

qualified, effective medical personnel exist.

I thank Health Subcommittee Chairman PITTS for his tremendous work in this effort, as well as Ranking Member PALLONE. And I thank them for working in a bipartisan capacity to bring this legislation to the floor. I am honored to serve on Chairman PITTS' subcommittee, and I am pleased that the full Energy and Commerce Committee has agreed with what we have tried to accomplish in the subcommittee.

I urge all of my colleagues here in the House of Representatives to support H.R. 1852. It is essential that this program be reauthorized.

Mr. DOYLE. Mr. Speaker, it appears the gentleman from New Jersey (Mr. PALLONE) is not here yet. His flight was late getting in.

Therefore, I have no requests for time, and I yield back the balance of my time.

GENERAL LEAVE

Mr. PITTS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. PITTS. In conclusion, I would like to thank the ranking member of the subcommittee, Mr. PALLONE, for his leadership on this issue. It has been a bipartisan effort on the Health Subcommittee and Energy and Commerce Committee.

I urge all Members to support the Children's Hospital Graduate Education Support Reauthorization Act, and I yield back the balance of my time.

Ms. JACKSON LEE of Texas. Mr. Speaker, I rise today in support of H.R. 1852, "The Children's Hospital GME Support Reauthorization Act of 2011," would amend the Public Health Service Act to reauthorize payments to children's hospitals operating training programs that provide graduate medical education. These payments would be made to hospitals for both direct and indirect costs related to graduate medical education.

Americans across our nation need care, and the Children's Hospital GME (CHGME) program has been utilized by hospitals across our country to train doctors who can provide that care. I represent the 18th District which is home to the Methodist Hospital System, one of the largest medical institutions in the world. In 2010, the Methodist Hospital System graduated sixty-nine doctors from the resident CHGME program. That is 69 additional doctors who will meet our growing health care needs. H.R. 1852 will allow Houston to continue to recruit and train so many talented doctors.

Overall, freestanding children's hospitals have increased their medical resident training programs by 35 percent since 1999. If CHGME is allowed to expire we will lose the gains we have made in this field. There is no reasonable argument for allowing this program to expire as it provides a great benefit at a

marginal cost. For this fiscal year, the program has spent .0085 percent of the federal budget. This small expenditure allows children's hospitals to train more than 5,600 full-time equivalent residents—more than one third of our nation's pediatricians.

According to the Association of American Medical Colleges, the nation could face a shortage of as many as 150,000 doctors in the next 15 years. The funds generated from this legislation will help train the medical professionals we desperately need. In a time when there are growing health disparities within our nation. It is important to address the needs of underserved urban areas. The more medicinal professionals we train there is an increase likelihood that these underserved communities will have access to proper medical care.

The program supports 56 hospitals nationwide and trains more than 5,000 medical residents each year. It started 12 years ago as an effort to provide children's hospitals with funding for residencies and fellowships. There are other federal programs to assist residency funding exist; however, the CHGME program caters to pediatrics, while others are open to all teaching hospitals.

This funding is vital as it will help to cover the cost of 5,600 pediatric residencies at more than 50 children's hospitals across the United States. Forty percent of the nation's pediatricians and 43 percent of pediatric subspecialists receive training from the program. We must train the very professionals who will one day save the life of a child.

The CHGME pays for the salaries of medical students and compensate hospitals for patient care costs that are often higher in teaching hospitals than non-teaching hospitals. We should provide the funds necessary to train students in a profession that will benefit society.

I support this legislation because it will increase the quality of medical training in the United States. I believe that H.R. 1852 improves upon a system that sets the bar for medical care internationally. Through government funding, the program has succeeded in bolstering research potential at these institutions as well as helping to cure a problem that supersedes political boundaries: children's illness. This bill creates positive effects that cross party lines, and I urge my distinguished colleagues to vote a resounding and unified "yes."

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. PITTS) that the House suspend the rules and pass the bill, H.R. 1852.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.
