS-USABLE FISSIONABLE MATERIAL ON THE KOREAN PENINSULA—PM 12

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency declared in Executive Order 13466 of June 26, 2008, expanded in scope in Executive Order 13551 of August 30, 2010, and addressed further in Executive Order 13570 of April 18, 2011, is to continue in effect beyond June 26, 2011.

The existence and the risk of proliferation of weapons-usable fissile material on the Korean Peninsula, and the actions and policies of the Government of North Korea that destabilize the Korean Peninsula and imperil U.S. Armed Forces, allies, and trading partners in the region, continue to constitute an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States. For these reasons, I have determined that it is necessary to continue the national emergency with respect to these threats and maintain in force the measures taken to deal with that national emergency.

BARACK OBAMA.
THE WHITE HOUSE, June 23, 2011.

REPORT ON THE CONTINUATION OF THE NATIONAL EMERGENCY THAT WAS ORIGINALLY DECLARED IN EXECUTIVE ORDER 13219 OF JUNE 26, 2001, WITH RESPECT TO THE WESTERN BALKANS—PM 13

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the

anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the Western Balkans emergency is to continue in effect beyond June 26, 2011.

The crisis constituted by the actions of persons engaged in, or assisting, sponsoring, or supporting (i) extremist violence in the Republic of Macedonia and elsewhere in the Western Balkans region, or (ii) acts obstructing implementation of the Dayton accords in Bosnia, United Nations Security Council Resolution 1244 of June 10, 1999, in Kosovo, or the Ohrid Framework Agreement of 2001 in Macedonia, that led to the declaration of a national emergency on June 26, 2001, in Executive Order 13219, and to amendment of that order in Executive Order 13304 of May 28, 2003, has not been resolved. The acts of extremist violence and obstructionist activity outlined in Executive Order 13219, as amended, are hostile to U.S. interests and continue to constitute an unusual and extraordinary threat to the national security and foreign policy of the United States. For these reasons, I have determined that it is necessary to continue the national emergency declared with respect to the Western Balkans and maintain in force the sanctions to respond to this threat.

BARACK OBAMA.
THE WHITE HOUSE, June 23, 2011.
