NOT VOTING—4

Conyers
 Frelinghuysen
 Giffords
 Young (AK)

□ 1434

Mr. SCHRADER changed his vote from “nay” to “yea.”

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ENERGY TAX PREVENTION ACT OF 2011

The SPEAKER pro tempore. Pursuant to clause 1(c) of rule XIX, further proceedings will resume on the bill (H.R. 910) to amend the Clean Air Act to prohibit the Administrator of the Environmental Protection Agency from promulgating any regulation concerning, taking action relating to, or taking into consideration the emission of a greenhouse gas to address climate change, and for other purposes.

The Clerk read the title of the bill.

MOTION TO RECOMMIT

Mr. McNERNEY. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. McNERNEY. I am opposed.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. McNerney moves to recommit the bill H.R. 910 to the Committee on Energy and Commerce with instructions to report the same to the House forthwith with the following amendment:

At the end of the bill, add the following:

SEC. 5. PROTECTION OF HEALTH OF VULNERABLE CHILDREN AND SENIORS.

Nothing in this Act shall limit the authority of the Administrator of the Environ-

mental Protection Agency under the Clean Air Act (42 U.S.C. 7401 et seq.), as in effect on the day prior to the date of enactment of this Act, to protect the health of vulnerable children and seniors, including children with asthma and lung diseases, from the effects of air pollution by large sources that emit 75,000 tons or more of carbon air pollution per year.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California is recognized for 5 minutes in support of the motion.

Mr. McNERNEY. Madam Speaker, I rise to offer an important motion to recommit to H.R. 910. My motion is a straightforward amendment to guarantee that America's most vulnerable children and seniors, including children with asthma and lung diseases, can be protected from the Nation's biggest polluters.

The Clean Air Act became law at a time when our cities were enveloped in smog. And since then, the act has stopped the most egregious polluters and improved public health. This motion is a substantial, important amendment, and if passed, the motion allows a vote to immediately proceed on final passage of H.R. 910. We can reduce air pollution in a way that will create jobs, strengthen our economy, bolster our national defense, and improve the health of our children.

I am gravely concerned that H.R. 910 will threaten the health and safety of our most vulnerable Americans. There's a clear connection between air pollution and respiratory diseases, and the motion I'm offering makes sure that our children can lead healthy lives.

Asthma is an especially serious threat to America's children. This problem is national in scope, but my home State is uniquely affected. I'm honored to represent part of California's San Joaquin Valley, but, unfortunately, the air quality is a persistent challenge in our communities. In fact, as many as one in five children in the valley have been diagnosed with asthma. My own son and daughter developed the condition when they moved to an area of California's Central Valley with hot temperatures and poor air quality. I know from personal experience how vitally important it is to make sure our kids have fresh, healthy air.

I'm confident that every Member of this body shares my desire to reduce the incidence of asthma among America's children. Keeping our children healthy is not a partisan issue. Fighting for the health, happiness, and well-being of our children unites us as citizens, as parents, as friends, and as neighbors.

But the statistics are sobering. According to the American Lung Association, asthma affects more than 7 million children, and more than 4 million of those children suffer from an asthma attack each year. Asthma kills 5,000 people each year in the United States and causes 14 million missed school days annually.

□ 1440

Treating asthma costs our country more than \$20 billion every year. In fact, every day in America, 40,000 people miss work or school due to asthma; 30,000 people have an asthma attack; and 11 die from asthma. These are real children, real people.

That is why I am offering this simple, straightforward motion to recommit today. My proposal is a common-sense improvement that makes sure that our country preserves the ability to protect the air quality for our children and seniors. The text of the motion is very clear, and explicitly says that our goal is to protect children with asthma and lung disease from the effects of air pollution.

I also want to make one other point clear. Just as I know that every Member of this body cares about the health and well-being of America's children, I also know that we care about our country's economic recovery. Many in this Chamber feel passionately that we should do everything that we can to make sure that small businesses and family farms can grow and prosper without facing unnecessary regulatory burdens. I am proud to represent a district with a rich agricultural history, and I want everyone to know that this motion protects family farmers and small businesses. This motion is explicitly limited in scope to large facilities that emit 70,000 tons or more of carbon annually.

In closing, I ask my friends and colleagues in the majority to reflect on what this amendment says and what your vote will mean. The amendment simply says that "nothing in the act shall limit the authority of the EPA to protect the health of vulnerable children and seniors from the effects of air pollution." What can be more simple than that? I ask my colleagues to do the right thing for our children and seniors and support this motion to recommit.

I yield back the balance of my time.

Mr. UPTON. Madam Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Michigan is recognized for 5 minutes.

Mr. UPTON. I would remind my colleagues, this is a procedural vote. H.R. 910 does not impact asthma. Frankly, our side would have liked to have debated this amendment. It was not offered to the Rules Committee. It was offered in committee, where it was rejected on a voice vote.

If you read the endangerment finding, you will see that asthma is mentioned one time. As to asthma, EPA's endangerment finding refers only once to the term "asthma," and then only in the context of wildfires and particulate matter which is already regulated. So it doesn't change that.

If you care about jobs, you are going to vote "yes" on the bill. If you care about not increasing gas prices beyond \$4, where they are in much of the coun-

try today, you will vote for the bill, which means you ought to vote "no" on the motion to recommit and "yes" on final passage.

The Clean Air Act regulates 188 different pollutants. H.R. 910 doesn't change one of those. So please, my colleagues, vote "no" on the motion to recommit and "yes" on final passage.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOICE

Mr. MCNERNEY. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 175, noes 251, not voting 6, as follows:

(Roll No. 248)

NOT VOTING—6

Burton (IN)	Giffords	Gutierrez
Frelinghuysen	Green, Al	Young (AK)

□ 1501

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

Stated for:

Mr. AL GREEN of Texas. Mr. Speaker, today I was unavoidably detained and missed the following vote: Motion to Recommit H.R. 910 (rollcall No. 248). Had I been present, I would have voted "yea" on this motion.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WAXMAN. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 255, nays 172, not voting 5, as follows:

[Roll No. 249]

Amend the title so as to read: "A bill to increase pollution, endanger the public health, and not address taxes in any way."

The SPEAKER pro tempore. Under clause 6 of rule XVI, the amendment is not debatable.

The question is on the amendment.

The amendment was rejected.

Mr. McHENRY. Madam Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 10 a.m. tomorrow for morning-hour debate and noon for legislative business.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

□ 1510

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, April is Autism Awareness Month.

Autism is a disorder that impairs an individual's social interactions and communication skills with others. Sadly, autism is one of the fastest-growing developmental disorders in our Nation. It is estimated that a child is diagnosed with autism every 15 minutes. While some autistic children will grow up to function in society, others will need some level of professional care for life.

Groups such as the Autism Society of Miami-Dade, in my congressional district, are committed to providing support and opportunities to enhance the lives of individuals within the autism spectrum, as well as their families and caregivers.

I urge all Americans to become involved in supporting families with children and adults with autism.

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, today we are engaged in a debate about out-of-control government spending, but there should never be an issue about fully funding our military. They should never worry that Congress will not provide them the resources to defend this Nation.

So this House just passed a CR that fully funds the military and also cuts \$12 billion, but the White House has issued a veto threat with no explanation. Why? Does the Commander in Chief intend to command a military with no money? Doesn't he know we are engaged in three wars?

I just received an e-mail from one of our troops. He asks, "How would the

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AMENDMENT OFFERED BY MR. POLIS

Mr. POLIS. Madam Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

□ 1508
