STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REID (for himself and Mr. ENSIGN):

S. 427. A bill to withdraw certain land located in Clark County, Nevada, from location, entry, and patent under the mining laws and disposition under all laws pertaining to mineral and geothermal leasing or mineral materials, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. REID. Mr. President, I rise today with my good friend Senator ENSIGN to introduce the Sloan Hills Withdrawal Act of 2010.

For nearly a decade, there has been heated debate over a proposal to permit a sand and gravel mine on public lands next door to a Henderson community with over 13,000 residents—many of whom are retired seniors. Local citizens have voiced serious safety and community health concerns about the mine. I have listened to their concerns and share their opposition to the mine.

That is why I am re-introducing legislation to stop the development of the proposed 640-acre gravel pit by withdrawing the area from location, entry, and patent under the mining laws and disposition under all laws pertaining to mineral materials. This legislation ensures the safety of Nevadans and puts an end to this proposed mining operation once and for all.

The opposition to the proposed gravel mine is overwhelming. I have received petitions with thousands—literally thousands—of signatures from people who are up in arms over the proposed gravel mine because of its potential effect on the health of residents and the toll that operations would have on an otherwise peaceful community. The project would be located on federal land, so local governments are limited in their ability to influence the outcome of the Sloan Hills proposal. It is clear, though, that the location envisioned for this project is not in the best interests of our community.

Despite strong local opposition, the Bureau of Land Management has undertaken an evaluation of the proposed gravel operation at Sloan Hills. If approved, the resulting mine would blast rock, crush gravel, kick up dust, and consume precious water resources up to twenty-four hours a day, every day, for thirty years. This would all be done just a stone's throw away from peaceful Henderson neighborhoods. Residents are justifiably worried that this project will reduce their home values, harm their health, and impact their overall quality of life.

Most troublesome to Henderson residents are large clouds of fine particulate matter that would be generated by mining activities at the Sloan Hills site. This dust pollution, kicked up by the proposed gravel operation, could exacerbate air quality challenges in the Las Vegas Valley and would be particularly troublesome for the nearby, age-restricted communities—home to many seniors already suffering from respiratory problems.

This bill is important to me and to the people of southern Nevada. I want to thank Steve Sisolak, vice chair of the Clark County Commission, for all his hard work championing this issue in Southern Nevada. Keeping our communities safe, healthy, and livable is critical.

I appreciate your help and I look forward to working with Chairman BINGAMAN, Ranking Member MURKOWSKI and the other distinguished members of the Senate Energy Committee to move this legislation forward in the near future.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 427

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Sloan Hills Withdrawal Act".
