AMERICANS SIMPLY CAN'T WAIT

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. It was reported today that President Obama is trying out a new slogan on his campaign-style road trip. The new slogan is: "We can't wait." In my opinion, this slogan is an odd choice, especially coming from the President and his party.

Right now, 15 different House-passed jobs bills, each reducing the red tape We can't wait for the President and the Democrats to join us in eliminating excessive government regulations, stopping Washington from spending money it doesn't have, and fixing the Tax Code for families and job creators.

We can't wait for the Obama administration to end the continual delays to job-creating domestic energy production.

We can't wait for Senate Democrats to approve more than a dozen Housepassed jobs bills.

Americans who want to get back to work shouldn't have to wait any longer for Washington to get out of the way. It's time for President Obama and Senate Democrats to put aside politics and work with the House on these commonsense ideas.

We simply can't wait.

DR. HERBERT HAUPTMAN

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.) $% \left({{\left({{{{\bf{n}}_{\rm{T}}}} \right)}} \right)$

Mr. HIGGINS. Mr. Speaker, I rise to honor the memory of Dr. Herbert Hauptman, a distinguished member of our western New York community.

Dr. Hauptman came to Buffalo in 1970 to work for the Medical Foundation. He was awarded the Nobel Prize for Chemistry in 1985 in his work determining the molecular structures of crystallized materials. His studies in this area provided a new way to look at chemistry that benefits science and society today.

After earning the Nobel Prize, the Medical Foundation was renamed in his honor. Today, the lobby of the Hauptman-Woodward Medical Research Institute showcases the crystallized molecular structures Hauptman introduced to the world. They will stand as a lasting testimony to his work. Herbert Hauptman's contributions helped lay the groundwork for the thriving and growing medical research community in Buffalo in western New York.

I invite my colleagues to join me in celebrating the life of a scholar whose impact was felt far beyond academia.

PICK A HORSE

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the House in a bipartisan way passed five energy bills months ago. These bills will create American energy jobs right here in America. These bills would allow more energy development in the Gulf of Mexico, in Virginia and in Alaska. One bill requires the administration to make a decision about the Keystone XL Pipeline, which would put more citizens to work. So what's the delay?

These five bipartisan bills are languishing in the Senate with no vote in sight. It's not that the Senate has voted these jobs bills down. The Senate just won't vote.

To my friends down the hallway in the Senate, how about voting on these bills? Doing nothing doesn't create energy or jobs. Doing nothing maintains unemployment and shows an inability to make a decision.

It's time for the Senate to pick a horse and ride it. But pick something. Get in the race. Being a spectator is not an option. The American people need the jobs, and we need the energy. We just can't wait.

And that's just the way it is.

FRACTURE-CRITICAL BRIDGES AND THE AMERICAN JOBS ACT

(Ms. HOCHUL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HOCHUL. Our Nation is facing a crisis with respect to public safety. Over 1,100 bridges in New York State alone, my State, are considered fracture-critical. Fracture-critical bridges could collapse if a single one of their key support functions fails, and there are 82 such bridges in my district alone. Every day, 21 million cars in my State cross structurally deficient bridges, creating an intolerable situation.

As the former county clerk, responsible for putting vehicles and people on the roads, this is personal to me. I feel compelled to fight for money from Washington to fix our bridges and our roads and bring them up to par.

There is a solution, Mr. Speaker, and that is the American Jobs Act, which includes money for critically necessary infrastructure to repair these bridges so our driving public can travel safely. Therefore, I urge all my colleagues to support me in supporting the American Jobs Act and in getting our country back to work while making the public safer.

ALLOWING SMALL BUSINESS OWNERS TO CREATE JOBS

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Last week, I had the privilege of meeting with job creators and workers from all across Illinois' 10th Congressional District. As I listened to the different barriers they were facing and the ideas they had to bring jobs to the region, I was encouraged.

Together, we can and must find common ground on legislation that allows small business owners to create jobs.

I was pleased to join with Lake County Partners last week and announce the creation of a new economic innovation zone in north Chicago. This community is experiencing extremely high unemployment, and the creation of this economic innovation zone will bring the community together so that we can work collaboratively to find ways to reinvest in the area and create new opportunities for workers.

I was also able to work with local leaders from the city of Waukegan to find a way to move forward on the repairs that are needed so desperately in Waukegan Harbor. We must move forward to delist this as an area of a concern for the U.S. EPA. This harbor is key to bringing business and to bolstering the economy for the surrounding communities.

When we work to preserve our precious resources like the harbor, we will be able to encourage businesses to expand and create additional jobs here at home.

THE MONTFORD POINT MARINES

(Ms. BROWN of Florida asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Florida. God bless America.

Today I would like to give a special thanks to the many branches of government for their service, military, but particularly to the Marines.

And today the Montford Point Marines are visiting with us in the Capitol. And many years before Jackie Robinson and decades before Rosa Parks, these heroes joined the Marines to defend their country and do their jobs. I applaud them for their commitment.

Tomorrow, the House will debate and vote to send this resolution to the Senate in time for the Marines' 236th birthday on November 10. When the commandant and I discussed what do you do when failure is not an option, we agreed, you get it done. We will pass this bill in the House.

I want to thank all of my colleagues. You can still sign on to the bill. You have until the end of tomorrow. You want to be a part of making history.

I want to once again thank the Montford Point Marines for their service, and God bless America.

UNITED STATES PENITENTIARY IN LEE COUNTY

(Mr. GRIFFITH of Virginia asked and was given permission to address the House for 1 minute.)

Mr. GRIFFITH of Virginia. Ladies and gentlemen of the House, I rise today with concern, concern about an incident that occurred at the United States penitentiary in Lee County, Virginia, in the Ninth District.

This incident occurred Friday night, and the only good news is no one was killed. Aaron Delph, an officer there, was assaulted by an inmate who was carrying a shiv. He was able, in the
