Whereas the month of May marks “National Military Appreciation Month”;

Whereas military spouses provide vital support to men and women in the Armed Forces and help to make the service of such men and women in the Armed Forces possible;

Whereas military spouses have been separated from loved ones because of deployment in support of overseas contingency operations and other military missions carried out by the Armed Forces;

Whereas the establishment of “Military Spouse Appreciation Day” is an appropriate way to honor the spouses of members of the Armed Forces; and

S. RES. 161

Whereas the first United States patent was issued in 1790 to Samuel Hopkins of the State of Vermont for a process to make better fertilizer;

Whereas American inventors have contributed to advances in life sciences, technology, and manufacturing;

Whereas the Constitution specifically provides for the granting of exclusive rights to inventors for their discoveries;

Whereas the United States patent system is intended to implement that constitutional imperative and incentivize inventions;

Whereas American inventors benefit from an up-to-date and efficient patent system and the economy, jobs, and consumers of the United States benefit from the inventions;

Whereas the next great American invention could be among the 700,000 patent applications pending as of the date of approval of this resolution in the United States Patent and Trademark Office;

Resolved, That the Senate designates May 2011, as “National Inventors Month”.

Mr. LEAHY. Madam President, I am pleased that the Senate has acted quickly to pass a resolution designating May 2011 as National Inventors Month. On May 4, the National Inventors Hall of Fame, in partnership with the United States Patent and Trademark Office, will hold its 39th Annual National Inventors Hall of Fame Induction Ceremony.

Our Nation’s inventors are the catalyst of our economy. Their inventions, when protected by a strong, efficient, and balanced patent system lead to new products and processes for American consumers and new jobs for American workers.

Earlier this year, the United States Senate passed overwhelmingly the America Invents Act, to ensure that our Nation’s inventors and innovators have a 21st Century patent system that speeds high quality patents to market. The United States House Committee on the Judiciary recently voted to approve a very similar version of this legislation on a strong bipartisan vote. I

look forward to working together to get the America Invents Act to the President’s desk and providing our inventors with the legal landscape they need to flourish.

I appreciate the efforts of Inventors Digest Magazine and others who have promoted National Inventors Month.
